

VIDEO COURSES

for Government Exams

From the oldest and most trusted name in Exam Preparation which gave us Career Power, Banker-sadda, Sscadda, here is the latest offering – Video Courses that are tailor-made for the Govt. Job aspirants of digital India. Various banking and SSC exams are conducted online with regular changes to exam pattern and level of questions. We understand the changing needs of the students and have devised a unique solution, making preparation easy, cost-effective and efficient.

Video courses for Banking and SSC consist of exhaustive video lectures for government exams. We offer these courses in three variants: Online Streaming, SD Card and Android Tab + SD-Card. The SD Card can be run on your personal android device as well. The video courses will run on the Adda247 mobile app, the number one App for Bank and SSC exam preparation.

Video Course are available in

Directions (1-3): Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether, the data provided in the statements are sufficient to answer the question. Read both the statements and Give answer-

Q1. In which month of the year did the construction of the building begin?

- I.** The construction engineer correctly remembers that the construction began before September but after May and that particular month did not have 31 days.
- II.** The builder correctly remembers that the construction began after February but before October and the fact that, that particular month did not have 31 days.
- (a) If the data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.
- (b) If the data in statement II alone are sufficient to answer the question while the data in statement I alone are not sufficient to answer the question.
- (c) If the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) If the data in both statements I and II together are not sufficient to answer the question.
- (e) If the data in both statements I and II together are necessary to answer the question.

Q2. How many runs did Team X make?

- I.** The umpire of the match correctly mentions that the batsman from Team X scored two more runs; the team would have won the match by 28 runs.
- II.** The coach correctly mentions that the batsman from Team X missed his century by two runs.
- (a) If the data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.
- (b) If the data in statement II alone are sufficient to answer the question while the data in statement I alone are not sufficient to answer the question.
- (c) If the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) If the data in both statements I and II together are not sufficient to answer the question.
- (e) If the data in both statements I and II together are necessary to answer the question.

Q3. Who among P, Q, R and S is the shortest?

- I.** S is not as tall as R but is taller than Q.
- II.** R is not the tallest.
- (a) If the data in statement I alone are sufficient to answer the question while the data in statement II alone are not sufficient to answer the question.
- (b) If the data in statement II alone are sufficient to answer the question while the data in statement I alone are not sufficient to answer the question.
- (c) If the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) If the data in both statements I and II together are not sufficient to answer the question.
- (e) If the data in both statements I and II together are necessary to answer the question.

Directions (4-8): Study the information carefully and answer the question given below.

Eight P, Q, R, S, T, U, V and W are sitting around a circular table and facing the centre but not in the same order. They like different colours viz. Black, White, Green, Yellow, Blue, Pink, Grey and Red but not necessary in the same order.

S sits third to the left of T who likes red colour. W is not the neighbor of S and immediate neighbor of T does not like Green and Black. There are two persons sits between S and the one who like Yellow colour. There is only one person sits between W and P who does not sit near to S and T. The person who like Black colour and R sits opposite to each other and P doesn't like Black colour. U likes grey color and sits between the persons who like Pink and Green color. The person who like Green and Blue sits adjacent to the person who sits second to the left of U. Q does not face the person who likes green colour.

Q4. Who among the following person sits second to the left of the person who is immediate right of U?

- (a) P
- (b) R
- (c) S
- (d) Q
- (e) None of these

Q5. Who among the following person likes White color?

- (a) Q
- (b) V
- (c) T
- (d) P
- (e) None of these

Q6. If all the persons made sit alphabetically in clock-wise starting from P, than how many person remain unchanged excluding P?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

Q7. Four of the following five are alike in a certain way based from a group find the one which does not belong to that group?

- (a) S-Grey
- (b) U-Green
- (c) R-Blue
- (d) V-Black
- (e) T-Red

Q8. Person sits in front of T likes which of the following color?

- (a) Grey
- (b) Green
- (c) Blue
- (d) White
- (e) None of these

Directions (9-10): Study the following information carefully and answer the questions given below.

Following are the conditions for selecting Senior Manager Credit in a bank. The candidate must

- I. be a graduate in any discipline with atleast 60% marks.
- II. have post qualification work experience of atleast 10 yr in the Advances Section of a bank.
- III. be atleast 30 yr and not more than 40 yr as on 1.4.2010.
- IV. have secured atleast 40% marks in the group discussion.
- V. have secured atleast 50% marks in interview.

In the case of a candidate who satisfies all the condition Except

- (A) At (I) above but has secured atleast 50% marks in graduation and atleast 60% marks in post-graduation in any discipline the case is to be referred to the General Manager Advances.
- (B) At (II) above but has total post qualification work experience of atleast seven years out of which atleast three years as Manager Credit in a bank, the case is to be referred to Executive Director.

In each question below details of one candidate is given. You have to take one of the following courses of action based on the information provided and the conditions and sub-conditions given above and mark the number of that course of action as your answer.

You are not to assume anything other than the information provided in each question. All these cases are given to you as on 01.04.2010.

Q9. Aryan was born on 4th August, 1977. He has secured 65% marks in post graduation and 58% marks in graduation. He has been working for the past ten years in the Advances Department of a bank after completing his post graduation. He has secured 45% marks in the group discussion and 50% marks in the interview.

- (a) If the case is to be referred to Executive Director
- (b) If the case is to be referred to General Manager Advances
- (c) If the data are inadequate to take a decision
- (d) If the candidate is not to be selected
- (e) If the candidate is to be selected

Q10. Rohit was born on 28th May, 1974. He has been in the Advances Department of a bank for the past eleven years after completing his B.Sc. degree with 65% marks. He has secured 55% marks in the group discussion and 50% marks in the interview.

- (a) If the case is to be referred to Executive Director
- (b) If the case is to be referred to General Manager Advances
- (c) If the data are inadequate to take a decision
- (d) If the candidate is not to be selected
- (e) If the candidate is to be selected

Directions (11-15): Study the following information carefully and answer the questions given below:

Seven employees namely A, B, C, D, E, F and G from seven different edtech companies i.e. Adda, Career power, CP, Bankersadda, Sscadda, Ctetadda and Currentadda, but not in necessarily same order. Only one employee works on each day. All of them are working in different department i.e. Quant, Reasoning, English, GA, IT, Blog and Support, but not necessarily in the same order. They are working on Monday to Sunday of the same week, but not necessarily in same order. (Starting from Monday).

A works in either Quant or Blog department and he is from Adda. The employee who works on the seventh day of the week works in Currentadda and he belongs to Support department. C does not work Blog department. B works on Wednesday and he does not work in GA and Quant department. The employee who works in IT department work on Thursday and he is neither from Career power nor Ctetadda. D works in English department and he is from Bankersadda and does not work on Monday and Tuesday. Only two employee works after C. C is from CP and works on just before the day on which D works. G does not work on Thursday. F is from Ctetadda and works on the second day of the week. The employee who works on Friday does not work in GA, Blog and Quant department.

Q11. Which of the following combination is true?

- (a) Monday-Quant-Sscadda
- (b) Wednesday-Blog-Career power
- (c) Saturday-Reasoing-A
- (d) C-English-bankersadda
- (e) None of these.

Q12. How many employees work after E?

- (a) One
- (b) Two
- (c) Three
- (d) More than three
- (e) None

Q13. On which of the following days B works?

- (a) Monday
- (b) Wednesday
- (c) Thursday
- (d) Friday
- (e) Saturday

Q14. Which of the following person works in IT department?

- (a) A
- (b) B
- (c) C
- (d) D
- (e) E

Q15. Which of the following combination does not lead to correct combination?

- (a) Tuesday-F- IT- Sscadda
- (b) Wednesday- B- Blog- Career power
- (c) Thursday-E- IT- Sscadda
- (d) Friday -C- Reasoning- CP
- (e) Monday-A-Quant-Adda

Directions (16-18): In each question below are given three statements followed by four conclusions numbered I, II, III and IV. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

Q16. Statements:

- I. No booths are shops.
- II. All shops are markets.
- III. All markets are stalls.

Conclusions:

- I. No booths are markets.
- II. No booths are stalls.
- III. Some markets are not shops.
- IV. Some stalls are not shops.

- (a) Only I follows
- (b) Only III follows
- (c) Only IV follows
- (d) None follows
- (e) None of these

Q17. Statements:

- I.** Some seats are berths.
II. Some berths are places.
III. Some places are chairs.

Conclusions:

- I.** No seats are chairs.
II. No places are seats.
III. Some berths are chairs.
IV. Some places are seats.
 (a) None follows
 (b) Only I and II follow
 (c) Only II and III follow
 (d) All follow
 (e) None of these

Q18. Statements:

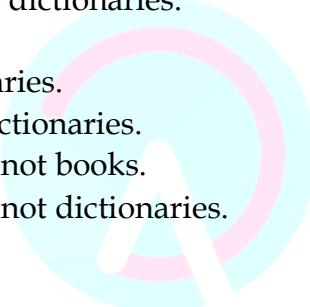

- I.** Some books are magazines.
II. All magazines are newspapers.
III. Some Newspapers are dictionaries.

Conclusions:

- I.** Some books are dictionaries.
II. Some magazines are dictionaries.
III. Some newspapers are not books.
IV. Some newspapers are not dictionaries.
 (a) Only I follows
 (b) Only II follows
 (c) Only III follows
 (d) None follows
 (e) None of these

The image shows the logo of Bank of India, featuring a red star with a white emblem in the center, followed by the text 'बैंक ऑफ इंडिया' and 'Bank of India'. Below this, it says 'Credit Officer (JMGS I)'. A blue banner at the bottom right contains the text '20 TOTAL TEST' and two bullet points: '• 10 FULL LENGTH MOCKS' and '• 10 PRACTICE SETS'.

Directions (19-20): Study the information carefully and answer the questions given below.

Divyraj start walking from point A after walking of 5m. he reach point B. From there he takes a left turn and walk 3m. to reach point C from there take a clockwise turn 135° and move to reach point D. from there move 3m. in the north direction than take a right turn and walk 5m. to reach point F. Point E, D and A is in a straight line.

Q19. What is the shortest distance between D and F?

- (a) $2\sqrt{17}$
 (b) $\sqrt{34}$
 (c) 34
 (d) $\sqrt{35}$
 (e) None of these.

Q20. In which direction is point D with respect to point F?

- (a) South-east
- (b) North-east
- (c) North-west
- (d) South-west
- (e) None of these.

Q21. A child can do $\frac{1}{5}$ th of work in same time as his father can do the whole work and efficiency of child's mother is equal to half the sum of father and child efficiency. If they complete 70% of work in 24 days, when they work alternatively, starting with father and child together on first day followed by father and mother together on second day. Find in how many days mother can complete 85% of work alone?

- (a) 48 days
- (b) 68 days
- (c) 60 days
- (d) 56 days
- (e) 54 days

Q22. A, B and C entered into a partnership business, A invested Rs. x , B invested 25% more than A and C invested 20% more than B for first 6 months. After that A left the business and B withdraw 50% of his investment and C increased investment by $16\frac{2}{3}\%$ for next 3 and 6 months respectively. If at the end of an year difference between profit share of C and (A + B) together is Rs. 12375, then find profit share of C ?

- (a) Rs. 56500
- (b) Rs. 52500
- (c) Rs. 48500
- (d) Rs. 58500
- (e) Rs. 60500

Q23. A shopkeeper marked up the price of a mobile phone by 60%. If he increase the discount from 10% to 15%, the profit would decrease by 2200 Rs. Find how much profit shopkeeper would earn if he gives a discount of 30% on the marked price ?

- (a) 1800 Rs.
- (b) 3200 Rs.
- (c) 2800 Rs.
- (d) 4400 Rs.
- (e) 3300 Rs.

Q24. Annual income of Arun is 6.24 lakh, he spend $38\frac{6}{13}\%$ of monthly income on Food and Rent, $12\frac{1}{2}\%$ of remaining on Gym, $14\frac{2}{7}\%$ of remaining on clothing and 75% of remaining is invested in mutual fund. If he kept remaining amount after all expense as cash with him then find how much cash Arun have after one year?

- (a) 72000 Rs.
- (b) 74000 Rs.
- (c) 75000 Rs.
- (d) 78000 Rs.
- (e) 80000 Rs.

Directions (25-28): The table given below shows data of total number of tourists who bought ticket of five different tourist places of India in seven different months of 2017, some data is missing. Calculate according to the questions and give answer.

Tourist places	Jan	Feb	March	April	May	June	July
Taj mahal	12500	22500	12750	17000	----	23000	22500
Red fort	----	12800	23750	7500	21000	16500	32000
Gateway of india	13500	----	----	13800	18500	----	28500
Golden temple	22500	13200	15000	----	9500	8500	----
Hawa mahal	---	----	13750	20500	6500	9000	26500

Q25. 20% of tourist who bought ticket in March for Red fort and Taj Mahal did not visit if the price of one gold class ticket is 15 Rs. and silver class is 12. Find the total amount collected from absent tourists, if 3300 of them bought gold class tickets?

- (a) 87500
- (b) 97500
- (c) 37500
- (d) 88750
- (e) 76500

Q26. If the average of all tickets sold in Jan is 15400, then all tickets sold in April is how much percentage more or less than all tickets sold in Jan. If given tickets sold for Golden temple in April is $87\frac{1}{2}\%$ of ticket sold for same tourist place in Feb? (rounded off to two decimal places)

- (a) 11.9%
- (b) 5.4%
- (c) 8.63%
- (d) 12%
- (e) 14%

Q27. If ticket sold for Golden temple in july is 9500 more than ticket sold for same tourist place in june. Then find the ratio of ticket sold for Red fort and Golden temple together in July to tickets sold for same tourist places in may?

- (a) 20:13
- (b) 120:71
- (c) 100:61
- (d) 97:51
- (e) 81:91

Q28. If ticket sold for Golden temple in April is 1750 less than ticket sold for Hawa mahal in march then find the average of tickets sold for all tourist places in april and ticket sold for Taj mahal, Red fort and Golden temple in feb?

- (a) 15921.5
- (b) 14952.5
- (c) 14912.5
- (d) 16282.5
- (e) 15782.5

Directions (29-30): In the given questions, two quantities are given, one as Quantity I and another as Quantity II. You have to determine relationship between two quantities and choose the appropriate option.

Q29. Quantity I: A seller marked up price of a table 70% above and give two discount of 20% and 25% respectively on M.P. if seller make a profit of 75 Rs. Then find the CP of table?

Quantity II: Cost price of a table is 35% more than cost price of a chair, if shopkeeper sold chair at 25% profit and table at $33\frac{1}{3}\%$ of loss he gets the total loss of 1350 Rs. find the cost price of table?

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I \geq Quantity II
- (d) Quantity I \leq Quantity II
- (e) Quantity I = Quantity II or No relation

Q30. Quantity I: Satish took education loan of 75000 Rs from SBI at the rate of 10% compound annually, if after 2 year he paid an amount of 30750, then find how much more amount Satish have to pay for completing his loan in next two years?

Quantity II: A and B started a business in partnership with the investment of Rs. 27000 and Rs. 36000 respectively, after 4 month A withdraw 5000 Rs. and B added 6000 Rs. more and C joined with 35000 Rs. if after one year they gets a total profit of Rs. 130500, then find the profit share of C ?

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I \geq Quantity II
- (d) Quantity I \leq Quantity II
- (e) Quantity I = Quantity II or No relation

Q31. A man invested a sum of in scheme P on SI per annum at the ratio of 10% for first year, 12% for second year and 14% for third year and his wife invested 75% more sum than her husband in scheme Q on C.I. per annum at the rate of 20% per annum for two years. If wife got Rs. 4264 interest more than her husband, then find sum invested by wife ?

- (a) 17200Rs
- (b) 18200 Rs
- (c) 15200 Rs
- (d) 16200 Rs
- (e) 18200 Rs.

Q32. The perimeter of a square is equal to the perimeter of a rectangle, whose length is 24 cm and breath is $66\frac{2}{3}\%$ of its length. Find the circumference of a semicircle whose diameter is equal to the side of square ?

- (a) $360/7$ cm
- (b) $410/7$ cm
- (c) $470/7$ cm
- (d) $220/7$ cm
- (e) $440/7$ cm

Directions (33-36): Study the following graph carefully and answer the question. The following bar graph shows the investment of the three companies (in crore) in a time period of five year 2018-22.

Q33. What percent is the average investment of IBM from 2018 to 2022 that of average investment of HCL through all the years? (approximately)

- (a) 84%
- (b) 88%
- (c) 87%
- (d) 90%
- (e) 94%

Q34. In 2022 investment of IBM in rural and urban areas in the ratio of 3 : 2 and it proposed that investment for rural areas to be increased by 25% in 2023 compare to 2022 Then find what percentage increase in investment of IBM in 2023 if investment in urban areas remain unchanged in 2023 ?

- (a) 20%
- (b) 18%
- (c) 15%
- (d) 12%
- (e) 10%

Q35. Find the ratio between total investment of HCL in year 2018-2020 together to total investment of TCS in year 2020-2022 together ?

- (a) 17 : 29
- (b) 18 : 29
- (c) 21 : 29
- (d) 27 : 29
- (e) 17 : 27

Q36. If in 2019 IBM invested in only three cities A, B and C in the ratio of 5 : 4 : 4 respectively and TCS invested in only two cities P and Q in 2022 in the ratio of 5 : 6 respectively. Then investment of TCS in city Q in 2022 how much more investment of IBM in cities A and C together in 2019 ?

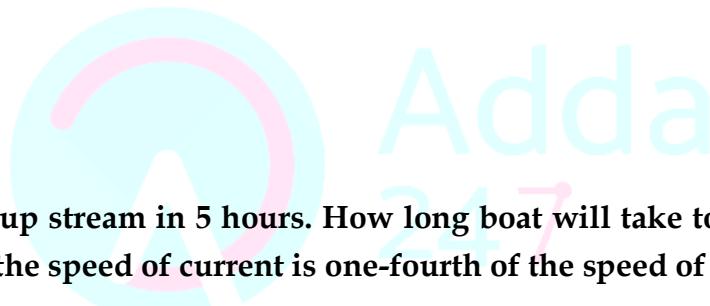

- (a) 30 cr
- (b) 35 cr
- (c) 40 cr
- (d) 45 cr
- (e) 25 cr

Q37. Two gallon of a mixture of water and sprit contains 30% water. The above mixture is added to 3 gallon of another mixture of water and sprit which contain 16% water. If half gallon of water is added to the whole mixture, then find the percentage of water in resulting mixture ?

- (a) $17\frac{10}{11}\%$
- (b) $28\frac{8}{11}\%$
- (c) $16\frac{10}{11}\%$
- (d) $19\frac{10}{11}\%$
- (e) $20\frac{10}{11}\%$

Q38. A train can travel 150% faster than a car. Both start from point A at the same time and reach point B 150 km away from A at the same time on the way however train lost about 45 minutes while stopping at a station. Find the speed of train ?

- (a) 615 km/hr
- (b) 720 km/hr
- (c) 625 km/hr
- (d) 675 km/hrv
- (e) 300 km/hr

Q39. A boat goes 15 km up stream in 5 hours. How long boat will take to cover the same distance towards downstream, if the speed of current is one-fourth of the speed of boat in still water?

- (a) 5 hrs
- (b) 2.5 hrs
- (c) 1.5 hrs
- (d) 3 hrs
- (e) 2 hrs

Q40. In a bucket there are different colored packets of black, blue and white colors. The probability of selecting one black packet out of the total packet is $2/5$ and the probability of selecting one blue packet out of the total packet is $3/7$. The number of white packet in the bag is 18. Find total number of packet in the bucket?

- (a) 117
- (b) 105
- (c) 114
- (d) 120
- (e) 108

Directions (41-50): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.

The economic differences between rural and urban America highlight its racial, political and cultural diversity. The things causing strife in America are really the same things causing **strife** in countries all over the world. The ills of Urbanization. You feel it when you fly six hours from New York to San Francisco, but it really hits home when you drive cross-country. The 11-hour, 900-km drive from New Haven, Connecticut on the East Coast to Loudonville, Ohio, in the heart of the Mid-West was a window into America's vastness. My friends and I were accompanying a fellow university classmate to her hometown to spend the weekend. Our average speed of 80kph is something most Indian drivers can only dream of. By the 6th hour, it was pitch black and late at night and all I could think was how much Americans love driving their cars. We woke up the next morning in Trump country – though aside from the "Make America Great Again" signs on peoples' front yards, you'd never feel it.

Loudonville is a **quaint** one-horse town of 2,641 genuinely lovely people founded in 1814, 75% of whose residents voted for Donald Trump in the 2016 election. And perhaps demographics explain this: it is 97.8% White and has a median age of 43. The median annual household income of \$42,500 is lower than the national median, \$49,445. An automotive component factory, which ran from 1913 till 1996, employed many local residents. It's a rural, working-class, old White town: probably the poster child for the Republican base. And we were welcomed with open arms. Aside from me – the only Indian in a 50-mile radius – our group consisted of a Mexican, a Pole and most alien of all, a New Yorker. People looked at us like we were from out of town but never with any malice. It made me question the perceptions I had of rural, middle-America and the mostly Republican voters who lived there, as potentially unfriendly towards foreigners – especially brown ones.

But I'd never been to a community like this: the local newspaper prints every single crime committed in the village, including all parking tickets – much to the chagrin of errant teenage drivers. Loudonville was folksy in the best possible way. We were visiting on the biggest day in Loudonville's year: the annual Street Fair. It was mid-October 2016, the sun was out and everyone thought Hillary Clinton would win the election. Aside from the usual attractions at a fun-fair – food stalls, carousels and so on – there were livestock shows and even a tractor-pull. The residents took pride in showing off the size of their steers and their hogs and their kids. One of my graduate school professors had told me that these state fairs served an important function in American history: it allowed farmers from all over the country to meet and exchange seeds, farming techniques and ideas about how to deal with pests and disease. I exchanged a dollar for a corndog and it was great.

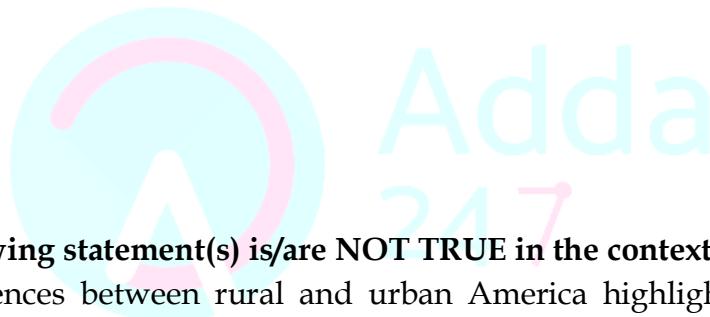

We had a picnic lunch at my friend's family farm, following a hike in the surrounding woods. As we looked out across the sloping meadows that rolled away into the horizon, I felt far away from the world. Forget India – even my university felt like some distant, unnecessarily noisy planet. We passed some Amish folks riding in a horse-drawn carriage on the way to their farm. Time moves more slowly in the countryside. Maybe that's why you feel you're back in the past. We spent the afternoon on a porch I'll never forget. It was a large wooden deck **sprawling** out above the grassy

knoll below, like the bridge of some long-since-grounded oil-tanker. On the way there, we bought some beers at a drive-through liquor store (yes, you read that right). We were visiting my friend's high-school classmate and whiled away hours looking out at their acres of land as we played with their three giant dogs and their new-born baby.

They were a military family, if I remember correctly, and the role of the military in American life seems to hit home harder when you leave the city. You begin to understand that it gives so many people a purpose and so many families, their livelihood. The rest of the world doesn't understand America's **exorbitant** military spending because we see its devastating consequences abroad, not its ubiquitous presence at home. I think every urban American child should do a "semester-abroad" exchange programme with a rural American family during high-school and vice versa. There are some very fine people on both sides.

Q41. What is causing dissension in America and how similar it is to other parts of the world?

- (I) economic differences between rural and urban America
- (II) the ills of urbanisation
- (III) the racial, political and cultural diversity
 - (a) Only (I)
 - (b) Only (III)
 - (c) Both (I) and (II)
 - (d) Both (II) and (III)
 - (e) All of these

Q42. Which of the following statement(s) is/are NOT TRUE in the context of the passage?

- (a) The economic differences between rural and urban America highlight its racial, political and cultural diversity.
- (b) The ills of urbanization are the cause of strife in America.
- (c) Loudonville's local newspaper prints every single crime committed in the village, including all parking tickets.
- (d) Loudonville is a quaint one-horse town of 2,641 genuinely lovely people founded in 1824.
- (e) All of these

Q43. What led to the change in perception of the author about the rural America?

- (a) their (Americans) unfriendly nature towards foreigners.
- (b) the benevolent nature of the people in Loudonville which is considered to be the hub of Trump supporters
- (c) the low income of the countryside people as compared to the national median
- (d) majority of population of Loudonville constituting white ones.
- (e) None of these

The advertisement for SSC CGL PRIME 2018 features a dark green background. At the top left is the Adda247 logo. In the center, the text 'SSC CGL PRIME 2018 with Video Solutions' is displayed in yellow and white. Below this, a box contains the text '400+ TOTAL TESTS'. A vertical list of features is shown on the right, each preceded by a yellow square icon. At the bottom, a yellow box displays the price '@ 999/-' and the word 'BILINGUAL'.

- 75 PRE / Tier-I Mocks
- 50 Mains / Tier-II Mocks
- 78 PRE / Tier-I Previous Years' Papers
- 25 Mains / Tier-II Previous Years' Papers

- (e) All of these

Q46. Give a suitable TITLE for the passage.

- (a) Solving the autonomy puzzle
- (b) Loudonville a quaint one-horse town
- (c) The true divide in America. No, not Trump.
- (d) Judicial safe zones
- (e) None of these

Directions (47-48): Choose the word/group of words which is most SIMILAR in meaning to the word/group of words printed in bold as used in passage.

Q47. strife

- (a) truce
- (b) discord
- (c) harmony
- (d) conformity
- (e) victory

Q48. quaint

- (a) ordinary
- (b) grave
- (c) whimsical
- (d) conventional
- (e) standard

Directions (49- 50): Choose the word/group of words which is most OPPOSITE in meaning to the word/group of words printed in bold as used in passage.

Q49. sprawling

- (a) extending
- (b) slouching
- (c) slumping
- (d) compressing
- (e) trailing

Q50. exorbitant

- (a) steep
- (b) high
- (c) extreme
- (d) extortionate
- (e) moderate

Directions (51-55): Rearrange the following sentences to form a meaningful paragraph and then answer the questions given below them.

- (A) The initiation of the NPA resolution process has brought in a certain degree of rigour, but it still lacks the credibility to be called a bold or successful initiative.
- (B) The banks are taking the required actions to the extent of their respective abilities and governing atmosphere.
- (C) It should evaluate the bottlenecks within its domain and bring in the appropriate enablers to help resolve the NPAs at the earliest.
- (D) As they say, you can lead a horse to water, but cannot force it to drink.
- (E) The RBI is doing its best, and even stepping into executive functions like scrutinizing NPA accounts and issuing directives to banks.
- (F) However, the government has not yet stepped up to the requirements.

Q51. Which of the following is the THIRD sentence of the paragraph so formed?

- (a) A
- (b) B
- (c) C
- (d) D
- (e) E

Q52. Which of the following is the FIRST sentence of the paragraph so formed?

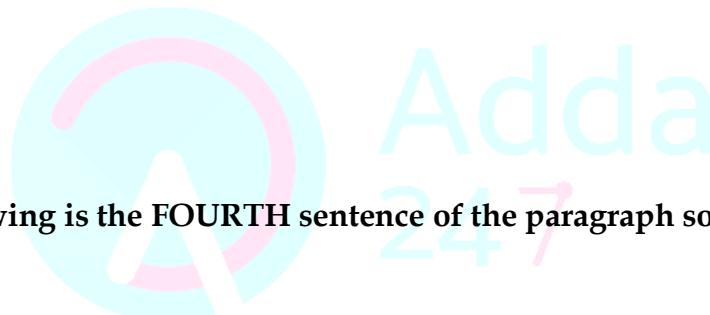

- (a) D
- (b) F
- (c) E
- (d) A
- (e) B

Q53. Which of the following is the SIXTH (LAST) sentence of the paragraph so formed?

- (a) E
- (b) C
- (c) D
- (d) F
- (e) B

Q54. Which of the following is the SECOND sentence of the paragraph so formed?

- (a) F
- (b) D
- (c) A
- (d) B
- (e) E

Q55. Which of the following is the FOURTH sentence of the paragraph so formed?

- (a) B
- (b) D
- (c) F
- (d) A
- (e) C

Directions (56-60): There are four sentences given in each question. Find the sentence(s) which is/are grammatically correct and mark your answer choosing the best possible alternative among the five options given below each question. If all sentences are correct, choose (E) as your answer.

Q56. (I) With a little industry and perseverance wonders might be done in this country.

(II) Almost any job can be shaken off in time and with perseverance.

(III) Can we rely on the constancy and perseverance of the people?

(IV) A little did I know that he would create such a ruckus.

- (a) Only (I) is correct
- (b) Only (IV) is correct
- (c) Both (I) and (II) are correct
- (d) Only (I), (II) and (III) are correct
- (e) All are correct

- Q57.** (I) The people who come from here will be something to deal with.
(II) A good deal of pens is not working.
(III) They have managed to seal a good deal.

- (d) with the suspension of diplomatic ties in
- (e) No correction required

Directions (71-80): In the following passage there are blanks, each of which has been numbered and one word has been suggested alongside the blank. These numbers are printed below the passage and against each, five options are given. In four options, one word is suggested in each option. Find out the appropriate word which fits the blank appropriately. If the word written alongside the blank fits the passage, choose option 'e' (No correction required) as the correct choice.

Q71. News reports over the last few weeks **argued** (71) that the Central government may finally be starting to think **desperately** (72) about jobs. Chief Economic Adviser Arvind Subramaniam recently pointed to the need to achieve higher economic growth, in the range of 8% to 10%, to solve the problem of **idle** (73) growth. In particular, he **alarmed** (74) the underperformance of the information technology, construction and agricultural sectors, which earlier served as huge job-creators for the economy. It is worth **noting** (75) that India added just 1.35 lakh jobs in eight labour-intensive sectors in 2015, compared to the 9.3 lakh jobs that were created in 2011, according to Labour Bureau figures. The rate of unemployment grew **thoroughly** (76) from 3.8% in 2011-12 to 5% in 2015-16. Union Labour and Employment Minister Bandaru Dattatreya has **embarrassed** (77) the gloomy job situation as being a temporary one. His focus instead is on the new National Employment Policy which, he says, would be released later this year and **fix** (78) on shifting jobs from the informal to the formal sector. NITI Aayog too has **dismissed** (79) concerns over jobless growth, saying the real problem is **enlistment** (80) rather than unemployment.

- (a) demand
- (b) suggest
- (c) urged
- (d) opine
- (e) No improvement required

Q72. News reports over the last few weeks **argued** (71) that the Central government may finally be starting to think **desperately** (72) about jobs. Chief Economic Adviser Arvind Subramaniam recently pointed to the need to achieve higher economic growth, in the range of 8% to 10%, to solve the problem of **idle** (73) growth. In particular, he **alarmed** (74) the underperformance of the information technology, construction and agricultural sectors, which earlier served as huge job-creators for the economy. It is worth **noting** (75) that India added just 1.35 lakh jobs in eight labour-intensive sectors in 2015, compared to the 9.3 lakh jobs that were created in 2011, according to Labour Bureau figures. The rate of unemployment grew **thoroughly** (76) from 3.8% in 2011-12 to 5% in 2015-16. Union Labour and Employment Minister Bandaru Dattatreya has **embarrassed** (77) the gloomy job situation as being a temporary one. His focus instead is on the new National Employment Policy which, he says, would be released later this year and **fix** (78) on shifting jobs from the informal to the formal sector. NITI Aayog too has **dismissed** (79) concerns over jobless growth, saying the real problem is **enlistment** (80) rather than unemployment.

- (a) lightly
- (b) critically
- (c) movingly
- (d) seriously
- (e) No improvement required

Q73. News reports over the last few weeks **argued** (71) that the Central government may finally be starting to think **desperately** (72) about jobs. Chief Economic Adviser Arvind Subramaniam recently pointed to the need to achieve higher economic growth, in the range of 8% to 10%, to solve the problem of **idle** (73) growth. In particular, he **alarmed** (74) the underperformance of the information technology, construction and agricultural sectors, which earlier served as huge job-creators for the economy. It is worth **noting** (75) that India added just 1.35 lakh jobs in eight labour-intensive sectors in 2015, compared to the 9.3 lakh jobs that were created in 2011, according to Labour Bureau figures. The rate of unemployment grew **thoroughly** (76) from 3.8% in 2011-12 to 5% in 2015-16. Union Labour and Employment Minister Bandaru Dattatreya has **embarrassed** (77) the gloomy job situation as being a temporary one. His focus instead is on the new National Employment Policy which, he says, would be released later this year and **fix** (78) on shifting jobs from the informal to the formal sector.
