

## Section : Child Development and Pedagogy

Q.1 Which of the following is the term used by Len Vygotsky to describe child's act of speaking to herself?

- Options
1. Ego-centricism
  2. Private speech
  3. Talk aloud
  4. Scaffolding

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.2 Which of the following is an essential characteristic of creativity?

- Options
1. Impulsiveness
  2. Convergent thinking
  3. Divergent thinking
  4. Centration in thought

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.3 Young children construct knowledge and make meanings through

- (i) Active exploration
- (ii) Play
- (iii) Active on materials and experimenting
- (iv) Interaction with peers and adults

- Options
1. (i), (iii), (iv)
  2. (i), (ii), (iii)
  3. (i), (iii)
  4. (i), (ii), (iii), (iv)

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.4 Which of the following form of learning should be emphasised most in schools?

- Options
1. Conditioning of behaviours through stimulus - response association
  2. Acquiring different skills and knowledge through interaction with surroundings
  3. Rate-memorizing the content
  4. Passive imitation of others

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.5 **Seriation in Jean's Piaget's theory refers to**

-

- Options
1. a narrative form of thinking as used in story telling.
  2. the ability to order objects based on one dimension, for example 'length'.
  3. the ability to spatially map places, like ones' school.
  4. the ability to take the perspective of others.

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.6 **At primary level of education, use of multi-sensory approach should be encouraged because -**

- Options
1. it makes learning more effective.
  2. it saves lot of instruction time of teacher.
  3. it gives opportunities to exclude certain children from education.
  4. it yields to docility among children.

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.7 **To help children memorise the phone numbers, a teacher suggested students to divide 10 digits of phone number into 3- 4 smaller units and then remember. The strategy suggested by the teacher here is called-**

- Options
1. chunking.
  2. encoding.
  3. adaptation.
  4. assimilation.

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.8 **Before deciding an assessment method for her class, what all should the teacher keep in mind?**

- (i) Who is going to use the results beside me ?
- (ii) What is the best way to find out learning curves of individual students ?
- (iii) Which method would help me to reflect on my pedagogy ?
- (iv) Which method would help to label and

Q.8 Before deciding an assessment method for her class, what all should the teacher keep in mind?

- (i) Who is going to use the results beside me ?
- (ii) What is the best way to find out learning curves of individual students ?
- (iii) Which method would help me to reflect on my pedagogy ?
- (iv) Which method would help to label and segregate students ?

- Options
- 1. (ii) (iii) (iv)
  - 2. (i) (iv)
  - 3. (i) (ii)
  - 4. (i) (ii) (iii)

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.9 Assertion (A) - While teaching, a teacher should use a variety of ways to represent the context of teaching.

Reason (R) - Teachers need to adapt their pedagogy to suit the diverse needs of learners.

Choose the correct option.

- Options
- 1. (A) is true but (R) is false.
  - 2. Both (A) and (R) are false.
  - 3. Both (A) and (R) are true but (R) is not the correct explanation of (A).
  - 4. Both (A) and (R) are true and (R) is the correct explanation of (A).

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.10 Students are likely to experience the emotion of \_\_\_\_\_ when they attribute internal factors to explain their success at a task.

- Options
- 1. anger
  - 2. shame
  - 3. pride
  - 4. anxiety

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.11

A child is facing regular difficulty in writing. She also experiences a challenge in formation of alphabets and spacing of words. These characteristics hints towards which of the following learning disability?

Options

1. Attention Deficit Hyperactivity Disorder
2. Dyslexia
3. Dysgraphia
4. Dyscalculia

Question Type : MCQ

Status : Answered

Chosen Option : 3

Q.12

The process of predetermined unfolding of genetic dispositions is called -

Options

1. maturation.
2. learning.
3. adaptation.
4. socialization.

Question Type : MCQ

Status : Answered

Chosen Option : 1

Q.13

Children often form **alternative conceptions** and **misconceptions** about various concepts. Which of the following statement is **NOT** correct in this context?

Options

1. Alternative conceptions and misconceptions formed by students should be highly discouraged by the teacher.
2. Formation of alternative conceptions and misconceptions is very natural among children as well as adults.
3. A teacher should definitely attend to these alternative conceptions and misconceptions as they are significant in process of teaching- learning.
4. Alternative conceptions and misconceptions are not always baseless rather these represent children's intuitive ideas about world around them.

Question Type : MCQ

Status : Answered

Chosen Option : 1

Q.14

Len Vygotsky offered a theory of cognitive development along the principal of —

Options

1. behaviourism.
2. social constructivism.
3. universalism.
4. psychoanalysis.

Question Type : MCQ

Status : Answered

Chosen Option : 2

Q.15

To cater to individual differences among

Q.15 **To cater to individual differences among the students, a teacher should -**

- Options
1. use uniform pedagogy to ensure memorization and focus on summative assessment.
  2. use standardized instructional methods and uniform ways of assessment.
  3. use a variety of pedagogical approaches and mean of assessment.
  4. increase the number of paper-pencil tests and focus on recall.

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.16 **Which of the following statements is correct?**

- Options
1. Children's thinking is not influenced by social interactions.
  2. Childhood is a period that can be divided into 10 distinct stages.
  3. Children's development is solely determined by genetics.
  4. Children's development takes place in a socio-cultural context.

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.17 **A child has the ability to understand the intentions and desires of others. The child has :**

- Options
1. Spatial intelligence
  2. Interpersonal intelligence
  3. Intrapersonal intelligence
  4. Naturalistic intelligence

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.18 **Naseema, a 5 year old is certain that rolling out a ball of clay into a snake creates more clay. According to Jean Piaget what is the reasoning behind her thinking?**

- Options
1. Centration
  2. Transitive Inference
  3. Animistic thinking
  4. Hypothetic - deductive reasoning

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.19 **As a teacher how can you facilitate problem solving abilities in your students?**

- Options
1. Encouraging use of analysis.

Q.19 **As a teacher how can you facilitate problem solving abilities in your students?**

- Options
1. Encouraging use of analysis.
  2. Encouraging a fixed way of solving problem.
  3. Generating fear amongst your students.
  4. Emphasising on use of passive memorisation strategies.

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.20 **Gender roles are —**

- Options
1. genetically determined.
  2. learned behaviour.
  3. innate behaviour.
  4. biological constructions.

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.21 **Which of the following characterizes a progressive classroom?**

- Options
1. Collaborative Learning
  2. Use of rewards and punishment
  3. Focus on drill and practice
  4. Ability-based fixed segregation

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.22 **Which of the following set exemplify a social constructivist approach to facilitate reading among students?**

(i) Salma uses flash cards to help students learn new words and rewards them with candy for correct responses.

(ii) Pramati has her students choose from a variety of books to read. Those students who read a particular book are made to discuss the book on a regular basis.

(iii) Arundhati emphasise the importance of using contextual material to help determine the meaning of new words.

(iv) Rekha has her students write each word they miss on a spelling test five times to help them remember the word.

- Options
1. (i), (iv)
  2. (i), (ii)
  3. (ii), (iii)

Q.22 Which of the following set exemplify a social constructivist approach to facilitate reading among students?

(i) Salma uses flash cards to help students learn new words and rewards them with candy for correct responses.

(ii) Pramati has her students choose from a variety of books to read. Those students who read a particular book are made to discuss the book on a regular basis.

(iii) Arundhati emphasise the importance of using contextual material to help determine the meaning of new words.

(iv) Rekha has her students write each word they miss on a spelling test five times to help them remember the word.

Status : Answered  
Chosen Option : 3

Q.23 \_\_\_\_\_ is a primary and \_\_\_\_\_ is a secondary agent of socialization.

- Options
1. family, school
  2. media, neighbourhood
  3. school, media
  4. media, family

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.24 Which of the following principle suggests that different body parts develop at different rates at various stages of development?

- Options
1. Development is a discontinuous process.
  2. Development is unidimensional.
  3. Direction of development is proximodistal and cephalocaudal
  4. Development is unidirectional.

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.25 Inclusive education implies that

- Options
1. Only English be taught in government schools.
  2. All children irrespective of their abilities

Q.25

**Inclusive education implies that**

Options

1. Only English be taught in government schools.
2. All children, irrespective of their abilities be provided quality education.
3. Students with disabilities should be placed in special schools only.
4. EWS (Economically Weaker Section) quota be made available only in government schools.

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.26

**Which of the following will result in facilitation of meaningful learning?**

Options

1. Encouraging rote learning.
2. Encouraging multiple ways of working at a problem.
3. Promoting de-contextualised learning in the classroom.
4. Copying answers written by the teacher on the blackboard.

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.27

**According to Lawrence Kohlberg , what is the primary basis for 7-8 year old children's moral decision ?**

Options

1. Universal Ethical Principal
2. Punishment and obedience
3. Social order maintenance
4. Social - contract maintenance

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.28

**The primary goal of continuous and comprehensive evaluation is -**

Options

1. to declare students as 'pass' or 'fail' in particular subjects.
2. to assign ranks to students as per their performance.
3. to compare students' performance with one another.
4. to assess children's understanding and modify the curriculum and pedagogy for students.

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.29

**\_\_\_\_\_ view of learning explains that tangible incentives and rewards motivate students for learning.**

Q.29

\_\_\_\_\_ view of learning explains that tangible incentives and rewards motivate students for learning.

- Options
1. Socio-Cultural
  2. Humanistic
  3. Behavioural
  4. Cognitive

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.30

Which of the following statements is proposed in National Education Policy 2020?

- Options
1. Multilingualism has great cognitive benefits for young students.
  2. Schools should encourage children to learn and speak English as their first language.
  3. Being educated in one's mother tongue is detrimental to educational and technological advancements.
  4. Bilingual approach confuses students and hampers learning.

#### Section : Mathematics

Q.1 Priyanshu has currency notes of ₹10 and ₹20. She uses 2 notes of ₹20 and 1 note of ₹10 to form ₹50. How many other combinations are possible to form the same amount using both the currency notes? You can ignore the spatial arrangements of the currency notes.

- Options
1. 1
  2. 3
  3. 2
  4. 0

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.2 Which among the following is/ are the objective/objectives of teaching 'shapes' at Primary class.

- (a) To develop visualisation skill  
(b) To memorise the names of geometrical shapes  
(c) To enhance spatial reasoning ability

- Options
1. Only (b)
  2. (a) and (c)
  3. (b) and (c)
  4. (a) and (b)

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.3 Which of the following is a pair of 'like fractions'?

- Options
1.  $\frac{1}{4}$  and  $\frac{3}{4}$
  2.  $\frac{2}{3}$  and  $\frac{3}{2}$
  3.  $\frac{3}{4}$  and  $\frac{3}{7}$
  4.  $\frac{1}{2}$  and  $\frac{3}{8}$

Q.4 Shikha went to a brick kiln to buy bricks. The rate of the bricks was 2500 rupees per one thousand bricks. How many bricks can she buy if she has only 4000 rupees?

- Options
1. 10000
  2. 4000
  3. 16000
  4. 1600

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.5 Ms. Romi in her mathematics class asks her students to create appropriate situations for following computations:  
(i),  $10+2$  (ii)  $10 \times 2$  (iii)  $10-2$  (iv)  $10 \div 2$   
Which of the following statements is correct about the pedagogy used by Ms. Romi?

- Options
1. She is testing the language proficiency of students
  2. She is testing the problem solving skills of student by giving mixed set of problems
  3. She is trying to maintain discipline in her class by giving some task to the students
  4. She is trying to help students to develop mathematical statements and problem solving skills

Question Type : MCQ  
Status : Answered

Chosen Option : 3

Q.7 According to Newman, there are five levels to be undertaken before a student is able to solve a word problem. They are listed below in a random order.

- (a) Comprehend what the task is asking.
- (b) Must be able to read the question.
- (c) Undertake the necessary mathematical operations
- (d) Need to translate the problems into mathematical demands.
- (e) Represent the answer as a meaningful construct.

Which of the following represents the correct order of levels?

Options

1. (b), (d), (a), (c), (e)
2. (a), (b), (e), (c), (d)
3. (b), (a), (c), (d), (e)
4. (b), (a), (d), (c), (e)

Question Type : MCQ

Chosen Option : 4

Q.8 Ragini reaches the station at 2:00 in the afternoon. She has to take a train to Aligarh. There are four trains. Train A, Train B, Train C, Train D scheduled for departure at 17:05, 4:32, 18:30 and 19:15 respectively. Which train must she take so that she spends minimum amount of time waiting for the train?

Options

1. Train D
2. Train A
3. Train B
4. Train C

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.9 While teaching 'geometrical shapes' a teacher thinks of planning a trip to historical places. It reflects:

Options

1. Teacher has completed most of the syllabus well in time and now needs to provide leisure.
2. Shapes are an integral part of any architecture and such trips encourage mathematics beyond classroom.
3. Field trips have been recommended by CBSE, so they must be done
4. A good break from routine mathematics class and an opportunity to visit the historical places.

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.10 Which of the following is NOT desirable for the professional development of mathematics teachers?

Options

1. Attending workshops and seminars on mathematics
2. Minimum interaction with other mathematics teachers working in same school or in neighbourhood schools.
3. Participating in faculty development programmes.
4. Developing teaching-learning resources

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.11 In a school there are 96 teachers, out of which  $\frac{2}{3}$  teaches High school classes. If  $\frac{2}{3}$  of the High school teachers are Mathematics teachers, then the number of High school teachers who don't teach Mathematics are:

Options

1. 36
2. 60
3. 28
4. 30

Q.12 Which of the following statements are indicative of higher aims of teaching mathematics?

- Mathematics education should turn out employable adults who contribute to economic and social development.
- Mathematics education should develop child's inner resources like abstract thinking and drawing logical conclusions
- Children should see mathematics as a way of life like communicating, discussing and developing attitude for problem solving
- Mathematics education should focus on factual knowledge and procedural fluency

Options

- (b) and (c)
- (c) and (d)
- (b) and (d)
- (a) and (c)

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.13 Misconceptions in mathematics can be removed by

Options

- Demonstrating the algorithm again
- Framing similar questions and repeating them many times
- Lot of practice and drill of questions
- Engaging children with examples and non-examples

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.14  $\frac{1}{2} - (\frac{2}{3} - \frac{4}{5})$  is :

Options

- $\frac{19}{30}$
- $\frac{39}{30}$
- $\frac{3}{10}$
- $\frac{13}{30}$

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.15 Mini told her teacher 'I made a rectangle whose each side is 4 cm'. Which of the following statements is correct:

Options

- A rectangle cannot have all sides equal.
- All squares are rectangle
- There is no link between a square and a rectangle.
- All rectangles are square

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.16 According to National Curriculum Framework 2005, which of the following represents the vision of a mathematics classroom?

Options

- Teacher as the only narrator in the class
- Children posing and solving meaningful problems in the classroom
- Students memorizing the formulae
- Students copying solved examples from the textbook

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.17 A class III teacher introduces the multiplication in her class using repeated addition and rectangular arrays. She is

Options

- Introducing multiplication through informal strategies by utilising the previous knowledge and experiences of students.
- Finding leisure time for herself by keeping the students engaged.
- Wasting a lot of time and should focus on teaching formal algorithm only.
- Teaching multiple formal algorithms of multiplication.

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.18 Following are four questions posed by a mathematics teacher. Which of the following is an open-ended question?

Q.18 Following are four questions posed by a mathematics teacher. Which of the following is an open-ended question?

Options

1. What should be added to 17 to get 23?
2. If sum of two numbers is 15 and one of them is 7, what will be the other number?
3. If the age of Anil is 7 years and his father's age is 5 times more than that of Anil's age. What will be the age of father?
4. If sum of two numbers is 17, then what are the numbers?

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.19 The angles of a triangle are in the ratio 4:5:6. What will be the measure of the angles of the triangle?

Options

1.  $50^\circ, 60^\circ, 70^\circ$
2.  $45^\circ, 60^\circ, 75^\circ$
3.  $52^\circ, 60^\circ, 68^\circ$
4.  $48^\circ, 60^\circ, 72^\circ$

Question Type : MCQ  
Status : Answered  
Chosen Option : 4

Q.20 Which of the following numbers are not perfect cubes?

Options

1. 333
2. 216
3. 1000
4. 729

Question Type : MCQ  
Status : Answered  
Chosen Option : 1

Q.21 A primary class mathematics teacher poses the following question to his students:  
"Reena and Shama went to a shop to buy a bag. There were many bags with different price tags. They got confused by looking at so many price tags. Can you help them by arranging the price tags either in ascending or descending order?"  
BAG-A → ₹ 4732,  
BAG-B → ₹ 2364,  
BAG-C → ₹ 1934,  
BAG-D → ₹ 3475,  
BAG-E → ₹ 2937,  
BAG-F → ₹ 3004.

In the given context, which of the following statements is true?

Options

1. It is not a mathematical question as it does not involve basic operations on numbers.
2. Only the concepts of ascending and descending order can be strengthened using the question.
3. The teacher can use the question to go beyond comparison of numbers and introduce the concept of data handling and sorting of data.
4. The teacher should avoid bringing contextual questions into the classroom.

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.22 Which of the following teaching-learning resources in mathematics can be used for visually challenged students?

- (a) Geoboard
  - (b) Geogebra
  - (c) Abacus
  - (d) Graphic calculator
- Choose the correct option.

Options

1. (b) and (d)
2. (a) and (c)
3. (a) and (d)
4. (a), (b) and (d)

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.23 What is the difference between the face value of the number 7 in the numbers 4782 and 32170.

Options

1. 712
2. 0

Q.23 What is the difference between the face value of the number 7 in the numbers 4782 and 32170.

- Options
1. 712
  2. 0
  3. 630
  4. 770

Question Type : MCQ  
Status : Answered  
Chosen Option : 2

Q.24 When asked to divide a number by 6, Rani has divided it by 9 and she got the quotient as 21 and remainder as 3. Realising her mistake, later she divided it by 6. What will be the quotient and remainder?

- Options
1. Quotient – 31, Remainder-0
  2. Quotient – 32, Remainder-3
  3. Quotient – 32, Remainder-0
  4. Quotient – 31, Remainder-3

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.25 A teacher uses the following riddle in the class while developing the concept of place value 'I am less than 5 tens and 4 ones'. The objective of this riddle is to

- Options
1. Break the monotony of a mathematics class.
  2. Ask close ended questions on place value.
  3. Reinforce the concept of base 10 and place value.
  4. Do a summative assessment.

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.26 Rita is a ward-member of her area; she wishes to create a community room of size 11 feet x 16 feet. To lay tiles on the floor she has four options: 1.5 feet x 1.5 feet, 2 feet x 2 feet, 2.5 feet x 2.5 feet, 3 feet x 3 feet. Which size of tile should she buy for the community room, so that she can lay the tiles without cutting?

- Options
1. 2 feet x 2 feet
  2. 1.5 feet x 1.5 feet
  3. 2.5 feet x 2.5 feet
  4. 3 feet x 3 feet

Question Type : MCQ  
Status : Answered  
Chosen Option : 3

Q.27 Observe the following pattern and select the next term:

$(9 - 1) \div 8 = 1$   
 $(98 - 2) \div 8 = 12$   
 $(987 - 3) \div 8 = 123$   
 $(9876 - 4) \div 8 = 1234$   
 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

- Options
1.  $(9876 - 4) \div 8 = 12345$
  2.  $(98765 - 5) \div 8 = 12345$
  3.  $(98765 - 4) \div 8 = 12345$
  4.  $(98765 - 5) \div 8 = 123456$

Question Type : MCQ

**Comprehension:**

निर्देश – नीचे दिए गए पद्यांश को पढ़कर पूछे गए प्रश्नों के सबसे उपयुक्त उत्तर वाले विकल्प को चुनिए:

मानव इतिहास में हजारों साल तक शून्य का कहीं अता-पता नहीं था। शून्य की अवधारणा आ भी गई तब भी काफी समय तक मानव ने इसे संख्या नहीं समझा। यह बात तो तय है कि शून्य प्रकृति-प्रदत्त नहीं है। हमने शून्य का आविष्कार अपनी सुविधा के लिए किया है। मनुष्यों ने शून्य की अवधारणा को न केवल समझा है, बल्कि उसकी सहायता से कई स्वचालित उपकरणों का आविष्कार भी कर लिया है। शून्य एक ही समय में एक अमूर्त विचार और एक वास्तविकता है और यह सीखना सबसे मुश्किल है कि शून्य एक से छोटा है। सबसे पहले भारत ने 'कुछ भी नहीं' को दर्शाने के लिए शून्य को एक स्वतंत्र संख्या के रूप में मान्यता दी। अगर हम शून्य को एक, दो और तीन जैसी संख्याओं की तरह मूर्त चीजों से सम्बद्ध कर पाते तो शायद शून्य को समझाना बहुत आसान होता।

SubQuestion No : 9

Q.9 'स्वतंत्र' का संधि-विच्छेद है –

1. स्व + तंत्र
2. सु + तंत्र
3. सु + अतंत्र
4. स्वत + अंत्र

Options

1. 1
2. 2
3. 3
4. 4

## Comprehension:

**Directions:** Read the extract given below and answer the questions that follow by selecting the correct / most appropriate options:

### How safe is it for vaccinated people to get together?

1. As part of its interim recommendations [these recommendations are not followed anymore], the Centre for Disease Control (CDC) says that people who are fully vaccinated can mix with small groups of other fully vaccinated people indoors without masks or social distancing. The agency also says that the fully vaccinated can meet with unvaccinated people from a single household who are at low risk of developing severe forms of the disease, no masks or distancing required.
2. Still, the decision for vaccinated people to mix involves mental "calculus," says Swartzberg, which should take into account how likely anyone is to be exposed to the SARS-CoV-2 virus, vaccinated or not, because there is still a small chance even vaccinated person could become infected or that they could infect an unvaccinated person.
3. As time goes on, when more people are vaccinated and the number of infected individuals continues to drop. Moss says a gathering among vaccinated people "will be a safe one" and will continue to get safer.
4. "To be on the safe side," says Cynthia Leifer, Associate Professor of Immunology at Cornell University, "we should still practice distancing measures as much as we can in the shorter term until we get broader distribution of the vaccine and greater immunity." She recommends people to continue to follow the guidelines of avoiding large groups, wearing masks, and staying at least six feet apart.
5. It is also not known how effective the vaccines will be against new variants, including ones that haven't been discovered yet.
6. "The more that COVID is circulating right now, the more potential there is for variants to arise," Leifer says. "We can't predict when a new variant might arise that is perhaps not covered by the vaccine."
7. The Novavax vaccine, which is not yet approved for use, showed a sizable drop in efficacy – from 49.4 percent – against a variant that originated in South Africa but has since spread internationally. Pfizer and Moderna are still testing how well its vaccines work against a more contagious variant first discovered in the U.K.

## Comprehension:

*Directions:* Read the extract given below and answer the questions that follow by selecting the correct / most appropriate options:

And if I have a fancy for dyeing my hair, or waxing my moustache (which heaven forbid), or wearing an overcoat and sandals, or going to bed late or getting up early, I shall follow my fancy and ask no man's permission. I shall not inquire of you whether I may eat mustard with my mutton. And you will not ask me whether you may follow this religion or that, whether you may prefer Ella Wheeler Wilcox to Wordsworth, or champagne to shandy. In all these and a thousand other details you and I please ourselves and have no one's leave.

We have a whole kingdom in which we rule alone, can do what we choose, be wise or ridiculous, harsh or easy, conventional or odd.

**Comprehension:**

*Directions:* Read the extract given below and answer the questions that follow by selecting the correct / most appropriate options:

And if I have a fancy for dyeing my hair, or waxing my moustache (which heaven forbid), or wearing an overcoat and sandals, or going to bed late or getting up early, I shall follow my fancy and ask no man's permission. I shall not inquire of you whether I may eat mustard with my mutton. And you will not ask me whether you may follow this religion or that, whether you may prefer Ella Wheeler Wilcox to Wordsworth, or champagne to shandy. In all these and a thousand other details you and I please ourselves and have no one's leave.

We have a whole kingdom in which we rule alone, can do what we choose, be wise or ridiculous, harsh or easy, conventional or odd. But when we step out of that kingdom, our personal liberty of action becomes qualified by other people's liberty. I might like to practise on the trombone from midnight till three in the morning. If I went onto the top of Everest to do it, I could please myself, but if I do it in my bedroom my family will object, and if I do it out in the streets the neighbours will remind me that my liberty to blow the trombone must not interfere with their liberty to sleep in quiet.

There are a lot of people in the world, and I have to accommodate my liberty to their liberties. We are all liable to forget this, and unfortunately we are much more conscious of the imperfections of others in this respect than of our own. A reasonable consideration for the rights or feelings of other is the foundation of social conduct. It is in the small matters of conduct in the observance of the rule of the road, that we pass judgement upon ourselves, and declare that we are civilized or uncivilized. The great moments of heroism and sacrifice are rare. It is the little habits of commonplace intercourse that make up the great sum of life and sweeten or make bitter the journey.

In all these and a thousand other details you and I please ourselves and have no one's leave.

We have a whole kingdom in which we rule alone, can do what we choose, be wise or ridiculous, harsh or easy, conventional or odd. But when we step out of that kingdom, our personal liberty of action becomes qualified by other people's liberty. I might like to practise on the trombone from midnight till three in the morning. If I went onto the top of Everest to do it, I could please myself, but if I do it in my bedroom my family will object, and if I do it out in the streets the neighbours will remind me that my liberty to blow the trombone must not interfere with their liberty to sleep in quiet.

There are a lot of people in the world, and I have to accommodate my liberty to their liberties. We are all liable to forget this, and unfortunately we are much more conscious of the imperfections of others in this respect than of our own. A reasonable consideration for the rights or feelings of other is the foundation of social conduct. It is in the small matters of conduct in the observance of the rule of the road, that we pass judgement upon ourselves, and declare that we are civilized or uncivilized. The great moments of heroism and sacrifice are rare. It is the little habits of commonplace intercourse that make up the great sum of life and sweeten or make bitter the journey.

SubQuestion No : 14

Q.14 What establishes the foundation of social conduct? Pick the appropriate option to answer the question.

1. Ensuring our rights are not infringed by others.
2. Ensuring our rights are not infringed by authority.
3. When others consider our rights and feelings with reasonable consideration.
4. Reasonable consideration for the rights and feelings of others.

Options

1. 1
2. 2
3. 3
4. 4

Chosen Option : 4

## Comprehension:

**Directions:** Read the extract given below and answer the questions that follow by selecting the correct / most appropriate options:

And if I have a fancy for dyeing my hair, or waxing my moustache (which heaven forbid), or wearing an overcoat and sandals, or going to bed late or getting up early, I shall follow my fancy and ask no man's permission. I shall not inquire of you whether I may eat mustard with my mutton. And you will not ask me whether you may follow this religion or that, whether you may prefer Ella Wheeler Wilcox to Wordsworth, or champagne to shandy. In all these and a thousand other details you and I please ourselves and have no one's leave.
