S37. Ans.(b)

Sol. The given sentence is present as the second sentence of the second paragraph. The answer to the question can be derived from the first sentence of the second paragraph which provides a conclusion of a study published in the American Journal of Public Health that at least two-thirds of wisdom teeth extractions are unnecessary. So, it can be understood that the necessity of wisdom teeth extraction is a misrepresentation.

Hence, option (b) is the correct answer.

S38. Ans.(c)

Sol. The answer to the question can be derived from the fifth paragraph where evolutionary advantage of having wisdom teeth is highlighted. They are additional pair of molar teeth which serve as a backup set in the event of losing teeth growing up and grow in after puberty.

Hence, option (c) is the correct answer.

S39. Ans.(e)

Sol. The answer to the question can be derived from the last paragraph. Also, the given sentence is present in the last paragraph. Upon reading the paragraph, one can understand that each of the options (a), (b) and (c) provide the correct explanation to the question.

Hence, option (e) is the correct answer.

S40. Ans.(d)

Sol. The answer to the question can be derived from the fourth paragraph where it is mentioned that the need for wisdom teeth vanishes since the discovery of fire and since when human began cooking their food. The paragraph also mentions that wisdom teeth were required to consume raw meat, nuts, and tough, fibrous plants.

So, wisdom teeth are required for reasons mentioned in (I) and (II).

Hence, option (d) is the correct answer.
