

Concept of Continuous and Comprehensive Evaluation

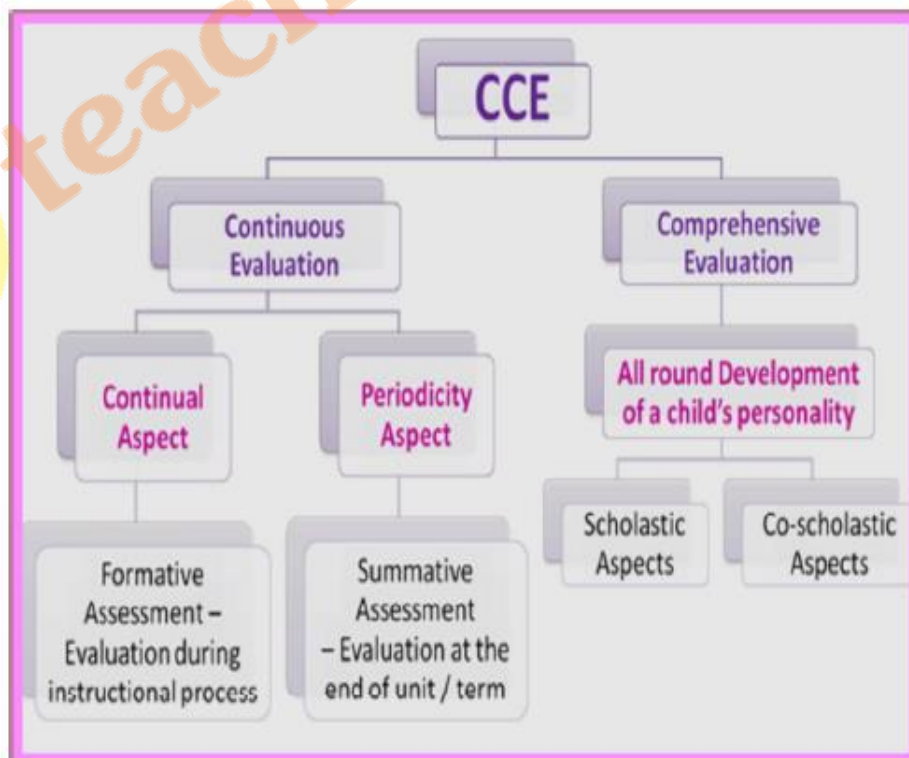

CCE refers to a school based evaluation, which covers all aspects of school activities related to child's development. It emphasizes two fold objectives such as continuity of evaluation and assessment of learning outcomes in a comprehensive manner. It covers all the domains of learning i.e. cognitive, affective and psychomotor domains. It treats evaluation as a developmental process. Evaluation in the cognitive domain is associated with the evaluation of cognitive abilities such as knowledge, understanding, application, etc. Evaluation in the affective domain means evaluation of attributes such as attitudes, motives, interests, and other personality traits. Evaluation in the psychomotor domain involves assessing learners' skills to use their hands (e.g. in handwriting, construction and projects).

Meaning of Continuous

The term 'continuous' refers to regularity in assessment.

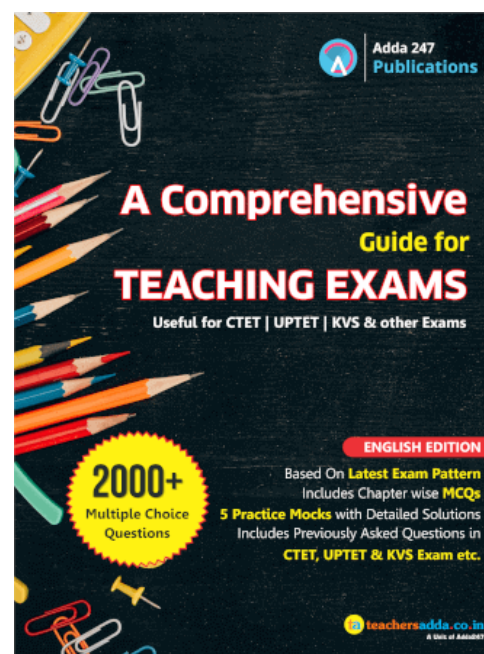

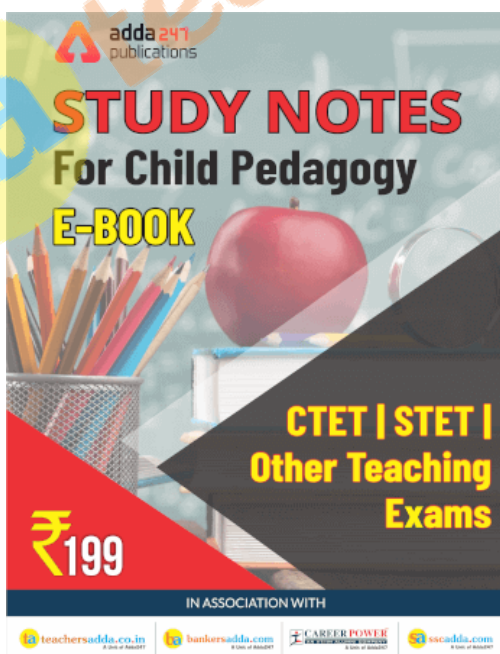

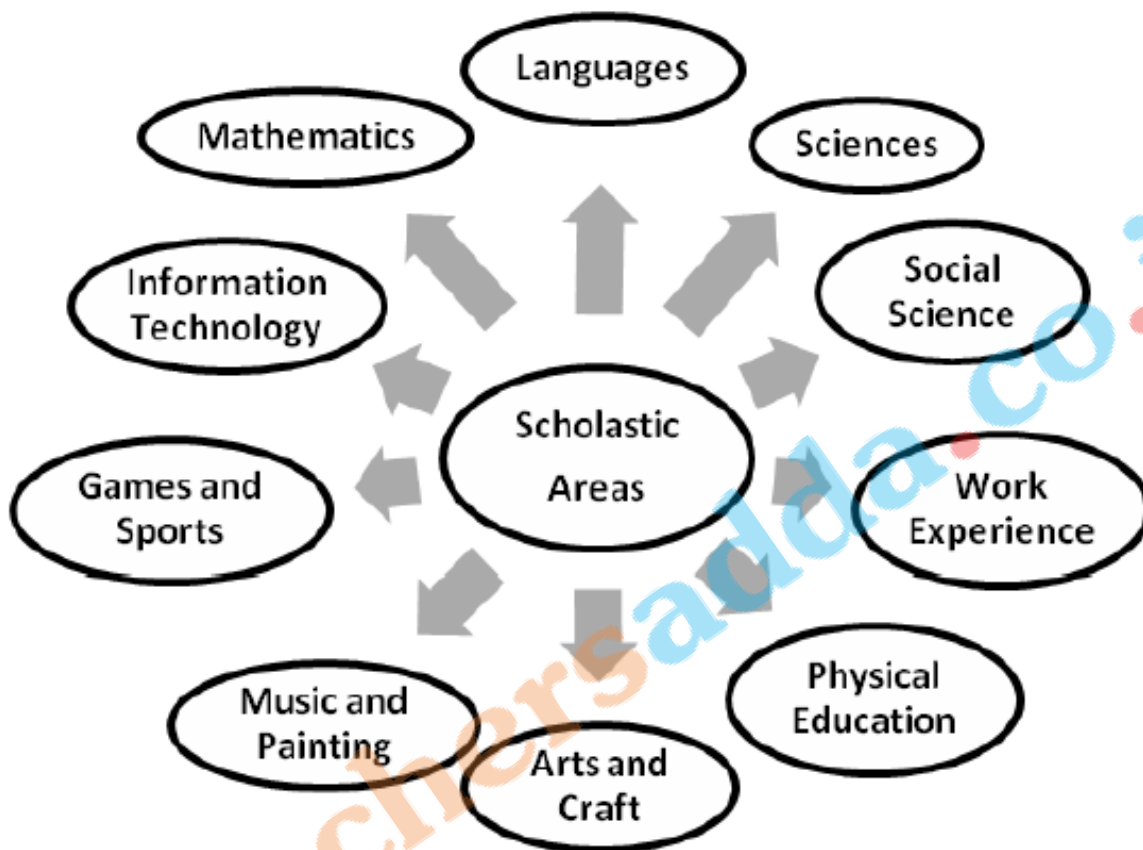

Meaning of Comprehensive

The second term associated with CCE is 'comprehensive'. The term 'comprehensive' implies that evaluation of learners' performance is carried out in both scholastic and co-scholastic areas.

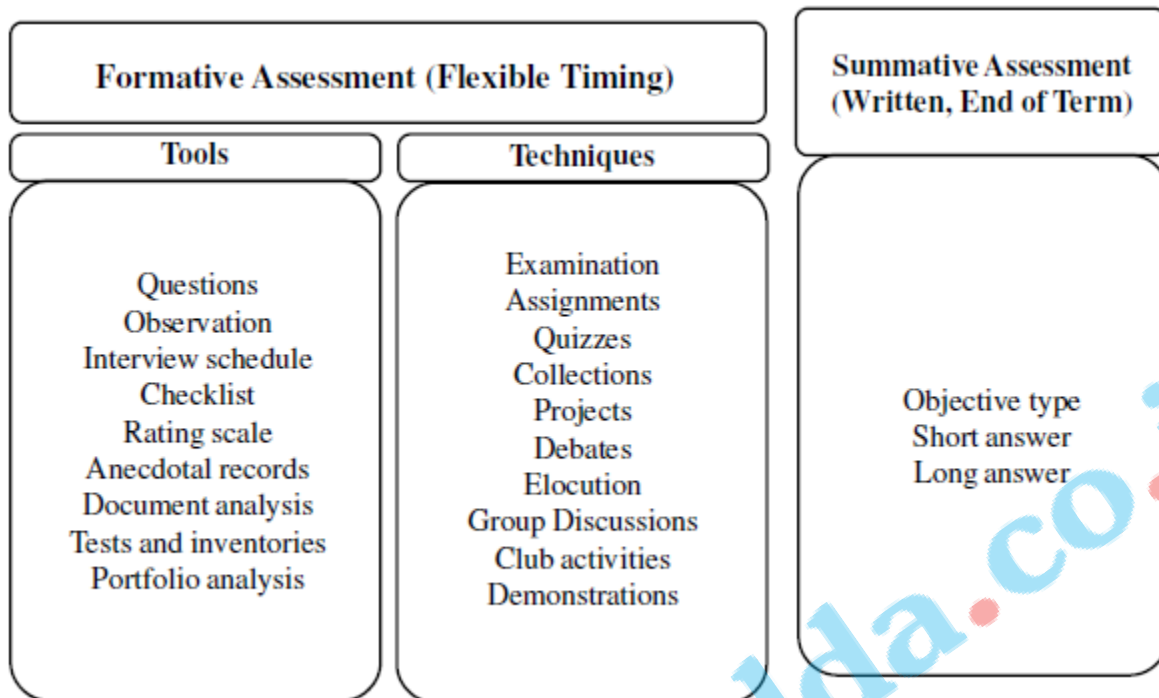

Assessment in Scholastic Areas

Scholastic areas include all those academic activities which are associated with various subjects. The term 'Scholastic' refers to those activities, which are related to intellect or the brain. It is related to the assessment of learners in curricular subjects. It includes assignments, projects, practicals, etc.

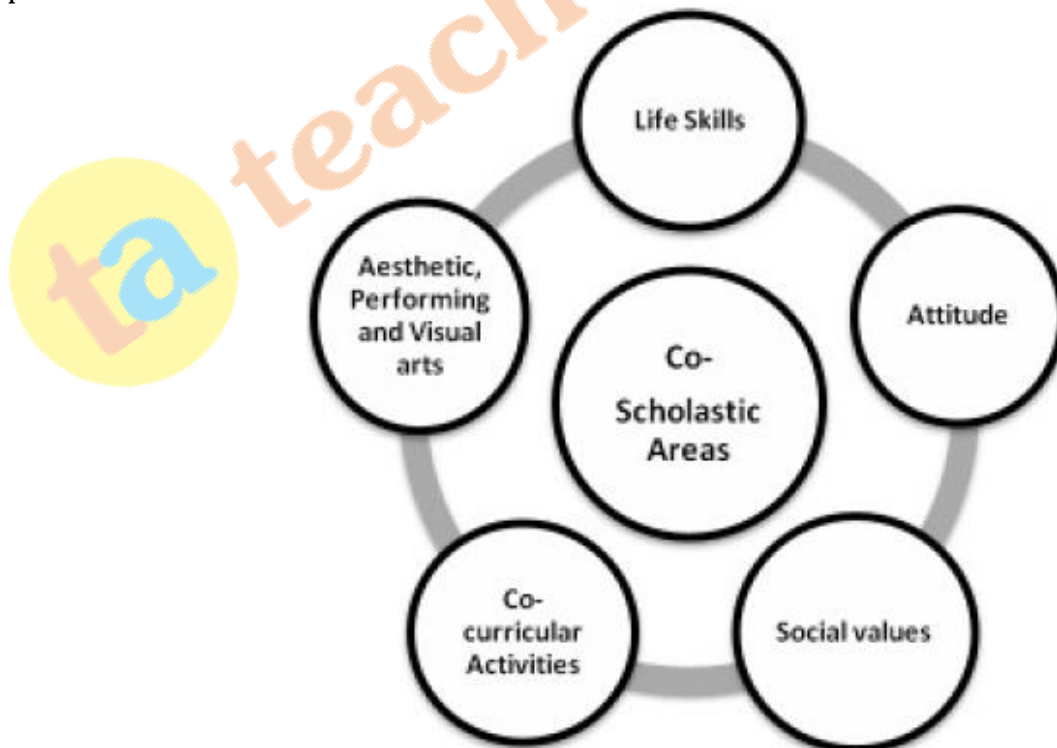

TOOLS FOR ASSESSING STUDENT PERFORMANCE IN SCHOLASTIC AREA

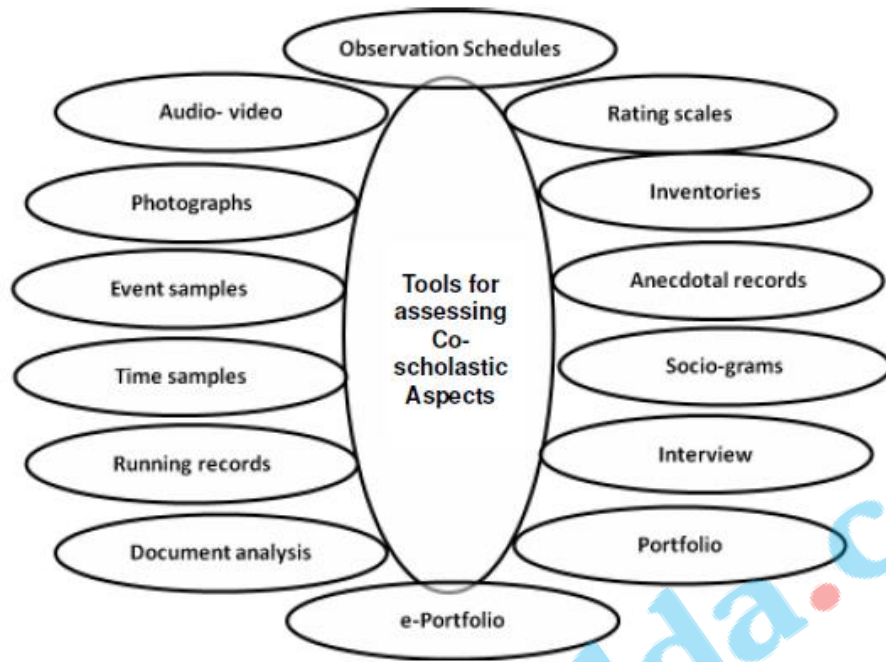

Assessment in Co-Scholastic Areas

This includes assessment in co-scholastic areas such as Life Skills, Attitudes and Values, Sports and Games as well as other Co-Curricular activities. The CCE is an effort to address all these aspects in a holistic manner
