**Sol.** Option (b) is implicit as keeping in mind people's desire and hope of positive response, the company uses a phrase like "a hassle –free holiday package" in the advertisement.

**S98. Ans.(e)**
**S99. Ans.(b)**

**S100. Ans.(a)**
**Sol.** The advertisement was given to attract the people. But this does not imply that offering discount is the best way to attract people. Therefore, only assumption I is implicit.

**Solutions (101-105):**
In this new pattern coding decoding each letter, except vowel and Z, is assigned a number from 1-10 So, B-1, C-2, D-3, F-4, G-5, H-6, J-7, K-8, L-9, M-10, N-1, P-2, Q-3, R-4, S-5, T-6, V-7, W-8, X-9, Y-10.

**Solution (111-115):**
**Logic: -** Let us understand the logic behind the given machine input. Numbers arranges on the left as well as right end of each step. The lowest even number gets arranged on the left end after addition of 2 and the highest odd number is arranged on the right end after the subtraction of 2. In the second step second lowest even number is arranged at the left end after addition of 4 and second highest odd number is arranged at the right end after subtraction of 4 and so on till the last step.
**Input: 81 8 22 73 34 97 44 57**
Step I: 10 81 22 73 34 44 57 95
Step II: 26 10 73 34 44 57 95 77
Step III: 42 26 10 44 57 95 77 65
Step IV: 60 42 26 10 95 77 65 41

**S131. Ans.(a)**

**Sol.** Clearly, incidents of robbery can be practically averted only by tightening security arrangements and increasing vigilance by police. So, I follows. Neither II nor III follows as none of them is practically viable.

**S132. Ans.(c)**

**Sol.** The problem discussed in the statement is not regarding the current accident, but to do something to avert such mishaps. Accidents at railway crossings can be averted by deploying men to regulate traffic and installing barriers to check traffic movement when a train passes by. So, only III follows.

**S133. Ans.(c)**

**Sol.** The notice directs all the employees to come on time. This does not mean that all of them come late. So, I is not implicit. Since the officer orders the assistant to put the notice on the board, it is evident that the employees read such notice on the board. So, II is implicit. Also, the employees have to comply with the orders of the officer. So, III is implicit.

**S134. Ans.(c)**

**Sol.** The statement advocates that a person can upgrade to a high life style by paying a low price to book a luxurious, upper-class flat. So, III is implicit. However, nothing about the nature of the upper-class or the ways of becoming rich can be assumed from the given statement. So, neither I nor II is implicit.

**S135. Ans.(a)**

**Sol.** The security of the investor's money is not related to the size of the bank. Besides even after consolidation, the number of investors, their amounts and hence the duties shall remain the same and so no employees will be redundant. Reducing the number of smaller banks will also not affect the mutual competition among the banks. Thus, none of the arguments holds strong.
