**Economic Freedom Index 2021 Announced**

The Heritage Foundation, a US Conservative think-tank, recently launched the “Economic Freedom Index”. The index was prepared by covering 184 countries this time for the period of **July 2019 to June 2020**. This is the first time the index has been published since the COVID-19 pandemic overturned lives as well as global economies and the scoring reflects a small extent how governments have responded to the health crisis.

**Ranking:**

In the index, **Singapore** has topped the global ranking for the second consecutive year. In the 2021 Index, **India** came in around the middle of the pack among Asia-Pacific countries ranking **26th** out of 40 countries, scoring 56.5 points. Globally, the Foundation rates India's economy as the **121st freest**. Although its overall score is unchanged, improvements were made in business freedom. This was offset by declines in judicial effectiveness and other scores.

**Index**

- **Rank 1**: Singapore
- **Rank 2**: New Zealand
- **Rank 3**: Australia
- **Rank 4**: Switzerland
- **Rank 5**: Ireland

**Important Fact of the Index:**

- The biggest news generated from the “2021 Index of Economic Freedom” was however not the rankings or how COVID-19 impacted the scores but that The Heritage Foundation decided to exclude **Hong Kong** from its rankings for the first time ever.
- The Heritage Foundation said that the reason for leaving Hong Kong out is that the Special Administrative Region and its economic policies have now come under the direct control of Beijing.

**What is Economic Freedom Index?**

- The Heritage Foundation's Index of Economic Freedom is an annual guide published to measure the progress made in advancing economic freedom which it claims brings greater prosperity.
- The Foundation also believes that “the ideals of economic freedom are strongly associated with healthier societies, cleaner environments, greater per capita wealth, human development, democracy, and poverty elimination.”
The Monthly Hindu Review | Current Affairs | March 2021

The index ranks 12 indicators from property rights to financial freedom under four categories: rule of law, size of government, regulatory efficiency and open markets.

The small island nation of Singapore made improvements or maintained its score for all 12 indicators except monetary freedom and judicial effectiveness which declined marginally, but its scores in these two indicators are still exceptionally high when compared with most other countries.

Shaheed Diwas Observed On 23 March

Every year, March 23 is observed as Martyrs Day (Shaheed Diwas or Sarvodaya Day) to pay tribute on the death anniversary of the freedom fighters Bhagat Singh, Sukhdev Thapar, and Shivaram Rajguru, who laid their lives for the freedom of India. It was on March 23 in 1931, in Lahore (Pakistan), that these three were hanged to death for assassinating John Saunders, a British police officer in 1928. They had mistaken him for British police superintendent James Scott, who had ordered lathi-charge, which eventually led to the death of Lala Lajpat Rai. Also, 30 January is observed as Martyr's Day or Shaheed Diwas in the memory of Mahatma Gandhi.

Why is Shaheed Diwas (Martyr's Day) observed on March 23?
Shaheed Diwas is observed on March 23 to honour the sacrifice of three extraordinary freedom fighters of India. Bhagat Singh, Shivaram Rajguru and Sukhdev Thapar were hanged to death by the Britishers. They came forward at a very young age and fought bravely for the independence of India. They went on to become an inspiration to the youth of the country.
