- (a) K
- (b) L
- (c) O
- (d) N
- (e) None of the above

Directions (16-20): In each of the question, relationships between some elements are shown in the statements. These statements are followed by conclusions numbered I and II. Read the statements and give the answer.

Q16.

Statements:

$W \geq I \geq S = D > O \leq M < F$

Conclusions:

- I. $D < W$
- II. $O < I$

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

Q17.

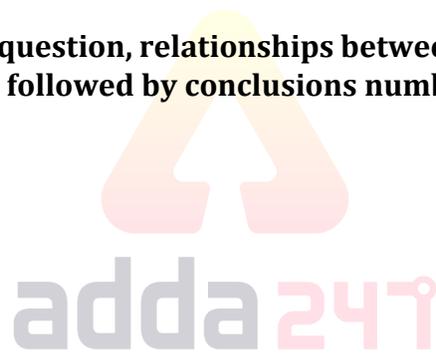

Statements:

$C > A < K \leq E = T \leq J = N$

Conclusions:

- I. $N \leq K$
- II. $A < J$

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.

Directions (56-60): In the following questions two quantities are given for each question. Compare the numeric value of both the quantities and answers accordingly.

Q56. Quantity I: Sum of the first and second number

$\frac{2}{3}$ rd of first number is equal to the cube of the second number and second number is equal to 12% of 100

Quantity II: 2352

- (a) Quantity I > Quantity II
- (b) Quantity II > Quantity I
- (c) Quantity I \geq Quantity II
- (d) Quantity II \geq Quantity I
- (e) Quantity I = Quantity II or relation can't be established.

Q57. Quantity I: Time taken by the police to catch the thief.

A thief robbed a shop and ran in a car at a speed of 60 km/h at 11:00 am. The Police located the position of thief and ran after him at 11:15 a.m. from shop in a car. Maximum speed of the car of police is 65 km/h

Quantity II: 3hr

- (a) Quantity I > Quantity II
- (b) Quantity II > Quantity I
- (c) Quantity I \geq Quantity II
- (d) Quantity II \geq Quantity I
- (e) Quantity I = Quantity II or relation can't be established.

Q58. Quantity I: 4

Quantity II: Value of 'x'

A, B and C started a business together with Rs 12,000, Rs 12,000 and Rs 8,000 respectively. B worked only for 'x' months while C left the business 'x' month before the completion of year. If out of annual profit of Rs 3200, 'A' got Rs 1800.

- (a) Quantity I > Quantity II
- (b) Quantity II > Quantity I
- (c) Quantity I \geq Quantity II
- (d) Quantity II \geq Quantity I
- (e) Quantity I = Quantity II or relation can't be established.

Q59. Quantity I: Value of 'X'

The time taken by a boat for covering 'X - 18' km upstream is equal to time taken by it for covering 'X' km downstream. If upstream speed is 6 km/hr less than downstream speed and speed of boat in still water is 15 kmph.

Quantity II: 50

- (a) Quantity I > Quantity II
- (b) Quantity II > Quantity I
- (c) Quantity I \geq Quantity II
- (d) Quantity II \geq Quantity I
- (e) Quantity I = Quantity II or relation can't be established.

Q60. Quantity I: Price at which P sold watch to Q

'P' sells his watch at 20% profit to Q while Q sells it to R at a loss of 10%. R pays Rs.2160.

Quantity II: 1600

- (a) Quantity I > Quantity II
- (b) Quantity II > Quantity I
- (c) Quantity I \geq Quantity II
- (d) Quantity II \geq Quantity I
- (e) Quantity I = Quantity II or relation can't be established.

Directions (83-90): Read the following passage and answer the following questions. Some words are highlighted to help you answer some of the questions.

The Trump administration's declaration that the Israeli settlements on the West Bank are not illegal not only challenges international laws and **consensus** on the issue but also complicates the already-stalled peace process between the Israelis and the Palestinians. To be sure, the decision is in line with President Donald Trump's Israel policy, which has unconditionally favoured the Jewish nation. In December 2017, Mr. Trump announced that the U.S. would recognise Jerusalem, a disputed city, as Israel's capital, breaking with an international consensus that the status of Jerusalem should be settled as part of a peace agreement. In March this year, the administration recognised the Golan Heights, which Israel seized from Syria in the 1967 war and has occupied ever since, as part of Israel. And now, with its de facto recognition of the Jewish settlements on the West Bank, Washington has given a shot in the arm to Israel's religious right, which wants the settlements to be **annexed**. Before the September election, Prime Minister Benjamin Netanyahu had promised to annex the settlements if voted back. Incidentally, the U.S. decision comes as Israel is inching closer towards another election as neither Mr. Netanyahu nor his rival, Benny Gantz, managed to form a government.

The UN General Assembly, the Security Council and the International Court of Justice have all stated that the Israeli settlements on the West Bank are illegal. According to the Fourth Geneva convention, an occupying power "shall not transfer parts of its civilian population into the territory it occupies". But Israel has been doing just that for decades. There are at least 4,00,000 Israeli settlers on the West Bank. The 'security barrier' Israel has built has cut deeper into the West Bank to incorporate some of the settlements, and the check-points Israel has set up across the West Bank **restrict** the movement of Palestinians. The Palestinians have made it clear that the two-state solution could be implemented only based on the 1967 border, with East Jerusalem as the capital of a future state of Palestine. Israel is already non-committal on Jerusalem. The right of return of the Palestinian refugees forced from their homes during the 1948 war remains a **contentious** issue. The third one is the border of a future Palestinian state. Israel has already taken effective control of a huge chunk of the West Bank through the settlements. The UN Security Council has asked Israel to stall the settlement activities, but Israel has hardly paid any attention to international opinion. And now, the Trump administration has rewarded the Jewish state, once again. If Israel goes ahead with annexation of the settlements, the call for which is gaining traction in the country, that will be the last nail in the coffin of the two-state solution.

Q83. What issues have further complicated the already-stalled peace process between the Israelis and the Palestinians?

- (a) The Palestinians claims a victory this year in the West Bank.
