Validity 15 Months

S12. Ans.(d)

Sol. Both the statements are clearly backed by a common cause, which is clearly an increase in the number of thefts in the locality.

S13. Ans.(b)

Sol. Clearly, the university's decision came as a sequel to the complaint received by it from the college teachers against use of mobile phones in the college premises.

S14. Ans.(e)

Sol. Only I and II are strong.

Clearly, Both I and II hold strong, as they provide very convincing reasons, for a single tax system would help get rid of multifarious taxes on a product. Besides, the idea of imitation of other countries in the implementation of a certain policy holds no relevance. So, argument III does not hold strong.

S15. Ans.(b)

Sol. Clearly, trade unions provide a common platform for the workers to voice their demands and protests and thus ensure that they are not subdued or exploited. So, argument II holds strong, while I and III do not. Besides, the idea of imitation of other countries in the implementation of a certain policy, holds no relevance. So, argument IV also not hold strong.

Sol. The statement advises to travel by air between the two cities. So, I is implicit. Besides, it talks of air transport being a faster means of travel. This means that other means of transport, slower than air transport, are available. So, II is not implicit.

S27. Ans. (b)

Sol. Reducing interest rate on loans is surely a step to draw in more customers. But the implications of such a policy on other banks cannot be ascertained, as interest rate is not the only criterion to lure customers. So, only II is implicit.

S28. Ans. (c)

Sol. Clearly, the need to import sugar could be either due to increase in consumption or the inefficiency of the factories to produce sugar to their fullest capacity. So, either I or II is implicit.

S29. Ans. (e)

Sol. From the content of the statement it is clear that both the assumption is implicit in the statement.

S30. Ans. (e)

Sol. Since the statement talks of making all payments within three days, it is evident that the company has the necessary funds and the bills can be verified and cleared within the stipulated time. So, both I and II are implicit.

Solution (31-35):

Floors	Persons	Colours

Price @1499/-

Validity 12 Months

S45. Ans. (c)

Sol.

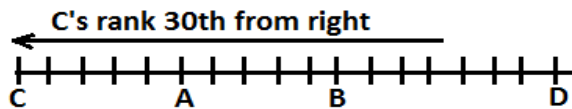

$$EA = \sqrt{5^2 + 8^2} = \sqrt{89} \text{ m}$$

S46. Ans(e)

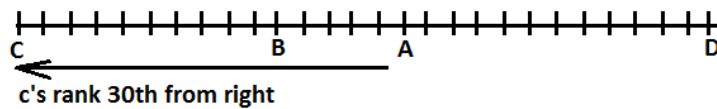

Sol. Case 1: When B is to the right of A.

case 1

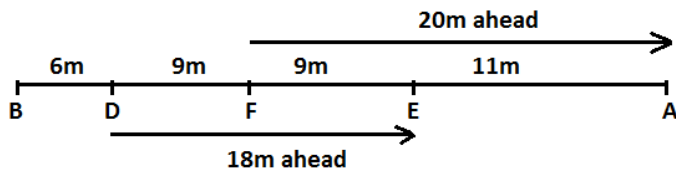

Case 2: When B is to the left of A.

Case 2

S47. Ans.(e)

Sol.

S48. Ans.(c)

Sol. Manish rank is 17th from the left.

Ravi's rank from the left is = $(40 - 14 + 1) = 27^{\text{th}}$

Therefore, total number of students between them is 9.

S49. Ans.(a)

Sol. Chandu is 7th right to Paru, who is 5th from left end, so Rakesh is 12th from left end and 6th from right.

So, the total number of persons = $12 + 6 - 1 = 17$
