#### From the Editor's Desk

Dear Readers,

Bankers Adda in collaboration with Career Power brings to you **Competition Power (March Edition)**. The reason why this collaboration is so important and a landmark event as both BA and Career Power has had a long and extremely successful association with students appearing for competitive exams.

This magazine includes various initiatives that cover various aspects of Banking and SSC exams in an exhaustive manner.

Keeping in mind the upcoming exams, we have covered Current Affairs for not only the month of **January** but also for the month of **December** under the name "Current Affairs Zinger". To make learning easy for the students we have also introduced another initiative by the name "NEWS MAKER OF THE MONTH" which covers all the important people, appointments, awards, etc that have made news.

Having covered the GK and CA portion in an exhaustive manner, we have also given equal importance and focus to all the other aspects of the exams, be it Covering each aspect of the various subjects (like reasoning, english, quant, computers) right from building the student's concepts to helping him practice a few topics.or be it Interview Preparation or Guidance and boosting the confidence of students. We Have It All Covered!!!

Along with this we have also included Mock Papers on SSC CGL Tier I 2017 Practice Set, IBPS PO MAINS Reasoning And Quant Practice Set, Syndicate Bank PO 2017 Practice Set, IBPS PO Prelims | SBI PO Prelims 2017: PRACTICE SET and IBPS Clerk Mains 2016 Memory Based following the respective exam pattern for practice for our readers, so that they can increase their speed and accuracy. This edition of Magazine also includes a new series named "Twisted Ones" which will have questions with higher difficulty level.

Basically this magazine is a one stop place for all those preparing for government sector competitive exams. Within few months of its launch, it has become quite popular among the students, who love to refer to it for their exams.

We believe that each and every student has the hidden potential to reach the unattainable heights, and it is our responsibility to provide them with a platform that hones their skills enabling them to overcome each and every challenge that comes their way while appearing for these exams.

Having said this I would like to give special thanks to the specialized mentors of Bankers Adda and Career Power team for providing us with the needed support and making this magazine a success.

Good Luck And God Bless

#### **UNION BUDGET'17-18 & ECONOMIC SURVEY'16-17**

# UNION BUDGET 2017-18: Budget Post De-Monetisation

#### What is Budget?

Budget is an Annual financial statement of the estimated receipts & expenditure of the Government for the financial year. (1st April – 31st March).

This year, it was the first

time that the Railway budget was presented with the Union Budget.

Finance Minister **Shri Arun Jaitley** presented the Union Budget 2017-18 which focused on 10 broad themes which are:

farmers, rural population, youth, poor & health care for the underprivileged; infrastructure; financial sector for stronger institutions; speedy accountability; public services; prudent fiscal management; tax administration for the honest.

#### **Budget Post Demonetisation**

- Demonet. is expected to have a transient impact on economy.
- ↓ It is a bold & decisive measure & will lead to higher GDP growth.
- The effects of it will not spillover to the next fiscal.

#### **Budget Proposals related to Agriculture Sector**

- Rs. 10 lakh crores as credit to farmers with 60 days interest waiver will be provided.
- ♣ NABARD fund increased to Rs. 40,000 crores.
- Govt. will set up mini lab in Krishi Vigyan Kendras for soiling.
- Dedicated micro irrigation fund will be set up for NABARD with the initial corpus of Rs 5,000 crores.
- ♣ Irrigation Fund corpus has been increased from Rs. 20,000 crores to Rs. 40,000 crores.
- With a better monsoon, agriculture is expected to grow at 4.1% in the current year.
- ♣ The coverage of Fasal Bima Yojana will be increased from 30% of cropped area in 2016-17 to 40% in 2017-18 & 50% in 2018-19. The Budget provision for this Yojana increased to Rs. 9,000 crores.
- The coverage of National Agricultural Market (e-NAM) will be expanded from the current 250 markets to 585 APMCs.
- A Dairy Processing & Infrastructure Development Fund would be set up in NABARD with a corpus of Rs. 8,000 crores over 3 years. Initially, the Fund will start with a corpus of Rs. 2,000 crores.

#### **Budget Proposals related to Rural Population**

- Mission Antyodaya will be launched to bring one crore households out of poverty & to make 50,000 gram panchayats poverty free by 2019, the 150th birth anniversary of Gandhiji.
- During 2017-18, 5 lakh farm ponds will be taken up.
- ♣ Budget provision under MGNREGA in 2017-18 has been increased to Rs. 48,000 crores. This is the highest ever allocation for MGNREGA.

- PMGSY roads has accelerated to reach 133 km roads per day in 2016-17, as against an average of 73 km during the period 2011-2014. FM have provided a sum of Rs. 19,000 crores in 2017-18 for this scheme. With the contribution of States, the total amount of Rs. 27,000 crores will be spent on PMGSY in 2017-18.
- Proposed to complete 1 crore houses by 2019 for the houseless & those living in kutcha houses.
- Allocation for Pradhan Mantri Awaas Yojana Gramin increased from Rs.15,000 crores in 2016-17 to Rs. 23,000 crores in 2017-18.
- ♣ Allocation of Rs. 4,814 crores has been proposed under the Deendayal Upadhyaya Gram Jyoti Yojana in 2017-18.
- → Allocations for Deendayal Antyodaya Yojana- National Rural Livelihood Mission increased to Rs. 4,500 crores in 2017-18.
- For imparting new skills to the people in the rural areas, mason training will be provided to 5 lakh persons by 2022, with an immediate target of training at least 20,000 persons by 2017-18.
- ♣ The total allocation for the rural, agriculture & allied sectors in 2017-18 is Rs. 1,87,223 crores, which is 24% higher than the previous year.

#### **Budget proposals for the Youth**

- An Innovation Fund for Secondary Education will be created to encourage local innovation for ensuring universal access, gender parity & quality improvement.
- Govt. to launch SWAYAM platform with at least 350 online courses. This would enable students to virtually attend the courses taught by the best faculty.
- ♣ Govt. proposed to establish a National Testing Agency as an autonomous & self-sustained premier testing organisation to conduct all entrance examinations for higher education institutions.
- ♣ Pradhan Mantri Kaushal Kendras (PMKK) will be extended to more than 600 districts from 60 districts earlier.
- **1**00 India International Skills Centres will be established across the country.
- ♣ In 2017-18, the govt. proposed to launch Skill Acquisition & Knowledge Awareness for Livelihood Promotion programme (SANKALP) at a cost of Rs. 4,000 crores. It will provide market relevant training to 3.5 crore youth.
- ♣ The 2nd phase of Skill Strengthening for Industrial Value Enhancement (STRIVE) will also be launched in 2017-18 at a cost of Rs. 2,200 crores. It will focus on improving the quality & market relevance of vocational training provided in ITIs.
- Five Special Tourism Zones, anchored on SPVs, will be set up in partnership with the States. Incredible India 2.0 Campaign will be launched across the world.

#### Budget allocations for the Poor & the Underprivileged

- ➡ Mahila Shakti Kendra will be set up at village level with an allocation of Rs. 500 crores in 14 lakh ICDS Anganwadi Centres.
- ♣ For the welfare of Women & Children under various schemes across all Ministries, allocations hae been increased from Rs.1,56,528 crores in 2016-17 to Rs. 1,84,632 crores in 2017-18.

- ♣ National Housing Bank will refinance individual housing loans of about Rs. 20,000 crore in 2017-18.
- ♣ Steps will be taken to create additional 5,000 Post Graduate seats per annum in medical.
- Two new All India Institutes of Medical Sciences will be set up in the States of Jharkhand & Gujarat.
- Allocation for the welfare of Scheduled Castes has been stepped up from Rs. 38,833 crores to Rs. 52,393 crores in 2017-18.
- The allocation for Scheduled Tribes has been increased to Rs. 31,920 crores & for Minority Affairs to Rs. 4,195 crores.
- LIC will implement a scheme for senior citizens to provide assured pension, with a guaranteed return of 8% per annum for 10 years.

#### **Budget Allocation in Infrastructure (Railway & Others)**

- For 2017-18, the total capital & development expenditure of Railways is Rs.1,31,000 crores. This includes Rs. 55,000 crores provided by the Government.
- Railways will focus on four major areas which are:
- Passenger safety; (ii) Capital & development works; (iii) Cleanliness; & (iv) Finance & accounting reforms.
- For passenger safety, a Rashtriya Rail Sanraksha Kosh will be created with a corpus of Rs. 1 lakh crores over a period of 5 years.
- Unmanned level crossings on Broad Gauge lines will be eliminated by 2020.
- Railway lines of 3,500 kms will be commissioned in 2017-18, as against 2,800 kms in 2016-17.
- 500 stations will be made differently abled friendly by providing lifts & escalators.
- Govt. proposed to introduce 'Coach Mitra' facility, a single window interface, to register all coach related complaints & requirements.
- By 2019, all coaches of Indian Railways will be fitted with bio toilets.
- Pilot plants for environment friendly disposal of solid waste & conversion of biodegradable waste to energy are being set up at New Delhi & Jaipur railway stations.
- Service charge on e-tickets booked through IRCTC has been withdrawn. Cashless reservations have gone up from 58% to 68%.
- In the road sector, Budget allocation for highways increased to Rs. 64,900 crores in 2017-18.

- Accordingly, a new ETF with diversified CPSE stocks & other Government holdings will be launched in 2017-18.
- ♣ In line with the 'Indradhanush' roadmap, govt. has provided Rs. 10,000 crores for recapitalisation of Banks in 2017-18.
- ♣ The lending target under Pradhan Mantri Mudra Yojana has been set at Rs. 2.44 lakh crores for 2017-18. Priority will be given to Dalits, Tribals, Backward Classes, Minorities & Women.

#### Budget proposals for the digital economy

- Government will launch two new schemes to promote the usage of BHIM; these are, Referral Bonus Scheme for individuals & a Cashback Scheme for merchants.
- Aadhar Pay, a merchant version of Aadhar Enabled Payment System, will be launched shortly.
- ♣ A Mission will be set up with a target of 2,500 crore digital transactions for 2017-18 through UPI, USSD, Aadhar Pay, IMPS & debit cards.
- ♣ Banks have targeted to introduce additional 10 lakhs new PoS terminals by March 2017. They will be encouraged to introduce 20 lakh Aadhar based PoS by September 2017.
- Government will encourage SIDBI to refinance credit institutions which provide unsecured loans, at reasonable interest rates, to borrowers based on their transaction history.
- Govt. proposed to create a Payments Regulatory Board in the Reserve Bank of India by replacing the existing Board for Regulation & Supervision of Payment & Settlement Systems.

#### **Budget proposals to Public Service**

- ♣ Govt. have decided to utilise the Head Post Offices as front offices for rendering passport services.
- ♣ A comprehensive web based interactive Pension Disbursement System for Defence Pensioners will be established.
- ♣ A High Level Committee under the Chairmanship PM is proposed to be set up to improve the standards of public service & transparent governance.
- ♣ Govt. will commemorate the centenary year of Champaran Satyagrah this year.
- GOI will support Govt. of Gujarat to commemorate 100 years of Sabarmati Ashram in 2017.
- ♣ This year the govt. will also commemorate Buxi Jagabandhu who led a valiant uprising of soldiers in Khordha of Odisha in 1817.

#### **Budget proposals related to Fiscal Management**

- ♣ Total expenditure in Budget for 2017-18 has been placed at Rs. 21.47 lakh crores. With the abolition of Plan-Non Plan classification of expenditure, the focus is now on Revenue & Capital expenditure.
- Capital expenditure increased by 25.4% over the previous year.
- ♣ The total resources being transferred to the States & the Union Territories with Legislatures is Rs. 4.11 lakh crores, against Rs. 3.60 lakh crores in BE 2016-17.
- Provision of Rs. 3,000 crores under the Department of Economic Affairs to implement various Budget announcements & other new schemes in 2017-18.
- For Defence expenditure excluding pensions, a sum of Rs. 2,74,114 crores including Rs. 86,488 crores for Defence capital have been provided.
- Allocation for Scientific Ministries increased to Rs. 37,435 crore in 2017-18.
- For the first time, a consolidated Outcome Budget, covering all Ministries & Departments, is being laid along with the other Budget documents.
- ♣ The FRBM review Committee has favoured Debt to GDP of 60% for the General Government by 2023, consisting of 40% for Central Government & 20% for State Governments.
- ♣ FM have pegged the fiscal deficit for 2017-18 at 3.2% of GDP & remain committed to achieve 3% in the following year.
- The net market borrowing of Government limit is kept at Rs. 3.48 lakh crores after buyback.
- Revenue Deficit is pegged at 1.9%, against 2% mandated by the FRBM Act.

#### **Budget Proposals related to Taxes**

- The net tax revenue grew by 17% in 2015-16. In 2016-17, it will be up by 17%.
- ♣ The rate of growth of advance tax in personal income tax in the first three quarters of the current financial is 34.8%.
- ♣ The thrust tax proposals is stimulating growth, relief to middle class, affordable housing, curbing black money, promoting digital economy, transparency of political funding & simplification of tax administration.

#### **Measures for Stimulating Growth**

- ♣ A concessional with-holding rate of 5% is being charged on interest earned by foreign entities in external commercial borrowings or in bonds & Government securities have been extended to 30.6.2020.
- The profit linked deduction available to the start-ups for 3 years out of 5 years is being changed to 3 years out of 7 years.
- Govt. proposed to allow carry forward of MAT upto a period of 15 years instead of 10 years at present.
- Govt. proposed to reduce the income tax for smaller companies with annual turnover upto Rs. 50 crore to 25%.
- Govt. proposed to increase allowable provision for Non-Performing Asset from 7.5% to 8.5%.
- Govt. proposed to reduce the basic customs duty on LNG from 5% to 2.5%.

#### **Measures for Promoting Digital Economy**

- ♣ To reduce the presumptive income tax for small & medium tax payers whose turnover is upto Rs. 2 crores to 6%in respect of turnover which is received by non-cash means.
- Govt. accepted the proposal of SIT that no transaction above Rs. 3 lakh should be permitted in cash.
- ♣ To promote cashless transactions, govt. proposed to exempt BCD, Excise/CV duty & SAD on miniaturised POS card reader for m-POS, micro ATM standards version 1.5.1, Finger Print Readers/Scanners & Iris Scanners.

#### Scheme to cleanse the system of funding of political parties:

- a) Maximum amount of cash donation that a political party can receive will be Rs. 2000/- from one person.
- b) Political parties will be entitled to receive donations by cheque or digital mode from their donors.
- c) Amendment is being proposed to the Reserve Bank of India Act to enable the issuance of electoral bonds under which the donor could purchase bonds from authorised banks against cheque & digital payments only. They shall be redeemable only in the designated account of a registered political party.
- **d)** Every political party would have to file its return within the time prescribed in accordance with the provision of the Income-tax Act.

#### **Ease of Doing Business**

- ♣ Govt. proposed to increase the threshold limit for audit of business entities who opt for presumptive income scheme from Rs. 1 crores to Rs. 2 crores.
- ♣ The threshold for maintenance of books for individuals & HUF is being increased from turnover of Rs. 10 lakhs to Rs. 25 lakhs or income from Rs. 1.2 lakhs to Rs. 2.5 lakhs.
- **♣** Govt. proposed to exempt Foreign Portfolio Investor (FPI) Category I & II from indirect transfer provision.
- Proposed to exempt from TDS subject to filing a self-declaration that their income is below taxable limit.
- ♣ The time period for revising a tax return is being reduced to 12 months from completion of financial year, at par with the time period for filing of return.

#### **Proposals related to Personal Income-Tax**

- ♣ Govt. proposed to reduce the existing rate of taxation for individual assesses between income of Rs. 2.5 lakhs to Rs. 5 lakhs to 5% from 10%.
- ♣ All the other categories of tax payers in the subsequent slabs will also get a uniform benefit of Rs. 12,500/- per person.
- → Govt. proposed to levy a surcharge of 10% of tax payable on categories of individuals whose annual taxable income is between Rs. 50 lakhs & Rs. 1 crore. Existing surcharge of 15% of Tax on people earning more than Rs. 1 crore will continue.
- ♣ Direct tax proposals for exemptions, etc. would result in revenue loss of Rs. 22,700 crores but after revenue gain Rs. 2,700 crore, the net revenue loss in DT would come to Rs. 20,000 crore.

# Economic Survey 2016-17 presented on 31st Jan 2017

Fm Arun Jaitley presented Economic Survey 2016-17 in the

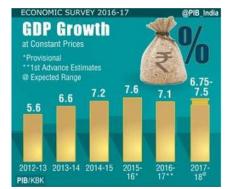

Parliament. It says that the rupee performed better than most of the other emerging market economies.

As per the advance estimates

released by the Central Statistics Office, the growth rate of GDP

at constant market prices for the year 2016-17 is placed at 7.1 per cent, as against 7.6 per cent in 2015-16. This estimate is based mainly on information for the first seven to eight months of the financial year.

Fixed investment (gross fixed capital

formation) to GDP ratio (at current prices) is estimated to be 26.6 per cent in 2016-17, vis-à-vis 29.3 per cent in 2015-16.

 There is a likelihood that Indian economy may recover back to 6 % per cent to 7 ½ per cent in 2017-18.

#### **Fiscal**

- Indirect taxes grew by 26.9 per cent during April-November 2016.
- The strong growth in revenue expenditure during April-November 2016 was boosted mainly by a 23.2 per cent increase in salaries due to the implementation of the Seventh Pay Commission & a 39.5 per cent increase in the grants for creation of capital assets.

#### **Prices**

- The average CPI inflation declined to 4.9 per cent in 2015-16 from 5.9 per cent in 2014-15 & stood at 4.8 per cent during April-December 2015.
- Inflation based on Wholesale Price Index (WPI) declined to (-)
   2.5 per cent in 2015-16 from 2.0 per cent in 2014-15 & averaged
   2.9 per cent during April-December 2016.
- The CPI based core inflation has remained sticky in the current fiscal year averaging around 5 per cent.

#### Trade

 The trend of negative export growth was reversed somewhat during 2016-17 (April-December), with exports growing at 0.7 per cent to US\$ 198.8 billion. During 2016-17 (April-December) imports declined by 7.4 per cent to US\$ 275.4 billion.

- Trade deficit declined to US\$ 76.5 billion in 2016-17 (April-December) as compared to US\$ 100.1 billion in the corresponding period of the previous year.
- Current account deficit (CAD) narrowed in the first half (H1) of 2016-17 to 0.3 per cent of GDP from 1.5 per cent in H1 of 2015-16 & 1.1 per cent in 2015-16 full year.
- Robust inflows of foreign direct investment & net positive inflow of foreign portfolio investment were sufficient to finance CAD leading to an accretion in foreign exchange reserves in H1 of 2016-17.

#### **External Debt**

- At end-September 2016, India's external debt stock stood at US\$
  484.3 billion, recording a decline of US\$ 0.8 billion over the level
  at end-March 2016.
- The share of short-term debt in total external debt declined to 16.8 per cent at end-September 2016 & foreign exchange reserves provided a cover of 76.8 per cent to the total external debt stock.

#### **Agriculture**

- Agriculture sector is estimated to grow at 4.1 per cent in 2016-17 as opposed to 1.2 per cent in 2015-16.
- The total area coverage under Rabi crops as on 13.01.2017 for 2016-17 is 616.2 lakh hectares which is 5.9 per cent higher than that in the corresponding week of last year.

#### Industry

- Growth rate of the industrial sector is estimated to moderate to 5.2 per cent in 2016-17 from 7.4 per cent in 2015-16. During April-November 2016-17, a modest growth of 0.4 per cent has been observed in the Index of Industrial Production (IIP).
- The eight core infrastructure supportive industries, viz. coal, crude oil, natural gas, refinery products, fertilizers, steel, cement & electricity registered a cumulative growth of 4.9 per cent during April-November 2016-17 as compared to 2.5 per cent during April-November 2015-16. The production of refinery products, fertilizers, steel, electricity & cement increased substantially, while the production of crude oil, natural gas fell during April-November 2016-17. Coal production attained lower growth during the same period.

#### Services

 Service sector is estimated to grow at 8.9 per cent in 2016-17, almost the same as in 2015-16. It is the significant pick-up in public administration, defence & other services, boosted by the payouts of the Seventh Pay Commission that is estimated to push up the growth in services.

#### Social Infrastructure, Employment & Human Development

 The Parliament has passed the "Rights of Persons with Disabilities Act, 2016". The Act aims at securing & enhancing the rights & entitlements of Persons with Disabilities. The Act has proposed to increase the reservation in vacancies in government establishments from 3 per cent to 4 per cent for those persons with benchmark disability & high support needs.

### Motivational: "Arise, Awake and Not Stop till the Goal is Reached"

Bankersadda, SSCadda, Ctetadda along with Adda247 Team wishes you all an enthusiastic and optimistic National Youth Day (युवा दिवस).

"Take up one idea. Make that one idea your life- think of it, dream of it, live on that idea. Let the brain, muscle, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success."

-Swami Vivekananda

National Youth Day (Yuva Diwas or Swami Vivekananda Birthday) is celebrated with the great joy and enthusiasm in India every year on 12th of January. It is celebrated to commemorate the birthday of Swami Vivekananda, maker of the modern India and it was first declared by the Government of India in the year 1984 to celebrate the birthday of Swami Vivekananda as the National Youth Day.

The birthday of the Swami Vivekananda was decided to be celebrated as the National Youth Day to complete the aim of making better future of the country by motivating the youths through the way of life and ideas of the Swami Vivekananda. You are the youth of this country, you are the energy the enthusiasm, the future of India. Your prosperity in our country is not just yours, there is a bigger vision it is the actual progress of India itself.

Remember that Strength is Life and Weakness is Death...

Swami Vivekananda was an Indian Hindu monk chief disciple of the 19th-century Indian mystic Ramakrishna. Born into an aristocratic Bengali family of Calcutta, Vivekananda was inclined towards spirituality. His teachings have created a positive impact on The objective followers. behind the government's move was to imbibe the students and youth with the philosophy and ideals of the the man who Swamiji,

My hope of the future lies in the youths of character, intelligent, renouncing all for the service of others, and obedient - good to themselves and the country at large

Swami Vivekananda

brought a change in the thought process of the youth.

Swami Vivekananda once said, "To succeed, you must have tremendous perseverance, tremendous will. 'I will drink the ocean', says the persevering soul; 'at my will mountains will crumble up'. Have that sort of energy, that sort of will; work hard, and you will reach the goal."

"सच्ची सफलता और आनंद का सबसे बड़ा रहस्य यह है: वह पुरुष या स्त्री जो बदले में कुछ नहीं मांगता, पूर्ण रूप से निस्स्वार्थ व्यक्ति, सबसे सफल है" The man or woman who asks for no return, the perfectly unselfish person, is the most successful, being an aspirant it is your hard work that will take you ahead and that will one day certainly pay off when you will achieve your goal. Don't think of clearing marginal cut off before an exam. Is that what you think, that 'I can attempt 12-13 questions of this section and I'll be safe" That is certainly not the correct approach, then maybe it is an obstacle which is keeping you from getting that seat in the final phase. Arise, Awake and Not Stop till the Goal is Reached. Do your best, practice as much as you need to be perfect, competition is cut throat, whether it is banking, SSC or CTET; to succeed you have to analyse your weakness and try to overcome them and convert them to your strengths. Aim to do your best with a plan in every exam of your life.

All the powers in the universe are already ours. It is we who have put our hands before our eyes and cry that it is dark.

(Swami Vivekananda)

### News Makers of the Month - JANUARY 2016

He said, the new indigenously developed payment app BHIM has been named after the main architect of Indian constitution, Dr B R Ambedkar.

### **Success Story: RRB PO Success Story**

Hi, I am ashutosh shukla a silent reader of bankersadda .I have done my graduation in mechanical engineering in 2014 and I did not got placed in my college during my finals because I fall sick for 1 year but i did not loose my hope and started to prepare for banking sector there were many points in my journey which disappointed me lot but these failure did not stopped me to achieve my goals.

# SUCCESSFUL PEOPLE NEVER WORRY ABOUT WHAT OTHERS ARE DOING.

#### I gave many exam like:

- \*Rrb po 2014 written not clear
- \*Ibps po 2014 not given
- \*Sbi po 2015 pre not clear (19 mark)
- \*Lic ado not clear
- \*Rrb po 2015 not qualified for interview 96 mark
- \*Ibps po 2015 mains out 62 mark in mains
- \*Ibps clerk 2015 not in final list 137 mark cutoff 148
- \*Lic aao not cleared 223 mark cutoff 255
- \*Sbi po 2016 not in final list 107 mark in mains 22 in interview
- \*Sbi clerk selected
- \*Ibps 2017 selected for interview awaited
- \*Rrb po2017 selected for interview awaited

So finally selected in sbi clerk and ibps po and rrb po interview awaited. This is only possible due to BANKERSADDA site and ADDA247 app. My reasoning and maths is quite good as I am from mathematical background but my English is poor so with the help of bankersadda I was able to clear english section in all exam as you know the level of english in sbi and ibps.

#### Suggestion for student:

\*For Reasoning do practice and there is no shortcut in reasoning. Attempt test series and solve questions from adda

app.

- \*For Math increase your calculation speed, avoid to attempt arithmetic question first, solve DI, simplification because airthmatic is time taking as it takes at least 1 to 1.5 min.
- \*For English, practice from BA Quiz and vocab. In sbi po discriptive i got 35 mark because of adda. I just followed the pattern of essay and letter given on BA site.
- \*For computer, I strongly suggest quizzes on adda site read the capsule of computer once or twice after that solve quiz as you can give minimum 100 quizzes each have 15 questions so you will do 1500 questions of computer which is more than enough. Please do not waste time in books. Just read Capsule once and then do quiz.
- \*At last for GA portion I followed only daily update and power capsule by bankersadda which is sufficient. Read capsule carefully once and mark the important point then you can read capsule 6 to 7 time at beginning its seem difficult but after first time it become very easy to memorise due to your important making.
- ~At last in banking selection is not depends upon which question you choose it depends upon which question you leave so make a smart choice in selection of question.

~~Big Thanks to bankersadda and its team.

"शांत हूँ तो ये न समझो कि समन्दर में रवानी ही नहीं। जिस दिन उठूँगा, उठूँगा तूफ़ान की तरह, अभी तो हमने उठने की ठानी ही नहीं।"

After the release of ICC and Cricket Australia's list of best players of 2016, Lord's Cricket Ground have followed the trend and selected top 20 players for this calendar year. Indian Test skipper Virat Kohli bagged was honored with No. 1 spot after experiencing a sensational run in 2016 across all the formats of the game.

#### India beat Sri Lanka in final, clinch Asia Cup under-19 title

India, coached by Rahul Dravid, continued their dominance in the Asia Cup as they clinched the U-19 title by defeating Sri Lanka in the final at the R Premadasa stadium in Colombo. This was India's second win in the Asia Cup U-19 tournament.

#### Shiva Keshavan grabs gold at Asian Luge Championship

India's Seasoned Winter Olympian Shiva Keshavan clinched a gold medal at the Asian Luge Championship. Keshavan finished the 2 heat race with a time of 1 minute, 39.962 seconds and top speed of 130.4 km/h.

#### Jeje wins best footballer of the year award by AIFF

Indian forward Jeje Lalpekhlua has named 2016's All India Football Federation (AIFF) Player of the Year, an award given to the best footballer in the country. The 25-year-old who hails from Mizoram will be awarded a prize of 2.5 lakh.

#### Argentina win FIFA Team of the Year title

FIFA has released the final rankings of 2016, with Argentina reclaiming the team of the year title from Belgium, finishing with 1634 points to top FIFA's rankings. As for India, the Blue Tigers have also climbed a staggering 31 places from last year, finishing the year ranked 135, their best climb up the table in history.

#### Arthur Morris inducted into the ICC Cricket Hall of Fame

Arthur Morris, who has became the 82nd player to be inducted into the ICC Cricket Hall of Fame, was given the honor posthumously. Arthur Robert Morris was an Australian cricketer who played 46 Test matches between 1946 and 1955.

#### India win record 4th straight SAFF Women's Championship title

India's women's football team has defeated Bangladesh by 3-1 in Siliguri to win the 2016 South Asian Football Federation Women's Championship for the fourth consecutive time.

#### Mithali Raj to lead India in Women's World Cup Qualifier

Seasoned player Mithali Raj will skipper the Indian women's cricket team for the International Cricket Council (ICC) World Cup qualifiers which is to be played from February 3 to 21,2017 in Colombo.

# Table tennis Olympic champion Li Xiaoxia announces retirement

China's table tennis Olympic champion Li Xiaoxia has announced her retirement. She is the eighth table tennis Grand Slam winner in history with singles crowns from the 2008 World Cup in Kuala Lumpur, 2012 Olympics in London and 2013 world championships in Paris.

### Rafael Nadal wins Mubadala Tennis Championships 2016 in Abu Dhabi

Rafael Nadal has defeated David Goffin to win in Abu Dhabi. Rafael Nadal defeated Belgian David Goffin 6-4, 7-6 to win the Mubadala World Tennis Championships.

### Sivalingam Sathish Kumar of Railways clinches gold for sixth time

Rio Olympian Sathish Sivalingam from Railways won the gold, for the sixth consecutive year, in the men's 77 kg category in the 69th men's and 32nd women's Senior National Weightlifting Championship, at the Ponjesly College of Engineering.

### Kush Bhagat creates history in UAE tourney, wins 3 gold medals in chess championship

Creating history, Mumbai prodigy Kush Bhagat has won all three gold medals on offer in the 1st Western Asia Youth Chess Championships. The event held at Al Ain Chess Club in UAE, he has reigned supreme in all the three categories - rapid, blitz and standard.

#### PR Sreejesh becomes member of FIH Athletes' Committee

The Indian hockey team captain PR Sreejesh has become a member of International Hockey Federation Athletes' Committee. The Committee comprises a total of eight current and former hockey players who have the responsibility to act as a liaison between the FIH and the athletes to make sure the players have the voice in the FIH decision-making process.

#### Shreyas Mehta bags Scottish Jr open squash title

India's top Under-13 player Shreyas Mehta make the country proud by winning the title in the Scottin Junior Open Squash championship at Edinburgh.

# Yana Kudryavtseva, 13-time gymnastics world champion, retires aged 19

Russian rhythmic gymnast Yana Kudryavtseva has retired from competition aged just 19, Kudryavtseva won 13 world championships from 2013 to 2015.

#### World Cup: FIFA to expand competition to 48 teams

The Federation Internationale de Football Association (FIFA) has decided that the World Cup will be expanded to host 48 teams, up from 32. An initial stage of 16 groups of three teams will precede a knockout stage for the remaining 32 when the change is made for the 2026 tournament.

# Eight-year old Kashmiri boy Abbu Ammaz becomes national boxing champion

An eight-year-old boy from Jammu and Kashmir's Rajouri, Abbu Ammaz, has won the gold medal in Thai Boxing Championship at the national level ,a class 2 student was felicitated by the district authorities and the civil administration as well as by the police.

# Roberto Bautista Agut beats Daniil Medvedev, wins Chennai Open 2017

Spaniard Roberto Bautista Agut has won the men's singles title of the Chennai Open Tennis Championship 2017. Agut beat Russian 20-year-old Daniil Medvedev 6-3 and 6-4 to claim the first ATP tournament of the season.

#### Djokovic wins Qatar Open tennis title

Novak Djokovic has won the Qatar Open tennis title. In an epic final in Doha, the Serbian defeated Andy Murray of UK by 6-3 5-7 6-4.

#### Sania wins Brisbane women's doubles title but loses No.1 rank

Indian tennis ace Sania Mirza picked up her first title of the season, combining with American Bethanie Mattek-Sands to lift the Brisbane International women's doubles title. The top-seeded Indo-American duo triumphed 6-2 6-3 against the second-seeded Russian team of Ekaterina Makarova and Elena Vesnina in the final.

### SCHEMES/APPS/PROGRAMME LAUNCHED

### Digital Dakiya scheme inaugurated in MP to encourage cashless transactions

In Madhya Pradesh Indore district witnessed inauguration of first of its kind scheme of the country. Digital Dakiya, which aims

at encouraging cashless transactions. "Digital Dakiya or Digital Postman will visit different places to teach and encourage people about cashless transactions and its benefits.

#### Rajasthan launches Amma canteen-type meal scheme

Rajasthan government has launched a subsidised meal scheme 'Annapurna Rasoi'. As per the scheme, the poor and the needy will get breakfast for Rs. 5 and lunch or dinner for Rs. 8. The scheme will be in 12 cities initially.

### Piyush Goyal to launch GARV-II app to ensure power access to all

To ensure transparency in the implementation of rural electrification programme, the Power Ministry will launch a new app, GARV-II, to provide real-time data of all six lakh villages of the country.

Under this facility, village-wise; habitation-wise base line data on household electrification for all states provided by them has been incorporated.

#### Assam CM launches Atal-Amrit Abhiyan in Assam

Assam CM Sarbananda Sonowal has launched 'Atal-Amrit Abhiyan' scheme. The initiative is a health assurance scheme which will give comprehensive coverage for six diseases and cover all individuals in eligible families with annual income below Rs 5 lakh. 437 diseases are covered under this scheme.

# Health Ministry to launch Measles-rubella vaccine to roll out in February 2017

Health Minister J P Nadda to launch Measles-rubella vaccine to roll out in Goa, Karnataka, Lakshadweep, Puducherry and Tamil Nadu between February 3 and 4, 2017 and the pneumonia vaccine will be introduced in Himachal Pradesh and parts of Uttar Pradesh and Bihar from March 17.

#### Swasthya Raksha Programme launched by AYUSH Ministry

The Union AYUSH (Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy) Ministry has launched 'Swasthya Raksha Programme' to promote health and health education in villages.

#### **Govt launches Swachh Swasth Sarvatra initiative**

GOI launched Swachh Swasth Sarvatra initiative, aiming at strengthening health centres in open defecation-free blocks. Launching this initiative in New Delhi, Health Ministry J P Nadda stated that the objective of this initiative is to strengthen community health centres in 708 Open Defecation free blocks across the country to enable them to achieve higher levels of cleanliness & hygiene.

#### Nagar Uday Abhiyan launched in Madhya Pradesh

Madhya Pradesh CM Shivraj Singh Chouhan has launched Nagar Uday Abhiyan rallies across the state. In these rallies, urban welfare and other public welfare schemes will be reviewed. This campaign will be conducted in three phases from December 25 to February 5, 2017 to assess services being provided to citizens and bring them at standard live.

# Naveen Patnaik launches Biju Sishu Surakshya Yojana to nurture orphan kids

Odisha CM Naveen Patnaik has launched "Biju Sishu Surakshya Yojana" for care and protection of HIV-positive orphan children in the state. Under the scheme, the children would get financial support from the state government for their studies till higher secondary along with Rs. 20,000 reward after passing higher secondary. State govt. would provide Rs. 7,000 to Rs 40,000 for technical education to the beneficiary to meet the expenses like admission and tution fee, study material and other related expenses.

#### Tamil Nadu Gov. launched mobile app 'pinakin' for Tourism

For the benefit of both domestic and international tourists, Tamil Nadu Tourism Department has launched a mobile app 'pinakin' with information on tourism in Tamil Nadu with audio facilities. The app, in two languages Tamil and English which covers world heritage tourist sites like Mamallapuram, Thanjavur Big Temple, Gangaikonda Cholapuram and Darasuram.

#### App named 'SEZ India' launched by Commerce Ministry

The Commerce Ministry has launched a mobile app 'SEZ India' which provides detailed information related to special economic zones. The app was launched under the ministry's e-Governance initiatives. The app and would help the SEZ units and developers to find information easily and track their transactions on SEZ Online System.

#### **MISCELLANEOUS**

# India's First Madame Tussauds Museum In Delhi Unveils Wax Figures Of Big B, Lady Gaga

India is all set to get its first wax museum in June 2017 Unveils Wax Figures Of Actor Amitabh Bachchan, Lady Gaga . Madame Tussauds, the legendary wax attraction entertainment hotspot is all set to open its doors in capital New Delhi. It will be located in the heart of the Delhi - Connaught Place at Regal Cinema.

#### Rights of Persons with Disabilities Bill passed in Lok Sabha

The Lok Sabha has passed the Rights of Persons with Disabilities Bill 2016 in Lok Sabha, which replaces the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act 1995. The number of categories of differentlyabled has been increased from seven to twenty-one so that the Divyangs could get the benefits of various schemes at the Centre and State level.

#### Vedanta launches smart class project in Chitradurga

Vedanta Foundation and Vedanta Sesa Goa Iron Ore, in collaboration with the Karnataka Directorate of Education, have launched a pilot project to promote digital education in schools in Chitradurga, Karnataka.The Deputy Director of Public Instruction, Chitradurga district, Revana Siddappa, has launched 'The Smart Class' project.

#### **Anjani Portland Cement commissions new plant**

Anjani Portland Cement has commissioned a 16-mega watt (MW) coal-based captive power plant at its cement unit in Telangana. Anjani Cement is a high quality cement prepared from the finest raw material Owing to optimum water demand.

# Railway minister launches new IRCTC app to promote digital ticketing

To promote ease of ticketing through digital transactions, railway minister Suresh Prabhu has released the new passenger mobile application named 'IRCTC Rail Connect app'. Currently eticketing system caters to over 10 lakh passengers daily (comprising 58% of total reserved passengers).

#### Kohli research block inaugurated at Gachibowli

N Chandrasekaran, Chairman designate of Tata Sons, has inaugurated the Kohli Research Block at the International Institute of Information Technology Gachibowli. The block is part of the Kohli Center on Intelligent Systems (KCIS) set up in July 2015.

#### SC allows 24-week pregnant woman to have abortion

The Supreme Court has given permission to a woman in her 24th week of pregnancy to undergo termination of pregnancy after medical report finds foetus is without skull. The Court says, a woman can abort if foetus poses danger to mother's life.

### New Adoption Regulations come into force from 16 January 2017

The new Adoption Regulations have come into force on 16 January 2017, which have replaced the Adoption Guidelines, 2015, will further strengthen the adoption program in the country by streamlining the process. Transparency, early deinstitutionalisation of children, informed choice for the parents, ethical practices and strictly defined timelines in the adoption process are the salient aspects of the Adoption Regulations 2017.

### **Handy Notes Mathematics: Trains & Speed**

The basic concept for train related problem:

#### Speed = Distance / time.

But we should keep in mind these discussed points below.

- (i) When the train is crossing a moving object, the speed has to be taken as the relative speed of the train with respect to the object.
- (ii) The distance to be covered when crossing an object, whenever trains crosses an object will be equal to:

#### Length of the train + Length of the object

**NOTE-** When train is crossing a stationary object (with length) like bridge, platform, and then its Length is added to the length of train to get required length.

When train is crossing a pole, tree, man etc.. then their length is neglect with respect to train, Here only length of train is considered.

#### **Condition:**

#### When Train crosses single object:

#### (Let the speed of train is St and length of train Lt)

1. Train Crosses a stationary object (without length like tree, man, pole etc..)

So time taken by train to cross the object  $=\frac{\text{Length of train}}{\text{Speed of train}}$ :

2. Train Crosses a stationary object of Length L

So time taken by train to cross the object =  $\frac{\text{Length of train} + L}{\text{speed of train}}$  $= \frac{(Lt + L)}{St}$ 

3. Train crosses a moving object of length L with speed  $s_{\rm l}$  in the same direction of train

So time taken by train to cross the object = Length of train + L
Speed of train—Speed of object

4. Train crosses a moving object of length L with Speed S<sub>1</sub> in the opposite direction of train

So time taken by train to cross the object = Length of train + L

Speed of train + Speed of object

#### When two train crossing each other in both directions:

Let length of one train =  $L_1$  Length of Second train =  $L_2$ 

They are crossing each other in opposite direction in  $t_1\,\text{sec}$  and same direction in  $t_2\,\text{sec}$  respectively,

Then

Speed of faster train =  $[(L_1 + L_2)/2][1/t_1 + 1/t_2]$ Speed of slower train =  $[(L_1 + L_2)/2][1/t_1 - 1/t_2]$ 

If two trains (or bodies) start at the same time from points A and B towards each other and after crossing they take a and b sec in reaching B and A respectively, then:

(A's speed) : (B's speed) =  $\sqrt{b:a}$ 

#### **Practice Question**

 A 280 meter long train moving with an average speed of 108 km/h crosses a platform in 12 seconds. A man crosses the same platform in 10 seconds. What is the speed of the man?

(a) 5 m/s (b) 8 m/s (c) 12 m/s (d) 12 m/s

Two trains P and Q start from two places A and B towards B and A respectively. After passing each other they take 25 hours and 16 hours to reach B and A respectively. If the train from A is moving at 8 km/h then find the speed of other train.

(a) 12 km/hr (b) 6 km/hr (c) 9 km/hr (d) 10 km/hr

3. A train consists of 12 bogies, each bogie is 15 m long. The train crosses a telegraph post in 18 s. Due to some problem, two bogies were detached. The train now crosses the telegraph post in:

(a) 15 s (b) 12 s (c) 18 s (d)20 s

4. Two trains with their speeds in the ratio of 3:4 are going in opposite directions along parallel tracks. If each takes 3 seconds to cross a telegraph post, then the time taken by the trains, to cross each other completely, will be:

(a) 3 sec. (b) 4 sec. (c) 7 sec. (d) 21 sec.

5. Neeraj and Aniket are running towards each other, each one from his own house. Neeraj can reach Aniket's house in 25 min of running, which is half the time Aniket takes to reach Neeraj's house. If the two started running at the same time, how much more time will it take Aniket to reach the middle than Neeraj?

(a) 35 min (b) 25 min (c) 12.5 min (d) 50 min

6. The distance between two stations Rampur and Kanpur is 900 km. A train starts from Rampur and moves towards Kanpur at an average speed of 30 km/hr. Another train starts from Kanpur, 20 minutes earlier than the train at Rampur, and moves towards Rampur at an average speed of 40 km/hr. How far from Rampur will the two trains meet?

(a) 380 km (b) 320 km (c) 240 km (d) 330 km

7. A train overtakes two girls who are walking in the opposite direction in which the train is going at the rate of 3 km/hr and 6 km/hr and passes them completely in 36seconds and 30 seconds respectively. The length of the train (in metres) is:

(a) 120 m (c) 125 m (b) 150 m (d) 75 m

8. A bus meets with an auto at 10:00 am while going the same

way in the same direction towards Mathura. The Bus reach at Mathura at 12:30 p.m. and take 1 hour rest at there. Bus return on the same way and meet with the same auto half an hour later. At what time the auto will reach at Mathura?

(a) 3 pm

- (b) 4 pm
- (c) 3:30 pm
- (d) 5 pm
- Divyaraj travels from New Delhi to Patna. He stops at equidistant places, i.e., Lucknow and Mirzapur during his journey. He covers the first one third distance at a speed of 50 km/h, the 2<sup>nd</sup> one third distance at a speed of 40 km/h and the last one third distance at a speed of 60 km/h. However, while returning, his uniform speed is 75 km/h and he stops only at Jaunpur, which is exactly at the mid-point between New Delhi and Patna. What is the approximate average speed (in km/h) of Ankit during the whole journey, not considering his halt time?
  - (a) 59.8

(b) 59.01

(c) 60.8

- (d) 61.8
- 10. The distance between two stations, Delhi and Amritsar, is 450 km. A train starts at 3: 10 pm from Delhi and moves towards Amritsar at an average speed of 20 km/hr. Another train starts from Amritsar at 4 pm and moves towards Delhi at an average speed of 60 km/hr. At what time will the two train meet.
  - (a) 7. 25 p.m.
- (b) 8. 50 p.m.
- (c) 9.25 p.m.
- (d) 7.50 p.m.

#### **SOLUTIONS:**

- (b):Speed of train =  $108 \text{km/hr} = 108 \times 5/18 \text{ m/sec} = 30 \text{m/s}$ If the length of the platform be x meters, then (x+280)/12=30
  - $\Rightarrow$  x+280=360
  - ⇒x= (360-280)=80m
  - $\therefore$  speed of man=80/10 = 8m/s
- (d) We know that

(P's speed) : (Q's speed) = 
$$\sqrt{Q:P}$$

8: Q's speed = 
$$\sqrt{Q:P} = \sqrt{16:25} = 4:5$$

3. (a); Length of train =  $12 \times 15 = 180 \text{ m}$ 

Speed = 
$$\frac{180}{18}$$
 = 10 m/sec

New Distance = 
$$15 \times 10 = 150$$
 m

Req. time = 
$$\frac{150}{10}$$
 = 15 sec

- (a); Let speed of two train be 3x & 4x
  - $L_1$  (Length of 1<sup>st</sup> train) =  $3x \times 3 = 9x$  meter
  - $L_2$  (Length of 2<sup>nd</sup> train) = 12x meter
  - A.T.Q. —

Req. Time = 
$$\frac{\text{Sum of length of two trains}}{\text{Relative speed}}$$

$$=\frac{9x+12x}{7x}=3 \text{ sec}$$

- (c); Neeraj can reach the middle in 12.5 min Aniket can reach the middle in 25 min
  - So, Reg. time = 25 12.5 = 12.5 min

(a) Distance covered by  $2^{nd}$  train in 20 minutes  $=\frac{20}{60}\times 40=$ 

Remaining distance = 
$$900 - \frac{40}{3} = \frac{2660}{3}$$
 km

Time after which they will meet = 
$$\frac{\frac{2000}{3}}{\frac{3}{70}}$$
 hours

Remaining distance = 
$$900 - \frac{40}{3} = \frac{2660}{3}$$
 km

Time after which they will meet =  $\frac{2660}{70}$  hours

Distance covered by A in this time =  $\frac{2660}{210} \times 30 = 380$  km

(b) Let the speed of train is V m (see and Length is L m)

(b); Let the speed of train is V m/sec and Length is L m

$$\left(3 \times \frac{5}{18} + V\right) \times 36 = L$$

$$\left(6 \times \frac{5}{18} + V\right) \times 30 = L$$

$$\left(\frac{5}{3} + V\right) \times 30 = \left(\frac{5}{6} + V\right) \times 36$$

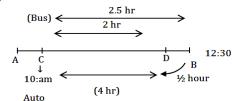

$$50 + 30V = 30 + 36V$$

$$20 = 6V$$

$$V = \frac{20}{6}$$
 m/sec

Length = 
$$\left(\frac{5}{6} + \frac{20}{6}\right) \times 36 = 150$$

8. (a);

Let C is point where the auto and the bus meet first time and D is a point where the auto and the Bus meet 2nd time. According to the above diagram:

Distance C D covered by Bus in 2 hour and auto covered the same distance in 4 hr.

Distance C B covered by Bus 2.5 hr

And by Auto in double of Bus =  $2.5 \times 2 = 5$  hour

Time = 10 + 5 = 3 pm

9. (b); While going average speed

$$= \frac{3xyz}{xy+yz+zx} = \frac{3\times50\times40\times60}{50\times40+40\times60+60\times50}$$

$$= \frac{(3\times50\times40\times60)}{2000+2400+3000}$$

$$= \frac{3\times50\times40\times60}{7400}$$
= 48.64 km/hr

- $\therefore$  Average speed during while journey =  $\frac{2\times48.64\times75}{(75+48.64)}$
- ≈ 59.01 km/hr
- 10. (c); In 50 min, first train covers =  $\frac{50}{60} \times 20$

Remaining distance = 
$$450 - \frac{50}{3} = \frac{1300}{3}$$
  
To cover  $\frac{1300}{3}$  km, time =  $\frac{1300}{3} \times \frac{1}{(20+60)}$   
=  $\frac{1300}{3} \times \frac{1}{3}$ 

- $= \frac{1300}{3} \times \frac{1}{80}$  $= \frac{65}{12} \text{ hour}$
- = 5 hr 25 min
- ∴ Required time =4 +5 hr 25 min
- = 9:25 pm

### **Handy Notes Advance Mathematics: Prime Numbers**

A Number which has exactly two factors 1 and itself is called a prime number.

Prime Numbers from 1 – 100 are

2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47, 53, 59, 61, 67, 71, 73, 79, 83, 89, 97.

i.e. there are total 25 prime numbers up to 100.

#### **Some Results on Prime Numbers**

- (i) Up to 100 total prime Numbers = 25
- (ii) Up to 50 total prime Numbers = 15
- (iii) Sum of two prime numbers(except 2) is always even.
- (iv) Sum of three prime numbers(except 2) is odd.
- (v) 2 is only even prime number.
- (vi)Each prime number has two factors 1 & itself so 1 is not prime numbers.
- (vii) Smallest prime numbers of three digit = 101
- (viii) Largest prime number of three digit = 997
- (ix) If the square of any prime number is divided by 24 then remainder is always 1, (one)

E.g. 
$$\frac{1}{24}$$
 ×  $(11^2 + 13^2 + 17^2 + 19^2 + 23^2)$   
= 1 + 1 + 1 + 1 + 1

#### **Composite Numbers**

A Number which has more than two factors is a Composite Number.

E.g. 4, 6, 8, 9.....

Note: 1 is neither prime nor Composite Number.

2 is only even Prime Number.

#### **Co-Prime Numbers**

The numbers which have no common factor other than 1 are called co-primes or co-prime numbers.

E.g. (4, 5), (15, 8)

#### **Some Results on Numbers**

(i) Multiplication of four numbers which are consecutive natural numbers is always divisible by 24.

E.g. 
$$\frac{101\times102\times103\times104}{24}$$
 or  $\frac{7\times8\times9\times10}{24}$ 

(ii) The difference of squares of two consecutive natural numbers is always equal to sum of these numbers.

$$(9^2 - 8^2) = 9 + 8$$

$$119^2 - 118^2 = 119 + 118$$

(iii) The difference of squares of two consecutives odd numbers is always divisible by 8.

E.g. 
$$11^2 - 9^2 = 121 - 81 = 40$$
  
 $\frac{40}{8} = 5$ .

(iv) The difference of squares of two consecutive even numbers is always divisibly by 4.

$$10^2 - 8^2 = 100 - 64 = 36$$

$$\frac{36}{4} = 9$$

- (v) Any digit repeated 6 times is divisible by 7, 11, 13& 37.E.g. 555555 or 222222 ......All are divisible by 7, 11, 13 & 37.
- (vi) Any two digit number repeated 2 times is always divisible by 101.E.g. 3434 or 5656 is divisibly by 101.
- (vii) If P is a prime number and 'a' is an integer than  $(a^p a)$  is divisible by P. E.g.  $(5^{11} - 5)$  is divisible by 11.
- (viii) If n is an odd number then  $(2^{2n} + 1)$  is always divisibly by 5.
- (ix) If n is an even no, then  $(2^{2n} 1)$  is always divisible by 5.
- (x) The product of three consecutive natural numbers is always divisible by 6.

E.g. 
$$\frac{1}{6} \times (8 \times 9 \times 10)$$
 or  $\frac{1}{6} \times (11 \times 12 \times 13)$ 

(xi) The product of three consecutive natural numbers, if first no. is even. is always divisible by 24.

E.g. 
$$\frac{1}{24} \times (8 \times 9 \times 10)$$
 or  $\frac{1}{24} \times (18 \times 19 \times 20)$   
 $\downarrow$   $\downarrow$  even even

- (xii) Any number written in the form of  $(10^n-1)$  is divisible by 3 and 9.
- (xiii) Any natural number of the form  $(n^3 n)$  is always divisible by 6.

## **Handy Notes Reasoning: Logical Venn-Diagram**

A Venn diagram is a diagram that shows all possible logical relation between a finite collection of different sets of objects through circle. Relations between the sets can be indicated by the arrangement of the circles. In short, it is a diagram that uses circles to represent sets and their relationship

In this topic, two types of questions are generally asked;

(a) Venn diagram of sets of different object.

Ex.:- India, Kerala, Punjab.

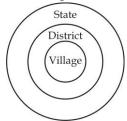

- (b) Giving answers of the question from the given mixed diagram of two or more figures.
  - There are some basic types of Venn diagram that shows different relationships.
- **1.** If all the items given in the question belong to different group then it will be shown by diagram as given below.

Ex.:- Women, Lion, Nation

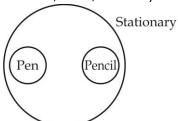

2. If the first item is related to the second item and second item is related to the third item, then all three items will be shown by diagram as shown below:

Ex.:- Village, District, State.

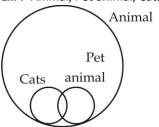

**3.** If two different items are related to third item, then they will be shown by diagram as given below.

Ex.:- Pen, Pencil, Stationary.

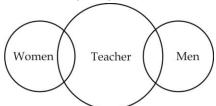

**4.** If there is some relationship between two items and these two items are completely related to the third items, then they will be shown by diagram as given below.

Ex.:- Animal, Pet animal, Cats

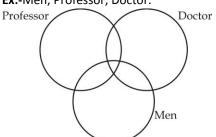

**5.** If two items are completely different from each other but are related to some extent by not completely to a third item, then they will be shown by diagram as given below.

Ex.:- Teacher, Men, Women

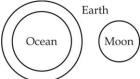

**6.** If all three items are related to each other to some extent but not completely, then they will be shown by a diagram as shown below:

Ex:-Men, Professor, Doctor.

- **Ex.-** The weather of Hyderabad is for better than Chennai. (Wrong)

The weather of Hyderabad is far better than that of Chennai. (Right)

## Handy Notes Computer: Some Terms Related to the Internet

**Ping:** Ping is a networking utility program or a tool to test if a particular host is reachable. Simply it is a diagnostic that checks if your computer is connected to a server.

**E-Commerce:** Electronic commerce, commonly written as ecommerce or eCommerce, is the trading or facilitation of trading in products or services using computer networks, such as the Internet or online social networks.

E-commerce businesses may employ some or all of the following:

- Online shopping web sites for retail sales direct to consumers
- Providing or participating in online marketplaces, which process third-party business-to-consumer or consumerto-consumer sales
- Business-to-business buying and selling
- Business-to-business (B2B) electronic data interchange

**E-Governance**: Electronic governance or e-governance is the application of information and communication technology (ICT) for delivering government services, exchange of information, communication transactions, integration of various stand-alone systems and services between government-to-customer (G2C), government-to-business (G2B), government-to-government (G2G) as well as back office processes and interactions within the entire government framework.

**Blog:** A blog is a discussion or informational website published on the World Wide Web consisting of discrete, often informal diary-style text entries ("posts"). For Example Blogger which is a blog-publishing service that allows multiuser blogs with time-stamped entries.

**Incognito Mode:** Privacy mode or "private browsing" or "incognito mode" is a privacy feature in some web browsers to disable browsing history and the web cache. This allows a person to browse the Web without storing local data that could be retrieved at a later date.

**Proxy:** A proxy or proxy server is basically another computer which serves as a hub through which internet requests are processed. By connecting through one of these servers, your computer sends your requests to the proxy server which then processes your request and returns what you were wanting. In this way it serves as an intermediary between your home machine and the rest of the computers on the internet. Proxies are used for a number of reasons such as to filter web content or to go around restrictions.

**NIC:** A Network Interface Card (NIC) is a computer hardware component that allows a computer to connect to a network. NICs may be used for both wired and wireless connections. Due to the popularity and low cost of the Ethernet standard, most new computers have a network interface build directly into the motherboard.

MAC Address: A media access control address (MAC address) of a computer is a unique identifier assigned to network interfaces for communications at the data link layer of a network segment. MAC addresses are most often assigned by the manufacturer of a network interface controller (NIC) and are stored in its hardware, such as the card's read-only memory or some other firmware mechanism.

**HTTP:** HyperText Transfer Protocol is the underlying protocol used by the World Wide Web and this protocol defines how messages are formatted and transmitted, and what actions Web servers and browsers should take in response to various commands.

For example, when you enter a URL in your browser, this actually sends an HTTP command to the Web server directing it to fetch and transmit the requested Web page. The other main standard that controls how the World Wide Web works is HTML, which covers how Web pages are formatted and displayed.

## Handy Notes Banking: Unified Payment Interface of India

UPI is an online payments solution which will facilitate the transfer of funds instantly between person and person (or peer to peer) using a smartphone. UPI can be used both to send and receive funds.

UPI is a payment system which facilitates the fund transfer between two bank accounts. This payment system works on the mobile platform. UPI is one of the most advanced method among all the <u>digital payments</u>.

#### **Benefits of UPI**

- The UPI transfers the fund immediately. No restriction of holiday or working hours. The bank strike will also not affect the UPI payments.
- 2. You do not require the bank account number and IFSC code of the recipient.
- 3. You can transact from many bank account through a single UPI app.
- 4. You are not required to wait up to 24 hours to send money to a new payee. Anyone would get money immediately.

#### Virtual Payment Address (VPA)

The UPI payment system does not use the bank account details of the recipient. But, there should be an accurate identification of the money recipient. So, every user of the UPI apps must have a unique ID. This unique ID is called as the <u>Virtual Payment Address</u> (VPA).

The App provider bank would allot the VPA to each user. You can give this VPA to anyone to receive the money. The app would itself keep storing the VPAs of the person to whom you have transferred the money.

What is the Charge of UPI Transfer
A transaction through the UPI would cost about 50 paisa.

#### **How To Connect With Bank Account**

The UPI has made the fund transfer very easy. But It is not a mobile wallet. Unlike the mobile wallet, you are not required to credit money into the UPI app.

Rather, the every fund transfers take place through your bank account. UPI app just acts as the link between you and your account. In other words, It has made the bank account transaction much easy and cheap.

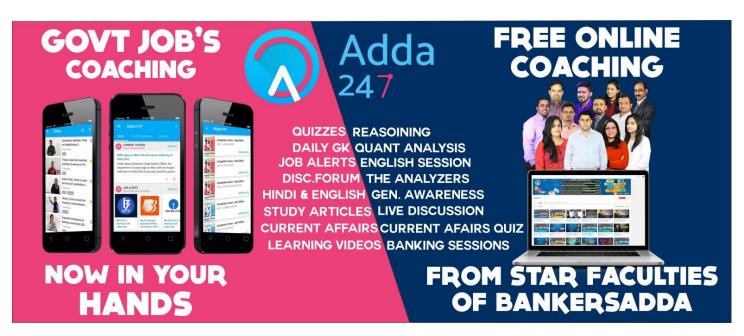

So, to establish the link between you and your account, you have to connect UPI app to your bank account. This is a one-time process. It is done when you download a new UPI app. The UPI payment system gives you liberty to connect many bank account to one VPA.

#### **Security of UPI Payment**

The united payment interface is as much secure as internet banking or mobile banking. To transfer the money through the UPI app, one has to go through the two-factor authentication.

- 1. To open UPI app, you have to give a PIN.
- To transfer the money, again you have to enter the MPIN or UPI PIN.

All other transactions also go through these two two-factor authentication.

## Handy Notes GS: The Gupta Dynasty (AD 320-550)

The Gupta Dynasty Era is often remembered as the Classical Age. Under the Gupta rulers, most of North India was reunited. The Gupta Empire extended from the Brahmaputra to the Yamuna and Chambal, from the Himalayas to the Narmada. It has also been described as a **Golden Age.** The military exploits of the first three rulers Chandragupta I (AD 320-335), Samudragupta (AD 335-376) and Chandragupta II (AD 376-415)—brought all of the North India under their leadership.

#### **Highlights of the Gupta Period**

Kalidasa, poet and dramatist known as the Shakespeare of India; Aryabhatta, Varahamihira & Brahmagupta, the great mathematicians and astronomers; Kumarila Bhatta and Shankaracharya, the great preachers of Hinduism and Dhanwantri, the great physician.

**Fa-hien**, a Chinese pilgrim who visited India (AD 399-414) during Vikramaditya's reign, gave an excellent account of the Gupta Dynasty and prosperity of the country.

#### **IMPORTANT GUPTA RULERS**

Sri Gupta was the founder of the Gupta Dynasty. He ruled over parts of Bengal and at that time Gupta was a small kingdom. His son Ghatotkacha Gupta also finds a very small mention just like his father. But Chandragupta I, his son and grandson of Sri Gupta, was the first powerful Gupta emperor.

- (a) Chandragupta I (AD 320-335) founded the empire around AD 320 in Magadha and ruled till AD 330. He was called 'the King of Kings'. He married Kumara Devi, the Lichhavi princess, and as there was no heir to the Lichhaviya throne, he merged it to his empire, which further strengthened his position. He died in AD 335 leaving his son Samudragupta a vast empire extending from Patali-putra to Prayag.
- (b) Samudragupta (AD 335-375), the successor of Chandragupta I, was known as the Indian Napolean as he never suffered defeat in the battlefield. His four main campaigns are mentioned in a pillar inscription. It was actually an Ashoka pillar and later Samudragupta added his inscription to it. Harisena, the commander-in-chief, of Samundragupta's army was the author of this edict. He was also a very good poet and at many places he is referred to as Kaviraja. He had two sons, Ramagupta and Chandragupta II.
- (c) Chandragupta II or Vikramaditya (AD 375-413) was the son of Samudragupta and is also referred to as the Vikram of Ujjain. He removed foreign rule completely from India. He ruled close to 40 years. He is remembered as the best Gupta

ruler as he completed many of the campaigns that were left incomplete by his predecessor. Many historians term him as the hero of the Indian history. Pataliputra and Ujjain became the prominent cities in the world map during his reign.

#### Nine Gems in the Court of Chandragupta II

Kshapanaka	Astrology
Dhanvantri	Medicine
Kalidasa	Drama and Poetry
Amarasimha	Lexicography
Varahamihira	Astrology
Vararuchi	Grammar
Sanku	Architecture
Vetalabhatta	Magic
Harisen	Poet

**Fa-hien** (AD 399-411), a Chinese traveller, has written about India during the reign of Chandragupta II. He came from China to study the original Buddhist texts and was greatly influenced by the superior architecture and political greatness Chandragupta II provided to India.

#### **LATER GUPTAS**

Chandragupta II had two queens, Dhruvadevi and Kuberanaga. Govindagupta and Kumaragupta I were the two sons of Chandragupta II from the first queen and a daughter Vakataka was from his second queen. Kumaragupta I ascended the throne after his father Chandragupta II, in AD 414. Towards the end of his life, the Gupta Empire was under constant threat of invasion by the Hunas rulers. He died in AD 455. His son, Skandagupta Vikramaditya (AD 455-467), succeeded him. But Skandagupta had to face a political crisis, because of the threat from the other heirs to the throne, during his 12 years of reign. The later Guptas were Puru Gupta, Narasimha Gupta, Baladitya, Kumara Gupta II, Tathagata Gupta or Vainya Gupta, Kumara Gupta III and Vishnu Gupta. By AD 512, the Huna king Toraman and his son Mihiragula became powerful and controlled central India for some time. By then the descendants of the Gupta Dynasty ruled only a part of Pataliputra as several states that were merged with the Gupta Empire had become independent. After Vishnu Gupta the empire collapsed, its fragmented remnants existed here and there, till they too, finally disappeared from the historical map of India by the end of sixth century AD.

## THE HINDU REVIEW: JANUARY 2017

- 1. Reserve Bank has came out with conditions for exchange of defunct notes for those, including non-resident Indians, who failed to do so till 30th December 2016, the last day for depositing the invalid currency notes in banks. - **2.** Which country has launched atmospheric CO2-monitoring TanSat satellite, in an effort to curb and monitor greenhouse gas emissions?
- 3. Which city has emerged as the country's most well-read city in the fourth consecutive year with Bengaluru and Mumbai taking the second and third spot, according to Annual Reading Trends Report 2016 by Amazon?
- **4.** Name the bollywood actor/actress, who has been ranked No. 1 on the fifth Forbes India Celebrity 100 List?
- **5.** Name the country, which has won the the FIFA Team of the year 2016 title?
- **6.** Name the player, who has been awarded the best footballer of the year by All India Football Federation (AIFF)?
- **7.** Which country has announced to hold its first ever joint military exercise to begin a new level of bilateral military

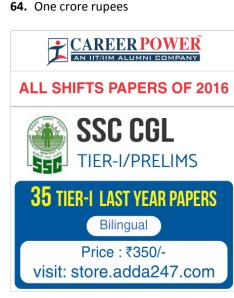

- engagement with China recently?
- B. Eminent modern Bengali poet \_\_\_\_\_\_ has been chosen for the prestigious Jnanpith Award for 2016, the literary organisation has announced.
- **9.** Odisha Chief Minister \_\_\_\_\_\_ has launched "Biju Sishu Surakshya Yojana" for care and protection of HIV-positive orphan children in the state.
- 10. Which country signed into law the USD 618 billion defence budget for 2017, which enhances security cooperation with India and conditions nearly half of the funding to Pakistan on a certification that it is taking demonstrable steps against the Haqqani Network?
- **11.** Good Governance Day is being observed 25th December every year to mark the birthday of former Prime Minister who has turned 92 on 25th December 2016.
- **12.** Which country has unveiled a towering Christmas tree, claiming to have surpassed the world record for the tallest artificial Christmas tree?
- 13. Name the company. which in collaboration with Ministry of

- Consumer Affairs has announced a nationwide 'Digitally Safe Consumer campaign, as part of a larger effort to help better protect consumer interest online recently?
- **14.** Social networking giant Facebook has received 6,324 requests from Indian government agencies for 8,290 users/accounts in the first half of 2016, this is the second highest after
- **15.** The government has launched a host of online initiatives including a mobile App \_\_\_\_\_\_ and an 'Online Consumer Mediation Centre (OCMC)' to provide speedy redressal of consumer grievances.
- **16.** Name the player, who has honored with No. 1 spot after experiencing a sensational run in 2016 across all the formats of the game by Lord's Cricket Ground?
- 17. The Department of Consumer Affairs, Ministry of Consumer Affairs Food and Public Distribution has been celebrated the National Consumer Day this year (2016) with the theme
  \_\_\_\_\_ on 24th December, 2016 at Vigyan Bhavan, New Delhi.
- **18.** Kuchipudi found a place in the Guinness World Records when a record 6,117 dancers came together to present a show. Kuchipudi is the classical dance of which state?
- **19.** Which country will host the fifth edition of the Global Conference on Cyber Space (GCSS) in 2017 in which over 100 countries are expected to participate?
- **20.** Government has launched ------ for Consumers and Digi-Dhan Vyapar Yojana for Merchants to promote digital transaction.
- **21.** Which state has rolled out 'Atal-Amrit Abhiyan' health insurance scheme which will provide coverage against several critical illnesses?
- **22.** The foundation stone for India's first second generation ethanol bio-refinery to be set up by Hindustan Petroleum Corporation (HPCL) in which city?
- **23.** Name the British Pop superstar, who had passed away at the age of 53 from suspected heart failure recently?
- **24.** Name the village, which has been adopted by SBI for driving the Aadhaar-based merchant payment initiative, recently?
- **25.** Name the player, who has ended the year on a high by bagging the National title in 6-red snooker, the shorter format of the game?
- 26. India has tested its \_\_\_\_\_\_ intercontinental ballistic missile (ICBM) in its final operational configuration from Wheeler Island off Odisha , paving the way for its eventual induction into the Strategic Forces Command (SFC) after user-trials.
- **27.** Which of the following state has launched 25 bio-diesel buses recently?
- **28.** Name the city, which is the first to organised Digi Dhan Mela to promote cashless transactions?
- **29.** Name the person, who has resigned from the Rajya Sabha citing health issues recently?
- **30.** In a relief to farmers hit by demonetisation, the Reserve Bank of India (RBI) has given an additional how many days

- to repay their crop loans due in November-December, 2016 and prompt repayment would be eligible for the extra 3% interest subsidy?
- **31.** Name the scheme, which has been launched by Karnataka Vikas Grameen Bank for employing women in villages to promote and improve the cashless transactions in rural areas?
- **32.** Who has been appointed as the first ever female director of Vatican Museums?
- **33.** Which of the following banks, with UIDAI and NPCI, has announced the nationwide launch of its Aadhaar Pay, the country's first Aadhaar-linked cashless merchant solution recently?
- **34.** Name the tennis player, who has clinched the ITF Hong Kong F4 Futures in 2016?
- **35.** Which of the following countries has passed a new law to levy environment tax on polluters, especially on heavy industries?
- **36.** Actor Salman Khan on Twitter has announced the launch of his app, \_\_\_\_\_\_ on his 51st birthday (27th December 2016).
- **37.** Former \_\_\_\_\_ prime minister Ratnasiri Wickremanayake has passed away at the age of 83.
- **38.** Non-banking finance company Au Financiers (India) has received final approval from the Reserve Bank of India to start operations as a small finance bank. Au Financiers (India) based in------
- **39.** Tata Motors has roped in Bollywood star \_\_\_\_\_ as brand ambassador for its commercial vehicle (CV) business unit.
- **40.** Union Minister for Science and Technology and Earth Sciences, Dr Harsh Vardhan has inaugurated the 24th National Children's Science Congress at Vidyapratisthan's Institute of Information Technology, Baramati in------
- **41.** The Reserve Bank of India (RBI) has opened a banking ombudsman office in Dehradun, Uttarakhand. It is the third ombudsman office in North India after Kanpur and Chandigarh. Who is the present Governor of RBI?
- **42.** Name the actor, who has received an honorary doctorate from Maulana Azad National Urdu University (MANUU) in Hyderabad for his extraordinary contribution in promotion of the Urdu language and culture through his films?
- **43.** Who has been appointed by the Government of India as the deputy governor of the Reserve Bank of India (RBI) recently?
- **44.** Pune based public sector lender Bank of Maharashtra, has helped to make the village of Malangaon, in Sangli district, Maharashtra, a completely cashless village. Who is the present Managing Director (MD) & Chief Executive Officer (CEO) of Bank of Maharashtra?
- **45.** PM Narendra Modi has laid the foundation stone of Char Dham highway development project. Char Dham Yatra is an annual pilgrimage to the shrines of Kedarnath, Badrinath, Gangotri, and Yamunotri in which state?
- **46.** Name the player, who has been named skipper of Cricket Australia's ODI team of the year 2016.

- 47. Name the State, which has launched Nagar Uday Abhiyan Scheme, recently?
- **48.** Indian Army has inked an agreement with to set up a research and development (R&D) cell at the IIT campus to identify problems and possible solutions for the Indian Army.
- 49. India has signed an agreement with Bhutan for assistance in green and sustainable construction of infrastructure in the Himalayan kingdom. What is capital of Bhutan?
- 50. Name the North-eastern state, which will host the 2022 National Games coinciding with its 50 years of statehood.
- **51.** Eminent Rajasthani writer has been chosen for the 26th Bihari Puraskar, 2016 by the K K Birla Foundation.
- 52. Name the Indian State, which has decided to set up pilot corridor for an innovative concept of 'Caterpillar Train'?
- **53.** Ana Ivanovic, the former world No.1 and 2008 French Open champion, has been retired from tennis recently. She is belongs to which country?
- 54. Which among the following private sector banks has introduced a full-fledged NRI-focused mobile banking application called SIB Mirror+ across major mobile platforms.
- 55. Sunderlal Patwa, who passed away recently, was the former Chief Minister of which state?
- 56. Government of India has launched Swachh Swasth Sarvatra initiative, aiming at strengthening health centres in open
  - 28. Gurugram, Haryana
  - 29. Mithun Chakraborty
  - **30.** 60 Days
  - 31. Bank Sakhi Scheme
  - 32. Dr Barbara Jatta
  - 33. IDFC Bank
  - 34. Yuki Bhambri
  - 35. China
  - 36. BeingInTouch
  - 37. Sri Lanka
  - 38. Jaipur, Rajasthan
  - 39. Akshay Kumar
  - 40. Pune, Maharashtra

## **Twisted Ones for Banking Exams: Reasoning**

**Directions (1-5):** Study the following information carefully and answer the questions given below:

A, B, C, D, E, F, G and H are eight friends who live in an eight-story building. The ground floor is numbered one and the topmost floor is numbered eight. Each of them studies different subjects, viz MATHS, CHEMISTRY, PHYSICS, BIOLOGY, ENGLISH, HISTORY, CIVICS and GEOGRAPHY, but not necessarily in the same order. There is only one floor between A and the floor on which the one who study GEOGRAPHY lives. The person who study GEOGRAPHY does not live on floor number 1. D lives just below B. The one who study MATHS lives on an even-numbered floor and just above the floor on whichthe one who study ENGLISH lives. The person who study HISTORY lives on an even-numbered floor but not on the 8<sup>th</sup> floor. Neither D nor H lives on the 1<sup>st</sup> floor. Only one person lives between the one who study CIVICS and D. A lives on an odd-numbered floor and E lives just above A. B lives on the fourth floor.

Only two persons live between the person who study HISTORY and A. F lives just below the one who study ENGLISH. D study neither ENGLISH nor GEOGRAPHY. One who study Physics does not live on an odd-numbered floor. G does not study CHEMISTRY. There are two floors between the floor on which H lives and the floor on which E lives. Only two persons live between the one who study BIOLOGY and the one who PHYSICS.

- 1. Who among the following study CHEMISTRY?
  - (a) D
- (b)C
- (c)F

- (d)E
- (e)None of the above
- 2. How many persons are there between E and B?
  - (a) One
- (b) Two
- (c) Three
- (d) Four (e)None of the above
- 3. Who among the following lives on the topmost floor?
  - (a) The one who study MATHS
  - (b) The one who study HISTORY
  - (c) The one who study PHYSICS
  - (d) The one who study CHEMISTRY
  - (e)None of the above
- 4. Which of the following combinations is/are true?
  - (a) Floor no. 2 D BIOLOGY
  - (b) Floor no. 5 F GEOGRAPHY
  - (c) Floor no. 1 C CHEMISTRY
  - (d) Floor no. 8 E MATHS
  - (e)None of the above
- 5. A study which of the following subjects?
  - (a) MATHS
- (b) GEOGRAPHY (c) HISTORY
- (d) ENGLISH
- (e) None of the above

**Directions (6-10):** Study the following information carefully and answer the questions given below:

Eight friends A, B C, D, E, F, G and H are sitting in a straight line facing north. All of them like a different subject, viz English, Hindi, Maths, Biology, Physics, Psychology, Chemistry and Accounts, but not necessarily in the same order.

The one who reads Accounts sits third to the right of G. C is on

the immediate left of G. The person who reads Maths sits second to the left of C. B sits second to the right of H, who read neither Accounts nor Maths. Only two persons sit between C and the one who reads Physics. A and F are immediate neighbours and both of them do not read Accounts. The person who reads English sits second to the right of A. There are two persons between D and the one who reads Hindi. D does not like Accounts. The one who reads Psychology is an immediate neighbor of the one who reads Accounts. The one who reads Physics sits second to the left of A. One of the immediate neighbours of G reads Chemistry. D sits on an extreme end of the line.

- 6. Who among the following likes Biology?
  - (a) A
- (b) H
- (c) F

- (d) D
- (e)None of the above
- 7. Who among the following sits on the immediate left of F?
  - (a) C
- (b) A
- (c) D

- (d) E
- (e)None of the above
- 8. C likes which of the following subjects?
  (a) Hindi (b) English
  - (d) Biology
- (e)None of the above
- (c) Psychology

- (u) biology
- 9. How many persons are there between A and H?
  - (b) Two (c) None
  - (a) Three (d) Four
- (e)None of the above
- 10. What is the position of B with respect to the one who likes Chemistry?
  - (a) Second to the left (b) Second to the right
  - (c) Third to the right (d)Fourth to the left
  - (e)None of the above
- 11. **Statement:** The government has increased the price of aviation turbine fuel by 9.2 percent, while that of non-subsidised cooking gas was raised by Rs. 21 per cylinder.

Which of the following may be a **problem reason(s)** for the increase in the prices of turbine fuel and gas cylinder by the government?

- (a) Increase in the price of gas and fuel in the international market.
- (b) Increase in taxes of fuel and cooking gas by the government.
- (c) Decrease in the subsidies given by the government of fuel and cooking gas
- (d) To overcome the loss on the petroleum products by the oil marketing companies
- (e)All the above
- 12. **Statement:** The pollution level in the cities of Kerala has reached an alarming level.

Which of the following **courses of action** should be taken by the Kerala government to decrease the pollution level in the cities?

- (a) Closing down of chimneys and shifting of factories outside the cities.
- (b) The government should make the use of CNG by vehicles

maCivicstory in the cities.

- (c) The government should increase the taxes on the registration of new diesel vehicles.
- (d)The government should impose additional taxes on the entrance of diesel vehicle in the cities.

(e)All of these

13. **Statement:** The government has hiked the minimum support price (MSP) of paddy from Rs. 60 to Rs. 1,470 per quintal for the year 2016-17 kharif season.

Which of the following will **not** be an **effect** of the increase in the MSP by the government?

- (a) Farmers' income may increase in the country.
- (b) The retail price of rice will decrease in the market.
- (c) The production of kharif crop may increase for the year 2016-17.
- (d)More farmers will cultivate kharif crops.

(e)All of these

14. **Statement:** Hong Kong & Shanghai Corp. (HSBC) has decided to shut 24 of its 50 branches in India.

Which of the following may be the **reason** for the shutdown of branches in India?

- (A) Small number of retail customers
- (B) Retail banking customer taking online route for their transaction
- (C) Cost reduction measures taken by the bank
- (D) Major branches of HSBC running in loss in the world
- (a) Only (B) and (C) (b) Only (A) and (D)
- (c) Only (A) and (C) (d) Only (A) and (B)
- (e)None of the above
- 15. **Statement:** Future Group has launched a discount scheme on the first eight days of every month at the country's largest supermarket chain Big Bazaar in the most aggressive attempt to compete with Amazon and Flipkart.

Which of the following will **not** be an **effect** of the scheme launched by the Future Group?

- (a) The footfalls in Big Bazaar will increase.
- (b) The profit of the Future Group will increase.
- (c) The sale of the online companies running in the same business may decrease.
- (d) The sales of small retailers will increase.
- (e)Only (c) and (d)

#### Solutions

#### Directions (1-5):

Floor	Person	Examination
8	E	MATHS
7	Α	ENGLISH
6	F	PHYSICS
5	Н	GEOGRAPHY
4	В	HISTORY
3	D	BIOLOGY
2	С	CHEMISTRY
1	G	CIVICS

1. (b)

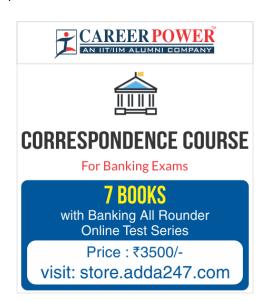

- 2. (c)
- 3. (a)
- 4. (d)
- 5. (d)

#### Directions (6-10):

Person	Subject
Α	Biology
В	Accounts
С	Hindi
D	Physics
E	Psychology
F	Maths
G	English
Н	Chemistry

- 6. (a)
- 7. (c)
- 8. (a)
- 9. (b)
- 10. (b)
- 11. (e); Prices will rise in each of the above cases.
- 12. (e); All are appropriate courses of action taken by the government to curb the higher pollution level.
- 13. (b); Only (b) will not be an effect of increase in the MSP by the government.
- 14. (a); Digital banking is becoming popular day by day in the world and the customers are making maximum transactions online, So only (C) and (B) are the reasons.
- 15. (d); The launch of new scheme will definitely increase the overall sale of Big Bazaar and the same people will not go to small retailer for the purchase of monthly grocery. So (d) will not be an effect of the scheme launched by the Future group.

## **Twisted Ones for Banking Exams: Quant**

- 1. Pipe A, B and C are kept open and fill a tank in t minutes. Pipe A is kept open throughout, pipe B is kept open for the first 10 minutes and then closed. Two minutes after pipe B is closed, pipe C is opened and is kept open till the tank is full. Each pipe fills an equal share of the tank. Furthermore, it is known that if pipe A and B are kept open continuously, the tank would be filled completely in t minutes. How long will C alone take to fill the tank?
  - (a) 18
- (b) 36
- (c) 27

- (d) 24
- (e) 20
- The average age of a couple was 24 years. After their 1st and 2nd children (twins) were born, the average age of the family became 13.5 years. The average age of the family just after 3rd child was born was 13.2 years. The average age of the family after 4th child was born was 16 years. The current average age of the family is 19 years. What is the current age of the twin children?
  - (a) 14 years
- (b) 15 years
- (c) 11 years

- (d) 12 years
- (e) 13 years
- A man buys Vinegar at Rs 10/litre and dilutes it with water. He sells the mixtures at the cost price and thus gains 11.11%. Find the quantity of water mixed by him in every litre of Vinegar.
  - (a) 0.1 L
- (b) 0.909 L
- (c) 0.125 L

- (d) 0.111 L
- (e) None of the above
- There are 500 rooms in a multi-floored hotel. However, due to a change in rule, the hotel has to decrease the number of floors by 5. However, the management is able to put 5 more rooms in each floor. Over all, the number of rooms in the hotel decreases by 10%. Find the number of floors and the number of rooms/floor the hotel originally had?
  - (a) 10 floors 50 rooms
- (b) 20 floors 20 rooms
- (c) 20 floors 25 rooms
- (d) 50 floors 10 rooms
- (e) Cannot be determined
- A earns 25% more than B. C earns 25% more than A. A earns 20% more than D. E earns 20% more than A. A, B, C, D, and E earn integer amounts less than Rs. 100. What is the total amount earned by all five of them put together?
  - (a) Rs. 300
- (b) Rs. 245
- (c) Rs. 305

- (d) Rs. 480
- (e) Data inadequate
- On a certain sum of money, compound interest earned at the end of three years is equals to Rs. 1456. Compound interest at the end of two years is Rs. 880. Compute the principal invested.
  - (a) Rs. 2,400
- (b) Rs. 2,800 (c) Rs. 2,000
- (d) Rs. 1,600
- (e) None of the above
- 7. Two ship travelling at 30 km/hr and 90 km/hr head directly towards each other, they are 120 km apart at the starting time. How far apart are they (in Km.) at one minute before they collide.

- (a) 1 km (b) 2 km (c) 3 km (d) 4 km (e) None of the above
- A, B and C start from the same place and travels in same direction at speeds of 20, 30 and 40 km/hr respectively. B starts 3hour after A. If B and C overtake A at the same instant. How many hours after A did C start.
  - (a) 4
- (b) 3.25
- (c) 4.5

- (d) 5.5
- (e) None of the above
- Sameer went from Delhi to Kanpur via Agra by car. The distance from Delhi to Agra is 1/2 times the distance from Agra to Kanpur. The average speed from Delhi to Agra was one-third time as much as that from Agra to Kanpur. The average speed for the entire journey was 60 km/hr, What was the average speed from Agra to Kanpur.
  - (a) 1.15 km/hr
- (b) 90 km/hr
- (c) 120 km/hr

- (d) 100 km/hr
- (e) None of the above
- 10. Out of the 75 students enrolled in the Economics class, 12% did not qualify to take the final examination on account of lack of attendance. Of those who qualified to take the test, 9.09% absented themselves from the exam. Two thirds of those who took the exam passed the examination. 75% of those who passed secured a first class in the paper. How many students who passed the exam scored less than first class?
  - (a) 15
- (b) 10
- (c) 12

(c) 315

(c) 853

(c) 10210

(c)440

- (d) 16
- (e) None of the above

Direction (11-15): What should come in place of the question mark (?) in the following number series?

- 11. 550, 550, 549, 544, 515, ?
  - (a) 495 (d) 306

(d) 650

- (b) 505
- (e) 510 12. 450, 900, 600, 800, 640, ?
  - (a) 678
- (b) 568
- (e) 768
- 13. 1, 10, 130, 1570, ?, 36130
  - (a) 21012
- (b) 10021
- (d) 12010
- (e) 11020
- 14. 1134, 810, 756, ?, 540, 480
  - (a) 540
- (b) 640
- (d) 740 (e) 840
- 15. 50, 562, 762, 2524, 6189, ?
  - (a) 18542 (d) 5428
- (b) 20295
- (c) 25682 (e) 12504

#### **Solutions**

(d); A is kept open for all t minutes and fills one-third the tank. Or, A should be able to fill the entire tank in '3t' minutes.

A and B together can fill the tank completely in t minutes.

$$\frac{1}{t} = \frac{1}{3t} + \frac{1}{B}$$

$$B = 3t/2$$

To fill one-third the tank, B will take =  $\frac{3t}{2} * \frac{1}{3} = \frac{t}{2}$  minutes.

B is kept open for t - 10 minutes. t/2 = t - 10, t = 20 minutes.

A takes 60 minutes to fill the entire tank, B takes 30 minutes to fill the entire tank. A is kept open for all 20 minutes. B is kept open for 10 minutes.

C, which is kept open for = (10-2) = 8 minutes also fills one-third of the tank.

Or, c alone can fill the tank in = (8\*3) = 24 minutes.

2. (d); Sum of the ages of the couple = 24 \* 2 = 48

After the 1st and 2nd children, sum = 13.5 \* 4 = 54

Difference in sum = 54 - 48 = 6 years

Or after 6/2 = 3 years, the twins were born to the couple (Ages of children at the time of birth is 0)

After 3rd child, sum = 13.2 \* 5 = 66 yrs

Difference = 
$$66 - 54 = 12$$

Or after 12/4 = 3 yrs, 3rd child was born (Couple + 2 children were already present. So 4)

After 4th child, sum = 16 \* 6 = 96 yrs

Difference = 
$$96 - 66 = 30$$

Or after 30/5 = 6 yrs, 4th child was born

Current sum = 19 \* 6 = 114 yrs

Difference 114 - 96 = 18 yrs

Or after 18/6 = 3 yrs

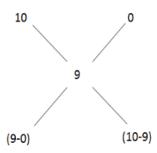

The gap between the children are as follows: 3 yrs, 6 yrs and 3 yrs

Age of eldest ones = 3 + 6 + 3 = 12

3. (d); Sol. As we know 11.11% = 1/9

Therefore, to gain 11.11%, C.P. + 1/9 \* C.P. = 10

Therefore,

So, Vinegar: Water = 9:1 With 1 litre of Vinegar, water =

4. (c); Sol. Let the number of floors be x and rooms per floor be y

So, 
$$xy = 500$$

After the change,

$$(x-5) * (y+5) = 450$$

$$xy - 5y + 5x - 25 = 450$$

$$500 - 5(y-x) - 25 = 450$$
 (As,  $xy = 500$ )

$$5(y-x) = 25$$

y-x = 5 (Only option c satisfies this condition)

5. (c); Let A earns Rs. x

So, 
$$B = 4x/5$$

$$C = 5x/4$$

$$D = 5x/6$$

$$E = 6x/5$$

In order for the amounts earned by A, B, C, D and E to be integers, the amount earned by A should be a multiple of 4, 5 and 6. Or, the amount earned by A should be a multiple of 60. The only multiple of 60 that is a 2–digit number is 60. So, if A earns Rs. 60, B should earn Rs. 48. C should earn Rs. 75. Deband over Res. 75. Deband over Res. 76.

75, D should earn Rs. 50 and E should earn Rs. 72.

The total income earned by all 5 of them should be equal to Rs. 60 + Rs. 48 + Rs. 75 + Rs. 50 + Rs. 72 = Rs. 305

6. (c); Let principal = P, rate of interest = r%

CI earned at the end of three years =  $P(1 + r)^3 - P = 1456$ =>  $P(3r^2 + 3r + r^3) = 1456$ 

CI earned at the end of two years =  $P(1 + r)^2 - P = 880$ 

$$=> P(r^2 + 2r) = 880$$

$$(r^2 + 3r + 3) \times 440 = (r + 2) \times 728$$

$$(r^2 + 3r + 3) \times 55 = (r + 2) \times 91$$

$$55r^2 + 165r + 165 = 91r + 182$$

$$55r^2 + 74r - 17 = 0$$

$$55r^2 + 85r - 11r - 17 = 0$$

$$5r(11r + 17) - 1(11r + 17) = 0$$

r = 0.2 or a negative number. Or, r has to be 20%.

So, 
$$P(1 + 0.2)^2 - P = 880$$

7. (b); If the final one minute before collision, the two ship travel  $30 \times \frac{1}{60}$  km and  $90 \times \frac{1}{60}$  km

ie 
$$\frac{1}{2}$$
 km and  $\frac{3}{2}$  km

As they move in opposite directions, distance between the ship one minute before collision is,

$$=\frac{1}{2}+\frac{3}{2}=2$$
 km

8. (c); Speed of A, B and C are 30 km/hr, 40 km/hr and 60 km/hr respectively.

B Start when A already travelled for 3 h and covered  $= 3 \times 20 = 60 \text{ km}$ 

Time taken by B to overtake A =  $\frac{60}{10 \text{ (Relative speed of B and A)}}$  =

6 hr

It means when B overtake A, A has travelled for 9 hr and B for 6 hr.

It is given that B and C overtake A at a same instance, It means when C overtakes A, both of them will have covered the same distance.

Let C takes t hours to cover the same as covered by A in 9 hr.

t= 4.5

C started after (9 - 4.5 = 4.5), when A started.

9. (d); Let total distance from Delhi to Kanpur =  $\frac{3d}{2}$  km Distance from Delhi to Agra =  $\frac{d}{2}$  km

And distance from Agra to Kanpur =  $\frac{d}{1}$ km

Let the average speed from Agra to Kanpur = x

Average speed from Delhi to Agra =  $\frac{1}{3}x$ 

Average speed = 
$$\frac{\text{Total distance}}{\text{Total time}}$$

$$60 = \frac{\frac{3d}{2}}{\frac{d}{2 \times \frac{1}{3}x} + \frac{d}{x}}$$

$$60 = \frac{\frac{3}{2}d}{\frac{d}{2} + \frac{d}{\underline{x}}}$$

$$60 = \frac{\frac{3}{2}}{\frac{3}{2x} + \frac{1}{x}}$$

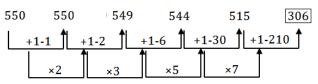

$$60 = \frac{\frac{3}{2}}{\frac{5}{2}} \Rightarrow x = 100 \text{ km/hr}$$

10. (b); Out of 75 students, 12% did not qualify for the final exam. So, out of 66, 9.09%, i.e.,  $1/11^{th}$  were absent = 66/11 = 6. Therefore, out of 60,  $2/3^{rd}$  passed = 40

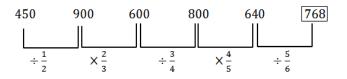

Out of 40, 75% got first class = 30

So, the students who passed the exam & did not get first class =40-30=10

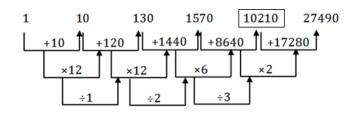

11. (d)

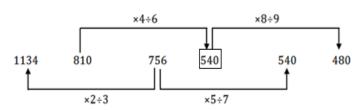

12. (e);

13. (c)

14. (a);

15. (b); 
$$50 \times 1 + 8^3 = 562$$
  
 $562 \times 1.5 - 9^2 = 762$   
 $762 \times 2 + 10^3 = 2524$   
 $2524 \times 2.5 - 11^2 = 6189$   
 $6189 \times 3 + 12^3 = 20295$ 

## **Twisted Ones English Language: Sentence Completion**

Directions (1-15): Select the correct phrase from among the choices that completes the given sentence. Please note that more than one choice may fit in to make a syntactically correct sentence, but select the choice that is logical in the context of the sentence. When something works well for us, we often \_\_\_\_ (a) keep it to ourselves (b) try to make it impossible (c) sound that we are Godly (d) want to share it with others (e) try to make it difficult. 2. When science goes berserk, society loses its moorings, sanity begins to play truant and (a) result in neglect of basic human values (b) moral decline sets in (c) further plays havoc with nature (d) the significant elements take shape (e) positive results begin to show 3. Talks and negotiations to resolve the dispute have taken place from time to time, but any attempt \_\_\_\_ (a) to forge an agreement was based on a report by the factfinding committee (b) to reject the agreement was not formulated (c) at reaching a solution has proved abortive (d) to acquire dark shades has been inconsequential (e) to solve the problem requires further investigation 4. Action is the glorious principle of life and the only one that saves man from . (a) the use of faculties, physical or mental (b) stagnation and unhappiness (c) the sorrow of fellow-beings (d) the prerequisites of happiness (e) the use of his intellectual capacity Some of the banned substances for which Indian sports persons have been tested positive are so highly priced that

(a) no ordinary sportsperson would be able to buy them on

(b) any ordinary sportsperson would have bought them on

(d) the coaches encouraged their students to take them in

(e) sportsperson and the coaches unhesitatingly use them in

(c) many sportspersons were made the guinea pigs

the hope of a Dronacharya Award

his own

search of glory

6. If the IT revolution is expected to generate incomes at a very high rate, \_\_\_ (a) the progress should be steady, though slow (b) the willingness to do so will influence it (c) the demand should increase considerably (d) expensive and arduous IT education packages must be introduced (e) the initial investment requirements would be substantial is one way of ensuring that the public knows you are there. (a) Advocating for the blissfulness of ignorance (b) Stirring up controversies and making news (c) Flooding the people with too much of inaccurate information (d) Taking maximum benefit from a deal (e) giving up you wealth Through poetry, \_\_\_\_\_ can be drawn towards the imperishable beauties of the universe, with no cost and consternation. (a) the attention of the lethargic and the inert (b) the entire gamut of human passions and pathos (c) all types of real or imaginative literature (d) the latent talent of writing (e) that section of society which thinks in a negative way 9. When trying times come, \_\_\_\_\_ from those who have struggled and subdued the defiant destiny. (a) one should learn a lesson (b) one should take an example (c) one should get the inspiration (d) one should persevere and plod (e) one should be grateful 10. The greater our knowledge increases, the more (a) affluence we acquire (b) our wisdom grows (c) opportunities we seek (d) we become aware of our ignorance (e) crafty we become. 11. The death of the eminent leader \_\_\_\_\_ to all the citizens of the country. (a) stands out in the memories (b) caused enormous sadness and grief (c) who put the country's interests first (d) made the people admire his popularity (e) made the people recall his sacrifice

- 12. The tendency to avoid problems and the emotional suffering inherent in them is the \_\_\_\_\_\_.
  - (a) outstanding agony in life
  - (b) major reason for calamity
  - (c) only solution left with humanity
  - (d) primary basis of failures in life
  - (e) best way of leading a life
- 13. \_\_\_\_\_ comes from our inability to own up the mess created by ourselves.
  - (a) Double talk
- (b) Exasperation (c) Bafflement
- (d) Vacillation
- (e) Failure
- 14. The benefits of the technology will be limited by the fact that any technology used in a business will give returns
  - (a) only when applied to an inefficient organisation
  - (b) only when applied to an efficient organisation
  - (c) when connected to humanity
  - (d) only when it is laborious and intricate
  - (e) when pursued selflessly
- 15. One of the serious consequences of unethical politics is the in our leaders and the system.
  - (a) convergence of the people
  - (b) dominating power of the people
  - (c) flagging faith of the people
  - (d) maintenance of the stability
  - (e) elevation of expectations

#### **Solutions**

- 1. (d); want to share it with others'. Option D is the most appropriate and Logical answer.
- 2. (b); 'moral decline sets in'. the last part is the effect of the 'cause' explained in the first part of the sentence.
- 3. (c); at reaching a solution has proved abortive.
- 4. (b); stagnation and unhappiness. Actions can save ourselves from being outdated and they can avoid our sadness.
- 5. (a); no ordinary sportsperson would be able to buy them on his own. This option aptly completes the idea.
- 6. (e); the initial investment requirements would be substantial
- (b); Stirring up controversies and making news. To be in the news and public imagination, being controversial is one way.
- 8. (a); the attention of the lethargic and the inert. Poetry can energize anyone, this is the idea that is expressed.
- 9. (c); one should get the inspiration. It is about the getting inspiration from the life of all those who have faced bad times.

- 10. (d); we become aware of our ignorance. Knowledge makes us aware of our ignorance.
- 11. (b); caused enormous sadness and grief. Death of a person leaves others sad and shattered.
- 12. (e); best way of leading a life. To lead a good life, one should learn how to avoid problems and emotional sufferings.
- 13. (a); Double talk- those who are not careful and responsible for their actions and those are the ones who do 'double talk'.
- 14. (b); only when applied to an efficient organization.
- 15. (c); flagging faith of the people. Unethical politics make people lose faith in the leaders.

## **Article: Tips for Interview**

Interview is the last and a very important phase in IBPS PO Recruitment as only 1 out of every 3 candidate is selected in the process. And as IBPS PO Phase III of PI is going to be held very soon, it is very important that every candidate starts preparing for this phase in a very professional way. Yes, professional!! Because you must not take it casually.

Why is it that a brilliant candidate who could crack many banking exams as that of IBPS and SBI's couldn't get through the phase of Interview?

In Personal Interview, your attitude, confidence, fluency and, knowledge everything matters a lot. Yes, it is not just about the knowledge, more than that it is about your ability to deliver your knowledge and thoughts. You are expected to dress properly and carry yourself with confidence.

Introduction is the most perplexing part in Interviews and it the most important part as well. Many of you might face difficulties in framing a proper set of content that you should deliver while introducing yourself. Moreover, the interviewer might start asking questions from your introduction itself. Yes, the questions can be as simple as 'What is your hometown famous for and in which district does it lies?' or little tricky as 'Who was the first CM of your state in independent India?' The key is to be prepared to face anything challenge with calm and composure.

Nervousness gets in human nature in some difficult situations and that might happen during your personal interview too, but it is important that you tackle it without showing the obvious signs of panic. The right posture to stand, the way you talk, the right posture of sitting everything accounts for your personality that you'll be judged upon.

There can be questions related to your educational background. This is the most common type after the introduction. If you are from commerce or related stream, there is a fair chance for you face questions related to banking and finance right away and if you are from any other stream, for example, technical or science you may face a question, 'Why are you willing to pursue career in banking but not in your stream?' These are some very general questions that you should be prepared to answer. And as demonetization is a hype nowadays in India, you may also encounter questions related to finance and demonetization.

They may also judge your attitude towards work and commitment and do your psychometric evaluation from your answers and your conduct. It is very important to be well aware of current affairs as many questions can very reasonably be expected in interviews.

In general, the interviewer looks for good communication skills, good interpersonal skills, ability to deal with customers, knowledge of the industry as well as the ability of the person to grow with the organisation.

#### Some Tips for IBPS PO Interview

- Learn about the organisation and the position. Check out their website, use online corporate directories. You should track down all sorts of useful information, such as the organisations's size, history, main products and services, the names of top executives and current news stories.
- Rehearse with mock interviews. And read interview experiences.
- Go through the current affairs for the last six months.
- Read out thoroughly the important and burning issues.
- You must be really careful and fully aware of what you are filling in your bio-data. Yes, it is really very important as the interview panel usually start asking questions from your bio-data itself. So it will be really beneficial for you if you have all the general knowledge regarding what you are filling in your bio-data.
- Think well about your greatest strengths and weaknesses; your most significant work or school experiences, your future plans.
- You are most likely to also have an encounter with questions pertaining to the technical aspect of banking, so revise your subjects well as they expect you to be capable of answering questions related to the field of banking if you are an aspirant for the post of Probationary Officer.

Any organization while interviewing a candidate also checks their attitude towards their life and work. So stay relaxed keep a positive attitude, you do not have to make up things while giving the interview as they are experienced professional and you'll be caught off guard.

"So start preparing, as this is the only milestone between YOU and YOUR GOAL."

## Interview Experience: Nilesh Tejsinghrao Moroliya

I reached the hotel at 8:40 am. It took around 1 hr for biometric verification and documents verification. I was 7th in the queue for an interview. The real interview started at around 11:30 am. Below is my detail interview experience.

**INTERVIEW PANEL:** 1Lady and 5 gentlemen. All of them were senior bank officials above 50 years age.

I wished all good morning and the lady asked me to take a seat.

#### **PERSONAL QUESTIONS**

M1: (I thought he would be the panel head as he was most senior among them and asked maximum questions),

What is your name?

Sir, my name is Nilesh Tejsinghrao Moroliya

M1: Where are you from?

Me: I belong to a small village of Nagpur district.

M1: Which place in Nagpur?

Me: Sir, Taluka Katol

M1: Tell us about your family?

Me: Sir, my family includes six members, father, mother, younger brother, wife and 3 years old daughter. My father is a farmer.

M1: Daughter? Ohh great

M1: Abhi khet me kaunsi fasal hai?

Me: Sir, gehu, chana

M1: Aap khet me jate ho?

Ha sir jab bhi waqt mile mai khet jana pasand karta hu

M1: Nagpur ka orange bahot famous hai, aapke khet me orange ki fasal hoti hai?

Me: Orange to nahi sir but mere khet me mosambi hai.

M1: This year what was the worth of mausambi crop in your fields?

Me: Sir, 70000 ki, is bar demonetzation ki wajah se rate gir gaye the isliye income kam hua.

(I intentionally used the word demonetizationI i had reffered all the facts regarding demonetization. But they didnt ask any question on this)

M1: To abhi kaunsa bahar chal raha hai?

(Unable to remind, jaldi me bol diya)

Me: Sir, winter bahar

(All started to laugh)

M3: Ye kaunsa bahar hota hai bhai? (Suddenly I reminded and said)

Me: Sir, Ambiya bahar bolte hai use

M2: What is Ambiya bahar?

Me: Kyoki sir isi season me aam ke pedo ko bahar aata hai, isliye Ambiya bahar kahate hai.

M1: So what else you've been doing?

Me: I have been working in Tirupati Urban Cooperative Bank as clerk cum cashier.

Me: You've been working there for how many days?

Sir, 2 years and 3 months

M1: Which kind of work do you handle in TUCB?

Me: Sir I have worked in different areas of banking including cash, clearing, deposits, Rd/FD, social schemes and all the counter work except loan.

M1: TUCB bhi Clearing me participate karti hai,?

Me: Yes sir

M3: Is it local bank?

Me: Sir the operational area of bank includes Nagpur, Wardha, Chandrapur, and Mumbai also.

M1: Where is the Head office of your bank?

Me: Sir in Nagpur

M1: Is there a branch in Aurangabad?

Me: Sir Aurangabad me bhi branch thi, as it was occurring losses, management decided to shut it down.

M1: What is CD Ratio of your bank?

Me: Sorry sir muze yad nahi hai.

(I could easily answer the question as I knew total deposit and total loan given by bank, but CD Ratio ki actual concept yad nahi aa rahi thi)

M2: What is CD Ratio?

(based on my previous question anser, M1 said)

M1: Tell whatever you know regarding CD Ratio.

Me: Sir, CD Ratio is related to loan. It is the percentage of loan given by bank.

M1: Right to some extent
(Then he explained the whole concept)

M2: What is Priority Sector Lending?

Me: Sir, RBI has made it compulsory for all commercial banks including pvt. sector banks to reserve some percentage of their total loaning for priority se tor i.e. 40 %. Priority sector includes agriculture and allied activities, farmers, land labours, artisans, small and tiny industries. This sector requires to be provided special attention by banks.

M2: where did you work before Tirupati Urban Cooperative Bank?

(I was not able to recall the full name of company, and fumbled. In hurry I said)

Sir, I was working With Cooperative society.

M2: Which cooperative society?
(Now I pressurised my mind, and then said)

Me: Sir, it was Samruddha Jivan Multistate Multipurpose Cooperative society.

M1: In newspapers there were some speculations regarding fraud in Samruddha Jivan, what was the fuss all about?

Me: Sir, Cooperative societies can give loans but are not authorised to accept deposits from public. SEBI had warned the director against raising funds from small investors still the company continued the practice of accepting deposits from public. It is now under CBI scanner in connection with Odisha mega chit fund scam. It was running the business of chit fund. According to the SEBI the society was running the business without proper approval.

M1: Okay so was that the reason that you resigned from previous job?

Me: Nahi sir, maine ye scam hone se pahale hi resign kar diya tha. I was always attracted towards banking sector and i prepared for banking exam a long time before. I wanted to join govt. bank, meanwhile I got an opportunity to work with TUCB bank. So in order to enhance my skills and experience in banking area I resigned SJMMCS and joined TUCB.

(I expected a question," you were working as Officer in SJMMCS then why did you join TUCB as clerk?"

I hadprepared for this question well in advance but they didn't ask)

M1: Aapki bank bhi SJMMCS jaisi to nahi na?

Me: Not at all sir, it is doing good.

M1: You will be going to work for RRB in rural area, how will you help the farmers?

Me: Sir being a villager and rural oriented person I can understand the mind set of rural people. I am well aware of the problems faced by them (interrupting me M1 said)

M1: Kis tarah ki problems face karna padta hai rural area me (What kinds of issues are faced in Rural India)?

Me: Generally they don't have sufficient money at the time of kharip and rubby season, so take loans from money lenders who charge high rate of interest. Sukha pad jaye to jo invest kiya ho wo bhi wapas nahi milta. In this case they tend to commit suicide.

M1: If there is an issue of drought, and farmers are unable to payback loan, as an banker what will you do?

Me: Being a banker, I will make sure that all the schemes launched by govt related to agriculture reaches to farmers so that they will not go to money lenders.

As the RRBs are special purpose bank working for the development of rural economy and for up liftment of farmers it will be my responsibility to give more time to farmers to repay the loan in case of drought and not to harass them like money lenders.

M3: Which schemes have been launched by govt. for farmers?

Me: ARYA (Attracting Rural Youth towards Agriculture), Pradhanmanri Krishi Sinchai Yojana, Soil Health Card, Paramparagat Krishi Vikas Yojana, Price Stabilization Scheme, Krishi Dak Yojana.

M1+L1 : That's all .. Nice talking to you, you can leave now .All the best.

This interview lasted for 15 minutes. Only the head of the panel seemed to be enthusiastic and was asking questions rapidly. The lady was given chance by the head of the panel but she didn't ask a single question.

Thank you all.

I Hope this would be helpful for those who are having interview in the near future.

## SSC CGL Tier I 2017: Practice Set

#### REASONING

- 1. A husband and a wife had five married sons and each of them had four children. How many members are there in the family?
  - (a) 32

(b) 36

(c)30

- (d) 40
- In a certain code, if DEMORACY is written as YCAROMED, how will the word PRESIDENT be coded as?
  - (a) EIETPRSDN
- (b) NDSRPTEIE
- (c) TNEDISERP
- (d) RSDNPEIET
- 3. From the given alternatives, select the word which cannot be formed using the letters of the given word.

#### 'Distribution'

(a) tribute

(b) riot

(c) dust

- (d) disturb
- If MOTHER is coded as 'NPUIFS' select the appropriate code from the answer choices, for the word in capital letters : ZENITH
  - (a) AFOGHJ
- (b) BGPKVJ

- (c) AFOJUI
- (d) AFOGHI
- 5. If AEIOU is written as BCJMV, how XCKYB can be written in that code?
  - (a) YALWC

(b) ADNZE

(c) YELAC

- (d) YBLXC
- 6. Five persons (R, S, T, U and V) are in a queue facing a reservation counter. Immediately behind S is U. T is standing between R and V. In between R and U, no one is there. Then, where is S standing in the queue?
  - (a) Last but one
- (b) First

(c) Second

- (d) Last
- 7. In the year 2003, some months have 31 days. How many months have 28 days?
  - (a) 12 months
- (b) Alternate months
- (c) 6 months
- (d) 1 month
- 8. In a team of five players, Vani is older than Rani. Sita is younger than Vani but older than Rani. Nita is younger than Mary and Rani. Rani is older than Mary. Whose age is middle of the five in this team?
  - (a) Mary

(b) Vani

(c) Rani

- (d) Sita
- 9. In a certain code, SURFER is written as RUSREF. How is KNIGHT written in that code?
  - (a) THGINK

(b) GHTINK

- (c) INKTHG
- (d) THINKG

Directions (10-11): In each of the following questions, some equations are solved on the basis of certain system. Find out the correct answer for the unsolved equation on that basis.

4	6	8
5	8	3
7	9	6
63	252	?

(a) 544

(b) 330

(c) 315

- (d) 454
- 11.  $4 \times 6 \times 9 = 649,9 \times 8 \times 4 = 894,3 \times 7 \times 2 = ?$ (a) 272
  - (b) 294

(c) 732

- (d) 813
- 12. Based on the given details, find out the number of postgraduates enrolled in a collage for the year 1970.
  - 1968 1969 1970 1971 113 88
    - 1972 63 59
  - (a) 63
- (b)79
- (c)72

- (d) 84
- 13. Two squads on soldiers A and B facing North and South respectively received the following commands - Right Turn, Left Turn, Left Turn, Left Turn. Which directions would the squads A and B face at the end?
  - (a) South, North
- (b) West, East
- (c) North, South
- (d) East, West
- 14. In a square- shaped hostel, there are 8 rooms on each side in every floor. Room No. 101 is the first room facing north in the first floor. The room numbers are continued clockwise. Which direction does Room No. 125 face?
  - (a) South

(b) North

- (d) East
- (c) West
- 15. Select the missing number from the given responses:

9	6	7	
8	?	3	
3	5	8	
216	900	168	

(a) 30

(b) 55

(c) 60

- (d) 70
- 16. If  $\times$  stands for +,  $\div$  stands for and + stands for  $\div$  which one of the following is correct?
  - (a)  $11 6 \div 4 + 2 = 64$
- (b)  $10 5 \times 6 \div 2 = 54$
- (c)  $15 + 3 \times 4 \div 3 = 6$
- (d)  $12 + 4 \div 2 7 = 8$

Directions (17-18): In each of the following questions, two statements are given, followed by two conclusions I and II. You have to consider the statements to be true even if they seem to be at variance from commonly known facts. You have to decide which of the given conclusions if any, follow from the given

(c) 56(d) 42 statements. 17. Statements: 1. All scholars are eccentric. 20. Jkl Abc Mno Def PgR Gh? 2. No woman is eccentric. (a) h (b) i Conclusion: I. No woman is scholar. (d) S (c) q II. All eccentric are men. 21. 1, 4, 10, 19, 31, ? (a) Only conclusion II follows (a) 43 (b) 46 (b) Neither conclusion I nor II follows (c) 50(d) 55 (c) Both conclusions I and II follow Directions (22-25): In each of the following questions, select the related letter/ word / number from the given alternatives: (d) Only conclusion I follow 18. 	58.	The value of x when 5% of $\sqrt{2}$	x is 0.01 will be:		(c) $\frac{-1}{\sqrt{3}}$	(d) 2

- 65. ABCD is a trapezium, such that AB=CD and ADIIBC. AD = 5cm, BC= 9cm. if area of ABCD is 35 sq.cm, then CD is:
  - (a) v29 cm

(b) 5 cm

(c) 6 cm

- (d) V21 cm
- 66. If  $\sqrt{4x 9} + \sqrt{4x + 9} = 5 + \sqrt{7}$  then the value of x is:
  - (a) 4

(b) 5

(c) 7

- (d) 3
- 67. If  $u_n = \cos^n \alpha$ , then the value of  $2u_6 3u_4 + 1$  is:
  - (a) 1

(b) 4

(c) 6

- (d) 0
- 68. The value of =  $\sqrt{-\sqrt{3} + \sqrt{3 + 8\sqrt{7 + 4\sqrt{3}}}}$  is:
  - (a) 2

b) 3

(c) 4

- (d) 1
- 69. A container has 80 L of milk. From this container 8 L of milk was taken out and replaced by water. The process was further repeated twice. The value of milk in the container after that is:
  - (a) 85.32 L
- (b) 58.23 L
- (c) 85.23 L

- (d) 58.32 L
- 70. A grain dealer cheats to the extent of 10% while buying as well as selling by using false weights. His total profit percentage is:
  - (a) 20%

(b) 21%

(c) 23%

- (d) 25%
- 71. If sin(x + y) = cos[3(x + y)], then the value of tan[2(x + y)] is:
  - (a) √3

(b)1

(c) 0

- (d)  $\frac{1}{\sqrt{3}}$
- 72. The diameter of a garden roller is 1.4 metre and it is 2 metre long. The area covered by the roller in 5 revolutions is:
  - (a) 8.8 m<sup>2</sup>

(b) 4.4 m<sup>2</sup>

(c) 44 m<sup>2</sup>

- (d) 16.8 m<sup>2</sup>
- 73. A person travels 285km in 6hr. In the first part of the journey, he travels at 40 km/hr by bus. In the second part, he travels at 55km/hr by train. The distance travelled by train is:
  - (a) 156 km

(b) 165 km

(c) 615 km

- (d) 561 km
- 74. The average of the runs made by Raju, Shyam and Hari is 7 less than that made by Shyam, Hari and Kishore. If the number of Kishore's run is 35, what is Raju's run?
  - (a) 14

(b) 21

(c) 35

- (d) 7
- 75. If  $x = \frac{1}{2+\sqrt{3}}$ ,  $y = \frac{1}{2-\sqrt{3}}$  then the value of  $\frac{1}{x+1} + \frac{1}{y+1}$  is:
  - (a)  $\frac{1}{2}$

(b) v3

(c) 1

(d)  $\frac{1}{\sqrt{3}}$ 

## **ENGLISH LANGUAGE**

**Directions (76-78):** In these questions, four alternatives are given for the idiom/phrase given in **bold** in the sentence. Choose the alternative which best expresses the meaning of the idiom/phrase given in **bold**.

- 76. She was in a **brown study** and did not notice my entrance.
  - (a)reverie

(b)fear

(c)dream

- (d)sleep
- 77. The sailors were in a bundle of nerves.
  - (a)In a very nervous state
- (b)Refused to climb down
- (c)In a team position
- (d)In dangerous situation
- 78. The police officer <u>backed spear</u> the criminal to know about the stolen valuables.
  - (a)reprimanded
- (b)intimidated
- (c)questioned in order to get information
- (d)beat

**Directions (79-80):** In these questions, out of the four alternatives, choose the one which best expresses the **meaning** of the word given in **bold**.

- 79. Knotty
  - (a) terrible

- (b) mysterious
- (c) confusing
- (d) fiddly

- 80. Geniality
  - (a) conviviality
- (b) happiness(d) optimism
- (c)amenity (d) optimism

  Directions (81-82): In these questions, choose the word opposite in meaning to the word given in **bold**.

- 81. **Apocryphal** (a)fictitious
- (b)original
- (c)cumbersome
- (d)anxious

- 82. Mulish
  - (a)obstinate
- (b)benign

(c)fanatic

(d)docile

**Directions (83-85):** In the following questions, out of the four alternatives choose the one which can be substituted for the given words/sentence.

- 83. Medicine that loosens the bowels
  - (a) tummylosener
- (b) boweloser
- (c) tummyrelaxant
- (d) laxative
- 84. Person who is interested in antiquities (a) antiquarian (b) intre
  - (b) intreantiquities
  - (c) antiquitiness
- (d) antiquity-boy
- (a) teetotaller
- 85. Person who abstains from all alcoholic drinks
  - (c) abscond
- (b) ambitious (d) escape

**Directions (86):** In these questions, four words are given out of which only one is **incorrectly spelt**. Find that **incorrectly spelt** word

- 86. (a)erroneously
- (b) manoeuvre
- (c) auxilliaries
- (d) fascinate

**Directions (87-89):** In these questions, sentences are given with blanks to be filled in with an appropriate word(s). Four alternatives are suggested for each question. Choose the correct

alternative out of the four alternatives.

87. As he got older, his belief in these principles did not

(a)Wither (b)Waver (c)Shake (d)Dither 88. He has \_\_\_\_\_ awake in bed for hours. (a)Laid (b)Lain (c)Lay (d)Lied

89. The flood damaged the books so much that it was impossible to \_\_\_\_\_ them.

(a)Retrieve (b)Retrace (c)retreat (d)retract

**Directions**: **(90-93)**: In these questions, read each sentence to find out whether there is any error in it. The error, if any, will be in one part of the sentence. The number of that part is the answer. If there is no error, the answer is **(D)**. (Ignore errors of Punctuation, if any.)

- 90. Through the day, many officers from the elite crime branch take a break from solving "hardcore" crimes and went about posing as decoy customers to catch the sellers redhanded.
  - (a) Through the day, many officers from the elite crime branch take
  - (b) a break from solving "hardcore" crimes and went about posing
  - (c) as decoy customers to catch the sellers red-handed. (d)No improvement
- 91. According to the spokesperson, the repaired work was to be completed by Thursday itself. "We sincerely regret the inconvenience caused to our passengers," he said.
  - (a) According to the spokesperson, the repaired work was to he
  - (b) completed by Thursday itself. "We sincerely regret
  - (c) the inconvenience caused to our passengers," he said.
  - (d)No improvement
- 92. Observations made are to be added to maintain registers, which would be subjected to scrutiny.
  - (a) Observations made are to be
  - (b) added to maintain registers,
  - (c) which would be subjected to scrutiny.
  - (d) No improvement
- 93. The Ministry is looking into the process of empanelling lawyers who represent the premier medical institution.
  - (a) The Ministry is looking into the process
  - (b) of empanelling lawyers who represent
  - (c) the premier medical institution.
  - (d)No improvement

**Directions:** (94-95):In these questions, a sentence or a part of sentence is underlined. Below are given alternatives to the underlined part which may **improve the sentence**. Choose the correct alternative. In case no improvement is needed, your answer is (D).

- 94. Many workers were being held hostages.
  - (a)Held to be hostages
- (b)Held as hostage

- (c)Held like hostage (d)No improvement
- 95. Their friendship will not last through long time.
  - (a)last through a long time (b)last through (c)last long (d)No improvement

**Directions (96-100):** Read the passages carefully and choose the best answer to each question out of the four alternatives.

In yet another remarkable achievement, the National Aeronautics and Space Administration's Juno spacecraft has successfully entered the orbit around Jupiter without being knocked down by the planet's intense magnetic field and radiation. That the spacecraft, which had travelled 2.8 billion km since its launch on August 5, 2011, passed through a spot that was originally planned for, when it came closest to the planet, provides a measure of the level of success of the mission. Juno, with a diameter of 11.5 ft, is not the first spacecraft to enter into orbit around Jupiter. But unlike its predecessor, the Galileo spacecraft that explored the planet between 1995 and 2003, Juno will study Jupiter much more thoroughly given the array of nine scientific instruments that it carries on board. The most important difference between the two missions is Juno's ability to see below the dense cloud cover of Jupiter; only a probe of Galileo entered the planet's atmosphere. Getting as close as 5,000 km from the cloudtops and being able to see through the clouds will make it possible for Juno's camera, Junocam, to take close-up photos of the poles and other points of interest. The main objectives of the mission are to understand the origin and evolution of Jupiter, to find out if the planet, like Earth, has a solid rocky core, to uncover the source of its intense magnetic field, to measure water and ammonia in deep atmosphere, and to observe the auroras.

Though the nine instruments will be turned on by the end of the week, the first full set of observations will not take place before the end of August when the spacecraft comes close to Jupiter on its first orbit; science experiments will begin in full earnest in mid-October when it gets into a 14-day orbit. Juno will orbit the planet from pole-to-pole, minimizing the amount of radiation exposure, but the orbit will ultimately shift due to Jupiter's intense gravitational field, making the spacecraft pass through more intense regions of radiation. Though shielded by a titanium vault, the radiation from Jupiter will slowly but surely compromise the instruments by the time it finishes its mission in February 2018. But before this happens, scientists expect to collect enough information to further our understanding of how the giant planet was formed some 4.5 billion years ago, and of the origins of the solar system. The amount of water it contains and the nature of its core will provide clues about where the planet formed early in the system's life span. After orbiting the planet 37 times and returning invaluable scientific information, Juno will incinerate in Jupiter's atmosphere in early 2018 as the Galileo spacecraft did.

#### Refer to: THE HINDU July 6, 2016

96. According to the passage, "What is the main purpose of sending JUNO spacecraft to Jupiter? (a)To find conditions like earth. (b)to gather information which Galileo couldn't able to get (c)to get information about Jupiter for research (d)None of the above

- 97. What could be the suitable 'title' of the above passage?
  (a)Mission "Another Earth" (b)Discovery with Juno
  (c)Success in Space (d)Five years Ago
- 98. Which of the following statements are **NOT TRUE** according to the given passage?
- 1. That the spacecraft, which had travelled 2.8 billion km since its launch on August 5, 2011, passed through a spot that was originally planned for, when it came closest to the planet, provides a measure of the level of success of the mission.
- Though the nine instruments will be turned on by the end of the week, the first full set of observations will take place before the end of August when the spacecraft comes close to Jupiter on its first orbit.
- But before this happens, scientists expect to collect enough information to further our understanding of how the giant planet was formed some 4.5 billion years ago, and of the origins of the solar system.

(a)Only (1) (b)Only (2)

(c)Only (1) and (3) (d)None of the above

99. What is the main difference between Galileo spacecraft and Juno spacecraft ?

(a)Juno is more advance then Galileo

- (b)Juno have nine extra scientific instruments then Galileo (c)Juno have the ability to see below the dense cloud cover of Jupiter but Galileo didn't
- (d) Juno is a spacecraft but Galileo is a satellite
- 100.Choose the word which is most opposite in meaning to earnest as used in the passage.

(a)ardent (b)fervid (c)insincere (d)donnish

#### **Solutions:**

1. (a); Husband  $\Rightarrow$  One

Wife  $\Rightarrow$  One

Five married sons

 $\Rightarrow$  5 × 2 = 10

Number of children

 $\Rightarrow$  5 × 4 = 20

Total number of members

= 1+1+10+20= 32

2. (c); In the code the letters have been written in reverse order.

 $DEMOCRACY \Rightarrow$ 

YCARCOMED

Therefore,

P R E S I D E N T ⇒

TNEDISERP

- 3. (a); There is no 'E' letter in the given word.
- 4. (c)

- 5. (a)
- 6. Ans.(b)

- 7. (d); The year 2003 was not a leap year. Therefore, the month of February had 28 days.
- 8. (c); Vani> Rani

Vani>Sita> Rani

Mary, Rani > Nita

Rani > Mary

Now,

Vani>Sita> Rani > Mary > Nita

- 9. (c);
- 10. (b); First Column

(25-16)\*7=63

Second Column

(64 - 36)\*9 = 252

Third Column

(64 - 9)\*6 = 330

- 11. (c)
- 12. (c)

113 - 88 = 25

88 - 66 = 72

72 - 9 = 63

63 - 4 = 59

- 13. (a)
- 14. (c)

15. (a); First Column

 $9 \times 8 \times 3 = 216$ 

Second Column

 $6 \times ? \times 5 = 900$ 

$$\therefore ? = \frac{900}{30} = 30$$

Third Column

$$7 \times 3 \times 8 = 168$$

- 16. (c)
- 17. (d); First Premise Universal Affirmative (A-type). Second Premise is Universal Negative (E-type). All scholars are eccentric.

No eccentric is woman.  $\label{eq:A+E} A+E \Longrightarrow E-type \ of \ Conclusion$  "No scholar is woman."

Conclusion is I is Converse of it.

18. (b);

All students are girls.

No girl is dull.

 $A + E \Rightarrow E - type of Conclusion$ 

"No students is dull"

This is Conclusion II.

All students, without exception are girls. Therefore, there are no boys who are students.

- 19. (d)
- 20. (b); There are two alternating series and the successive letters are given in series. Again, the middle letter of each term is written in small letter (lower case.)

- 21. (b)
- 22. (c)

$$Sol. \Rightarrow 8 \times (8-1) = 56$$

$$\Rightarrow$$
9 × (9 – 1) = 72

Alternatively,

$$(2)^3 = 8; (3)^2 = 9$$

$$(8)^2 - 8 = 56; (9)^2 - 9 = 72$$

27. (b)

- 23. (d)
- 24. (b)
- 25. (a); Opulent is of higher intensity word than Affluent, Similarly, Prosper is of higher intensity word than Flourish.
- 26. (b)
- 28. (d) 29. (a)
- 30. (d) 31. (a)
- 32. (b) 33. (b)
- 24 (-)
- 34. (c) 35. (a)
- 36. (d) 37. (b)
- 38. (b) 39. (c)
- 40. (c) 41. (c)
- 42. (a) 43. (c)
- 44. (b) 45. (c)
- 46. (a)
- 47. (c)
- 48. (b)
- 49. (a)
- 50. (a)
- 51. (d);  $1^2 + 2^2 + 3^2 \dots \dots + n^2$ =  $\frac{n(n+1)(2n+1)}{n+1}$

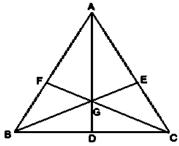

∴ Required average

$$=\frac{(n+1)(2n+1)}{}$$

$$=\frac{6}{(10+1)(2\times10+1)}$$

$$=\frac{11\times21}{6}=\frac{77}{2}=38.5$$

- 52. (b); First divisor 899 is exactly divisible by second divisor 31. Required remainder = Remainder obtained on dividing 65 by 31 = 3
- 53. (a);

Area of  $\triangle$  BDG =  $\frac{1}{6}$  × Area of  $\triangle$  ABC

$$=\frac{1}{6} \times 72 = 12 \text{ sq. cm}$$

- 54. (c)
- Sol.  $2(a^2 + b^2)$

$$= (a + b)^2 + (a - b)^2$$

$$=(6)^2+(2)^2$$

$$= 36 + 4 = 40$$

55. (b); The pattern is:

$$3 + 4 = 7$$

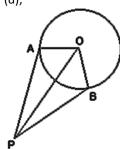

$$7 + 6 = 13$$

$$13 + 8 = 21$$

$$21 + 10 = 31 \neq 33$$

$$31 + 12 = 43$$

56. (d);

 $\angle PAO = \angle OBP = 90^{\circ}$ 

$$\angle AOB = 120^{\circ}$$

$$\angle APB = 60^{\circ}$$

$$\therefore \frac{\angle APB}{\angle APO} = \frac{60}{30} = 2:1$$

57. (b)

 $\therefore LCM = 2 \times 3 \times 6 \times 7 \times 11$ 

$$= 2^2 \times 3^2 \times 7 \times 11$$

∴ Required number

 $= 2^2 \times 3^2 \times 7^2 \times 11^2$ = 213444

58. (b)

$$\Rightarrow \sqrt{2x} \times \frac{5}{100} = 0.01$$

$$\Rightarrow \sqrt{2x} \times 5 = 0.01 \times 100 = 1$$
On squaring,

On squaring,

$$\therefore 2x \times 25 = 1$$

$$\Rightarrow x = \frac{1}{50} = 0.02$$

59. (d); 
$$\sec \theta - \csc \theta = 0$$

$$\Rightarrow$$
 sec  $\theta$  = cosec  $\theta$ 

$$\Rightarrow \frac{1}{\cos \theta} = \frac{1}{\sin \theta}$$

$$\Rightarrow \sin \theta = \cos \theta$$

$$\Rightarrow \tan \theta = 1 = \tan 45^{\circ}$$

$$\Rightarrow \theta = 45^{\circ}$$

$$\therefore \sec \theta + \csc \theta$$

$$= \sec 45^{\circ} + \csc 45^{\circ}$$

$$=\sqrt{2}+\sqrt{2}=2\sqrt{2}$$

60. (d); If time taken by C to complete the work be 
$$\boldsymbol{x}$$
 days, then

$$= \frac{10}{20} + \frac{6}{15} + \frac{4}{x} = 1$$

$$= \frac{1}{2} + \frac{2}{5} + \frac{4}{x} = 1$$

$$= \frac{5+4}{10} + \frac{4}{x} = 1$$

$$= \frac{4}{x} = 1 - \frac{9}{10} = \frac{1}{10}$$

$$= x = 10 \times 4 = 40 \text{ days}$$

61. (b); If the C.P. of chair be Rs.x then C.P. of a table = Rs. 
$$(500-x)$$

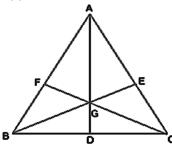

$$\therefore (500 - x) \times \frac{90}{100} + \frac{x \times 110}{100}$$

$$\Rightarrow 4500 - 9x + 11x = 5100$$

$$\Rightarrow$$
 2x = 5100 - 4500 = 600

$$\Rightarrow$$
 x = Rs. 300

62. (c)

Required area = 
$$\frac{1}{3} \times 60$$

63. (b); Principal = 
$$Rs.x$$
, interest

$$=3x-x$$

$$= Rs. 2x$$

$$\therefore \text{ Rate} = \frac{\text{S.I.} \times 100}{\text{Principal} \times \text{Time}}$$

$$2x \times 100$$

$$= \frac{2x \times 100}{x \times 25} = 8\% \text{ per annum}$$

64. (d); p sin 
$$\theta = \sqrt{3}$$

$$p \cos \theta = 1$$

on squaring and adding

$$\therefore p^2 \sin^2 \theta + p^2 \cos^2 \theta = 3 + 1$$

$$\Rightarrow$$
 p<sup>2</sup>(sin<sup>2</sup> $\theta$  + cos<sup>2</sup> $\theta$ ) = 4

$$= p^2 = 4$$

$$= p = 2$$

Area of trapezium

$$=\frac{1}{2}(AD + BC) \times DF$$

$$\Rightarrow 35 = \frac{1}{2}(5+9) \times DF$$

$$\Rightarrow$$
 35 = 7 × DF  $\rightarrow$  DF = 5

$$FC = \frac{9-5}{2} = 2cm$$

:. 
$$CD = \sqrt{DF^2 + FC^2} = \sqrt{5^2 + 2^2}$$

$$=\sqrt{25+4}=\sqrt{29}$$
 cm

$$\sqrt{4x-9} + \sqrt{4x+9} = 5 + \sqrt{7}$$

On squaring,

$$\Rightarrow 4x - 9 + 4x + 9 + 2\sqrt{(4x - 9)(4x + 9)}$$

$$\Rightarrow$$
 8x + 2 $\sqrt{(4x-9)(4x+9)}$ 

$$= 32 + 2 \times 5\sqrt{7}$$

$$\therefore 8x = 32 \rightarrow x = 4$$

67. (d); The value of 
$$2u_6 - 3u_4 + 1 = 0$$

$$= \sqrt{-\sqrt{3} + \sqrt{3 + 8\sqrt{7 + 4\sqrt{3}}}}$$

$$= \sqrt{-\sqrt{3} + \sqrt{3 + 8\sqrt{4 + 3 + 2.2\sqrt{3}}}}$$

$$= -\sqrt{3} + \sqrt{3 + 8\sqrt{(2 + \sqrt{3})^2}}$$

$$= -\sqrt{3} + \sqrt{3 + 8\sqrt{(2 + \sqrt{3})}}$$

$$=\sqrt{-\sqrt{3}+\sqrt{19+8\sqrt{3}}}$$

$$=\sqrt{-\sqrt{3}+\sqrt{16+3+2.4\sqrt{3}}}$$

$$=\sqrt{-\sqrt{3}+\sqrt{(4+\sqrt{3})^2}}$$

$$=\sqrt[4]{-\sqrt{3}+4+\sqrt{3}}=\sqrt{4}=2$$

#### 69. (d); Reduced concentration

= Initial concentration

$$\therefore \left(1 - \frac{\text{amount being replaced in each operation}}{\text{Total amount}}\right)$$

$$= 80 \left(1 - \frac{8}{80}\right)^{3}$$

$$= 80 \times \frac{9}{10} \times \frac{9}{10} \times \frac{9}{10}$$

$$= 80 \times \frac{1}{10} \times \frac{1}{10}$$
  
= 58.32 litres

$$= \left(10 + 10 + \frac{10 \times 10}{100}\right)\% = 21\%$$

- 71. (b); Sin (x + y) = cos[3(x + y)] $\Rightarrow$  sin (x + y)
  - $= \sin[90^{\circ} (3x + 3y)]$
  - $\Rightarrow$  [:  $\sin(90^{\circ} \theta) = \cos \theta$ ]
  - $\Rightarrow$  x + y = 90° 3x 3y
  - $\Rightarrow$  4x + 4y = 90°
  - $\Rightarrow$  2x + 2y = 45°
  - $\therefore \tan(2x + 2y) = \tan 45^\circ = 1$
- 72. (c); Area covered in 1 revolution
  - $= 2\pi rl$
  - =  $\left(2 \times \frac{22}{7} \times 0.7 \times 2\right)$  sq. metre

  - .: Area covered in 5 revolutions
  - $= 5 \times 8.8 = 44$ sq. metre
- 73. (b); If distance travelled by train be x km, then distance travelled by bus = (285 - x)km
  - $\therefore \frac{x}{55} + \frac{285 x}{40} = 6$   $\Rightarrow \frac{8x + 3135 11x}{440} = 6$  $\Rightarrow$ 3135 - 3x = 440 × 6 = 2640
  - $\Rightarrow$  3x = 3135 2640 = 495
  - $x = \frac{495}{3} = 165 \text{ km}$
- 74. (a)
  - Sol. Raju + Shyam + Hari = x
  - Kishore + Shyam + Hari
  - = x + 21
  - .. Runs scored by Raju
  - = 35 21 = 14
- 75. (c)
  - $\Rightarrow X = \frac{1}{2+\sqrt{3}} = \frac{2-\sqrt{3}}{(2+\sqrt{3})(2-\sqrt{3})}$
  - $=\frac{2-\sqrt{3}}{4-3}=2-\sqrt{3}$
  - $= x + 1 = 3 \sqrt{3}$
  - Similarly,  $y + 1 = 3 + \sqrt{3}$
  - $(3-\sqrt{3})(3+\sqrt{3})$
- 76. (a)
- 77. (a)
- 78. (c)
- 79. (d)Knotty-full of knots; fiddly- complicated
- 80. (a) Geniality-friendly and cheerful; Conviviality-friendliness
- 81. (b) Apocryphal- (of a story or statement) of doubtful authenticity, although widely circulated as being true. Cumbersome- slow or complicated and therefore inefficient
- 82. (d) Mulish- obstinate, recalcitrant
  - i. Benign- Polite, Decent
  - ii. Fanatic- Bigot, Zealot, Extremist
  - iii. Docile- obedient

- 83. (d)
- 84. (a)
- 85. (a)
- 86. (c)Its "auxiliaries"
- 87. (a)
- 88. (a)
- 89. (c) Swear by- to believe, use
- 90. (a)Use 'took' in place of 'take'
- 91. (a)Use 'repair' in place of 'repaired'
- 92. (b)Use "maintenance' in place of 'maintain'
- 93. (c)Use 'institute' in place of 'institution'
- 94. (b) The sentence is in passive voice as it does not begin with the subject. Being will be eliminated.
- 95. (c)Last long-till long time
- 96. (a) Refer to paragraph 1, 'The main objectives of the mission are to understand the origin and evolution of Jupiter, to find out if the planet, like Earth, has a solid rocky core, to uncover the source of its intense magnetic field'.
- 97. (b)
- 98. (b) Refer to paragraph 2," Though the nine instruments will not be turned on by the end of the week, the first full set of observations will take place before the end of August when the spacecraft comes close to Jupiter on its first orbit".
- 99. (c) refer to paragraph 1," The most important difference between the two missions is Juno's ability to see below the dense cloud cover of Jupiter; only a probe of Galileo entered the planet's atmosphere"
- 100.(c) Earnest-sincere and intense conviction, Insincere- not expressing genuine feeling, fake

## **IBPS PO MAINS: Reasoning & Quant Practice Set**

## REASONING ABILITY

**Directions (1-6):** Read the given information carefully and answer the given questions.

There are five units i.e. 1, 2, 3, 4 and 5. Each unit has a different height. Also each unit contains books and boxes. Unit2 is above unit1 and unit3 is above unit2 and so on. Every unit is belongs to different city i.e. Bengaluru, Delhi, Chennai, Mumbai and Jaipur. The total height of all five units is equal to 252"ft.

\*Total Height of Unit is equal to the total height of books plus total height of boxes in each unit.

\*Height of books is not equal to the height of boxes. Unless specified so.

The books belongs to Chennai is an even unit. The total height of unit1 is 75"ft. Mumbai is not a unit1. The total height of unit, which belongs to Mumbai is 55"ft. There is only one gap between Chennai and Delhi. The height of books and height of boxes in unit3 are equal. The height of books in unit2 is not less than 30"ft. The height of books are in unit4 is four more than the height of books, which is in unit3. The total height of Chennai is not 37"ft. The total height of unit, which contains 37"ft is not taking a place, which is immediate above the unit, which contains 20"ft more than the unit, which belongs to Mumbai. The height of boxes in unit2 is 23"ft. Unit belongs to Jaipur does not contain the equal height of books and boxes. The total height of unit2 is an odd number and height is more than 50"ft and less than 55"ft. Unit1 contains 23"ft height of boxes more than unit4 contains height of boxes and unit5 contains 7"ft height of books less than unit1 contains.

- 1. What is the total height in unit3?
  - (a) 37"ft
- (b) None of these (c) 32"ft
- (d) 53"ft
- (e) 75"ft
- 2. Unit3 belongs to which city?
- (a) Delhi
- (b) Jaipur
- (c) Mumbai

- (d) Bengaluru
- (e) Chennai
- 3. If 'Mumbai' is related to 37"ft in the same way as 'Bengaluru' is related to 53"ft. Which of the following is 'Delhi' related to, following the same pattern?
  - (a) 53"ft
- (b) 37"ft
- (c) 75"ft
- (d) None of these
- (e) 32"ft
- 4. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) Mumbai
- (b) 32"ft
- (c) 75"ft

- (d) Delhi
- (e) Bengaluru
- 5. What is the height of box in unit 4?
  - (a) 23'ft
- (b) 17"ft
- (c) 27"ft

- (d) 40"ft
- (e) 20"ft
- . Which unit contains 30"ft book?
  - (a) None of these
- (b) Unit2
- (c) Unit3
- (d) Unit1 (e) Unit5

**Directions (7-11):** Study the following information carefully and answer the given questions.

Eight people A, B, C, D, E, F, G and H are sitting around a circular table facing towards the centre but not necessarily in the same order. All of them are at equidistant. Each one of them teaches different subjects viz. English, Hindi, Mathematics, Biology, Psychology, Physics, Chemistry and Accounts but not necessarily in the same order.

The person who teaches Accounts, sits third to the right of G. C is an immediate neighbour of G. The person who teaches Mathematics sits second to the left of C. B sits third to the right of H. H teaches neither Accounts nor Mathematics. Only two persons sit between C and the person who teaches Physics. A and F are immediate neighbours of each other. Neither A nor F teaches Accounts. The person who teaches English sits second to the right of A. Two persons sit between D and the person who teaches Hindi. D does not teach Accounts. The person who teaches Psychology is an immediate neighbour of the person who teaches Accounts. The person who teaches Accounts. The person who teaches Physics sits second to the left of A. One of the immediate neighbours of G teaches Chemistry.

- 7. Who among the following teaches Chemistry?
  - (a) A
- (b) H
- (c) D

- (e) G
- (e) None of these
- 8. What is the position of B with respect to the person who teaches Psychology?
  - (a) Second to the left
- (b) Third to the right
- (c) Third to the left
- (d) Second to the right
- (e) None of these
- 9. Who among the following sits exactly between the person who teaches Biology and the person who teaches Physics?
  - (a) The person who teaches Mathematics
  - (b) E
  - (c) The person who teaches Accounts
  - (d) Cannot be determined
  - (e) These is no such person
- 10. Which of the following statement is true with regard given sitting arrangement?
  - (a) The person who teaches Hindi is an immediate neighbour of both H and D.
  - (b) One of the immediate neighbours of F teaches Biology.
  - (c) E is sitting exactly between B and the person who teaches Mathematics.
  - (d) The person who teaches Chemistry is second to the left of D.
  - (e) All are true
- 11. Four of the following five are alike in a certain way bas the given sitting arrangement and hence form a group. Which is the one that does not belong to the group?

(a) CF (b) GA (c) BD

(d) EH (e) BA

**Directions (12-16):** Read the given information carefully and answer the given questions.

Twelve friends are sitting in two parallel rows containing six people each in such a way that there is equal distance between adjacent persons. In row 1 A, B, C, D, E and F are seated and all of them are facing north and in row 2 P, Q, R, S, T and U, are seated and are facing south, but not necessarily in the same order.

R's daughter is immediate neighbour of the one, who faces R. Q. is married to F. There are four persons sits to the right of R. R's son-in-law sits third to the left of the one, who faces the person, who is immediate left of A's brother. Two persons sit between S and T. R's brother sits second to the right of R's sister. S does not sit one of the extreme ends. A is brother-in-law of B. There are one person sits between R's son and R's daughter. A's father sits second to the right of A's brother. E is married to S. only one person sits between A's brother and R's mother. R's son-in-law does not sit one of the extreme ends. P faces E, who sits one of the extreme left end. B sits third to the right of E. Q sits immediate right of the person, who faces R's wife. R's mother sits third to the left of the one, who faces the one, who sits immediate right of R's son-in-law. R's brother-in-law sits fourth to the left of R's wife. C sits diagonally opposite to the one, who is immediate right of U. A is son-in-law of D. A's sister-in-law faces S. A's sister-in-law sits third to the left of R's daughter.

12. Who is grandmother of B?

- a) T (b) D's mother-in-law
- (c) Person sits one of the extreme left end.
- (d) E's mother-in-law (e) All are true
- 13. Who sits second to the left of the one, who faces the person, who sits second to the left of P?
  - (a) R's brother
- (b) Q
- (c) None are true

- (d) A
- (e) S's husband
- 14. Who sits immediate left of the one, who is sister-in-law of A?
  - (a) B
- (b) C's brother
- (c) Q's brother
- (d) E's brother-in-law
- (e) Q
- 15. Who is the niece of P?
  - (a) B
- (b) T's son
- (c) Q's wife
- (d) Q's sister-in-law (e) Q
- 16. If P related to A's sister-in-law in the same way as Q related to R's daughter. Which of the following is U related to, following the same pattern?
  - (a) R's brother
- (b) C's brother (c) F
- (d) A
- (e) None of these
- 17. In a row of children, Neeta is fifteenth from the left end of the row. If she is shifted towards the right end of the row by four places. She becomes eighth from the right end. How many children are there in the row?
  - (a) 27
- (b) 26
- (c) 28

- (d) 24
- (e) None of these

Directions (18-21): Study the following information carefully and

answer the questions which follow.

In a certain code language, some statements are coded as follow:

'give solution for problem' is coded as '9rolutioo 8oroblen 5fivf 4eos'.

'pure fruit sell plants' is coded as '5relm 6eruiu 7olantt 5ourf'. 'pet sensed ghostly farm' is coded as '7rensee 4oeu 5earn 8fhostlz'.

'spa guards picked flake' is coded as '6elakf 4rpb 7oickee 7fuardt'.

- 18. Which will be the code for 'mostly'?
  - (a) 7mostlz
- (b) 6nostlz
- (c) None of these

- (d) 7lostlz
- (e) 7lostly
- 19. If 'solution farm grain seem' is coded as '6fraio 9rolutioo 5earn 5reen'. Then what is code for 'plants means grain seems'?
  - (a) '7olantt 6leant 5fraino 6reemt'
  - (b) '6reemt 7olantt 5leant 6fraio'
  - (c) '6fraio 7olantt 6leant 6reemt'
  - (d) '7olantr 6fraio 5leant 6fraio'
  - (e) None of these
- 20. Which will be the code for 'problem seems bad'?
  - (a) None of these
- (b) '5reemt 7oroblen 3aae'
- (c) '4aae 8oroblen 6reemt'
- (d) '7oroblen 6reemt 4bae'
- (e) '6reems 8oroblen 4aae'
- 21. If 'problem' and 'ghostly' are exchange their code same as 'spa' and 'pet' exchange their code. Then what is the code for 'right problem in spa'?
  - (a) '6qighu 4oeu 3ho 8ghostlz'
  - (b) Can't be determine
  - (c) '6qighu 3ho 4rpb 8oroblen'
  - (d) '4oeu 3ho 6qighu 8fhostlz'
  - (e) '8oroblen 3ho 6qighu 4tpb'

**Direction (22):** Question consists of five statements followed by five conclusions. Consider the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions does not logically follow from the given statements using all statements together.

22. Statements: All notes are money

All money are Rbi No paisa is money
All rupees are Sbi Some rupees are paisa

**Conclusions:** (a) Some Sbi are not notes.

- (b) All Sbi being Rbi is a possibility.
- (c) Some Rbi are not paisa.
- (d) No notes are paisa.
- (e) All rupees can be notes.

**Directions (23-24):** In making decisions about important questions, it is desirable to distinguish between a 'strong' argument and a 'weak' argument. A 'strong' argument must be both important and directly related to the question. Weak arguments may not be directly related to the question and may be of minor importance or may be related to the trivial aspect of the question. Each question below is followed by three arguments numbered I, II and III. You have to decide which of

the arguments is 'strong' and indicate your answer accordingly.

23. **Statement:** Should there be a common syllabus for all subjects in graduate courses in all the universities across the country?

**Arguments:** I. Yes, this is the only way to spring in uniformity in the education system in the country.

- II. Yes, it will help standardize the quality of graduation certificates being given by different universities in the country.
- III. No, each university should have the autonomy to decide its syllabus based on the specific requirement of the university.
- (a) None is strong
- (b) Only I is strong
- (c) Only II is strong
- (d) I and II are strong
- (e) II and III are strong
- 24. **Statement:** Should all those students who failed in one or two subjects in HSC be allowed to take admission in degree courses and continue their study subject to their successfully passing in the supplementary examination?

**Arguments:** I. Yes, this will help the students to complete their education without a break of one year.

- II. Yes, this is a forward looking strategy to help the students and motivate them for higher studies.
- III. No, such students do not choose to continue their studies without having passed in all the subjects in HSC.
- (a) Only I is strong
- (b) Only II is strong
- (c) Only III is strong (d) None of these
- (e) I and II are strong

Directions (25-27): In making decisions about important questions, it is desirable to be able to distinguish between 'strong' arguments and 'weak' arguments. 'Strong' arguments are those which are important and directly related to the question. 'Weak' arguments are those which are of minor importance and also may not be directly related to the question or may be related to a trivial aspect of the question. Each question below is followed by two arguments numbered I and II. You have to decide which of the arguments is a 'strong' argument and which is a 'weak' argument. Give answer-

- (a) If only Argument I is strong
- (b) If only Argument II is strong
- (c) If both Argument I and II are strong
- (d) If neither Argument I nor II are strong
- (e) If either Argument I or II are strong
- 25. **Statement:** Keeping in consideration the longevity of life in India, should the age limit for retirement in government jobs be increased?

**Arguments:** I. Yes, other countries have decided so long before.

- II. Yes, it is the actual demand of lakhs of employees.
- 26. **Statement:** Are educational institutions responsible for unrest among the youth?

**Arguments:** I. Yes, there is no discipline in educational institutions.

II. No, there is no disciplinary problem in educational

institutions.

27. **Statement:** Should the organisations like the UNO be abolished?

**Arguments:** I. the cold war is going to an end so there is no role of such organisations.

II. No, in the absence of these organisations, there may be a world war.

**Direction (28-30):** Each question consists of one conclusion followed by five statements. Consider the given conclusion to be true even if they seem to be at variance with commonly known facts. Read the conclusions and then decide which of the following statement is true for that conclusion.

 Conclusions: All leaves being trees is a possibility. No tree is a fruit.

**Statements:** (a) Some trees are boots. No boot is a leaves. All leaves are fruits.

- (b) Some leaves are not boots. All trees are boots. No boot is a fruit.
- (c) All boots are leaves. Some trees are not boots. No fruit is a tree.
- (d) Some boots are fruits. All trees are boots. No fruit is leaves.
- (e) None of these
- 29. **Conclusions:** All institutes being hostel is a possibility. Some schools can be institutes.

**Statements:** (a) Some hostels are colleges. All colleges are schools. All institutes are hostel.

- (b) None of these
- (c) Some hostels are colleges. Some schools are colleges. No hostel is an institute.
- (d) Some schools are colleges. Some hostels are colleges. Some hostels are not institutes.
- (e) All schools are hostels. Some colleges are schools. No institute is a school.
- Conclusions: All pearls can be stones. Some boxes are stones.

Statements: (a) None of these

- (b) All shells are boxes. Some stones are boxes. No Box is a pearl.
- (c) Some stones are shells. All shells are pearls. Some pearls are boxes.
- (d) Some stones are shells. All shells are boxes. All boxes are pearls.
- (e) Some shells are boxes. All boxes are stones. No stone is a pearl.
- 31. Effect- The price of food grains and vegetables have increased by about 30% in the past three months. Which of the following can be a probable cause of the above effect?
  - (a) The farmers have decided to change their farming style.
  - (b) The prices of other products have increased more than 30%
  - (c) The number of farmers has reduced.
  - (d) Occupation of farming has not been viewed as a reputed work.

- (e) None of the above
- 32. Cause- The income tax authorities carried out raids at three different business houses in the city last week.

Which of the following can be a possible effect of the above statement?

- (a) The three business houses are regular defaulters in payment of their income tax.
- (b) The income tax department has received a tip off about the illegal activities going on in the three business tax.
- (c) The government decided to look into the matter and has appointed an inquire committee.
- (d) The business houses took immediate action to clear off all their income tax dues, in order to avoid raid on their establishments.
- (e) The authorities intend to conduct raids in several other business houses in the vicinity.

**Directions (33-36):** Each of the questions given below consists of a question and two statements numbered I and II. You have to decide whether the data provided in the statements are sufficient to answer the question.

- (a) If Statement I alone is sufficient, but Statement II alone is not sufficient to answer the question.
- (b) If Statement II alone is sufficient, but Statement I alone is not sufficient to answer the question.
- (c) If both statements taken together are sufficient to answer the question, but neither statement alone is sufficient.
- (d) If each statement alone is sufficient.
- (e) If Statements I and II together are not sufficient, and additional data is needed to answer the question.
- 33. In a hockey match between India and Australia, the India team was behind by 2 goals with 5 minutes remaining. Did they win the match?
  - I. Deepak Thakur, the Indian striker scored 3 goals in the last 5 minutes of the match.
  - II. Australia scored a total of 3 goals in the match.
- 34. Four students were added to a dance class. Would the teacher be able to divide her students evenly into a dance team (or teams) of 8?
  - I. If 12 students were also added, then the teacher could put everyone in teams of 8 without any leftovers.
  - II. The number of students in the class is currently not divisible by 8.
- 35. How many students among P, Q, R and S have passed the examination?
  - I. The following is a true statement: P and Q passed the examination.
  - II. The following is a false statement: One among R and S has passed the examination.
- 36. The last Sunday of March, 2013 fell on which date?
  - I. The first Sunday of that month fell on 5<sup>th</sup>.
  - II. The last day of that month was Friday.

**Directions (37-39):** Below in each question are given two Statement I and II. These statements may be either independent causes or may be effects of independent causes or a common

cause. One of these statements may be the effect of the other statement. Read both the statements and decide which of the following answer choice correctly depicts the relationship between these two statements.

#### Give answer

- (a) If Statement I is the cause and Statement II is its effect.
- (b) If Statement II is the cause and Statement I is its effect.
- (c) If both the Statements I and II are independent causes.
- (d) If both the Statements I and II are effects of independent causes.
- (e) If both the Statement I and II are effects of some common causes.
- 37. **I.** There has been mass recruitment of IT professionals by Hindi IT companies.
  - **II.** Many developed countries are increasingly outsourcing IT related functions to India and China.
- 38. **I.** The government has marginally increased the procurement price of wheat for the current crop.
  - **II.** The current wheat crop is expected to be twenty per cent more than the previous wheat crop.
- 39. **I.** The braking system of the tourist bus carrying 40 passengers failed while negotiating a stiff climb on a hilly road.
  - **II.** The tourist bus fell into the gorge killing at least ten passengers and seriously injuring all the remaining.
- 40. In the given problem, there is one question and three statements I, II and III given below the question. You have to decide whether the data given in the statements is sufficient to answer the question. Read all the statements carefully and find which of the statements is/are sufficient to answer the given question. Choose the correct alternative in the given question.

In a certain code, 'al bd ck' means 'We are friends'. Which code stands for 'We'?

Statements: I. 'zl bd cl' means 'They are classmates'.

II. 'ck xp pk' means 'We love them'.

III. 'zl al' means 'Hello friends'.

(a) Only II (b) Only I and III

(c) All I, II and III (d) Either I only or II only

(e) None of these

**Direction (41-43):** Read the given information carefully and answer the given questions.

There are eight persons namely A, B, C, D, E, F, G and H had born in different year starting from 1969 to 2005, But not necessarily in the same order. They were born in the same month of the different year. Their age are considered as on the same month of year 2016.

There was 18 year gap between G and E. C was 14 year old. H was born earlier than F. Year in which G was born is 6 year more than the year in which A was born. D was born in the year, which is 16 year less than the year in which C was born. One of them person was born in 1990. B was 17 year old than D. In 2016 G was 38 year old.

41. What is the age of A in 2016?

- (a) 41 year
- (b) 38 year
- (c) 44 year

- (d) 36 year
- (e) 35 year
- 42. How many years gap between E and D? (a) 13 year
  - (b) 11 year
- (c) 16 year

- (d) None of these
- (e) 10 year
- 43. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) E
- (c) F

- (d) H
- (e) A

Direction (44-45): Read the following instructions carefully and answer the given questions.

If a person 'Ram' walks 15 meter towards south directions from point A to point B, then turn towards east, walks 7 meter and reached point C again turn towards north direction, walks 5 meter and reached point D. Another person 'Shyam', who stand on point E, which is 15 meter west of point D. Point Q is north of point E.

- 44. Ram's last position is in which direction with respect to the point Q?
  - (a) North-east
- (b) Can't be determined
- (c) East
- (d) South-east
- (e) South-west
- 45. If Point P, Q, E are in a straight line and Point P is south-west of point B. And shortest distance between point E and point P is 11 meter, then what is the shortest distance between point B to point P?
  - (a)  $2\sqrt{5}$  meter
- (b) 10 meter
- (c) 20 meter
- (d) Can't be determined
- (e) None of these

Directions (46-50): Read the given information carefully and answer the given questions.

There are two circular tables in a room. Six Americans - P, Q, R, S, T and U are sitting at one table and six Indians - A, B, C, D, E and F are sitting at the other table. P and S are sitting opposite to each other. Q and T are also sitting opposite to each other. R sits to be right of S. Q is the only person who can translate English to Hindi language. R is the only person who can translate Hindi language to English and none of them does the vice-versa, unless so stated. T and U sit adjacent to each other. Similarly, A sits opposite to D. F sits opposite to C and E sits to the right of F. B and D sit adjacent to C. On the table, person can talk to another person, only as stated below. The only conversations that took place are as given below.

P spoke to Q, Q to F, F to R, F to E, E to D, D to C, B to A, A to F, R to S, S to T, U to P, A to F and T to U.

The conversation are one sided i.e. P spoke to Q implies that P is the speaker and Q is the listener and not vice-versa.

- 46. If the person to the right of P wants to send a message to the person sitting to the left of B, then the message has to pass through how many persons? (Excluding the first and the last)
  - (a) 7
- (b) 5
- (c) 6

- (d) None of these
- (e) 8
- 47. If R wants to send a message to A, then how many person must the message pass through? (Excluding the first and including the last)
  - (a) 6
- (b) 4
- (c) 10

- (d) 8
- (e) None of these
- 48. If the person who is sitting to the right of Q wants to send a message to the person sitting two places to the left of S, then what is the minimum number of people involved between them?(Excluding the two people)
  - (a) 6
- (b) 10
- (c) 4

- (d) 5
- (e) None of these
- 49. If every person is allowed to speak to the person who sits opposite to him directly, then what is the least number of person involved in passing a message from R to A? (Excluding the two people)
  - (a) 3
- (b) 6
- (c) 7
- (d) None of these (e) 5
- 50. If the order of conveying messages is reversed at both the tables, i.e. 'P speaks to Q (now becomes 'Q speaks to P' and so on) and also Q and R exchange their interpreting skills, then which of the following must be true?
  - (a) P can send a message to E involving only 5 persons.
  - (b) The person sitting to the right of U can send a message to the person sitting to the left of B, by involving only five persons
  - (c) The person sitting to the right of R, on the same table, can translate English to Hindi language.
  - (d) The maximum number of persons involved in the longest message in this new arrangement is more than in the previous arrangement.
  - (e) None option is true.

## QUANTITATIVE APTITUDE

Direction (51-55): Calculate the value of quantity I and Quantity II based on the given information. Then compare these two values and answer the following questions-

- 51. Quantity I The time in which 17000 Rs. invested at compound interest at 5% rate of interest, if the compound interest is earned is 2211.0625 Rs.
  - Quantity II— The time in which 22000 Rs. invested at simple interest at 6% rate of interest, if the interest earned is 3630 Rs.
- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I = Quantity II
- (e) No relation
- 52. Quantity I The percentage increase in area of a circle, when the radius of the circle is increased by 100%.

**Quantity II** — The percentage increase in area of a rectangle when length is increased by 150% and breadth of the rectangle is increased by 60%.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II

- (c) Quantity I ≥ Quantity II
- (d) Quantity I = Quantity II
- (e) No relation
- 53. Quantity I Time taken by Pallavi to complete the work, if Baby and Pallavi together can do the same work in 7 days while Pallavi is  $1\frac{3}{4}$  times efficient than Baby.

Quantity II — Time taken by Gaurav, Vivek and Babu all together to complete a work, if Gaurav works half of Vivek while Babu works half of the work done by Gaurav and Vivek together. The time taken by Babu alone to complete the work is 12 days.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I = Quantity II
- (e) No relation
- 54. a>0<b

For all the integer value of a and b

$$x = \frac{(a^2 + ab) - (ab^2 - b)}{2a^2 + b^2 - ab}$$

Quantity I: x

Quantity II: 1.5

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I = Quantity II
- (e) No relation
- 55. A box contains 4 Red balls, 6 white balls, 2 orange balls and 8 black balls.

Quantity I: Two balls are drawn at random. Probability that both balls are either red or white.

Quantity II: Three balls are drawn. The probability that all are different.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I = Quantity II
- (e) No relation
- 56. Find the compound interest on Rs. 80000 for 3 years if the rate of interest is 5% for the first year, 4% for the second year and 5% for the third year.
  - (a) Rs. 17128
- (b) Rs. 11728 (c) Rs. 11298
- (d) Rs. 11278
- (e) Rs. 11738
- 57. The distance between two stations A and B is 900 km. A train starts from A and moves towards B at an average speed of 30 km/hr. Another train starts from B, 20 minutes earlier than the train at A, and moves towards A at an average speed of 40 km/hr. How far from A will the two trains meet?
  - (a) 380 km
- (b) 320 km
- (c) 240 km

- (d) 330 km
- (e) None of these
- 58. Length of a rectangular blackboard is 10 cm more than that of its breadth. If its length is increased by 8 cm and its breadth is decreased by 5 cm, its area remains unchanged. Find the area of the black board.
  - (a) 1200 sq cm
- (b) 1250 sq cm (c) 320 sq cm
- (d) Data inadequate (e) None of these
- 59. A can do a piece of work in 120 days and B can do it in 150 days. They work together for 20 days. Then A leaves and B continues the work. 12 days after that, C joins the work and the work is completed in 48 more days. In how many days C can do it alone?

- (a) 225
- (b) 220
- (c) 230

- (d) 240
- (e) None of these
- 60. A builder decided to build a farmhouse in 40 days. He employed 100 men in beginning and 100 more after 35 days and completed the work on time. If no additional men would have been employed, then find the delay.
  - (a) 5 days
- (b) 6 days
- (c) 8 days

- (d) 10 days
  - (e) None of these

Directions (61-65): The following questions are accompanied by three statements (I), (II), and (III). You have to determine which statements(s) is/are sufficient/necessary to answer the questions.

- 61. What is the speed of a train?
  - I. The train crosses a signal pole in 18 secs.
  - II. The train crosses a platform of equal length in 36 secs.
  - III. Length of the train is 330 metres.
  - (a) I and III only
- (b) II and III only
- (c) I and II only
- (d) III and either I or II only
- (e) Any two of the three
- 62. What is the difference between two numbers X and Y?
  - I. X is 20 per cent more than another number Z.
  - II. Y is 20 per cent less than Z.
  - III. The sum of Y and Z is 72.
  - (a) Only I and II are required
  - (b) Only I and III are required
  - (c) All I, II and III together are required
  - (d) Any two of I, II and III are required
  - (e) Even with all I, II and III together the answer cannot be arrived at
- 63. What is the area of the right-angled triangular garden?
  - I. Perimeter of the garden is y cm.
  - II. Length of the hypotenuse is x cm.
  - III. Perpendicular sides of the garden are in the ratio of 5:
  - (a) Only I and III or only II and III
  - (b) All I, II and III
- (c) Any two of the three
- (d) Only I and III
- (e) None of the above
- 64. What is the monthly salary of Pravin?
  - I. Pravin earns Rs. 1200 more than Amal.
  - II. The ratio between Amal and Vimal's monthly salary is 5:
  - III. Vimal earns Rs. 1,000 less than Amal.
  - (a) Any two of I, II and III are required.
  - (b) Only I and II are required
  - (c) Only II and III are required
  - (d) All I, II and III together are required
  - (e) None of these
- 65. What is the area of the isosceles triangle?
  - I. Perimeter of the triangle is 14 metres.
  - II. Base of the triangle is 14 metres.
  - III. Height of the triangle is 5 metres.
  - (a) I and II only
- (b) II and III only

- (c) I and II only or II and III only
- (d) I and III only
- (e) All I, II and III
- 66. 2 candles of same height are lighted at the same time. The first is to be consumed in 5 hours and seconds in 4 hours. Assuming that they burn at constant rates, in how many hours their height will be in ratio 3:2?
- (b)  $3\frac{1}{3}$
- (c) 4

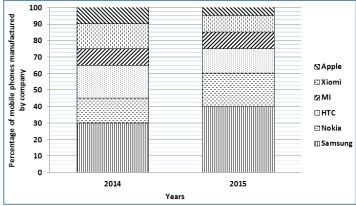

- (d)  $3\frac{2}{3}$
- (e) None of these
- 67. P and Q entered into partnership investing Rs 12000 and Rs 16000 respectively. After 8 months, R also joins the business with a capital of Rs 15000. The share of R in a profit of Rs 45600 after 2 years will be:
  - (a) 24000
- (b) 16000
- (c) 12000

- (d) 11400
- (e) None of these
- 68. When the price of sugar was increased by 20%, a family reduced its consumption in such a way that the expenditure on sugar is only increased by 15%. If 24 kg were consumed per month before the increase in price, find the new monthly consumption.
  - (a) 22 kg
- (b) 23 kg
- (c) 23.5 kg

- (d) 22.5 kg
- (e) None of these
- 69. A person covered 9 km at 3 km/h, 25 km at 5 km/h and 30 km at 10 km/h. Then find the average speed in covering the whole distance.
  - (a)  $5\frac{2}{11}$  km/h (d) 6 km/h

- (b)  $5\frac{5}{11}$  km/h (c)  $5\frac{7}{11}$  km/h (e) None of these
- 70. A dishonest dealer sells the goods at 10% loss on cost price but uses 20% less weight. What is his percentage profit or
- (a) 12.5% gain (b) 12.5% loss (c)  $16\frac{2}{3}$ % loss
- (d)  $16^{\frac{2}{3}}$  gain
- (e) None of these

Directions (71-75): The bar chart given below shows the percentage distribution of the production of various models of mobiles by six mobile manufacturing companies in 2014 and 2015. The total production in 2014 was 35 lakh and in 2015 the production was 44 lakh. Study the chart and answer the following questions.

- 71. Total number of mobiles of Samsung, Nokia and Xiomi manufactured in 2014 was
  - (a) 2450000
- (b) 22750000
- (c) 2100000

- (d) 1925000
- (e) 225000
- 72. For which company the difference between number of mobiles produced in 2014 and 2015 is maximum?
  - (a) Samsung
- (b) Nokia
- (c) HTC

- (d) Xiomi
- (e) None of these
- 73. What was the difference in the number of Nokia mobiles produced in 2014 and 2015?
  - (a) 355000
- (b) 270000
- (c) 225000

- (d) 175000
- (e) 200000
- 74. What is the average number of mobiles manufactured by companies Samsung and Xiomi taken both years together?
  - (a) 943750
- (b) 943650
- (c) 943760

- (d) 943570
- (e) None of these
- 75. If 85% of MI mobiles produced in each year were sold by the company, then how many MI mobiles remained unsold?
  - (a) 76500
- (b) 93500
- (c) 118500

- (d) 122500
- (e) 96000

Directions (76-80): There are five companies and we have given the no. of employees working in these companies. In the table we have also given the percentage of male and female employees of Sales and Advertising department with respect to the total no of employees.

Company	No. of	S	ales	Advertising		
	Employees	Male	Female	Male	Female	
Infosys	450	12	14	6	6	
Wipro	850	18	10	12	14	
Mindtree	400	28	14	4	7	
Oracle	525	20	8	8	4	
TCS	375	12	20	4	8	

- 76. The ratio of female employee in Sales dept. of company Oracle and TCS together to male employees of Advertising dept. in company Infosys and Wipro together?
  - (a) 41:55
- (b) 43:39
- (c) 55:41

- (d) 39:43
- (e) None of these
- 77. Difference between male employees of Advertising dept. in all companies together (excluding company TCS) and the female employees of Sales dept. in all companies together (excluding company Wipro and TCS)?
  - (a) 21
- (b) 26
- (c) 31
- (d) 36 (e) None of these
- 78. Total number of Advertising employees of company Wipro and Oracle is what % more than the total no. of Advertising employee in company Mindtree?
  - (a) 536.76%
- (b) 526.67%
- (c)576.76%

- (d) 546.67%
- (e) 545.45%
- 79. If 40% of the employees of company TCS in Sales department have graduation degree and 60% of the

employees of the same company in the Advertising dept. have graduation degree, then how many employees have graduation degree in company TCS in both dept. together?

- (a) 75
- (b) 108
- (c)106

- (d) 92
- (e) 66

80. The ratio of female employee of company Infosys and Wipro in Sales dept. to male employee of company Oracle and Mindtree in Advertising dept. ?

- (a) 41:13
- (b) 74:29
- (c)22:59

(c) 2355

(c) 2380

(d)29:74

(d) 343

(e) None of these

Directions (81-85): What will come in place of the question mark (?) in the following number series?

- 81. 27 110 420 1245 2475 (a) 2480 (b) 2350 (d) 2340 (e) None of these 82. 85 89 187 577 ? 11701 (a) 2373 (b) 2275 (d) 2290 (e) 2333
- 83. 7 23 55 109 191 (b) 317 (a) 307 (c) 333
- (e) None of these 84. 87 45 16 88 (a) 3.75 (b) 5 (c) 5.75
- (d) 5.25 (e) None of these 85. 18 17 24 46
- (a) 85 (b) 118 (c) 112.5 (e) None of these (d) 92.5
- 86. A shokeeper bought 150 calculators at the rate of Rs. 250 per calculator. He spent Rs. 2500 on transportation and packing. If the marked price of calculator is Rs. 320 per calculator and the shopkeeper gives a discount of 5% on the marked price then what will be the percentage profit gained by the shopkeeper?
  - (a) 20% (b) 14% (c) 15% (d) 16% (e) None of these
- 87. Anshul deposited two parts of a sum of Rs. 25000 in different banks at the rates of 15% per annum and 18% per annum respectively. In one year he got Rs. 4050 as the total interest. What was the amount deposited at the rate of 18% per annum?
  - (a) Rs. 9000 (b) Rs. 18000 (c) Rs. 15000 (d) Rs. 10000 (e) None of these
- 88. The difference between the simple and the compound interest compounded every six months at the rate of 10 per cent per annum at the end of two years is Rs. 124.05. What is the sum?
  - (a) Rs. 10000
- (b) Rs. 60000
- (c) Rs. 12000

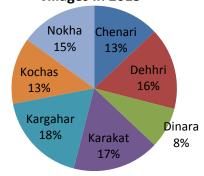

- (d) Rs. 8000
- (e) None of these
- 89. In two alloys, copper and zinc are present in the ratios of 4:1 and 1:3. 10 kg of 1<sup>st</sup> alloy 16 kg of 2<sup>nd</sup> alloy and some of pure copper are melted togther. An alloy was obtained in which the ratio of copper to zinc was 3:2. Find the weight of the new alloy.
  - (a) 34 kg
- (b) 35 kg
- (c) 36 kg

- (d) 30 kg (e) None of these
- 90. Ramesh can finish a job in 20 days. He worked for 10 days alone and completed the remaining job working with Dinesh, in 2 days. How many days would both Dinesh and Ramesh together take to complete the entire job?
- (b) 5

- (d) 12
- (e) None of these

Directions (91-95): Study the following chart to answer the question given below:

## Proportion of population of seven villages in 2015

Village	% population below poverty line
Chenari	45
Dehhri	52
Dinara	38
Karakat	58
Kargahar	46
Kochas	49
Nokha	51

- 91. In 2016, the population of villages Chenari as well as Dehhri is increased by 10% from the year 2015. If the population of village Chenari in 2015 was 5000 and the percentage of population below poverty line in 2016 remain same as in 2015 for both the villages, find approximately the population of village Dehhri below poverty line in 2016.
  - (a) 4000
- (b) 4500
- (c) 2500
- (d) 3000 (e) 3500
- 92. If in 2017 the population of village Karakat is increased by 10% as compared to 2015 and the population of village Nokha is reduced by 5% as compared to 2015 and the population of village Nokha in 2015 was 9000, what is the total population of villages Karakat and Nokha in 2017?
  - (a) 19770
- (b) 19200
- (c) 18770

- (d) 19870
- (e) None of these

- 93. If in 2015 the total population of the seven villages together was 55,000. Approximately, what will be approximate population of village Kochas in that year below poverty line? (a) 3000
- (b) 2500
- (c) 4000

- (d) 3500
- (e) 4500
- 94. If the population of village Dinara below poverty line in 2015 was 1520, what was the population of village Kochas in 2015?
  - (a) 4000
- (b) 6000
- (c) 6500

- (d) 4800
- (e) None of these
- 95. The population of village Dinara is 2000 in 2015. What will be the ratio of population of village Dinara below poverty line to that of the village Kargahar below poverty line in that year?
  - (a) 207:76
- (b) 76:207
- (c) 152:207
- (d) Data inadequate (e) None of these

Directions (96–100): Study the following information carefully to answer the given questions.

In a medical college, there are 1600 students studying Dentistry and Homeopathy. Each student from each course knows one or more languages out of English, Hindi and Bangla. 45% of the students study Dentistry and remaining students study Homeopathy.

Out of the students studying Dentistry, boys and girls are in the ratio of 5:3 respectively.

Out of the boys studying Dentistry, 16% know only English, 10% know only Hindi and 4% know only Bangla. 24%know English as well as Hindi. 20% know English as well as Bangla. 14% know Hindi as well as Bangla. Remaining boys know all three languages.

Out of the girls studying Dentistry, 20% know only English, 10% know only Hindi and 10% know only Bangla. 20% know English as well as Hindi. 20% know English as well as Bangla. 10% know

## **Solutions:**

## Direction (1-6):

		. (= 0).				
Unit		Total	City	Height of books + height		
		Height		of Boxes		
5		55"ft	Mumbai	28"ft +27"ft		
4		37"ft	Delhi	20"ft +17"ft		
3		32"ft	Bengaluru	16"ft +16"ft		
2		53"ft	Chennai	30"ft +23"ft		
1	L	75"ft	Jaipur	35"ft +40"ft		
1.	(c)

3.	(e)					
4.	(d)					

Directions (7-11):

5. (b)

(b)

Hindi as well as Bangla. Remaining girls know all three languages.

Out of the students studying Homeopathy boys and girls are in the ratio of 4: 7 respectively. Out of the boys studying Homeopathy, 20% know only English, 15% know only Hindi and 5% know only Bangla, 15% know English as well as Hindi. 25% know English as well as Bangla. 10% know Hindi as well as Bangla. Remaining boys know all three languages. Out of the girls studying Homeopathy, 15% know only English, 15% know only Hindi and 5% know only Bangla. 20% know English as well as Hindi, 20% know English as well as Bangla. 15% know Hindi as well as Bangla. Remaining girls know all three languages.

- 96. How many students of Dentistry know only either English or Hindi?
  - (a) 166
- (b) 162
- (c) 308

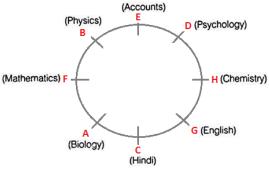

- (d) 198
- (e) 248
- 97. How many students in the college know all three languages?
  - (a) 108 (b) 132
- (c) 169
- (d) 137

- (e) 142
- 98. What percent of the total number of girls in the college know of Bangla?
  - (a) 45%
- (b) 40%
- (c) 48%

- (d) 42%
- (e) 50%
- 99. Out of the total number of students studying Dentistry, what percent knows at least two languages?
  - (a)  $61\frac{12}{13}\%$
- (c)  $59\frac{13}{17}\%$

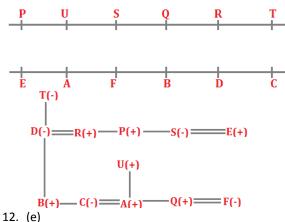

- (d)  $66^{\frac{1}{4}}\%$
- (b)  $57\frac{13}{16}$  (e)  $62\frac{12}{19}\%$
- 100. What percent of the total number of girls in the college do not know Hindi? (Rounded off to nearest integer)
  - (a) 38%
- (b) 46%
- (c) 48%

- (d) 36%
- (e) 43%

- 7. (b)
- 8. (d)
- 9. (a)
- 10. (b)
- 11. (e)

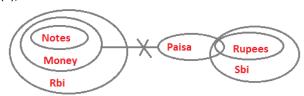

**Direction (12-16):** 

- 13. (e)
- 14. (c)
- 15. (d)
- 16. (b)
- 17. (b); There number of children = [(15+4+8)-1]= 27 - 1 = 26

#### **Direction (18-21):**

- 18. (d); '7lostlz'
- 19. (c); Sol. '6eraio 7olantt 6leant 6reemt'
- 20. (c); '4aae 8oroblen 6reemt'
- S21.(d); '4oeu 3ho 6qighu 8fhostlz'
- S22. (e);

#### Directions (23-24):

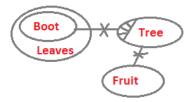

- 23. (e); Argument I became weak because of the word 'only' used but Arguments II and III are strong.
- 24. (d); Argument I is strong because one previous year of students will save. If this move is implemented, then it is possible that students might not concentrate on HSC exams because they think that they will be promoted, weather they pass HSC or not but it will motivate those students who failed in one or two subjects by a small margin. So, either Argument II or III follows.

#### Directions (25-27):

- 25. (b); Argument I is not strong because different countries have different culture, economy and various other factor. So, some implementations are successful in one country while failure in other country. Argument II is strong because it is the demand of lakhs of employees.
- 26. (d); Neither Argument I nor II is strong because none of them logically supports the statements.
- 27. (b); Argument II is strong because in the absence of UNO, there may be a world war.

#### Direction (28-30):

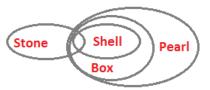

28. (c)

29. (d)

30. (d)

- 31. (b); The prices of food grains and vegetables have increased by about 30% due to increase of more than 30% in the price of other products, because farmers will need 30% more funding for purchasing other products.
- 32. (d); Income tax authorities carried out raids due to nonpayment of tax or illegal money so as an effect business houses took immediate action to clear off all their income tax dues in order to avoid raid.

#### Directions (33-36):

33. (e); Let India scored 0 and Australia 2 by the time "5 minutes remaining" in the match.

From statement I, India scored 3 goals in last 5 minutes but it is not clear whether Australia too scored in the last 5 minute.

From statement II, Australia's total score is 3, but what India scored is not known.

On combining both the statements, we are unable to deduce the scores of both the team.

Hence, both the statements taken together are not sufficient to answer the question.

34. (a); Option I seems to be the right fit as 12 students would give an extra team of 8 plus 4 students which would be adjusted accordingly and form perfect 8 member teams.

Thus just 4 students would do the same except the number of teams would be 1 less.

From statement II alone we cannot get anything.

35. (e); Statement I gives that P & Q have passed. But nothing about R & S.

Statement II gives 'One among R and S has passed' and this is false.

This indicates 'R and S both have passed or both are failed. Hence we get both only P and Q have passed or all P, Q, R, S have passed.

36. (d); Using each statement alone, we can find that the last Sunday of March 2013 was on 26<sup>th</sup> March.

#### Directions (37-39):

37. (b); The mass recruitment of IT professionals by Indian IT

companies is due to the work companies are getting from the developed countries. So, Statement II is the cause while Statement I is its effect.

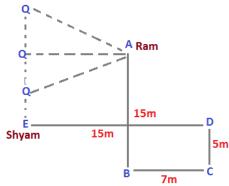

- 38. (e); Both Statements I and II are effects of some common causes.
- 39. (a); Statement I is the cause while Statement II is its effects.
- 40. (e); To find the code for 'we', we need to have any of the
  - (i) 'We are friends' should have only 'We' common with another statement, as in II;
  - (ii) 'We are friends' should have only 'are' and 'friends' common with another single or two statements, as in I and III. Thus, we need Either II only or I and III only.

### Direction (41-43):

Year	Persor
1969	В
1972	Α
1978	G
1986	D
1990	Н
1996	E
2002	С
2005	F

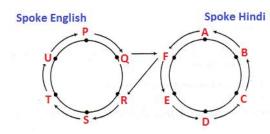

- 41. (c)
- 42. (e)
- 43. (c)

#### Direction (44-45):

- 44. (d)
- 45. (b)

### Directions (46-50):

- 46. (b)
- 47. (e)
- 48. (d)
- 49. (b)
- 50. (c)

51. (b); Quantity I—

$$2211.0625 = \left[17000\left(1 + \frac{5}{100}\right)^{t} - 17000\right]$$

$$t = 2\frac{1}{2}$$
years

Quantity II

$$3630 = \frac{22000 \times t \times 6}{100}$$
  
 $t = 2\frac{3}{4}$ years

$$t = 2\frac{3}{4}$$
years

- ∴ Quantity I < Quantity II</p>
- 52. (d); Quantity I Percentage =  $\frac{4\pi r^2 \pi r^2}{\pi r^2} \times 100$

$$= 3 \times 100$$

= 300%

Quantity II 
$$-\frac{4xy-xy}{xy} \times 100$$

$$= 3 \times 100$$

- = 300%
- ∴ Quantity I = Quantity II
- 53. (a)

Sol. Quantity 
$$I \rightarrow Baby$$
 Pallavi

Efficiency 
$$\rightarrow$$
 1 :  $\frac{7}{4}$   
Time  $\rightarrow$  7 : 4

Time 
$$\rightarrow$$
 7
$$\frac{1}{x} + \frac{1}{4x} = \frac{1}{7}$$

$$X = \frac{1}{4}$$

$$\therefore \text{ Quantity I} = \frac{11}{4} \times 4 = 11 \text{ days}$$

Quantity II → Gaurav Vivek Babu

Efficiency 
$$\rightarrow$$
 2 : 4 : 3  
Time  $\rightarrow$  6 : 3 : 4

Quantity II = 
$$\frac{36}{9}$$
 = 4 days

- ∴ Quantity I > Quantity II
- 54. (b); Let us take the value of a = 1 & b = 1 putting this in the equation we get

So, 
$$x < 1.5$$

Quantity I < Quantity II

55. (b); Probability that both balls are either Red or White  $=\frac{4_{C_2}+6_{C_2}}{20_{C_2}}=\frac{6+15}{190}=\frac{21}{190}$ 

Probability that both bolls are of different colours (RWO,

RWB, WOB and ROB) = 
$$\frac{(4 \times 6 \times 2) + (4 \times 6 \times 8) + (6 \times 2 \times 8) + (4 \times 2 \times 8)}{20_{C_2}} =$$

Quantity I < Quantity II

- 56. (b); CI =  $\left(80000 \times \frac{105}{100} \times \frac{104}{100} \times \frac{105}{100}\right) 80000$ = 11728 Rs.
- 57. (a); Distance covered by  $2^{nd}$  train in 20 minutes  $=\frac{20}{60} \times 40 =$

Remaining distance = 
$$900 - \frac{40}{3} = \frac{2660}{3} \, \text{km}$$

Time after which they will meet =  $\frac{\frac{2660}{3}}{70}$  hours Distance covered by A in this time =  $\frac{2660}{210} \times 30 = 380$  km

58. (a); Sol. L = (b + 10)

$$(L+8)(b-5) = Lb$$

$$(b + 18)(b - 5) = (b + 10)b$$

- b = 30 cm
- L = 40 cm

 $Area = 1200 \text{ cm}^2$ 

59. (e); A and B per day work =  $\frac{1}{120} + \frac{1}{150} = \frac{27}{1800}$ A and B work in 20 days =  $\frac{20 \times 27}{1800}$ 

A and B work in 20 days = 
$$\frac{20 \times 27}{1800}$$

B work in 12 days = 
$$\frac{12}{150} = \frac{144}{1800}$$

B work in 12 days = 
$$\frac{12}{150} = \frac{144}{1800}$$
  
Remaining work =  $1 - \left(\frac{540}{1800} + \frac{144}{1800}\right)$ 

$$=\frac{1116}{1800}$$

B and C, 1 day work = 
$$\frac{1116}{\frac{1800}{48}}$$
  
C per day work =  $\frac{1116}{1800 \times 48} - \frac{1}{150}$ 

$$=\frac{540}{1800\times48}=\frac{1}{160}$$

So no. of days by C to complete the work = 160

- 60. (a); After 35 days
  - 200 men complete the remaining work in 5 days
  - 100 men can complete this work in  $\frac{200}{100} \times 5$
  - = 10 days

Delay = 
$$(35 + 10) - 40 = 5$$
 days

61. (d); From I,  $s = \frac{\ell}{18}$ 

II, 
$$S = \frac{2\ell}{36}$$

III  $\ell = 330 \text{ m}$ 

∴ III and either I or II only

62. (c); From I,  $x = \frac{20z}{100} + z = \frac{120z}{100}$ II,  $y = z - \frac{20z}{100} = \frac{80z}{100}$ 

II, 
$$y = z - \frac{20z}{100} = \frac{80z}{100}$$

III, y + z = 72

To find (x - y), all statements are necessary

63. (c); From III, b : h = 5 : 12

From I, Perimeter = y cm

II, hypotenuse = x cm

From any 2 of the 3 statements, we can determine the area of the garden.

64. (d); From I, Pravin = Amal + 1200

From II and III, 
$$\frac{Amal}{Vimal} = \frac{5}{3}$$

$$\frac{\text{Amal}}{\text{Amal-1000}} = \frac{5}{3}$$

: All statements are necessary to get the monthly salary of Pravin.

65. (b); From I and II

$$a + b + c = 14$$

$$14 + b + c = 14$$

- b + c = 0 (not possible) , from II and III , area= $\frac{1}{2} \times 14 \times 14$  $5 = 35 \,\mathrm{m}^2$
- 66. (a); per hour consumption of 1st candle =  $\frac{1}{5}$

per hour consumption of IInd candle =  $\frac{1}{4}$ 

Let after x hour their height is in ratio = 3:2

then, 
$$\frac{1-(x \times \frac{1}{5})}{1-(x \times \frac{1}{4})} = \frac{3}{2}$$

- Solving the equation,  $x = \frac{20}{7}$ 67. (c); Share of  $C = \frac{(15000 \times 16)}{(12000 \times 24) + (16000 \times 24) + (15000 \times 16)} = 12000 Rs$
- 68. (b); Let the price before increase = x

Then new price = 
$$\left(\frac{100+20}{100}\right) x = 1.2x$$

$$\frac{115}{100}$$
 × (x × 24) = 1.2x × y (y = new consumption quantity)  
y = 23 kg

- 69. (e); Average speed =  $\frac{\text{Total distance covered}}{\text{Total time taken}} = \frac{64}{11} = 5\frac{9}{11} \text{ km/h}$
- 70. (a); Let CP = Rs 1000

SP at 10% loss = 
$$\frac{(100-90)}{100} \times 1000 = 900 \text{ Rs}$$

But actual CP = 
$$1000 \times \frac{(100-20)}{100} = 800 \text{ Rs}$$

Profit percentage = 
$$\frac{(900-800)}{800} \times 100 = 12.5\%$$

But actual CP =  $1000 \times \frac{(100-20)}{100} = 800 \text{ Rs}$ Profit percentage =  $\frac{(900-800)}{800} \times 100 = 12.5\%$ 71. (c); Required Answer =  $\frac{35}{100} (30 + 15 + 15)$ 

$$=\frac{35\times60}{100}=21$$
lakh

- 72. (a); It can be clearly seen from the graph that maximum variation in production is of Samsung mobiles = (40% of 44lakh-30% of 35 lakh)=7.1 lakh
- 73. (a); Required difference =  $\frac{44 \times 20}{100} \frac{35 \times 15}{100}$

$$= \frac{880 - 525}{100}$$

$$= \frac{\frac{355}{100}}{\frac{355}{100}} = \frac{\frac{355}{100}}{\frac{355}{100}} = \frac{355}{100}$$

- = 355000
- 74. (a); Required average =  $\frac{10.5+17.6+5.25+4.4}{4}$  lakh = 943750 75. (c); Required No. =  $35 \times \frac{10}{100} \times \frac{15}{100} + 44 \times \frac{10}{100} \times \frac{15}{100}$

$$= \frac{150}{10000} \times 79$$

- = 1.1850 lakh
- = 118500
- 76. (d); Required Ratio =  $\frac{42+75}{27+102}$

$$= 117 : 129$$

= 39:43

- difference = (27 + 102 + 16 + 42) -77. (b); Required (63 + 56 + 42)= 187 - 161
- 78. (e); Required % =  $\frac{(221+63)-44}{44} \times 100 = 545.45\%$
- 79. (a); Required employees =  $\left(\frac{40}{100} \times 120\right) + \left(\frac{60}{100} \times 45\right)$

$$= 48 + 27$$
  
= 75

- 80. (b); Required Ratio = (63 + 85): (16 + 42)= 148 : 58= 74:29
- 81. (a); Pattern is  $\times 5 25, \times 4 20, \times 3 15, \times 2 10...$
- 82. (e); Pattern is  $\times 1 + 2^2$ ,  $\times 2 + 3^2$ ,  $\times 3 + 4^2$ .....

- 85. (c); Pattern is  $\times 1 1, \times 1.5 1.5, \times 2 2, \times 2.5 2.5...$
- 86. (b); CP of 150 calculators = 150 × 250 = Rs. 37500

Total CP = 37500 + 2500 = Rs. 40000

MP of 150 calculators =  $150 \times 320 = Rs. 48000$ .

- SP after discount =  $48000 \times \frac{95}{100}$  = Rs. 45600. ∴ Percentage profit =  $\frac{45600-40000}{40000} \times 100 = 14\%$
- 87. (d); Let the amount deposited at the rate of 18% per annum be x.

$$\Rightarrow \frac{(25000 - x) \times 15}{100} + \frac{18x}{100} = 4050$$

 $\Rightarrow$  x = Rs. 10000

88. (d); Let the sum be Rs. x.

Then, 
$$\left[ x \left( 1 + \frac{5}{100} \right)^4 - x \right] - \left[ \frac{x \times 10 \times 2}{100} \right] = 124.05$$

Solving the above equation, we get x = Rs. 8000.

89. (b); Let the amount of pure copper = x kg.

Pure copper + copper in 1<sup>st</sup> alloy + copper in 2<sup>nd</sup> alloy

= Copper in 3<sup>rd</sup> alloy

$$\Rightarrow x + \frac{4}{5} \times 10 + \frac{1}{4} \times 16 = \frac{3}{5} (10 + 16 + x)$$

$$\Rightarrow 12 + x = \frac{3}{5} (26 + x)$$

 $\Rightarrow$  x = 9 kg.

∴weight of new alloy = 10 + 16 + 9 = 35 kg.

90. (a); Ramesh alone finished  $\frac{1}{2}$  of the work in 10 days.

Remaining  $\frac{1}{2}$  was finished by Ramesh and Dinesh together in 2 days.

Therefore, they both together can finish the complete job in

91. (e); Population of village Dehhri in  $2015 = 5000 \times \frac{16}{12} \approx$ 6150

Population of village Dehhri in 2016=  $6150 \times \frac{110}{100} \approx 6750$ 

Population below poverty line = 52% of  $6750 \approx 3500$ 

92. (a); Population of village Karakat in 2015 =  $9000 \times \frac{17}{15}$  = 10,200

Population of village Karakat in 2017 =  $10200 \times \frac{110}{100}$  =

Population of village Nokha in 2017 =  $9000 \times \frac{95}{100} = 8550$ 

: Total population of villages Karakat and Nokha in 1997 = 11220 + 8550 = 19770

- 93. (d); Population of village Kochas in 2015 =  $\frac{13 \times 55000}{100}$  = 7150 Population below poverty line =  $\frac{49 \times 7150}{100} \approx 3500$
- 94. (c); Total Population of village Dinara in  $2015 = \frac{1520}{38} \times$

100 = 4000

Total population of all villages together =  $\frac{4000}{9} \times 100 =$ 50000

Population of village Kochas in 2015=  $13 \times \frac{50000}{100} = 6500$ 

95. (b); Population of village Kargahar in  $2015 = \frac{2000}{9} \times 18 =$ 4500

Population of village Dinara below poverty line =  $\frac{38 \times 2000}{100}$  =

Population of village Kargahar below poverty line  $=\frac{\overset{\cdot}{46\times4500}}{_{100}}=2070$ 

Required ratio =  $\frac{760}{2070}$  = 76 : 207

## **SYNDICATE BANK PO 2017 - Practice Set**

## REASONING ABILITY

Directions (1-5): Study the following information carefully to answer the given questions.

Seven Famous sport personalities - A, B, C, D, E, F and G will go to Seven different countries namely Brazil, Japan, Russia, China, USA, Jamaica and Canada but not in necessarily same order to give guest lectures.

They participate in seven different sport events namely Karate, Jujitsu, Parkour, Marathon, Hockey, Boxing and Chess but not necessarily in the same order. Each of these events are organized form Monday to Sunday (of the same week) not necessarily in same order. A goes Brazil to participate in either Karate or Boxing. The person who participated on the seventh day of the week went to Canada and He is expert in Chess. C does not participate in Boxing. B has a match on Wednesday only and he participates in neither marathon nor Karate. The person who plays hockey has a match on Thursday in USA. D participates in Parkour which is organized in China but not on Monday and Tuesday. C goes to Russia and has his match one day before D. On the second day of the week, F has his sport event in Jamaica. The person whose match is on Friday does not participate in Marathon, Boxing or Karate. G participates on

- 1. A participates in which of the following events?
  - (a) Marathon
- (b) Parkour
- (c) Chess
- (d) Jijitsu (e) Karate
- 2. Which of the following combinations of "Country Day" is True with respect to the given arrangement?
  - (a) China Friday
- (b) Canada -Saturday
- (c) USA Thursday
  - (d) Canada Friday
- (e) China Thursday
- 3. According to the arrangement, B is related to?
  - (a) Marathon
- (b) Parkour
- (c) Chess

- (d) Boxing
- (e) Karate
- In this arrangement, A is related to Monday, F is related to Tuesday then C is related to?
  - (a) Thursday
- (b) Friday
- (c) None of the given options is true.
- (d) Saturday
- (e) Sunday
- Who among the following went to Russia?
  - (a) B
- (b) C
- (c) A
- (d) D (e) F

Directions (6-10): Study the following information carefully to answer the given questions

There are six boys M, N, O, P, Q and R. They went out with six girls S, T, U, V, W and X, not necessarily in the same order. The pairs went to different cities Delhi, Bombay, Calcutta, Jaipur and two of them went to Udaipur. They like different movies, viz Pulp fiction, Matrix, The godfather and Seven. But Pulp fiction and Matrix are preferred by two pairs. M and P visit Udaipur but do not like either Pulp fiction or Seven.

R does not go out with W .Both of them do not like The godfather. V and U want to go to Delhi and Calcutta respectively. The persons visiting Bombay like the same movie as N does. O goes out with X to Bombay but does not like either Matrix or Seven. N goes to Delhi and likes Pulp fiction. Q does not go out either with S or T, he does not go to Calcutta, he likes neither The godfather nor Matrix.

- 6. Who among the following went to Delhi?
  - (a)PS
- (b)WQ

(c)OX

(d)NV

- (e)None of these
- 7. If M goes with S then who among the following went goes
  - (a)V
- (b)U
- (c)T
- (d)W (e)None of these Who among the following went to Bombay?
  - (a)X
- (b)U
- (d)W (e)None of these
- 9. Which of the following movie does O like?
  - (a)Pulp fiction
- (c)Matrix (b)Seven (e)None of these
- (d)The godfather
- 10. Which of the following is correct?
  - (a)O-Udaipur-The godfather

  - (b)R-Delhi-Seven (c)U-Bombay-Matrix
  - (d)Q-Jaipur-Seven (e)None of these

Directions (11-15): Study the following information carefully to answer the given questions.

L, M, N, O, T, U, V and W are eight members of a family. They belong to three different generations. There are three married couples. They are all sitting around a circular table facing the center but not necessarily in the same manner. N and L are children of O. L is not an immediate neighbour of his mother. O and U are married couples. O the wife of U sits second to the left of her husband. There is only one person sitting between N and his niece V, but that person is not V's father. T, a bachelor sits third to the right of his uncle L but neither to the opposite nor to the immediate left of his father. V is not an immediate neighbour of her aunt M. No three females are sitting together. N and his sister-in-law is immediate neighbour.

- 11. How many females members in the family?
  - (a) three
- (b) four
- (c) five (e)None of these

12. What is the relation between U and V? (a) U is the father of V

(d) can't be determined

- (b) U is the uncle of V
- (c) U is the grandfather of V
- (d) U is the nephew of v
- (e)None of these
- 13. How many persons are seating between L and N when counted clockwise.
  - (a) one
- (b) two
- (c) three

(d) four (e)None of these

- 14. If all the members of the family are arranged in alphabetical manner starting from P in clockwise direction, then how many will retain their original position
  - (a) none
- (b) one
- (d) three
- (e)None of these
- 15. Four of the following are alike in some manner, find the odd one.
  - (a) O
- (b) M
- (c) L

(c) two

- (d) W
- (e) V

Directions (21-26): Read the given information to answer the questions which follows.

21. A recent study found that if children watched up to one hour of television a day, their performance in school was unaffected, but if they watched between two and three hours a day, they were likely to perform considerably less well than their peers who watched less. The researchers concluded that if parents carefully monitored the time their children watched television, the children's school performance would be maintained at adequate levels.

If true, which of the following statements about the children in the study would most strengthen the

conclusions of the researchers?

- (a) Most of the children who performed at below-average levels in school watched more than two hours of television a day.
- (b) Children who watched television mostly at weekends performed better in school than children who watched television mostly on school nights.
- (c) Children who spent more time reading than watching television performed better in school than those who did
- (d) The disparities among the children in terms of school performance lessened when the television viewing habits of the children became more uniform.
- (e) The children who reduced the amount of television they watched daily spent the extra time reading.
- 22. It is unwise to continue the career training and employment programmes administered in most prisons today. These programmes do not achieve what they are meant to achieve because most ex-prisoners choose not to pursue the occupations they followed during the time they spent in prison.

Which of the following, if true, most weakens the above argument?

- (a) Many habits and skills learnt in prison training programmes are valuable in a great variety of occupations.
- (b) Prisons have an obligation to provide prisoners with occupational training they will later use in employment.
- (c) Prison career training programmes tend to make prisoners more productive during their time in prison.
- (d) Training prisoners for future employment is a major goal of most rehabilitation programmes today.
- (e) In most prisons today, prisoners can prepare for their choice of a number of occupations.
- 23. Certain physiological changes accompany the psychological stress of telling a lie.

Reliable lie detection is possible, because, with the appropriate instruments, we can measure the physiological symptoms of lying.

Which of the following, if true, most weakens the above argument?

- (a) Lie detectors are expensive machines, and they require careful maintenance.
- (b) Some people find lying only moderately stress-inducing.
- (c) Lie detection requires highly trained, capable personnel.
- (d) Even the appropriate instrument can be misused and
- (e) Numerous kinds of psychological stress produce similar physiological symptoms.
- 24. It is unrealistic to expect flu vaccines to give total protection against the flu virus.

Every winter 12000 people in the INDIA die as a result of catching flu. The elderly and those with lung conditions are given priority for flu vaccinations because they are the people most at risk. Flu vaccines protect against the flu

strains judged by the WHO

(World Health Organization) to be those most likely to be in circulation the following winter. This prediction is often made a full year before the vaccine is used. If a new strain of flu appears, or if the current one changes a little, people will not be protected by the vaccine.

Which of the following, if true, most strengthens the above argument?

- (a) The flu vaccine cannot protect people against colds.
- (b) If children were given the flu vaccine, the flu virus would spread less rapidly.
- (c) The flu vaccine works less well in the elderly than in younger people because the immune response weakens as people age.
- (d) Vaccinating the elderly against flu massively reduces the risk of serious complications and/or death from the virus.
- (e) Many of those who die as a result of flu have not been vaccinated against the flu virus.
- 25. The recent experiment on the NH31 motorway to provide an extra lane for drivers at peak times by allowing them to use the hard shoulder has been judged a success.
  - It is right, therefore, to extend the scheme to other motorways, since it will solve the problem of congestion on motorways relatively easily and cheaply. It is thus preferable to other possible measures, such as building new motorways or adding an extra lane to existing motorways.

Which of the following, if true, most weakens the above argument?

- (a) In many countries motorways were built without hard shoulders.
- (b) For many journeys, using public transport is less convenient than driving on motorways.
- (c) Environmentalists would be strongly opposed to the building of new motorways.
- (d) It is predicted that motorway traffic will increase by 50 per cent over the next eight years.
- (e) When the hard shoulders are used, there will be a 50mph limit on traffic in all lanes.
- 26. It is becoming fashionable to use 'carbon offsetting' in order to salve your conscience about the pollution to which you contribute when taking an airline flight. Companies have been set up that enable you to buy offsets that, for example, help to build biogas digesters in India, install hydroelectric power in Brazil or distribute energy-efficient light bulbs in Bangladesh. There are two reasons why we should disapprove of this practice. First, the availability of the scheme makes people think there is nothing wrong with supporting the carbon polluting aviation industry. If people want to contribute to such schemes, they could do so without taking a flight. Second, the companies that offer carbon offsetting are not sufficiently regulated for customers to know whether the money paid over really does go to the energy saving scheme, or even whether the

scheme really will save energy and thereby reduce carbon emissions.

Which of the following, if true, most strengthens the above argument?

- (a) The Government is working on the production of a benchmark of quality for carbon offsetting companies.
- (b) Carbon emissions from the aviation industry account for only a small percentage of all emissions.
- (c) Helping to finance energy saving schemes in other countries can achieve a reduction in carbon emissions.
- (d) Most people could reduce their carbon emissions by turning down the thermostat on their central heating.
- (e) Some of the schemes to which carbon offsetting contributes would go ahead even without such a contribution.

**Directions (27-28):** Study the following information to answer the given questions

**Naresh:** Studies show that eating a healthy breakfast improves young children's ability to learn. However, it is not the responsibility of the schools to provide this meal; it is the responsibility of each child's parents.

**Ravish:** Although it would be nice if the schools could provide each child with a healthy breakfast, but in a country like India where funds are limited, the cost of doing that takes money away from other, more important learning resources, such as the purchase of new computers. In the long run, children learn more when the schools concentrate on the services they traditionally provide and the parents do what they are supposed to do.

- 27. In what way does Ravish's comment relate to Naresh's?
  - (a) It weakens Naresh's argument by changing the focus of the discussion.
  - (b) It strengthens Naresh's argument by providing support for her premise.
  - (c) It states the logical outcome of Naresh's views.
  - (d) It cannot be true if Naresh's assertion about parental responsibility is true.
  - (e) It provides an argument that is the opposite of Naresh's views.
- 28. What main assumption underlies each statement?
  - (a) As teachers become more scarce, schools will have to learn to be more cost-effective in recruiting new teachers.
  - (b) In the information age, the equipment schools must purchase for their students is getting more expensive.
  - (c) The study about students and breakfast is inconclusive at best, and more studies should be conducted to find out if school breakfasts are healthy.
  - (d) Schools have never had the responsibility for supplying students with breakfast; rather, they spend their money on teachers, books, and other tangibles of education.
  - (e) Parents are not assuming enough responsibility for their children's education and should become more involved in school issues.

Directions (29-30): Study the following information to answer

the given questions

Manish: Our state is considering raising the age at which a person can get a driver's license to twenty.

This is unfair because the age has been eighteen for many years and eighteen-year-olds today are no less responsible than their parents and grandparents were at eighteen. Many young people today who are fourteen and fifteen years old are preparing to receive their licenses by driving with a learner's permit and a licensed driver, usually one of their parents. It would not be fair to suddenly say they have to wait two more vears.

Dinesh: It is true that people have been allowed to receive a driver's license at eighteen for generations.

However, in recent years, the increase in traffic means drivers face more dangers than ever and must be ready to respond to a variety of situations. The fact that schools can no longer afford to teach drivers' education results in too many young drivers who are not prepared to face the traffic conditions of today.

- 29. What is the point at issue between Manish and Dinesh?
  - (a) whether eighteen-year-olds should be required to take drivers' education before being issued a license
  - (b) whether schools ought to provide drivers' education to fourteen- and fifteen-year-old students
  - (c) whether the standards for issuing drivers' licenses should become more stringent
  - (d) whether eighteen-year-olds are prepared to drive in today's traffic conditions
  - (e) whether parents are able to do a good job teaching their children to drive
- 30. On what does Manish rely in making his argument?
  - (a) statistics
- (b) emotion
- (c) fairness
- (d) anecdotes (e) actualities

Directions (31-35): Read the following information carefully and answer the questions following it.

A hotel accommodates twelve persons in six rooms. The persons are A, B, C, D, E, F, P,Q, R, S, T and U. The rooms are 1G, 2G, 3G, 4F, 5S and 6F. Each room of the hotel is coloured with different colours. Those colours are: magenta, purple, orange, black, grey and cream. Each room accommodates only two persons.

A, B, Q, R, T and U are the only males in the group. Females' rooms are odd-numbered whereas males' rooms are evennumbered.

A and B share a room. C's roommate is not D. E does not live in 6F, which is orange. Neither room 5S nor room 4F is magenta or black. The grey has an odd number but it is not room 3G. F live in room 5S with D. P's roommate is not S. The magenta room is even-numbered. R lives in the purple room whereas D lives in the cream room. S does not live in room 3G. T's room is magenta.

- 31. Who among the following are accommodated in the grey coloured room?
  - (a) E and S
- (b) C and S
- (c) P and C
- (d) Data inadequate (e) None of these

- 32. Who among the following are accommodated in room 3G?
  - (a) P and C
- (b) P and E
- (c) C and E
- (d) Data inadequate (e) None of these
- 33. In which room are A and B accommodated?
  - (a) 2G (b) 4F
- (c) 6F
- (d) Data inadequate (e) None of these
- 34. Which of the following statements is/are definitely true?
  - I. U is the partner of T.
- II. Q is the partner of T.
- III. R is the partner of Q.
- IV. U is the partner of R.
- (a) Only I
- (b) Only II
- (c) Only III
- (d) Both I and III
- (e) None
- 35. Which of the following statements is/are definitely false? I. A and B are accommodated in the Orange room.
  - II. Q is accommodated either in the magenta or in the purple room.
  - III. C is accommodated either in the grey room or in the black room.
  - IV. U is accommodated in room 2G.
  - (a) None
- (b) Only IV
- (c) Only I and IV
- (d) Only II and IV (e) All are true

Directions (36-40): In each question below are given three statements followed by four conclusions numbered I, II, III and IV. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts:

- 36. Statements: a. All fishes are waters.
  - b. No water is ocean.
- c. All ocean are tigers.

**Conclusions:** I. Some waters are fishes.

- II. All waters are fishes.
- III. Some tigers are waters.
- IV. All tigers are ocean.
- (a) Only II and IV follow
- (b) Only either I or II follows
- (c) Only either III or IV follows
- (d) All follow
- (e) None of these
- 37. Statements: a. Some hounds are cats.
  - b. All cats are cages. c. Some cages are not hounds.

Conclusions: I. Some cages are hounds.

- II. All hounds are cages.
- III. All cats are hounds.
- IV. All cages are hounds.
- (a) None follows
- (b) Only I follows
- (c) Only I and II follow
- (d) Only II and III follow
- (e) All follow
- 38. Statements: a. Some balls are foots.
  - b. All foots are tooths.
- c. Some tooths are cars.

Conclusions: I. Some tooths are balls.

- II. Some cars are balls.
- III. Some cars are foots.
- IV. Some foots are balls.
- (a) None follows
- (b) Only IV follows
- (c) Only I follows
- (d) Both I and IV follow
- (e) All follow
- 39. Statements: a. All powders are ices.
  - b. Some sauces are ices.
- c. All pens are sauces.

**Conclusions:** I. Some sauces are powders.

II. Some pens are ices.

III. Some ices are powders.

- IV. No pen is ice.
- (a) Only either II or IV and III follow
- (b) Only either II or IV and I follow
- (c) Only either I or II and IV follow
- (d) None follows (e) All follow
- 40. Statements: a. All deers are beer.

c. All foods are fruits.

Conclusions: I. No deer is a food.

III. Some beers are deers. II. Some fruits are foods.

IV. Some deers are foods.

b. No beer is a food.

- (a) All follows
- (b) Only either I or II and both III and IV follow
- (c) Only either I or IV and both II and III follow
- (d) Only either I or IV and II follow
- (e) None of these

Directions (41-45): Study the following information and answer the given questions

A word and number arrangement machine when given an input line of words and numbers rearranged them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: World 46 22 81 bee flower 36 honey 18 1 good candy

**Step 1:** 81 46 22 bee flower 36 honey 18 1 good candy world

**Step 2:** 1 81 46 22 bee flower 36 18 good candy world honey

**Step 3:** 46 1 81 22 bee flower 36 18 candy world honey good

Step 4: 18 46 1 81 22 bee 36 candy world honey good flower

**Step 5**: 36 18 46 1 81 22 bee world honey good flower

**Step 6:** 22 36 18 46 1 81 world honey good flower candy bee

**Input question:** food 87 at the 28 16 brinjal chutney 35 53

41. Which word/number would be at 6th position from the left in step 2?

(a)28

(b)Brinjal (c)35

(d)At (e)food

42. How many steps are required to complete the given sequence?

(a)5

(b)6

(c)7

(d)None of these (e)8

43. Which element would be fifth from the right end in step 4?

(a)35

(b)At

(c)Brinjal

(d)The (e)87

44. Which of the following would be the Step 2?

(a)35 53 28 68 16 87 the here food chutney brinjal at (b)53 28 68 16 87 35 the here food chutney brinjal at (c)16 87 food at 28 brinjal chutney 35 53 the here

(d)None of these

(e) 53 28 68 16 87 35 the here chutney food brinjal at

45. Which step number would be the following output?

35 28 53 16 87 at the here food chutney brinjal

(a) There will be no such step

(b) 2

(c) 5

(d) 6

(e) 4

46. How far is point A from point D?

I.Point A is 4m to the north of point B .Point C is 3m to the east of point A. Point D is to the west of point A such that points C, A and D form a straight line of 7m

II.Point F is3m to south of point D. Point C is 4m to the east of point A. Point A is 3m to the north of point B. Point A lies on the line formed by joining points C and D.

(a) Only I

(b) Only II

(c) Both I and II

(d) Either I or II

(e) Neither I or II

- 47. How many people are standing in a straight line. All are facing North
  - I. M stands third from the left end of the line. Only one person stands between M and O. P stands second to the right of O. P stands at one of the extreme lines
  - II. K stands exactly at the centre of the line. Only two people stand between K and L. Only three people stands between L and O. Only one persons stands between O and

(a) Only I

(b) Only II

(c) Both I and II

(d) Either I or II

48. How is H related to C?

I. M has two daughters. One of them is Z, who is married to

(e) Neither I or II

II. C is the mother of Y, the younger sister of Z.

III. M is C's husband.

(a) Only I and II

(b) Only I and III

(c) Only I and either II or III

(d) Any two of the three

(e) All are necessary

49. On which day of the week did Garima arrive?

I. Her sister, Shona, correctly remembers that she did not arrive on Wednesday.

II. Her friend, Kruti, correctly remembers that she arrived before Friday.

III. Her mother correctly mentions that she arrived before Friday but after Tuesday.

(a) Only I and II

(b) Only II and III

(c) Only I and III

(d) All I, II and III

(e) Data inadequate

50. M, J, G, Q and K are sitting around a circular table facing the centre. Who is on the immediate left of G?

I. Only M is sitting between J and K.

II. M is on the immediate left of J.

III. Q is on the immediate left of J.

(a) All I, II and III together

(b) Only II

(c) Only II and III

(d) Only I and III

(e) None of these

### QUANTITATIVE APTITUDE

51.	The average of 6 observations is 12. If the number obtained								
	in 7 <sup>th</sup> observation is also included in the numerical value of								
	the six previous observations then overall average								
	decreases by 1. What is the number obtained in the 7 <sup>th</sup>								
	observation?								

(a) 6

(b) 5

(c) 8

(d) 7

(e) None of these

52. The average age of Nishant and Vibha at the time of their marriage was 26 years. After 12 years of their marriage, the average age of their family which included 5 children was reduced to 18 years. What is the average age of the children?

(a) 8 years

(b) 9.5 years

(c) 10 years

(d) 11 years

(e) None of these

53. The first, second and third class fares between two stations are in the ratio of 6:4:1 and travellers of these three classes are in the ratio of 2:5:50. If total income being accrued from these three classes in Rs. 12,300, then income from the travellers who travel in third class is:

(a) Rs. 8100

(b) Rs. 8200

(c) Rs. 7500

(d) Rs. 9000

(e) None of these

54. In a mixture of spirit and water, amount of spirit is 18%. If 8 litre of this mixture is replaced by equal amount of water, amount of spirit in the mixture becomes 15%. What is the quantity of total mixture?

(a) 48 litre

(b) 40 litre

(c) 46 litre

(d) 52 litre

(e) None of these

55. If the price of mangoes goes down by 10%, find the percentage of increase that a family should effect in its consumption so as not to alter expenditure on this account.

(b)  $11\frac{2}{9}\%$ 

(c)  $11\frac{1}{9}\%$ 

(d)  $11\frac{1}{8}\%$ 

(e) None of these

56. A test paper consists of 5 questions. 5% of the students who took the test solved all questions and 5% did not solve any of the questions. Of the remaining students, 25% solved only 1 question and 20% solved 4 questions while  $24\frac{1}{2}$ % of the total students solved 2 questions. If the number of students who solved 3 questions is 200, find the total number of students who took the test. (c) 800

(a) 700

(b) 600

(e) None of these

(d) 900 57. A sum of money amounts to Rs. 944 in 3 years at a certain rate of simple interest. If the rate of interest is increased by 25%, then the same sum of money will amount to Rs. 980 during the same time period. Find the former rate of interest.

(a) 10%

(b) 8%

(c) 6%

(d) 5%

(e) None of these

58. Present ages of Tarun and Gulshan are 12 years and 10 years respectively. They want to deposit in Post Office a total sum of Rs. 5204 in such a proportion that at the age of 15, each of them may get an equal amount. If the Post

Office pays 4% p.a. compound interest on the total sum of deposit, find the part of money deposited by each of them.

(a) Rs. 2502, Rs. 2702

(b) Rs. 2704, Rs. 2500

(c) Rs. 2804, Rs. 2400

(d) Rs. 2204, Rs 3000

(e) None of these

59. The manufacturer of a machine sells it to a wholesaler at a profit of 20%. The wholesaler, in turn, sells it to a retailer at a gain of 10%. The retailer sells it to a customer for Rs. 1452 at a profit of 10%. The cost price of the machine for the manufacturer is:

(a) Rs. 1000

(b) Rs. 1200

(c) Rs. 1350

(d) Rs. 1050

(e) None of these

60. A river is flowing at a speed of 5 km/h in a particular direction. A man, who can swim at a speed of 20 km/h in still water, starts swimming along the direction of flow of the river from point A and reaches another point Z which is at a distance of 30 km from the starting point A. On reaching point Z, the man turns back and starts swimming against the direction of flow of the river and stops after reaching point A. The total time taken by the man to complete his journey is

(a) 2 h 30 min

(b) 3 h 12 min (c) 3 h 30 min

(d) 3 h 45 min (e) None of these

61. A can do a piece of work in 90 days, B in 40 days and C in 12 days. They work for a day each in turn, i.e., first day A does it alone, second day B does it alone and 3rd day C does it alone. After that the cycle is repeated till the work is finished. They get Rs 240 for this job. If the wages are divided in proportion to the work each had done. Find the amount A will get?

(a) 14

(b) 24

(c) 34

(d)36(e) 48

62. A committee of five persons is to be chosen from a group of 9 people. The probability that a certain married couple will either serve together or not at all is:

(a) 5/9

(b) 4/9

(c) 13/18

(d) 11/27 (d) None of these

63. Sum of area of a circle and a rectangle is equal to 1166 sq.cm. The diameter of the circle is 28 cm. What is the sum of the circumference of the circle and the perimeter of the rectangle if the length of the rectangle is 25 cm?

(a) 186 cm

(b) 182 cm

(c) 184 cm

(d) Cannot be determined

(e) None of these

64. Anamika's science test consist of 85 questions from three sections- i.e. P, Q and R. 10 questions from section P, 30 questions from section Q and 45 question from section R. Although, she answered 70% of section P, 50% of section Q and 60% of section R correctly. She did not pass the test because she got less than 60% of the total marks. How many more questions she would have to answer correctly to earn 60% of the marks which is passing grade?

(a) 4

(b) 2

(c)5

(d) 6

(e) 8

65. A merchant employed a servant on the condition that for every working day he will be paid as remuneration Rs. 31.50 and for every absence a fine of Rs. 7.50 will be charged and amount of fine imposed will be deducted from the amount of wages earned by him. If after 72 days the servant was paid Rs. 1917.00, find the total number of his working days.

(e) None of these

- (b) 55
- (c) 60

(d) 63 Directions (66-70): Study the following table carefully and answer the questions given below.

Number of students appeared and qualified in an examination from five states over the years 2011 to 2016.

Years	Р		Q		R		S		Т	
Tears	App.	Qual.								
2011	950	230	880	200	1075	315	975	260	1120	325
2012	1090	320	960	250	1125	290	990	305	1208	308
2013	860	240	1100	330	950	275	1400	375	1375	380
2014	1200	350	1250	290	1240	325	1175	310	1060	265
2015	1150	300	1300	325	1220	340	1080	295	995	235
2016	6230	1720	6570	1731	6750	1850	6770	1825	6833	1803

- 66. Total number of disqualified students from state R all over the years is approximately what percent of the total disqualified students in year 2011?
  - (a) 244%
- (b) 254%
- (c) 248%

- (d) 236%
- (e) 240%
- 67. What is the difference in the average number of qualified students from state Q, taken all years together and average number of qualified students from state S taken all years together except 2011?
  - (a) 111 (d) 103
- (b) 108
  - (c) 201
- (e) None of these
- 68. The ratio of general, OBC and SC candidates in those who disqualified in year 2012 was 6:4:3. If total number of SC girls who appeared for exam from all states together in that year was 355, then find the total number of SC boys who write the exam that year?
  - (a) 538
- (b) 535
- (d) 542 (e) None of these
- 69. By approximately what percent the difference in number of disqualified students from states P and S in 2016 more or less than the difference between disqualified students from states Q and T in year 2012?
  - (a) 138%
- (b) 120%
- (c) 122%

(c) 545

- (d) 130%
- (e) 135%
- 70. What is the difference between 40% of total disqualified students in year 2014 and 40% of total disqualified students
  - in 2012? (a) 191
- (b) 194
- (c) 184

- (d) 197
- (e) 195

Directions (71-75): In the following questions, select the number(s) from the given options for completing the given

- 71. 3, 12, 24, 96, 192, ?
  - (a) 768 (d) 298
- (b) 384
- (e) None of these
- 72. 24, 60, 120, 210, ?
  - (a) 300
- (b) 336
- (c) 420

(c) 702

- (d) 525
- (e) None of these
- 73. 150, 30, 15, 3, ?

- (a) 1.5
- (b) 20
- (c) 0

- (d) -2.5
- (e) None of these
- 74. 5, 14, 41, 86, ?
  - (a) 149
- (b) 123
- (c) 157

- (d) 131
- (e) 136
- 75. 2, 11, 7, 16, 12, ?, 17, 26
  - (a) 21
- (b) 8 (e) 54
- (c) 11

(d) 76 Directions (76-80): In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answer

- (a) if x > y
- (b) if  $x \ge y$
- (c) if x < y
- (d) if  $x \le y$
- (e) if x = y or relationship between x and y cannot be established.
- 76. l.  $676x^2 l = 0$
- II.  $y = \frac{1}{\sqrt[3]{13824}}$
- 77. I. 8x + 13y = 62
- II. 13x 17y + 128 = 0
- 78. I.  $7x^2 + 2x = 120$
- II.  $y^2 + 11y + 30 = 0$ II.  $(y + 7)^2 = 0$

79. l.  $x^2 = 7x$ 

- 80. I.  $2x^2 + 5x 33 = 0$
- II.  $y^2 y 6 = 0$
- 81. The length of one side of a rhombus is 6.5 cm and its altitude is 10 cm. If the length of its diagonal be 26 cm, the length of the other diagonal will be:
  - (a) 5 cm
- (b) 10 cm
- (c) 6.5 cm

- (d) 26 cm
- (e) None of these
- 82. How many different words can be formed from the word DAUGHTER so that ending and beginning letters are consonants?
  - (a) 7200
- (b) 14400
- (c) 360

- (d) 14200
- (e) None of these
- 83. A can complete a piece of work in 10 days. B is 25% more efficient than A and C is 60% more efficient than B. Working together, how long would they take to finish the job? (a)  $2\frac{6}{19}$  days (b)  $3\frac{6}{17}$  days (c)  $2\frac{5}{17}$  days

- (d)  $2\frac{3}{17}$  days
- (e) None of these
- 84. A merchant blends two varieties of tea from two different tea gardens, one costing Rs. 45 per kg and other Rs. 60 per kg in the ratio of 7:3 respectively. He sells the blended

variety at Rs. 54.45 per kg. Find his profit percent in this transaction.

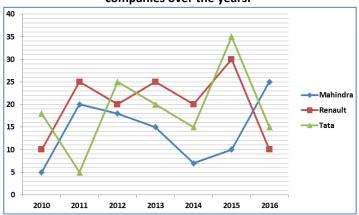

- (a) 10.5%
- (b) 12%
- (c) 10%

- (d) 11%
- (e) None of these
- 85. A candidate is required to answer 6 out of 10 questions which are divided into two groups each containing 5 questions and he is not permitted to attempt more than 4 from each group. In how many ways can he make up his choice?
  - (a) 200
- (b) 150
- (c) 164

- (d) 236
- (e) None of these

**Directions (86-90):** Study the following line graph and table carefully to answer the questions given below.

# Number of cars manufactured (in thousands) by three companies over the years.

Ratio of five seater to seven seater cars among those manufactured

	Mahindra	Renault	Tata					
Years	5 seater :	5 seater :	5 seater:					
	7 seater	7 seater	7 seater					
2010	3:2	4:1	5:4					
2011	5:3	3:5	3:2					
2012	5:4	3:1	2:3					
2013	1:2	3:2	1:3					
2014	4:3	3:5	5:1					
2015	2:3	1:2	3:4					
2016	1:3	2:3	2:3					

- 86. By what percent the number of 7-seater Mahindra Cars manufactured in year 2014 is more or less than that of 5-seater Tata cars manufactured in year 2015?
  - (a) 78% (d) 82%
- (b) 75%
- D) 7370
- (e) None of these
- 87. What is the percentage decrease in manufactured Renault 5-seater cars from 2015 to 2016 ?
  - (a) 65%
- (b) 60%
- (c) 72%

(c) 80%

- (d) 50%
- (e) None of these
- 88. Total 5-seater cars of Mahindra that were manufactured in year 2011 were either red or white. If red cars were 256 more in number than white cars, find the number of white cars.
  - (a) 6132
- (b) 6123
- (c) 6221

- (d) 6121
- (e) None of these
- 89. What is the approximate average number of Renault 7-seater cars manufactured all over the years?
  - (a) 10160
- (b) 12446
- (c) 11456

- (d) 12456
- (e) 11448
- 90. What is the difference between total number of manufactured 7-seater cars of Mahindra in 2012, Renault in 2011 and Tata in 2015 together and that of 5-seater cars of Mahindra in 2014, Tata in 2010 and Renault in 2016?
  - (a) 25525
- (b) 26625
- (c) 25632

- (d) 25624
- (e) None of these

**Directions (91-95):** The following questions are accompanied by three statements (A) or (I), (B) or (II), and (C) or (III). You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

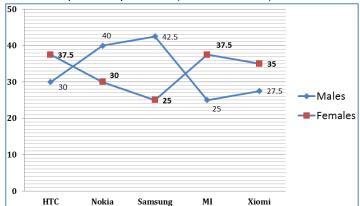

- 91. The ratio of the ages of Javed and Akhtar is 6:11. Find out the ratio of their ages 5 years ago.
- A. The difference of their ages is 25 years.
- **B.** The difference of their ages after 5 years will be 25 years.
- **C.** The sum of their ages is 85 years.
  - a) Only A and C together are sufficient
  - b) Anyone of A, B and C is sufficient
  - c) Only A and B together are sufficient
  - d) Any two of A, B and C are sufficient
  - e) All together are necessary
- 92. What is the cost of painting the two adjacent walls of a hall which has no windows or doors?
  - I. The area of the base of hall is 24 sq metres.
  - **II.** The breadth, length and the height of the hall are in the ratio of 4:6:5.
  - III. Area of one wall is 30 square metres.
  - a) Only I
- b) Only II
- c) Only III

- d) Either I or III
- e) Data inadequate
- 93. 8 men and 6 women can complete a piece of work in 21 days. How many days will it take for 12 men and 9 women to complete the same work?
- A. 6 men can complete the work in 42 days.
- **B.** 7 women can complete the work in 63 days.
- **C.** The amount of work done by a woman is foursevenths of the work done by a man in one day.
  - a) Any two of them b) Any of them
  - c) Only C
- d) Either A or B only
- e) No need of any information
- 94. A train crosses another train in 10 sec. Find out the lengths of the trains.
- **A.** Ratio between the lengths the of second and first train is 4: 5.
- **B.** Ratio between the speed of first and second trains is 1 : 2.
- C. The speed of first train is 36 km/hr.
  - a) Only A and B together
- b) Only B and C together
- c) Only A and C together
- d) Questions can't be answered even after using all the information
- e) None of these

- 95. A customer is given two successive discounts on an article. Find the second discount.
- **A.** The selling price of the article is given.
- **B.** The first discount % is 30% of the second discount %.
- **C.** The marked price of the article is given.
  - a) A and B are sufficient
- b) B and C are sufficient
- c) All together are necessary
- d) All even together are not sufficient
- e) Either A and B or B and C together are sufficient

**Directions (96-100):** Study the following graph carefully and answer the questions given below.

Number of male and female employees working in five different mobile companies in year 2016 (Number in lakhs)

- 96. What is the average number of male employees (in lakh) in all the companies together?
  - (a) 33.8
- (b) 33
- (c) 32.4

- (d) 25.2
- (e) None of these
- 97. What is 20% of the total number of employees (males and females together) in companies HTC and Samsung together?
  - (a) 2700000
- (b) 23.5 lakh
- (c) 24 lakh

- (d) 270000
- (e) None of these
- 98. What is the respective ratio of the number of females from companies HTC and Nokia together to the number of males in the companies Samsung and Xiomi together?
  - (a) 27:32
- (b) 27:28
- (c) 25 : 28

- (d) 28:27
- (e) None of these
- 99. The number of males in company Nokia is what per cent of the total number of employees (males and females together) in company MI?
  - (a) 68
- (b) 62
- (c) 66

- (d) 64
- (e) None of these
- 100.If the total number of males in company Xiomi increases by 40%, what would be the total number of employees (males and females together) in that company?
  - (a) 7526000
- (b) 76250000
- (c) 7625000

- (d) 75260000
- (e) None of these

## **English Language**

**Directions (101–110):** Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

Despite their many differences of temperament and of literary perspective, Emerson, Thoreau, Hawthorne, Melville, and Whitman share certain beliefs. Common to all these writers is their humanistic perspective. Its basic premises are that humans are the spiritual center of the universe and that in them alone is the clue of the nature, history and ultimately the cosmos itself. Without denying outright the existence either of a deity or of brute matter, this perspective nevertheless rejects them as exclusive principles of interpretation and prefers to explain humans and the world in terms of humanity itself. This preference is expressed most clearly in the **Transcendentalist** principle that the structure of the universe literally duplicates the structure of the individual self: therefore, all knowledge begins with self-knowledge.

This common perspective is almost always universalized. Its emphasis is not upon the individual as a particular European or American, but upon the human as universal, freed from the accidents of time, space, birth and talent. Thus, for Emerson, the American Scholar turns out to be simply Main Thinking; while, for Whitman, the Song of Myself merges **imperceptibly** into a song of all the children of Adam, where every atom belonging to me as good belongs to you. Also common to all

five writers is the belief that individual virtue and happiness depends upon the self-realization, which, in turn, depend upon the harmonious **reconciliation** of two universal psychological tendencies: first, the self-asserting impulse of the individual to withdraw; to remain unique and separate, and to be responsible only to himself or herself, and second, the self-transcending impulse of the individual to embrace the whole world in the experience of a single moment and to know and become one with that world.

These conflicting impulses can be seen in the democratic ethic. Democracy advocates individualism, the preservation of the individual's freedom and self-expression. But the democratic self is torn between the duty to self, which is implied by the concept of liberty, and the duty to society, which is implied by the concept of equality and fraternity. A third assumption common to the five writers is that intuition and imagination offer a surer road to truth than does abstract logic or scientific method. It is illustrated by their emphasis upon the introspection-their belief that the clue to external nature is to be found in the inner world of individual psychology and by their interpretation of experience as, in essence, symbolic. Both these stresses presume an organic relationship between the self and the cosmos of which only intuition and imagination can properly take account. These writers faith in the imagination and in themselves as practitioners of imagination led them conceive of the writer as a seer and enabled them to achieve

supreme confidence in their own moral and metaphysical insights.

- 101. The author's discussion of Emerson, Thoreau, Hawthorne, Melville, and Whitman is primarily concerned with explaining.
  - (a)some of their beliefs about the difficulties involved in self-realization
  - (b)some of their beliefs concerning the world and the place that humanity occupies in the universal order
  - (c)some of their beliefs concerning the relationship between humanism and democracy
  - (d)the way some of their beliefs are shaped by differences in temperament and literary outlook
  - (e)the effects of some of their beliefs on their writings
- 102. According to the passage, the humanistic perspective of the five writers presupposes which of the following? (A)The structures of the universe can be discovered through self-knowledge.
  - (B)The world can be explained in terms of humanity.
  - (C)The spiritual and the material worlds are incompatible.
  - (a) (A) only
- (b) (B) only
- (c) (A) and (B) only
- (d) (B) and (C) only (e) (A),(B) and (C)
- 103. The authors quotes Whitman primarily in order to (a) show that the poet not agree with Emerson (b)indicate the way the poet uses the humanists ideal to praise himself
  - (c)suggest that the poet adapts the basis premises of humanism to his own individual outlook on the world (d)illustrate a way the poet expresses the relationship of the individual to the humanistic universe
  - (e)demonstrate that the poet is concerned with the well being of all humans
- 104. According to the passage, the five writers objects to the scientific method primarily because they think it (a)is not the best way to obtain an understanding of the
  - relationship between the individual and the cosmos (b)is so specialized that it leads to an understanding of separate parts of the universe but not of the relationships among those parts
  - (c)cannot provide an adequate explanation of intuition and imagination
  - (d)misleads people into believing they have an understanding of truth, when they do not
  - (e)prevents people from recognizing the symbolic nature of experience.
- 105. It can be inferred that intuition is important to the five writers primarily because it provides them with
  - (a)information useful for understanding abstract logic and scientific method
  - (b) the discipline needed in the search for truth
  - (c)inspiration for their best writing
  - (d)clues to the interpretation of symbolic experience
  - (e)the means of resolving conflicts between the self and the world

- 106. The author discuses "the democratic ethic" in order to (a) explain the relationship between external experience and inner imagination
  - (b) support the notion that the self contains two conflicting and reconcilable factions
  - (c)Illustrate the relationship between the self's desire to be individual and its desire to merge with all other selves.
  - (d)Elaborate on the concept that the self constantly desires to realize its potential
  - (e) Give an example of the idea that, in order to be happy, the self must reconcile its desires with external reality

Directions (107-108): Choose the word/group of words which is MOST SIMILAR in meaning to the word/group of words printed in bold as used in the passage.

#### 107. Transcendentalist

- (a) philosopher (c) existential
- (b) experiential
- (d) objective (e) observational

#### 108. introspection

- (a) Conference
- (b) Synopsis
- (c) Summary
- (e) cogitation (d) examination

**Directions (109-110):** Choose the word/group of words which is MOST OPPOSITE in meaning of the word/group of words printed in bold as used in the passage.

#### 109. imperceptibly

- (a) observably
- (b) slightly
- (c) indiscernibly
- (d) impalpably (e) barely

#### 110. reconciliation

- (a) truce
- (b) pacification (c) arbitration

- (d) conflict
- (e) Rapport

Directions (111-115): Read the following passage carefully and answer the questions given below it. Certain words/phrases are given in bold to help you locate them while answering some of m questions.

Foreign investor presence in India's debt markets has increased considerably after the global financial crisis. Annual inflows over the years ending August peaked at \$3.4 billion in 2008, fell to less than \$600 million in the immediate post-crisis year 2009, and rose sharply to \$10.2 billion in the year ended August 2010, \$6 billion in the year ended August 2011 and \$9 billion in year ended August 2012. The year to August 2013 was unusual in as much as there were net outflows of \$2.8 billion, to be followed by a surge to \$12.9 billion in the year to August 2014.

The collapse in flows and the exit of FPIs from the debt market in 2013 were clearly related to the fears of a liquidity squeeze generated by talk of the "taper" in the US.

The exit of portfolio capital weakened India's rupee considerably, worsened sentiment and accelerated the outflow. A corollary of this relationship between expectations of the state of international liquidity (influenced by the policy stance of the US Federal Reserve), the direction of movement of the rupee and the volume of inflows into debt markets, is that the post-crisis expansion of foreign presence in India's debt markets must be seen as the result of the sharp increase in liquidity in the international financial system as a result of the monetary and fiscal policies adopted in response to the crisis.

Interest rates in India are much higher than in international markets, and if the assessment of exchange risk is that it is low (or that the rupee will not depreciate by 'abnormal' margins), investment interest in the Indian debt market would be high.

The result has been that despite the reversal in flows in 2013, cumulative net investment by FPIs in India's debt market has risen from less than a billion dollars in 2006 to \$30 billion at the end of August 2012 and \$41 billion on August 27, 2014.

One reason for growing foreign investor interest in Indian debt was the liberalization of policy with regard to permitting foreign portfolio investment in the debt market. It was in 1995 that the Securities and Exchange Board of India permitted FIIs to invest in debt markets, subject to the 70:30 rule, which specified that 70 per cent of an investor's **exposure** should be to equity and only 30 per cent to debt. The cap on total FII investment in debt was set at \$1-1.5 billion.

Soon, in 1996, a category of FIIs that were allowed to invest only in debt instruments were permitted into the country's capital markets, with 100 per cent exposure to debt securities (including corporate bonds) subject to the aggregate ceiling of \$1-1.5 billion. In 1998, such investment was permitted in unlisted securities as well or through the private placement market. Even as recently as 2004, the limit on aggregate debt was at \$1 billion, with a cap of \$100 million for investments under the 70-30 route and \$900 million under the 100 per cent route.

- 111. What conditions was/were placed before a certain category of FIIs in 1996?
  - (A) They were allowed 70% exposure to debt securities.
  - (B) They were allowed to invest only in debt instruments.
  - (C) They were allowed to invest in debt instruments subject to the aggregate ceiling of \$1-1.5 billion.
  - (a) Only (A) and (B) (b) Only (B) and (C)
  - (c) Only (A) and (C) (d) Only (A) (e) Only (B)
- 112. What is/are the reasons behind the growth of foreign investors' interest in India?
  - (a) The ability of Indian entrepreneurs to convince the government for PPP model of investment
  - (b) The realisaton of importance of FDI in Indian economy for better infrastructure
  - (c) Increase in opportunities in the private placement market
  - (d) Liberalisation of policy with regard to permitting foreign portfolio investment in the debt market
  - (e) All the above
- 113. Which of the following statements is/are false according to the given passage?
  - (a) After the global fiscal crisis the presence of foreign investors in India's debt market has increased.
  - (b) The increase in foreign investors can be seen as the result of increase in liquidity in the international financial

- system.
- (c) The exit of portfolio capital led to financial crisis in the Securities and Exchange Board of India.
- (d) The exit of FPIs from the debt market in 2013 was related to the fears of liquidity generated in the US.
- (e) All the above
- 114. What, according to the passage, is the effect of exit of portfolio capital from Indian economy?
  - (a) Acceleration of inflow of capital
  - (b) Strengthening of Indian rupee
  - (c) Increase in outflow
  - (d) Increase in foreign investment
  - (e) None of these
- 115. Which of the following statements is/are true on the basis of the facts mentioned in the given passage?
  - (A) There was sharp increase in liquidity in the international financial system due to the monetary and fiscal policies adopted in response to the financial crisis.
  - (B) Despite the reversal in flows in 2013, the number of foreign portfolio investors in India has increased.
  - (C) The SEBI permitted FIIs to invest in equity 70 per cent of their investment.
  - (a) Only (A) and (B) (b) Only (B) and (C)
  - (c) Only (A) and (C) (d) All (A), (B) and (C)
  - (e) None of these

**Direction (116-120)**: Each of the following statements has a part missing. Choose the best option from the four alternatives (a), (b), (c) or (d) given below the statement to complete the sentence. Choose (e) if None of the statements suits the sentence.

- 116. I first saw this book at a newly opened café at my workplace. The title, 40 Rules of Love, \_\_\_\_\_ like that of a romantic novel. So I ignored it.
  - (a) at first seeming to me
- (b) at first seemed to me
- (c) at first seem to me
- (d) at first seeming to me
- (e)None of these
- 117. In this endless virtual fight for exposing oneself to the world every day, one seems and real relations.
  - (a) to lose the real self
- (b) to lost the real self
- (c) to losing the real self
- (d) to loss the real self
- (e)None of these
- 118. Mapping the music of a legend like Manna Dey has to be envisioned across layers. This \_\_\_\_\_ in the latest collection that hits the market soon.
  - (a) had done beautifully
  - (b) had been doing beautifully
  - (c) has been doing beautifully
  - (d) has been done beautifully
  - (e)None of these
- 119. His presentation highlighted the symbiotic relationship among Indian paintings, Indian aesthetics and cosmology. The selection for the presentation \_\_\_\_\_ from antiquity.
  - (a) was spread across a wide spatio-temporal zone
  - (b) was spreading across a wide spatio-temporal zone

(c) has been spread across a wide spatio-temporal zone	(a)smile, tangling, authentic
(d) will have been spreading across a wide spatio-	(b)staring, distorting, genuine
temporal zone	(c)glowering, labeling, informed
(e)None of these	(d)pleasing, confusing, enlightened
120. She began by asking why India and Pakistan grew so	(e)orthodox, producing, sophisticated

- (e)None of these
- 132. Ever since the sting operation, there has been much opposition from they who maintain that it was an unauthorized act.
  - (a) Ever since the sting operation, there has been much of an opposition from them who maintain that it was an unauthorized act.
  - (b) Ever since the sting operation, there has been much opposition from they who maintain that it had been an unauthorized act.
  - (c) Ever since the sting operation, there has been much opposition from those who maintain that it was an unauthorized act.
  - (d) Ever since the sting operation, there has been much opposition from those maintaining that it was an unauthorised act.
  - (e) No error.
- 133. To be sure, there would be scarcely no time left over for other things, if school children would have been expected to have considered all sides of every matter on which they had opinions.
  - (a) Sure enough, scarcely there would be any time left for other things if school children were expected to consider all sides of the matters on which they had opinions.
  - (b) To be sure, there would be scarcely any time left for other things if working people should be expected to have considered all sides of every matter on which they had opinions.
  - (c) To be sure, there would be scarcely any time left over for other things if school children were expected to consider all sides of every matter on which they had opinions.
  - (d) To be sure, there would be scarcely no time left over for other things if school children will be expected to have been considering all sides of every matter on which they had opinions.
  - (e) No error.

**Directions (134-135):** In the following questions, a sentence has been given with some of its parts in bold. To make the sentence grammatically correct, you have to replace the bold part with the correct alternative given below. If the sentence is correct as it is, give 5) as your answer (i.e. No correction required).

- 134. Having logged thousands of hours watching felines from tigers to cheetahs, <u>tigers and other felines are no longer thought to be natural-born killers by Dr. Stinson, they</u> are attuned to peacemaking.
  - (a) tigers and other felines are no more thought to be natural-born killers by Dr. Stinson, they
  - (b) Dr. Stinson has come to believe that far from being natural-born killers, tigers and other felines
  - (c) Dr. Stinson has now the belief that far from being natural-born killers, tigers and other felines
  - (d) tigers and other felines are not longer thought to be natural-born killers by Dr. Stinson, they

- (e) No error
- 135. The Romanians may be restive under Soviet direction but they are tied to Moscow by ideological and military links.
  - (a) they are tied to Romania by ideological and military links
  - (b) they are preparing for a great revolution.
  - (c) secretly they rather enjoy the prestige of being protected by the mighty soviets
  - (d) there is nothing they can do about it.
  - (e)No error.

**Directions (136-140):** In each of the following questions a short passage is given with one of the lines in the passage missing and represented by a blank. Select the best out of the five answer choices given, to make the passage complete and coherent.

- 136. North India lies in the Indo-Gangetic plain. Towards the North is the Himalayas, which separates the country from Central Asia. The Vindhya ranges separate the North from the South. South India is situated in the Peninsular Deccan Plateau. This region has the Arabian Sea in the west, Bay of Bengal in the east and Indian Ocean in the south. When talking about the racial differences, the North Indians are termed as Aryans, and the South Indians as Dravidians. Inphysique as well, there are many differences between the people of the South and North. The North Indians are taller, and more strongly built than the South Indians. The South Indians are a bit darker than the North Indians.....Salwar Kamiz is the widely used dress by North Indian women. On the other hand, women in the South wear saris. While men in the North wear Salwar, the men in South prefer dhotis. Another difference that can be seen between North and South India is their food. When compared to the North Indian food, the South Indian food is spicier. The South Indians use more tamarind and coconut when compared to North Indians. The North Indians use more milk products when compared to the people of South India. When talking about the culture, there is vast difference between North and South India. One can come across differences in their music (Northern Hindustani and Southern Carnatic), dance forms and folks.
  - (a) A big difference is in their style of living
  - (b) A big difference is in their fashion statements
  - (c) A big difference can be seen in their dressing styles
  - (d) A big difference arises in their taste for clothes based on their earnings
  - (e) A big difference can be seen in their climate that demands different dressing styles
- 137. An open economy is an economy in which there are economic activities between domestic community and outside, e.g. people, including businesses, can trade in goods and services with other people and businesses in the international community, and flow of funds as investment across the border. Trade can be in the form of managerial exchange, technology transfers, all kinds of

goods and services. Although, there are certain exceptions that can not be exchanged, like, railway services of a country can not be traded with another. To avail this service, a country has to produce its own. This contrasts with a closed economy in which international trade and finance can not take place. The act of selling goods or services to a foreign country is called exporting. The act of buying goods or services from a foreign country is called importing...... There are a number of advantages for citizens of a country with an open economy. One primary advantage is that the citizen consumers have a much larger variety of goods and services from which to choose. Additionally, consumers have an opportunity to invest their savings outside of the country. In an open economy, a country's spending in any given year need not to equal its output of goods and services. A country can spend more money than it produces by borrowing from abroad, or it can spend less than it produces and lend the difference to foreigners. There is no closed economy in today's world.

- (a) Together exporting and importing are collectively called trade
- (b) Exporting and Importing are exclusive classes of trade
- (c) Both are independent of each other and do not constitute the term 'trade'.
- (d) Together they make GDP of a country
- (e) Together they are indicators of influence of a country on world map
- 138. A no budget film is a produced film made with very little, or no money. Young directors starting out in film making commonly use this method because there are few other options available to them at that point. All the actors and technicians are employed without remuneration, and the films are largely non-profit.,....................... or uses a very minimum "crew" of volunteers to assist him/her on such projects where no money or financing is available, not including the cost of film. No-budget films are made everyday with video tapes and consumer cameras.
  - (a) Usually the director works alone on such films
  - (b) These films are huge employers in entertainment industry
  - (c) A team of experts two or three in number starts without any significant infrastructure
  - (d) Director is the camera-man, light-man, script writer, screen player and sometimes even act himself in the film
  - (e) It is difficult task to find suitable people with desired skills ,hence director works alone on such films
- 139. In finance, the term 'yield' describes the amount in cash that returns to the owners of a security. Normally it does not include the price variations, at the difference of the total return. Yield applies to various stated rates of return on stocks (common and preferred, and convertible), fixed income instruments (bonds, notes, bills, strips, zero

coupon), and some other investment type insurance products (e.g. annuities)........ It can be calculated as a ratio or as an internal rate of return (IRR). It may be used to state the owner's total return, or just a portion of income, or exceed the income. It may be used for production output in other industries, Because of these differences, the yields from different uses should never be compared as if they were equal.

- (a) The term is a misnomer
- (b) The term is understood differently by different people
- (c) The term has no definite meaning
- (d) The term is used in different situations to mean different things
- (e) The term slightly differs in meaning from the text book definitions
- 140. Market trends are fluctuated on the demographics and technology. In a macro economical view, the current state of consumer trust in spending will vary the circulation of currency. In a micro economical view, demographics within a market will change the advancement of businesses and companies. With the introduction of the internet, consumers have access to different vendors as well as substitute products and services changing the direction of which a market will go. Despite that, it is believed that market trends follow one direction over a matter of time, there are many different factors that can change this idea. Technology s-curves as is explained in the book The Innovator's Dilemma. It states that technology will start slow then increase in users once better understood, eventually leveling off once another technology replaces it.....
  - (a) This proves that change in the market is actually consistent
  - (b) Change is inevitable
  - (c) Fluctuations with these changes do not last long
  - (d) Be prepared for the change
  - (e) Changing changes the fortunes

**Directions (141–150):** In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. Find out the appropriate word in each case.

India can be truly; proud of having made at \_\_ (141) \_\_ costs some very demanding biomedical products: blood bags, heart valves and Kalam-Raju stents, to name a few. However, the \_\_ (142) \_\_ in biomedical R & D or industry has \_\_ (143) \_\_ fully kept pace with the ever-growing demands. Therefore, several industries will be set up in the country with \_\_ (144) \_\_ technology for the \_\_ (145) \_\_ of medical devices. Polymers, ceramics and metal alloy industries would \_\_ (146) \_\_ themselves to produce the required biomaterials. Medical and health care sectors will undergo a major transformation with increased \_\_ (147) \_\_ of artificial organs, blood and improved diagnostic devices. For example, \_\_ (148) \_\_ of artificial human

parts will be possible-the heart, the pancreas, the lungs, and kidneys. Artificial blood will be available for transfusion to leukemia patients. Bone, hip and tissue replacements will be possible for accident victims, and tissue replacements will be possible for-accident victims. Heart patients can \_\_\_ (149) \_\_\_ heart valves, artificial hearts and other implants. The requirement of biomaterials would accordingly go up. Tissue engineering will \_\_ (150) \_\_\_ at replacing the affected tissue in a natural way.

## Directions (11-15):

- 11. (b)
- 12. (c)
- 13. (b)
- 14. (a)
- 15. (c)
- 16. (a); H≤K<N>M N>H =>TRUE M<H =>FALSE
- 17. (d); H≥K=L<N N≥K => FALSE

L=H => FALSE

18. (c); R>T≥P=Q Q=T=> FALSE

Q<T => FALSE

19. (e); B<A≤H≤W G>B =>TRUE A≤G =>TRUE

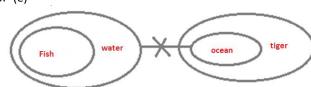

20. (b); B=A≥C≤D D≥B =>FALSE C≤B =>TRUE

- 21. (d); (d) strengthens the idea that there is a causal connection. If differences in performance are less when hours watching television are roughly the same for all children, then it is likely that differences in time spent watching television causes differences in performance.
- 22. (a); (a) weakens the argument by showing that even if exprisoners do not pursue the occupation for which they have prepared whilst in prison, the skills they have learnt during training in prison may nevertheless be of use in whatever occupation they take up.
- 23. (e); (e) weakens the argument by providing evidence that the physiological changes recorded by a lie detector may result from stress other than the stress caused by lying. This suggests that, contrary to what the conclusion claims, reliable lie detection is not possible.
- 24. (c); (c) strengthens the argument by providing another reason why total protection cannot be guaranteed, since if the vaccine works less well in those people who are most at risk, it can be expected that some people will not be protected by the vaccinations.
- 25. (d); (d) Option (d) is true, then the increase of traffic may mean that the scheme does not solve the problem of congestion on motorways, despite the fact that the trial run was successful, and this may mean that other schemes would provide more effective solutions.
- 26. (e); (e)strengthens the case against carbon offsetting by showing that in some cases any reduction in carbon emissions would have happened anyway, thus cannot be claimed to compensate for the carbon emissions caused by someone taking a flight.
- 27. (b); Ravish provides information that supports Naresh's more general statements. Both agree that schools should spend money on educating children, not on providing breakfast. Choices a, d, and e are incorrect because they all imply that Naresh and Ravish are arguing in opposition to each other. Choice c can be ruled out because Ravish's position does not give any outcomes.
- 28. (d); Both speakers rely on the fact that schools do not traditionally have the responsibility for providing students with breakfast.
- 29. (d); The speakers support their arguments in different ways, but both are concerned with whether eighteen-year-olds should continue to be allowed to receive drivers' licenses.
- 30. (c); Manish discusses the fairness of changing the law and raising the age at which one can receive a driver's license. Emotion (choice b) may be involved, but the argument relies on the fairness issue.

- 35. (a)
- 36. (e)

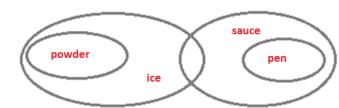

37. (b)

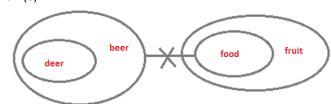

38. (d)

39. (a)

40. (e)

#### Directions(41-45):

Numbers are arranged as first greatest followed by lowest then second great number then second lowest and so on. Words are arranged in descending alphabetical order.

Step 1: 87 food at 28 16 brinjal chutney 35 53 here the Step 2: 16 87 food at 28 brinjal chutney 35 53 the here

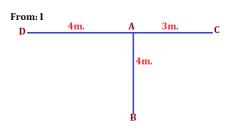

Step 3: 53 16 87 at 28 brinjal chutney 35 the here food

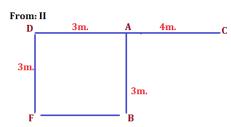

Step 4: 28 53 16 87 at brinjal 35 the here food chutney

Step 5: 35 28 53 16 87 at the here food chutney brinjal

Step 6: 35 28 53 16 87 the here food chutney brinjal at

- 41. (b)
- 42. (b)
- 43. (a)
- 44. (c)
- 45. (c)
- 46. (a)

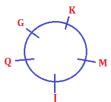

47. (a)

48. (c); M (Father)C(Mother) => 2 Daughters => Y and Z H is husband of Z

From I alone we can't identify C is male or female

- 49. (c); S M Tu W Th F Sat She didn't arrive on Wednesday from I From II => before Friday mean S M Tu Th From III => Thursday
- 50. (d); From I and III:

- 51. (b); Required value of  $7^{th}$  observation =  $(12 1) \times 7 12 \times 6$ = 5
- 52. (c); N + V = 52

And N + V + age of five children +  $12 \times 2 = 18 \times 7$ 

Or, age of five children = 126 - 76 = 50

∴ Required average = 10 years

53. (c); Ratio of collection from travellers = 6:10:25

 $\therefore$  Income from third class travellers =  $\frac{25}{41} \times 12300 =$ 

54. (a); Let mixture quantity = x litres

Then, spirit in 8 litres of mixture =  $\frac{18}{100} \times 8 = \frac{72}{50}l$ New amount of spirit =  $\frac{18}{100} \times x - \frac{72}{50} = \frac{9x - 72}{50}l$ 

: percentage of spirit in new mixture = 15%

$$\therefore \frac{15}{100} \times x = \frac{9x - 72}{50}$$
or  $x = 491$ 

55. (c); Let original price be Rs 100 per kg.

New price = Rs 90 per kg

: New quantity to be purchased in 100 Rs.  $\frac{100}{90}$  kg =  $1\frac{1}{9}$  kg

 $\therefore$  Percentage increase in consumption  $=\frac{1}{9} \times 100 = 11\frac{1}{9}\%$ 

 $x = 0.05x + 0.05x + 0.25 \times 0.9x + 0.20 \times 0.9x +$ 0.245x + 200

or, 
$$x = \frac{200}{0.25} = 800$$

57. (c);  $944 - P = \frac{3pr}{100}$  or  $pr = \frac{94400 - 100p}{3}$  and  $980 - p = \frac{3.75pr}{100}$  or  $pr = \frac{98000 - 100p}{3.75}$ 

on equating, p = Rs 800  

$$\therefore$$
 r =  $\frac{144 \times 100}{800 \times 3}$  = 6%

58. (b); Ratio of investment of Tarun and Gulshan  $=\frac{1}{\left(\frac{26}{5\pi}\right)^3}:\frac{1}{\left(\frac{26}{5\pi}\right)^5}$ 

or, T : G = 
$$=$$
  $\left(\frac{26}{25}\right)^2$  : 1 = 675 : 625

: Tarun's share =  $\frac{676}{1301} \times 5204 = \text{Rs } 2704$ 

And Gulshan's share = 5204 - 2704 = Rs 2500

- 59. (a); Required C.P =  $\frac{100}{120} \times \frac{100}{110} \times \frac{100}{110} \times 1452 = \text{Rs } 1000$
- 60. (b); Total time taken by the man to complete journey Time =  $\frac{30}{20+5} + \frac{30}{20-5} = 1.2 + 2 = 3.2$  hour or 3 hour 12 minute
- 61. (b);

9 9 8 +  $\frac{1}{10}$ 

Work 36 81

27 Ratio

A's share  $=\frac{4}{40} \times 240 = 24$ 

62. (b); Total no. of ways in which 5 people can be chosen out of 9 people =  $9C_5 = 126$ 

Number of ways in which the couple serves the committee  $= 7C_3 \times 2C_2 = 35$ 

Number of ways in which the couple does not serve the committee =  $7C_5 = 21$ 

∴ Favourable number of cases = 35+21 = 56

Hence, required probability =  $\frac{56}{126} = \frac{4}{9}$ 

63. (b); Area of the circle =  $\frac{22}{7}$  ×(14)<sup>2</sup>=616cm<sup>2</sup>

Area of the rectangle  $= 1166 - 616 = 550 \text{cm}^2$ 

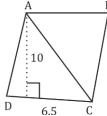

Breadth of the rectangle

$$=\frac{550}{25}=22cm$$

So, required sum

$$=2\times\frac{22}{7}\times14+2(25+22)=182$$
cm

- 64. (b); Number of questions attempted correctly = 70% of 10 + 50% of 30 + 60% of 45 = 7 + 15 + 27 = 49Passing grade = (60/100)\* 85 = 51 Regd.Ans = 51 - 49 = 2
- 65. (d); Number of days he absented =  $\frac{(72\times31.50)-1917}{31.5+7.5} = 9$  $\therefore$  Number of working days = 72 - 9 = 63
- 66. (a); Required percentage =  $\frac{8965}{3670} \times 100 \approx 244\%$
- 67. (e); Average of qualified students from Q =  $\frac{3126}{6}$  = 521 Average of qualified students from S =  $\frac{3110}{5}$  = 622
  - ∴ Required difference = 101
- 68. (c); Total disqualified students in 2012 = 3900  $\therefore$  Required number of SC boys =  $\frac{3}{12} \times 3900 - 355 = 545$
- 69. (d); Difference in 2016 = 435 Difference in 2012 = 190  $\therefore \text{ Required percentage} = \frac{435-190}{190} \times 100 \approx 130\%$  70. (b); Required Difference =  $\frac{40}{100}(4385-3900)=194$
- 71. (a); Pattern is ×4, ×2, ×4, ×2, .....
- 72. (b); Pattern is  $3^3 3$ ,  $4^3 4$ ,  $5^3 5$ ,  $6^3 6$ , ......
- 73. (a); Pattern is  $\div$  5,  $\div$  2,  $\div$  5,  $\div$  2, .........
- 74. (a); Pattern is  $+9\times1$ ,  $+9\times3$ ,  $+9\times5$ ,  $+9\times7$ , .......
- 75. (a); Pattern is +9, -4, +9, -4, .........
- 76. (c);  $x = \pm \frac{1}{26}$ ;  $y = \frac{1}{24}$ ; x < y
- 77. (c); x = -2; y = 6; x < y
- 78. (a);  $x = \frac{-30}{7}$ , 4; y = -6, -5; x > y
- 79. (a); x=7, 0; y=-7; x>y
- 80. (e);  $x = \frac{-11}{2}$ , 3; y = 3, -2; No relation.
- 81. (a); Area of Rhombus =  $\frac{1}{2}$  d<sub>1</sub> × d<sub>2</sub>

Also, Area of Rhombus = base × height  $= 6.5 \times 10$ 

= 65  

$$65 = \frac{1}{2} \times d_1 \times d_2$$
  
 $d_2 = \frac{65 \times 2}{26} = 5 \text{cm}$ 

- 82. (b); Required number of ways =  ${}^5C_2 \times 2! \times 6! = 14400$
- 83. (e); A's 1 day work =  $\frac{1}{10}$ B's 1 day work =  $\frac{1}{10} \times \frac{125}{100} = \frac{1}{9}$

C's 1 day work = 
$$\frac{1}{8} \times \frac{160}{100} = \frac{1}{5}$$
  
 $\therefore$  (A + B + C)'s 1 day work =  $\frac{17}{40}$ 

Or, Required no. of days =  $2\frac{6}{17}$  days

- 84. (c); C.P of 10 kg tea =  $45 \times 7 + 60 \times 3 = \text{Rs } 495$ S.P of 10 kg tea = Rs 544.5
  - ∴ Profit =  $\frac{49.5}{495}$  × 100 = 10%
- 85. (a); Required number of ways =  ${}^5C_4 \times {}^5C_2 + {}^5C_3 \times {}^5$  ${}^{5}C_{3} + {}^{5}C_{2} \times {}^{5}C_{4}$ = 200 ways
- 86. (c); 7 seater Mahindra cars in  $2014 = \frac{3}{7} \times 7000 = 3000$ 5 seater Tata cars in 2015 =  $\frac{3}{7} \times 35000 = 15000$   $\therefore$  Required percentage =  $\frac{15000 - 3000}{15000} \times 100 = 80\%$ 87. (b); Required percentage =  $\frac{\frac{1}{3} \times 30 - \frac{2}{5} \times 10}{\frac{1}{3} \times 30} \times 100 = 60\%$
- 88. (e); Total 5 seater cars of Mahindra in  $2011 = \frac{5}{8} \times 20000 =$

Number of white cars =  $\frac{12500-256}{2}$  = 6122.

- 89. (a); Required average =  $\frac{1}{7} \left( \frac{1}{5} \times 10 + \frac{5}{8} \times 25 + \frac{1}{4} \times 20 + \frac{2}{5} \times 10 \right)$  $25 + \frac{5}{8} \times 20 + \frac{2}{3} \times 30 + \frac{3}{5} \times 10 \times 1000$ ≈ 10160
- 90. (e); Total said 7 seater cars =  $\left(\frac{4}{9} \times 18 + \frac{5}{9} \times 25 + \frac{4}{7} \times 18\right)$  $35) \times 1000 = 43625$

Total said 5 seater cars =  $\left(\frac{4}{7} \times 7 + \frac{5}{9} \times 18 + \frac{2}{5} \times 10\right) \times$ 1000 = 18000

- ∴ Requried difference = 25625
- 91. (b); J: A = 6:11
  - A) 11x 6x = 25

So we can find out ratio of their age 5 year ago.

- **B)** (11x + 5) (6x + 5) = 25
- **c)** 11x + 6x = 85
- 92. (e); Cost price per unit is not given.
- 93. (e);  $8M + 6W = \frac{W}{21}$  $1.5(8M + 6W) = 1.5 \times \frac{W}{21}$  $12M + 9W = \frac{W}{14}$ 14 days
- 94. (d); Can't be answered because direction of the trains are
- 95. (c);  $SP = \left(1 \frac{d_f}{100}\right) \left(1 \frac{d_s}{100}\right) MP$  $d_f = \frac{30}{100} d_s$
- 96. (b); Required average =  $\frac{30+40+42.5+25+27.5}{5}$  = 33 lakh
- 97. (a); 20% of total employees in HTC and Samsung  $=\frac{20}{100} \times 135 \text{ lakh} = 27 \text{ lakh}$
- 98. (b); Required ratio =  $\frac{67.5}{70}$  = 27 : 28

- 99. (d); Required percentage =  $\frac{40}{62.5} \times 100 = 64\%$
- 100.(e); Total number of employees = 38.5 + 35 = 73,50,000
- 101. (b); Refer to the first few sentences of the passage "Despite their many differences of temperament and of literary perspective, Emerson, Thoreau, Hawthorne, Melville, and Whitman share certain beliefs. Common to all these writers is their humanistic perspective. Its basic premises are that humans are the spiritual center of the universe and that in them alone is the clue of the nature, history and ultimately the cosmos itself." Hence option (b) is true.
- 102. (c); Refer to the fourth sentence of the first paragraph "Without denying outright the existence either of a deity or of brute matter, this perspective nevertheless rejects them as exclusive principles of interpretation and prefers to explain humans and the world in terms of humanity itself. This preference is expressed most clearly in the Transcendentalist principle that the structure of the universe literally duplicates the structure of the individual self: therefore, all knowledge begins with self-knowledge." So both (A) and (B) are true. Hence option(c) is correct choice.
- 103. (d); Refer to the second sentence of the second paragraph "Thus, for Emerson, the American Scholar turns out to be simply Main Thinking; while, for Whitman, the Song of Myself merges imperceptibly into a song of all the children of Adam, where every atom belonging to me as good belongs to you."Hence option (d)is correct.
- 104. (a); Refer to the second sentence of the first paragraph "Common to all these writers is their humanistic perspective. Its basic premises are that humans are the spiritual center of the universe and that in them alone is the clue of the nature, history and ultimately the cosmos itself. Without denying outright the existence either of a deity or of brute matter, this perspective nevertheless rejects them as exclusive principles of interpretation and prefers to explain humans and the world in terms of humanity itself." Therefore option (a) is true.
- 105. (d); Only the statement made in option (d) can be inferred from the passage.
- 106. (c); Option (c) is true.
- 107. (a); 'Transcendentalism' means 'an idealistic philosophical and social movement'. Hence 'philosopher' is the word most similar in meaning to 'transcendentalist'.
- 108. (e); INTROSPECTION means 'the examination or observation of one's own mental and emotional processes'. Hence 'cogitation' is the word most similar in meaning.
- 109. (a); 'imperceptible' means 'so slight, gradual, or subtle as not to be perceived'. Hence 'observably' is the word most opposite in meaning to 'imperceptibly'.
- 110. (d); RECONCILIATION means 'the restoration of friendly relations' .Hence 'conflict' is the word most opposite in

meaning.

- 111. (b); The conditions were "Soon, in 1996, a category of FIIs that were allowed to invest only in debt instruments were permitted into the country's capital markets, with 100 per cent exposure to debt securities (including corporate bonds) subject to the aggregate ceiling of \$1-1.5 billion." For this refer to last paragraph of the passage.
- 112. (d); The passage says "One reason for growing foreign investor interest in Indian debt was the liberalization of policy with regard to permitting foreign portfolio investment in the debt market." For this refer to second last paragraph of the passage.
- 113. (c); The false statement is option (c) as it is not clearly mentioned in the passage.
- 114. (c); The effect is "The exit of portfolio capital weakened India's rupee considerably, worsened sentiment and accelerated the outflow." For this refer to 3rd paragraph of the passage.
- 115. (d); Since passage says: "Post-crisis expansion of foreign presence in India's debt markets must be seen as the result of the sharp increase in liquidity in the international financial system as a result of the monetary and fiscal policies adopted in response to the crisis." Hence, option (a) is correct. Also, it is mentioned in the paragraph that "the Securities and Exchange Board of India permitted FIIs to invest in debt markets, subject to the 70:30 rule, which specified that 70 per cent". Hence, option (b) is correct. The passage also mentions that "The result has been that despite the reversal in flows in 2013, cumulative net investment by FPIs in India's debt market has risen from less than a billion dollars in 2006 to \$30 billion at the end of August 2012 and \$41 billion on August 27, 2014." Hence, option (c) is also correct.
- 116. (b); The sentence is in the simple past tense; it must have  $V^2$ . So, options (a), (c) and (d) are ruled out. Hence, option (b) is the answer.
- 117. (a); The sentence is in simple present tense, so it must have  $V^1$ . Options (b), (c) and (d) are incorrect. Hence, option (a) is the answer.
- 118. (d); IN the present perfect tense (indefinite time), there should be 'has/have + been +  $V^3$ '. So, options (a), (b) and (c) are ruled out.

  Hence, option (d) is the answer.
- 119. (a); The sentence is in the simple past tense. Options (c) and (d) are ruled out because they take 'has been' (present perfect) and 'will have been spreading' (future perfect continuous), respectively. Option (b) is not right because it uses 'was spreading' (past continuous).

  Hence, option (a) is the answer.
- 120. (c); The sentence is in the simple past tense. Option (b) and (d) are ruled out because they use 'says' and 'saying', respectively. In option (a), the use of 'is' after 'said' is incorrect.

- Hence, option (c) is the answer.
- 121. (b); The correct sequence to form meaningful paragraph is **BECDA**.
- 122. (e); The correct sequence to form meaningful paragraph is **BECDA**.
- 123. (c); The correct sequence to form meaningful paragraph is **BECDA**.
- 124. (d); The correct sequence to form meaningful paragraph is **BECDA**.
- 125. (a); The correct sequence to form meaningful paragraph is **BECDA**.
- 126. (c); 'glowering , labeling, informed' fits the blank perfectly.
  - **Glowering** means have an angry or sullen look on one's face: scowl.
- 127. (b); "praise, acknowledged, security", fits the blanks most appropriately and is the correct choice.
- 128. (c); "sublimated, gained, template", fits the blanks most appropriately.
  - Sublimated means (in psychoanalytic theory) divert or modify (an instinctual impulse) into a culturally higher or socially more acceptable activity.
- 129. (d); "combines , interoperable, provide", fits the blanks most perfectly.
  - **Interoperable** means (of computer systems or software) able to exchange and make use of information.
- 130. (d); Option (d) "diversity ,imagine , experiments" is the correct choice.
- 31. (d); In option (a) use of simple past tense of this sentence demands the use of V<sup>3</sup> and not V4. In option (b), there is an incorrect usage in 'was been'. Option (c) is incorrect also.
- 132. (c); The demonstrative pronoun 'those' is needed here from those
- 133. (c); Option (c) is the correct answer as it is the best way of expressing the idea.
- 134. (b); The best answer is (b). The noun that comes directly after the comma is modified by having logged thousands of hours watching felines from tigers to cheetahs. Answers (a), (d), and (e) illogically have the chimps observing other primates.
- 135. (a); Option (b) is telling about great revolution which is never given in question. Again, option C is talking about prestige of being protected which is not directly linked. Option (d) is not explaining anything. Option (a) is talking about Romania which is logically incorrect. No other choice states why they are tied to Moscow except the option one which is clearly explaining the fact.
- 136. (c); After the blank space two or three sentences are about the dressing styles of North and South Indians. It is not about the climate or earning based choice or fashion. Rather it is just the difference on general basis.
- 137. (a); This question is more a checking of logic and sense

- than an understanding of the passage. Only export and import do not make GDP of a country. They are not the only indicators of influence of a country on world map. Option(c) is not logical and no sense prevails through it.
- 138. (a); Option (b) is not correct as it goes against the passage. Option (e) is illogical and does not fit as there is no reason why skilled people are not available. Option(d) seems silly on basis of its impossibility. Experts are not discussed in passage. Only option which fits well in the context is director working alone on such films of low budget.
- 139. (d); See the part of passage after the blank space, this gives a number of meaning of term 'yield' taken in different fields. This is same thing which is stated in the passage. From the other options, text definition angle is wrong in (e). Option (a) and (c) are false.
- 140. (a); This is best option which expresses the fact illustrated in passage that the market is ever changing. Other options are generalized statements with no special linkage to passage.
- 141. (e)
- 142. (c)
- 143. (d)
- 144. (a)
- 145. (b)
- 146. (c)
- 147. (d)
- 148. (a)
- 149. (b)
- 150. (e)

# IBPS PO Prelims | SBI PO Prelims 2017 : Practice Set

## REASONING ABILITY

Direction (1-5): Study the following information carefully to answer the given questions.

S, T, U, V, W, X, Y and Z are seated in a straight line but not necessarily in the same order. Some of them are facing south while some are facing north. S sits fourth to left of X. X sits at one of the extreme ends of the line. Both the immediate neighbours of S face north. T sits second to the left of Z. Z is not an immediate neighbour of S. Neither Z nor U sits at the extreme end of the line. Both the immediate neighbours of U face north. W sits to the immediate left of Y. Immediate neighbours of V face opposite directions (i.e. if one neighbour of V faces North then the other faces South and vice-versa). Immediate neighbours of T face opposite directions (i.e. if one neighbour of T faces North then the other faces South and viceversa). S faces south. People sitting at the extreme ends face the opposite directions (i.e. if one person faces North then the other faces South and vice-versa).

- How many persons sit between U and S?
  - (a) Three
- (b) Four
- (c) Six

- (d) Five
- Who sits second to the left of V?
  - (a) X
- (b) Y

(e) None of these

- (c) Z
- (d)W (e) Cannot determined
- **3.** How many person sit between Y and Z? (a) Two
  - (b) Both (c) and (e)
  - (c) Five
- (d) One
- (e) Four
- Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) U
- (c) S

- (d) T
- (e) V
- Who sits to the immediate left of Z?
  - (a) X
- (b) V (e) U
- (c) S

Directions (6-10): In these questions relationship between different elements is shown in the statements. These statements are followed by conclusions. You have to find out which of the conclusions logically follows from the given statements.

- **6.** Statements:  $X \le Y$ ,  $Y \ge W$ , W < P,  $P \le M$ Conclusions: I. M > W II. P > XIII.  $X \leq M$ 
  - (a) Only I follows
- (b) Only II follows
- (c) Only III follows
- (d) Only I and III follow
- (e) None of these
- 7. Statements:  $P \ge Q$ ,  $N \le S$ , Q > N, S < T
  - Conclusions: I. T > Q
- II.  $P \ge S$
- III. Q > T
- IV. P > N
- (a) Only I and II follow
- (b) Only I, II and III follow
- (c) Only III and IV follow
- (d) Only II, III and IV follow

- (e) None of these
- Statements: C < Q,  $Q \le J$ , J > E,
  - Conclusions: I. J < Q **II.** I < J
  - III. Q <E

- **IV.** J > C
- (a) Only I, II and III follow
- (b) Only II, III and IV follow
- (c) Only I, III and IV follow
- (d) All I, II, and IV follow

E > I

- (e) None of these
- 9. Statements:  $X \ge Y = Z \le A < B > C$

Conclusions: I. C < Z

- **II.** B < Y
- (a) Only I follows (c) Either I or II follows
- (b) Only II follows (d) Neither I nor II follow
- (e) Both I and II follow
- 10. Statements:  $P < Q \le R < S < T$ 
  - Conclusions: I.  $R \leq P$
- (b) Only II follows

**II.** T > R

- (a) Only I follows (c) Only either I or II follows
- (d) Both follow
- (e) None follows

Directions (11-15): Study the following information carefully to answer the given questions.

Six persons P, Q, R, S, T and U have to attend an interview on different days of a week starting from Monday to Saturday. The interview panel consists of a group of 6 or 8 or 10 members.

- S's Interview Panel consists of more than 6 members and he attends the interview on either Wednesday or Monday.
- Q attends the interview immediately after U and the number of members in Q's interview panel is more than those in U's.
- (iii) There are eight members in R's interview panel and he attends the interview on neither Saturday nor Friday.
- (iv) U and P attend the interview on consecutive days, but neither of them attends on Monday. The number of members in the panels that have interviewed S and U is
- (v) The number of members in the panel of the person who attends the interview on Tuesday is 6. Only two panels contain 6 members.
- (vi) R attends the interview before T.
- 11. How many members are there in T's interview panel?
  - (a) 6
- (b) 8
- (c) 10
- (d) Cannot be determined
- (e) None of these
- 12. Who attends the interview two days before P?
  - (a) T (d) R
- (b) S
- (e) None of these 13. Who attends the interview on Saturday?
  - (a) P
- (b) U
- (c) Q (e) None of these
- **14.** Who attends the interview on Friday?

(d) T

- (b) U
- (c) Q

- (d) P (e) None of these
- 15. How many members are there in S's interview panel?
- (b) 10
- (c) 6
- (d) Cannot be determined
- (e) None of these

Directions (16-20): Study the following information carefully to answer the given question.

A reporter leaks information about the black money of seven persons P, Q, R, S, T, U and V who have a black money in various branches of Swiss Bank. Each of them has a different amount of black money among Rs19898, 8697, 6734, 4537, 2436, 3624 and 28116(in lakhs), but not necessarily in the same order. Each person kept his/her black money in one of the branches among Geneva, London and Switzerland. At least two persons kept their black money in each branch.

R's black money is not kept in Geneva branch. S's black money is not Rs3624. Neither R's nor U's black money is the highest. Either U's or P's black money is Rs19898 and both of them kept their black money in London branch. Q's black money is the third highest. Only those persons whose black money is the least and the second least kept their black money in Geneva. Q's black money is more than T's black money and they kept their black money in the same branch. No other person kept his/her money in the branch in which Q's and T's black money is kept.

- **16.** Whose black money is 4537 lakhs?
  - (a) S
- (b) T
- (c) Either R or T

- (d) Q
- (e) None of these
- **17.** Whose black money is the highest?
  - (a) V (d) T
- (b) R
- (c) P (e) None of these
- 18. Which of the following person pair's black money belongs to London Branch?
  - (a) U, P
- (b) P, Q, R
- (c) U, P, R

- (d) S, V, Q
- (e) None of these
- **19.** Which of the following statement(s) is/are true?
  - (i) S's black money is the least.
  - (ii) V's black money is the highest.
  - (iii) R's black money is in London.
  - (a) Only (i)
- (b) Only (ii)
- (c) Only (i) and (iii)

- (d) All the three
- (e) None of these
- 20. Which of the following branch is related to P's black money?
  - (a) London
- (b) Geneva
- (c) Either Geneva or Switzerland
- (d) Switzerland
- (e) None of these

Direction (21-22): Study the following information carefully to answer the given questions:

Ravi starts his journey from his home and he walks 4 km towards South direction. He takes a left turn and walks 8 km. After that he takes a right turn and walks 4 km. Now, he walks 14 km after taking a right turn. Finally he reached his office.

- 21. Ravi's home is in which direction with respect to Ravi's office?
  - (a) South-West
- (b) North
- (c) West

- (d) North-east
- (e) North-west
- 22. How far is Ravi's office from Ravi's house?
  - (a) 20 km
- (b) 10 km
- (c) 15 km

- (d) 12 km
- (e) None of these

Directions (23-27): Study the following information carefully to answer the given question.

There are nine persons A, B, C, D, E, F, G, H and I stay on a nine floors building, but not necessarily in the same order. Only one person stays on each floor. All of them have either Fastrack or Titan watch of different colours i.e. yellow, golden, red, orange, purple, black, white, silver and grey, but not necessarily in the same order. Only five of them have Titan watches. The ground floor is numbered 1 and the topmost floor is numbered 9.

There are two floors between the floors on which the persons having a black Fastrack and silver Titan watches stay. C owns a red Fastrack watch. F does not own a grey Fastrack watch. A stays on even numbered floor below the even numbered floor on which H stays. The one who owns a purple Titan watch stays on the fourth floor. D stays on the second floor and owns the orange Titan watch. The one who owns the golden Titan watch stays on the topmost floor. A does not own a white Titan watch. F owns a black Fastrack watch and stays on an odd-numbered floor. There is only one floor between the floors on which F and G stay. E stays immediate above the floor on which I stay. G does not stay on the ground floor. B stays immediate above the floor on which H stay. There are three floors between the floors on which C and F stay. The one who owns the silver watch stays immediate above G. E stays on the fourth floor. The one who owns the grey Fastrack watch stays on the third floor.

- 23. What is the colour of the Titan / Fastrack watch of the person who stays on the 7<sup>th</sup> floor?
  - (a) Red
- (b) White
- (c) Orange

- (d) Silver
- (e) Yellow
- 24. How many persons are between the one who have golden watch and the one who stays on 4<sup>th</sup> floor?
  - (a) Five
- (b) Three
- (c) Seven

(b) B

- (d) Four
- (e) None of these
- 25. Who stays on the 7<sup>th</sup> floor?

  - (a) The one who has white watch
  - (c) G
- (d) Both (a) and (c)
- (e) The one who has silver watch
- 26. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) Red
- (b) White
- (c) Golden

- (d) Silver
- (e) Grey
- **27.** Which of the following coloured watch belongs to F? (a) Yellow (b) Red (c) Purple

(d) Grey (e) Black

Direction (28-30): Study the following information carefully to answer the given questions:

- Z is sister of J. K is brother of L.
- K has only one son. M is the wife of K.
- M is the daughter of Z. J is brother-in-law of X.

28.	If V is the husband of to V?	Y and so	on of M, then h	now is X related	IV.	The eldest and the school.	youngest are	studying in the same

(e) None of these

38. The average age of all the animals in a zoo is 16 years. The average age of male animals in the zoo is 21 years and that of the female animals is 12 years. If the number of female animals in the zoo is 10, then find the number of male animals in the zoo.

(a) 4 (c) 12(b) 8 (d) 10 (e) None of these

39. Radius of a circle is 7 cm more than length of a rectangle whose perimeter is 364 cm and breadth is 84 cm. What is the cost of silvering the circumference of circle if the cost

of silvering is Rs. 8 per cm? (a) Rs. 5456 (b) Rs. 6144 (c) Rs. 5296

(d) Rs. 5280 (e) None of these

41. A steamer travels upstream from B to A and downstream from A to B in 3 hours. If the speed of the steamer in still water is 9 km/hr and the speed of the current is 3 km/hr, the distance between A and B (in km) is

(a) 4 (b) 6 (c) 8 (d) 12 (e) None of these

42. Two fill pipes A and B can separately fill a cistern in 15 and 30 minutes respectively. They started to fill a cistern together but fill pipe A is turned off after few minutes and fill pipe B fills the rest part of cistern in 9 minutes. After how many minutes, was pipe A turned off?

(a) 6 min (b) 8 min (c) 7 min (d) Data inadequate (e) None of these

43. A team of 25 men is supposed to do a work in 44 days. After 18 days, 2 more men were employed and the work finished 1 day earlier. How many days would it have been delayed if 2 more men were not employed?

(a) 1 day (b) 2 days (c) 1.5 days (d)  $2\frac{1}{2}$  days (e) None of these

44. The sum of digits of a two digit number is 7. If unit place of the number is multiplied by 8 and added with 6 times of 10<sup>th</sup> place digit, then the number reverses. The difference

between the squares of the digits of the number will be

- (a) 40
- (b) 21
- (c) 12

- (d) 3
- (e) None of these
- 45. A shopkeeper sells a badminton racket of marked price Rs. 30 on 15% discount and gives a shuttle cork worth Rs. 1.50 free with each racket. Even then he gets a profit of 20%. What is the cost price of each racket?
  - (a) Rs. 21.00
- (b) Rs. 21.50
- (c) Rs. 20.00

- (d) Rs. 19.75
- (e)none of these
- 46. Each of the two equal sum of money is invested at 6% and 4% per annum simple interest. Second principal is invested for two more years as compared to first principal and thus amount received on each of the principal is Rs. 18600. What sum of total money put on investment?
  - (a) Rs. 12000
- (b) Rs. 24000
- (c) Rs. 15000

- (d) Rs. 30000
- (e)none of these
- 47. In how many ways can letters of the word MADHUBANI be arranged so that word ends with I but does not start with M?
  - (a) 17640
- (b) 8820
- (c) 4320

- (d) 12420
- (e) None of these
- 48. 10 years ago, the average age of a family of 4 members was 24 years. Two children having been born (with age difference of 2 years), the present average age of family is same. The present age of youngest child is:
  - (a) 1 year
- (b) 2 years
- (c) 3 years

- (d) 4 years
- (e) None of these
- 49. 85 kg of mixture contains milk and water in the ratio 27:7. How much more water is to be added to get a new mixture containing milk and water is ratio 3:1?
  - (a) 5 kg
- (b) 6.5 kg
- (c) 7.25 kg

- (d) 8 kg
- (e) None of these
- 50. A goat is tied on the corner of a rectangular field of size 30 m × 20 m by a 14 m long rope. The area of the region that she can graze is
  - (a)  $350 \text{ m}^2$
- (b) 196 m<sup>2</sup>
- (c) 155 m<sup>2</sup>

- (d)  $122 \text{ m}^2$
- (e) None of these

**Directions (51-55):** What will come in place of question mark (?) in the following number series?

- 51. 21, 23, 37, 71, 133, ?
- (b) 231
- (c) 319

(c) 978

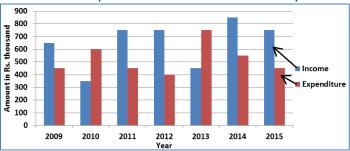

- (a) 321 (d) 237
  - (e) 235
- (a) 381
- 52. 46, 267, 462, 631, 774, ?
  - (b) 895
  - (d) 891
- (e) 869
- 53. 16, 137, 866, 915, 1040, ?
  - (a) 1049
- (b) 1094
- (d) 849 (e) 1069
- 54. 2890, ?, 1162, 874, 730, 658
  - (a) 1684
- (b) 1738
- (c) 1784

(c)949

- (e) 1584
- (d) 1672 55. 6, 10.5, 17.25, 27.375, ?, 65,34375
  - (a) 42.5265 (d) 42.5255
- (b) 42.6255
- (e) 42.5565
- (c) 42.5625

Direction (56-60): Refer to the line graph an answer the questions that follow.

Income and expenditure of a fruit vendor over the years.

- 56. What was the average profit (in Rs. thousand) earned by the vendor from year 2011-2015?
  - (a) 416
- (b) 318
- (c) 410

- (d) 310
- (e) None of these
- 57. What percent loss incurred by the vendor in 2010 and 2013 together?
  - (a) 38.7
- (b) 40.8
- (c) 42.5

- (d) 46.2
- (e) 41.8
- 58. The respective ratio of expenditure of the vendor in 2011 and 2008 was 9:13. If he earned a profit of 20% in 2008, what was his income (in Rs. thousand) in that particular year?
  - (a) 750
- (b) 730
- (c) 790

- (d) 760
- (e) None of these
- 59. What is the approximate percent profit earned by the vendor in 2012, 2014 and 2015 together?
  - (a) 66
- (b) 68
- (c) 58
- (d) 65 (e) 60
- 60. What is the ratio between profit earned by the vendor in 2011 and 2014 together and loss incurred by him in 2010 and 2013 together?
  - (a) 13:12
- (b) 11:13
  - (c) 13:11
- (d) 12:13
- (e) None of these

Directions (61-65): What value should come in place of question mark (?) in the following equations?

- $\frac{3}{9} \times 2286 + \frac{2}{11} \times 1397 = ? + 10\% \text{ of } 1000$

68. 
$$? = [(1248.28 + 51.7) \div 99.9 - 7.98]^2$$
  
(a) 49 (b) 81 (c) 64

70. 
$$135.99\sqrt{?} + 32.0032\sqrt{?} = \frac{168}{10.998} \times (?)$$

## **ENGLISH LANGUAGE**

**Directions (71-80):** Read the following passage carefully and answer the questions. Certain words/ phrases have been given in bold to help you locate them while answering some of the questions.

Over the past few days alone, the China's central bank has pumped extra cash into the financial system and cut interest rates. The aim is to free more cash for banks to lend and provide a boost for banks seeking to improve the return on their assets. The official data, though, suggested that bad loans make up only 1.4 % of their balance sheets. How to explain the discrepancy? One possible answer is that bad loans are a tagging indicator, i.e. it is only after the economy has struggled for a while that borrowers began to suffer. Looked at this way, China is trying to anticipate problems, keeping its banks in good health by sustaining growth of nearly 7% year on year. Another more worrying possibility is that bad loans are worse than official data indicate. This does not look to be a cause for concern for China's biggest banks, which are managed conservatively and largely focus on the country's biggest-value and quality borrowers. But there is mounting evidence that when it comes to smaller banks, especially those yet to list on the stock market, bad loans are piling up. That is important because unlisted lenders account for just over a third of the Chinese banking sector, making them as big as Japan's entire banking industry.

Although non-performing loans have edged up slowly, the increase in special-mention loans (a category that includes those overdue but not yet classified as impaired loans.) has been much bigger. Special-mention loans are about 2% at most of China's big listed banks, suggesting that such loans must be much higher at their smaller, unlisted peers. Many of these loans are simple bad debts which banks have not yet admitted to. Another troubling fact is that fifteen years ago, the government created asset-management companies (often referred to as bad banks) to take on the non-performing loans of the lenders. After the initial transfer these companies had little to pay. But, last year, Cinda, the biggest of the bad banks, bought nearly 150 billion Yuan (\$24 billion) of distressed assets last year, two-thirds more than in 2013. These assets would have raised the bank(s) bad-loans ratio by a few tenths of a percentage point. Although such numbers do not seem very alarming, experts who reviewed last year's results for 158 banks, of which only 20 are listed, found that "shadow loans" — loans recorded as investments which may be a disguise for bad loans have — grown to as much as 5.7 billion Yuan, or 5% of the industry's assets. These are heavily concentrated on the balance sheets of smaller unlisted banks, and at the very least, all this **points** to a need for recapitalisation of small banks.

- 71. Choose the word which is most nearly the **SAME** in meaning as the word **'TAGGING'** given in bold as used in the passage.
  - (a) delayed (b)
- (b) breaking
  - (e) tying
- 72. Choose the word which is **OPPOSITE** in meaning to the word **FREE** given in bold as used in the passage.
  - (a) expensive

(d) protecting

- (b) secret
- (c) complimentary

(c) stopping

- (d) restrict
- (e) charged
- 73. According to the passage, which of the following can be said about China's large banks?
- (A) These are cautiously run.
- (B) Their clients are mainly high-value.
- (C) 2 per cent of their loans have been classified as overdue but not impaired.
  - (a) Only (B)
- (b) Only (A)
- (c) All (A), (B) & (C)

- (d) Only (A) & (C)
- (e) Only (B) & (C)
- 74. Which of the following is the central idea of the passage?
  - (a) Small banks should be permitted to become listed on the stock exchange.
  - (b) The government should do away with asset management companies.
  - (c) China's financial crisis is not as serious as it is being made out to be.
  - (d) China's central bank has failed to predict and stop the decline of its banks.
  - (e) There is trouble brewing in China's small unlisted banks.
- 75. Choose the word which is most nearly the SAME in meaning as the word **'POINTS'** given in bold as used in the passage.
  - (a) peaks
- (b) moments
- (c) arguments

- (d) indicates
- (e) plugs
- 76. Which of the following is TRUE in the context of the passage?
  - (a) China has not implemented any resources to help its banking sector in recent times.

- (b) Approximately 32% of China's banking sector is unlisted.
- (c) China's stock market has plummeted in recent times.
- (d) Japan's banking industry is experiencing a boom unlike that of China.
- (e) None of the given options is true in the context of the passage.
- 77. What does the example of Cinda convey?
  - (a) Many of the loans given by China's banks are in trouble.
  - (b) Many such large Chinese asset management companies are failing.
  - (c) China's economy is overly dependent on large banks.
  - (d) China is the ideal destination for small banks to flourish.
  - (e) Such companies have become obsolete.
- 78. Choose the word which is **OPPOSITE** in meaning to the word **MOUNTING** given in bold as used in the passage,
  - (a) melting
- (b) accumulating (c) removing
- (d) submerging
- (e) decreasing
- 79. Which of the following best describes experts' findings regarding shadow loans?
  - (a) Shadow loans have been steadily falling and are negligible at present.
  - (b) These are growing substantially and indicate the need for reform of small banks.
  - (c) Shadow loans are unfairly being passed on to asset management companies.
  - (d) These loans are inconsequential for the health of banks.
  - (e) The findings are faulty as these include only a few listed banks.
- 80. What is the author's view regarding small banks?
  - (a) These have a better loan portfolio than large banks.
  - (b) These are in good health helping to sustain economic growth of 7 per cent.
  - (c) These should be merged with large banks to bail them out of trouble.
  - (d) Regulations governing these banks should be relaxed.
  - (e) Other than those given as options

**Directions (81-90):** Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer. Ignore the errors of punctuation, if any.

- 81. The building's roof (1)/ needs repairing otherwise (2)/ it may fall down and (3)/ result into many persons' death. (4)/ No Error. (5)
- 82. It is true (1)/ that I met (2)/ the Chief Minister (3)/ at one of my friend's houses. (4)/ No Error. (5)
- 83. The blind's life (1)/ is really very miserable (2)/ because they can't see (3)/ what happens around them. (4)/ No Error. (5)
- 84. A ton's weight (1)/ is too heavy for (2)/ anyone to (3)/ carry on his head (4)./ No error. (5)
- 85. Ritu as well as (1)/ some of her friends (2)/ have fallen in love with Sonu, who (3)/ is the eldest son of an S.D.O. / (4) No error (5)

- 86. More than one successful candidate (1)/ have taken the interview for one (2)/ of the popular magazines (3)/ being published from Delhi. (4)/ No error (5)
- 87. The leader as well as (1)/ his followers are fatally injured in (2)/ the accident which occurred last night (3)/ near this railway crossing. (4) No error (5)
- 88. Where she went (1)/ and where she left her purse (2)/ are not known to us; so it (3)/ is of no use being worried about her. (4)/ No error (5)
- 89. No less / (1) than fifty audiences are sitting / (2) in the hall and waiting for their / (3) beloved artiste's appearance on the stage./ (4) No error (5)
- 90. Much to his fortune, he / (1) married a girl who was / (2) more tall and lovelier than / (3) her elder sister. / (4) No error (5)

**Directions (91-100):** In the following passage, some of the words have been left out, each of which is indicated by a number. Find the suitable word from the options given against each number and fill up the blanks with appropriate words to make the paragraph meaningful.

There is a school of thought that some kinds of complex governance/policymaking functions should be insulated from the tumult of partisan politics by (91) them to technocrats. Giving in to the seductive appeal of this argument to the (92) of breaking the line of accountability of policymakers to the people altogether would undermine democracy and run the risk of these technocratic bodies being captured by (93) interests, instead of practising fidelity to professionalism. The proposal of the RBI's Urjit Patel committee to entrust monetary policy (94) to a committee of wise men in which even the RBI governor would have just one vote and can be overruled (95) to this school. This is a bad idea that (96) firmly be rejected.

At present, the RBI has reasonable autonomy but holds consultations with the government and has begun to testify before parliamentary committees. Both are needed to make monetary policy and regulation of the banking system (97) to the people. A committee does advise the RBI governor on policy rates, but he makes the final call. One person taking the final call seems less democratic than a committee voting to make that call only (98) that one person is taken out of his institutional context. The RBI governor is not some lone ranger but the RBI's link with the elected government of the country. Simultaneous accountability of the RBI governor to a committee of Parliament would (99) that the government does not make (100) demands on the central bank as well.

- 36. (d); Amount to be divided between Aman, Divya and Mahesh
  - = 80% of 9,00,000
  - = 720000

Aman: Divya: Mahesh = 1:3/2:2

= 2:3:4

Aman's share  $=\frac{2}{9} \times 720000$ 

= 160000

Divya's share  $=\frac{3}{9} \times 720000$ 

= 240000

Mahesh's share  $=\frac{4}{9} \times 720000$ 

- = 320000
- 37. (b); Reqd. Probability =  $\frac{2c_1+1c_1}{12c_1} = \frac{3}{12} = \frac{1}{4}$
- 38. (b); Let the number of male animals be x.

$$\Rightarrow$$
 21x + 12 × 10 = (x + 10) × 16

- $\Rightarrow x = 8$
- 39. (d); Length of rectangle =  $\frac{364-168}{3}$ 
  - = 98 cm
  - $\therefore$  Radius of circle = 98 + 7 = 105 cm

Thus, cost of silvering =  $2 \times \frac{22}{7} \times 105 \times 8$  =Rs. 5280 40. (d); ATQ,  $\frac{D}{6} - \frac{D}{10} = \frac{15}{60}$ 

40. (d); ATQ, 
$$\frac{D}{6} - \frac{D}{10} = \frac{15}{60}$$
  
or,  $\frac{4D}{60} = \frac{15}{60}$ 

 $\therefore$  required difference,  $D = \frac{15}{4} = 3\frac{3}{4}$  km

∴ required difference
41. (d); 
$$\frac{AB}{9+3} + \frac{BA}{9-3} = 3$$

$$\frac{AB}{12} + \frac{AB}{6} = 3$$

$$\frac{3AB}{12} = 3$$

$$AB = 12 \text{ km}$$

$$AB = 12 \text{ km}$$

 $^{1}$  A - 15  $^{1}$  B - 30

Let after t minutes A turned off

$$3 \times t + 1 \times 9 = 30$$

- 3t = 21
- t = 7 minutes
- 43. (a);  $25 \times 18 + 27 \times (43 18) = 25 \times t$

 $25 \times 18 + 27 \times 25 = 25 \times t$ 

- $25 \times 45 = 25 \times t$
- $t = 45 \, \mathrm{days}$

Work will be delayed by 1 day

44. (b); Let the number is 10y + x

$$x + y = 7$$

$$x \times 8 + 6y = 10x + y$$

$$x = 5, y = 2$$

Required difference = 25 - 4 = 21

45. (d); Total S.P. =  $30 \times 0.85 = \text{Rs.} 25.5$ 

C.P. = 
$$25.5 \times \frac{100}{120}$$
 = Rs. 21.25

But Rs.1.5 in this is of shuttle.

So cost of each racket = 21.25 - 1.5

= 19.75 Rs.

Sol. 
$$\frac{x \times 6 \times t}{100} = \frac{x \times 4(t+2)}{100}$$

$$t = 4$$

$$x + \frac{x \times 6 \times 4}{100} = 18600$$

$$x = 15000 \text{ Rs}.$$

Total Sum = 30000 Rs.

47. (c); Number of words ending with  $I = \frac{81}{21}$ 

Number of words that begin with M and end with  $I = \frac{71}{21}$ 

- $\therefore$  Required number  $=\frac{8!}{2!}-\frac{7!}{2!}=\frac{7!}{2!}(8-1)=7\times2520=$
- 48. (c); Total age of 4 members now =  $(24 \times 4) + (10 \times 4) =$ 136 years

Total age of six members now  $= 24 \times 6 = 144$  years

 $\therefore$  Sum of ages of 2 children = 144 - 136 = 8 years

Let younger children is x years old, then

$$x + (x + 2) = 8$$
 or,  $x = 3$  years

49. (a); ATQ,

$$\frac{\left(\frac{27}{34} \times 85\right)}{\left(\frac{7}{34} \times 85\right) + r} = \frac{3}{1}$$

or, 
$$\frac{\frac{135}{2}}{\frac{35}{2}+x} = \frac{3}{1}$$

or, 
$$105 + 6x = 135$$

or, 
$$x = 5 \text{ kg}$$

- 50. (c); Required area =  $\frac{90}{360} \times \frac{22}{7} \times 14 \times 14 = 154 \text{ m}^2$ 51. (b); Pattern is  $+2^2 2$ ,  $+4^2 2$ ,  $+6^2 2$ ,  $+8^2 2$  $2. +10^2 - 2$
- 52. (d); Pattern is +221, +195, +169, +143, +117
- 53. (b); Pattern is  $+11^2$ ,  $+9^3$ ,  $+7^2$ ,  $+5^3$ ,  $+3^2$
- 54. (b); Pattern is -1152, -576, -288, -144, -72
- 55. (c); Pattern is  $\times$  1.5 +1.5
- 56. (d); Required average profit =  $\frac{300+350+300+300}{5}$  = Rs. 310 thousand
- 57. (b); Income in year 2010 and 2013 together = 350 +450 = Rs. 800thousand

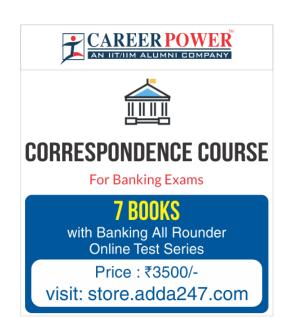

Expenditure in year 2010 and 2013 together = 600 +750 = Rs. 1350 thousand

- : Loss percent incurred =  $\frac{1350-800}{1370} \times 100 = 40.8\%$
- 58. (e); ATQ,  $\frac{\text{Expenditure in 2011}}{\text{Expenditure in 2008}} = \frac{9}{13}$   $\therefore \text{ Expenditure in 2008} = \frac{450 \times 13}{9} = \text{Rs. 650 thousand}$

Also, profit % = 
$$\frac{(Income-Expenditure)}{Expenditure} \times 100$$
  
Income in 2008 =  $\frac{20 \times 650}{100} + 650 = Rs$ . 780 thousand

- 59. (b); Total income in 2012, 2014 and 2015 together = 750 + 850 + 750 = Rs. 2350 thousand Total Expenditure in 2012, 2014 and 2015 together = 400 + 550 + 450 = Rs. 1400 thousand
  - ∴ Required profit percent =  $\frac{2350-1400}{1400}$  × 100 ≈ 68%
- 60. (e); Required ratio =  $\frac{600}{550} = \frac{12}{11}$
- 61. (a); ? = 762 + 254 100 = 916
- 62. (c);  $19549 = ?^3 134$ Or, ? = 27
- 63. (e); ? = 142.35 23.12 = 119.23

- 65. (a);  $\sqrt{?} = 58 28 = 30$ ? =  $(30)^2 = 900$
- 66. (b); ? = 196 25 + 512 125=  $558 \approx 520$
- 67. (c);  $32 \div 4 \div 10 + 29 = ?$   $? \approx 30$
- 68. (e);  $? = [(1300 \div 100) 8]^2$ ? = 25
- 69. (d);  $(129.2 + 45.03 + 77.77) \approx 252$
- 70. (d);  $36\sqrt{x} + 32\sqrt{x} = \frac{68}{11} \times x$   $68\sqrt{x} = \frac{68}{11} \times x$   $\sqrt{x} = 11$ x = 121
- 71. (5); 'Tagging' means 'attach a label to'. Hence, 'tying' is the word which is most nearly the same in meaning to it.
- 72. (4); Free' means 'without restriction'. Hence, 'restrict' is the word which is opposite in meaning to it.
- 73. (3); It is given in the first paragraph that 'China's biggest banks, which are managed conservatively and largely focus on the country's biggest-value and quality borrowers' Hence, (A) and (B) are true. Now, in the second paragraph, it's given that 'special-mention loans (a category that includes those overdue but not yet classified as impaired loans.) ...... are about 2% at most of China's big listed banks...' Hence (C) is also true. Hence, (3) is the correct option.
- 74. (5); It is mentioned in the passage 'bad loans are piling up' in small banks in China. Besides this, the entire passage envisages the growing problems in China's small banks. Hence, (5) is the correct option.
- 75. (4); 'Points' means 'direct attention towards something'. Hence, 'indicates' is the word which is most nearly the same in meaning to it.
- 76. (5); None of the given options is true in the context of the passage. Hence (5) is the correct option.
- 77. (1); It is given in the second paragraph of the passage that 'Cinda, the biggest of the bad banks, bought nearly 150 billion Yuan (\$24 billion) of distressed assets last year, two-

- thirds more than in 2013. These assets would have raised the bank(s) bad-loans ratio' Hence, (1) is the correct option.
- 78. (5); 'Mounting' means 'the action of mounting something'. Hence, 'decreasing' is the word which is opposite in meaning to it.
- 79. (2); It is given in the last paragraph that 'shadow loans" ..... grown to as much as 5.7 billion Yuan, or 5% of the industry's assets.......all this points to a need for recapitalisation of small banks' Hence, (2) is the correct option.
- 80. (5); None of the given options describe author's view regarding small banks appropriately. Hence (5) is the correct option.
- 81. (a); Use "the roof of the building" in place of "The building's roof"
- 82. (d); Use "the house of one of my friends"
- 83. (a); Use the life of the blind
- 84. (e); No error.
- 85. (c); Use 'has' in place of 'have'.
- 86. (b); Use 'has' in place of 'have'
- 87. (b); Use 'is' in place of 'are'
- 88. (e); No error
- 89. (a); 'No fewer' should be used in place of 'no less'
- 90. (c); Use 'taller' in place of use 'more taller'
- 91. (b)
- 92. (d)
- 93. (a)
- 94. (c)
- 95. (e) 96. (b)
- 97. (d)
- 98. (e)
- 99. (a)
- 100.(c)

# IBPS Clerk Mains 2016 Memory Based: Practice Set

## REASONING ABILITY

answer the given questions.

#### In a certain code language-

"work for earning money" is coded as "Go3 None5 Xor4

"like six years passed" is coded as "Ti3 Qasse6 Zear5 Mik4" "hence good amount received" is coded as "Seceive8 lenc5 Hoo4 Bmoun6"

- 1. What is the code for "last earning was money"?
  - (a) Xa3 Mas4 Noney5 Farnin7
  - (b) None5 Xa3 Mas4 Darnin7 (c) None5 Mas4 Farnin7 Xa3
  - (d) Mas4 Lone5 Farnin7 Xa3 (e) None of these
- If "money makes man perfect" is coded as "Nake5 Qerfec7 Na3 None5", then what is the code for "good people always
  - (a) Qeople6 Hoo4 Blway6 Qerfec7
  - (b) None of these
  - (c) Hoo4 Qerfec7 Blway6 Qeopl6
  - (e) Qeople6 Hoo4 Qerfec7 Blway6
  - (e) Qerfec7 Blway6 Qeople5 Hoo5
- What is the code for "hence always wrong hance"?
  - (a) Can't be determined
  - (b) Blway6 lance5 Xron5 lenc5
  - (c) lanc5 Xron5 Blway5 lenc5
  - (d) lanc5 Xron5 lenc4 Blways6
  - (e) Blway6 Ienc5 Ianc5 Xron5
- "Farming" is coded as?
  - (a) None of these
    - (b) Garmin7
- (c) Gramin8

- (d) Garing8
- (e) Earnin7

Direction (5-10): Read the given information carefully and answer the given questions.

There are five units i.e. 1, 2, 3, 4 and 5. Each unit has a different height. Also each unit contains books and boxes. unit2 is above unit1 and unit3 is above unit2 and so on. Every unit is belongs to different country i.e. Beijing, Paris, London, Sydney and Zurich. The total height of all five units is equal to 252"ft.

\*Total Height of Unit is equal to the total height of books plus total height of boxes in each unit.

\*Height of books is not equal to the height of boxes. Unless specified so.

The books belongs to London is an even unit. The total height of unit1 is 75"ft. Sydney is not a unit1. The total height of unit, which belongs to Sydney is 55"ft. There is only one gap between London and Paris. The height of books and height of boxes in unit3 are equal. The height of books in unit2 is not less than 30"ft. The books are in unit4 is four more than books, which is in unit3. The total height of London is not 37"ft. The total height of unit, which contains 37"ft is not taking a place, which is immediate above the unit, which contains 20"ft more than the unit, which belongs to Sydney. The height of boxes in unit2 is

Direction (1-4): Study the following information carefully to 23"ft. Unit belongs to Zurich does not contain the equal height of books and boxes. The total height of unit2 is a odd number and height is more than 50"ft and less than 55"ft. Unit1 contains 23"ft height of boxes more than unit4 contains height of boxes and unit5 contains 7"ft height of books less than unit1 contains.

- What is the total height in unit3?
  - (a) 37"ft
- (b) None of these (c) 32"ft
- (d) 53"ft
- (e) 75"ft
- 6. Unit3 belongs to which country?
  - (a) Paris
- (b) Zurich
- (c) Sydney

- (d) Beijing
- (e) London
- If 'Sydney' is related to 37"ft in the same way as 'Beijing' is related to 53"ft. Which of the following is 'Paris' related to, following the same pattern?
  - (a) 53"ft
- (b) 37"ft
- (c) 75"ft

- (d) None of these
- (e) 32"ft
- 8. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) Sydney
- (b) 32"ft
- (c) 75"ft

- (d) Paris
- (e) Beijing
- 9. What is the height of box in unit 4?
  - (a) 23'ft
- (b) 17"ft
- (c) 27"ft

(c) Unit3

(d) 40"ft

(d) Unit1

- (e) 20"ft
- 10. Which unit contains 30"ft book?
- - (a) None of these (b) Unit2
    - (e) Unit5

Direction (11-15): Read the given information carefully and answer the given questions.

There are eight persons A, B, C, D, E, F, G and F are sitting around a circular table. All of them are facing the center, but not necessarily in the same order.

B sits third to the left of H. There are only one person sits between H and H's husband. G is the husband of A. D sits immediate left of B. C sits third right of A, but C is not immediate neighbor of H's husband. There are three person's sits between A and her husband. C is the spouse of F. B's spouse does not sits immediate right of A's husband.

- 11. Who sits second right of F?
  - (a) E
- (b) None of these
- (c) D
- (d) G's wife
- 12. How many person sits between E's wife and G's wife?
  - (a) None
- (b) Two
- (c) One
- (d) Three (e) Five
- 13. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) G
- (b) H

(e) A

(c) B

- (d) E
- 14. Who sits immediate left of H's husband?

- (a) C's spouse (b) G (c) None of these (d) H (e) B's spouse
- 15. If C is related to B in the same way as E's wife is related to A's husband. Which of the following is 'G's wife' related to, following the same pattern?
  - (a) G (b) F (c) D
  - (d) H's husband (e) None of these

**Directions (16-19):** Each of the questions below consists of a question and three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

- (a) If statement II and III are sufficient to answer the question, but statement I alone is not sufficient to answer the question.
- (b) If all the statements I, II and III taken together are not sufficient to answer the questions.
- (c) If statements I and II is sufficient to answer the question, but statement III is not sufficient to answer the question.
- (d) If all the statements I, II and III taken together are sufficient to answer the questions.
- (e) If statement I and III are sufficient to answer the question, but statement II alone is not sufficient to answer the question.
- 16. Who among A, B, C, D, E and F is the tallest?
  - (I) Only two of them are taller than C.
  - (II) D is shorter than F.
  - (III) C is taller than A, but shorter than F and B.
- 17. How is M related to O?
  - (I) J is the sister of K, who is the son of M. L is the brother of M and R is brother of O.
  - (II) L is the brother of M. M is the son of Q.
  - (III) M is the son of R, who is the husband of Q.
- 18. Who amongst S, T, U, V, W and X is the tallest person?
  - (I) X is taller than W but smaller than U. U is smaller than T.
  - (II) U is taller than S and W but smaller than T. T is not the tallest person
  - (III) V is taller than T and U. W is not the smallest person.
- 19. In which direction point D with respect to point M?
  - (I) Point M is towards west of point E, who is the north-west of point P.
  - (II) Point P is to the east of point S. Point M is the north of point S.
  - (III) Point C is the west of point D. Point D is the west of point S.
- 20. "We have formulated a 10 point programme to curb molestation cases against woman and we are confident of restricting the eve-teasing cases with the help of our sincere cops"- Director General of Police of city 'X'.
  - Which of the following, if true, would weaken the statement?
  - (a)City 'X' is known among those cities where they are least crime records.
  - (b)City 'X' is the most populated city in the world.
  - (c)On several occasions women have complained against

police cops and have charged them of indulging in eveteasing.

- (d)Literacy rate of city 'X' is the highest amongst all cities.
- (e)Many NGOs are cooperating with the police forces in ensuring a peaceful life in city 'X'.

**Direction (21-25):** Read the given information carefully and answer the given questions.

Two buses A and B starts their journey from same depot but not necessary in the same order. Bus A starts moving 6 km towards north direction to point P then take a right turn and move 18km to reach point R, then take a left turn and move 12km to reach point S. Point P, Q and R lies in a same line. Distance between P and Q is half of the distance between point Q and R. Bus B starts to move toward west 2km more than point Q and R from depot and reach point W. than take a right turn and walk 18km to reach point U. U, V and W lies in the same line as distance of V and W is double of the distance between U and V. from point U bus B take a right turn and reach point S. Point T lies between U and S in exact midway.

- 21. What is the total distance between U and S?
  - (a) 29km
- (b) 32km
- (c) 36km

- (d) 30km
- (e) 28km
- 22. In which direction is point T with respect to point W?
  - (a) North
- (b) South
- (c) North West

- (d) North East
- (e) South West.
- 23. A boy want to go depot and starts walking toward north from Point W after reaching point V he suddenly realize that he is going to wrong direction. So what is the shortest route from point V to bus Depot?
  - (a) Back to point W then go to depot from there.
  - (b) From point V he should going to east direction 14km than move toward south and reach depot.
  - (c) From point V going towards north to reach point U from there, he should reach point S than point R than P than depot.
  - (d) Both (a) and (b)
- (e) Can't determine.
- 24. What is the distance between T and S?
  - (a) 14km
- (b) 12km
- (c) 16km

- (d) 18km
- (e) 6km
- 25. Bus A is moving in which direction currently?
  - (a) West
- (b) North-east
  - st (c) South

- (d) West
- (e) East
- 26. A government survey released today shows that 80% of the people who fly are satisfied with the service they receive from the airlines in this country .Three interviewers stood outside a major airport and asked people leaving the terminal, "Do you have any complaints about the flight you just got off?" Only 20 percent responded "yes!"
  - Which of the following, if true, would most **undermine** the conclusion of the argument above?
  - (a) Sixty percent of the people coming out of the airline terminal were not people who had just gotten off a flight.
  - (b) One percent of the people approached by the interviewers refused to respond to their inquiries.

- were discharged from a flight that was 40 minutes late.
- (d) The interviewers were able to speak to only 70 percent of the people leaving the terminal, but those people were selected at random.
- (e) For six months following the day of the interviews, no official complaints were filled by any passenger with the Federal agency that regulated the airlines.

Direction (27-32): Read the given information carefully and answer the given questions.

There are seven persons in a family namely A, B, C, D, E, F and G. All of them related with each other in a order. Also each person has a different age. The information is given as-

A is older than B but younger than E. The third oldest person in the family is 38 year old. B is the sister of A. C is the father of A. The third youngest person of the family is 35 year old. G is the oldest person of the family. B is the niece of F. E is older than B. F is the husband of E. G and D are married couple. C's mother is 69 year old. C is younger than F. Oldest person of the family is male member.

- 27. If total age of D and B is 75 year, then what is age of B?
  - (a) 40 year
- (b) 37 year
- (c) 6 year

- (d) None of these
- (e) 10 year
- 28. How is D related to A?
  - (a) Grandfather
- (b) Mother
- (c) Can't be determined
- (d) Grandmother
- (e) Father
- 29. Who among the following person is 35 year old?
  - (a) A
- (b) E
- (c) F

- (d) C
- (e) D
- 30. How many person are older than A?
  - (a) Six
- (b) Four
- (c) None of these

- (d) Three
- (e) Five
- 31. What is possible age of C?
  - (a) 52 year
- (b) 39 year
- (c) 37 year

- (d) 29 year
- (e) None of these
- 32. What is the possible age of oldest person of the family?
  - (a) 74 year
- (b) 68 year
- (c) 62 year

- (d) 80 year
- (e) Both (a) and (d)
- 33. Statement The annual requirement of blood in our country is 6 million units whereas the generation is only 3.5 million units per annum at present.

#### Courses of action

- I. Blood donors should be attracted by telling them how the act of donating blood would improve their health.
- II. Blood donors should be attracted by providing them monetary incentives.
- III. More and more private blood banks should be encouraged.
- (a) Either I or II follows
- (b) I and II follow
- (c) II and III follow

(e) Only I follow

- (d) All follow

- (c) The interviewers began their inquiry just after passengers Directions (34-35): Given below are pairs of events 'A' and 'B'. You have to read both the events 'A' and 'B' and decide their nature of relationship. You have to assume that the information given in 'A' and 'B' is true and you will not assume anything beyond the given information in deciding the answer. Mark answer
  - (a) If 'A' is the effect and 'B' is its immediate and principal cause.
  - (b) If 'A' is the immediate and principal cause and 'B' is its effect.
  - (c) If 'A' is an effect but 'B' is not its immediate and principal
  - (d) If 'B' is an effect but 'A' is not its immediate and principal cause.
  - (e) None of these
  - 34. Statement (A): The government has decided to roll back the hike in the prices of cooking gas and kerosene.
    - Statement (B): Some ministers had resigned in protest against the hike in prices of cooking gas and other petroleum products.
  - 35. **Statement (A):** A traveller found cockroaches in the crevices of his seat and also in the toilets of India's most prestigious train, the Rajdhani Express.

Statement (B): He drew the attention of catering manager, Western Railway, to the insects.

Direction (36-40): Read the given information carefully and answer the given questions.

There are eight persons namely A, B, C, D, E, F, G and H has born in the same month of different year i.e. 1969, 1972, 1978, 1981, 1989, 1997, 2000 and 2005. Their age are considered as on the same month of 2016.

G is born in even number year, but not born in the year, which does not divisible by 4. A is 36 year old now. B is 17 year older than F, who is 8 year younger than A. There are eight year gap between age of E and age of D. H is nine year younger than C, but not born in 2005. E was born earlier than G.

- 36. In which year does F born?
  - (a) 1969
- (b) 1989
- (c) 2005
- (d) 1981 (e) 1978
- 37. What is the age of G in 2016?
  - (a) 11 year
- (b) 18 year
- (c) 26 year

- (d) 16 year
- (e) 35 year
- 38. Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?
  - (a) 1969
- (b) 1978
- (c) 2005

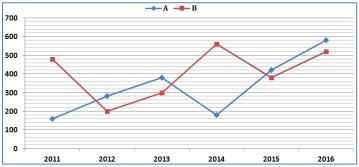

- (d) 1981
- (e) 1997
- 39. By how many years B was born before E? (b) None of these (c) 30 year
  - (a) 24 year
- (d) 19 year (e) 25 year
- 40. How many years gap between C and D? (a) 33 year
  - (b) 16 year
- (c) 36 year

- (d) None of these
- (e) 27 year

## QUANTITATIVE APTITUDE

Directions (41-45):- Refer the graph and answer the given questions.

The following line graph shows the number of products sold by company A and B during six years.

- 41. What is the ratio of the total number of products sold by A and B together in 2012 to the total number of products sold in these two companies together in 2015?
  - (a) 12:25
- (b) 3:5
- (c) 4:3

- (d) 5:3
- (e) None of these
- 42. Out of the total number of products sold by A and B together in 2011, only 20% are defected. What is the total number of defected products sold by A and B together in 2011?
  - (a) 228
- (b) 128
- (c) 160

- (d) 148
- (e) 138
- 43. The number of products sold by A in 2014 is what per cent of the number of products sold by B in 2013?
  - (a) 60%
- (b) 50%
- (c) 48%

- (d) 56%
- (e) None of these
- 44. The number of products sold by B increased by what percent from 2011 and 2014?
  - (a)  $14\frac{2}{3}\%$
- (b)  $16\frac{2}{3}\%$
- (c)  $24^{\frac{2}{3}}\%$

- (d)  $18\frac{3}{3}\%$
- (e)  $25\frac{1}{3}\%$
- 45. What is the difference between the total number of products sold by B in 2011, 2012 and 2016 together and the total number of products sold by A in 2011, 2012 and 2013 together?
  - (a) 480
- (b) 360
- (c) 580

- (d) 380
- (e) 280

**Directions (46-50):** Study the table carefully and answer the following questions.

Village	% of people having Bank	1	le having Bank count	
	account out of total population in the village		% of Inoperative Bank Account	
Α	45%	60%	40%	
В	60%	30%	10%	
С	60%	70%	30%	

D	55%	50%	20%
E	35%	40%	60%

- 46. If the population in village A and C are in ratio of 2 : 1 then, what is the ratio of inoperative Bank Account in Bank A and C.
  - (a) 1:3
- (b) 3:2
- (c) 1:2

- (d) 4:5
- (e) None of these
- 47. If out of the total inoperative Bank account in village B half account holder is female which is equal to 300, then find the total population of village B?
  - (a) 10000
- (b) 12000
- (c) 14000

- (d) 8000
- (e) 9000
- 48. If the population of village C and D are in ratio of 1:2, then number of people in village C having Bank account is by what approximately percent less or more than that of village D
  - (a) 49.45%
- (b) 42.45%
- (c) 47.45%

- (d) 43.45%
- (e) 45.45%
- 49. If the ratio of population in village A, B and C are in 1:2:3 then what percent of people in village A, B and C taking together have a bank account.
  - (a) 51.5%
- (b) 52.5%
- (c) 59.5%
- (d) 57.5% (e) 55.5%
- 50. Percentage of inoperative Bank account in Village E is by what percent more than the percentage of operative Bank accounts in the same village:
  - (a) 45% (d) 55%
- (b) 50% (e) 75%
- (c) 60%

**Directions (51-55):** The following questions are accopanied by three statements (A) or (I), (B) or (II), and (C) or (III). You have to determine which statement(s) is/are sufficient/necessary to answer the questions.

- 51. What is the inradius of a right-angled triangle?
- **A.** The area of the triangle is known.
- **B.** Any two sides of the triangle are known.
- **C.** The perimeter of the triangle is known.
  - (a) B alone is sufficient
  - (b) A and C together are sufficient
  - (c) Any one statement is sufficient
  - (d) Either B alone or A and C together are sufficient
  - (e) All together are necessary
- 52. What is rate of interest per annum?
- **A.** The amount becomes Rs 9331.20 in 2 years at compound interest.
- **B.** The difference between CI and SI at the same rate of interest in 2 yrs is Rs 51.20.
- **C.** The amount invested in Rs 8000.
  - (a) Only A and B together
- (b) Only B and C together
- (c) B and either A or C only
- (d) C and either A or B only
- (e) Any two of them
- 53. Find the number of days in which Q can do a job if P can do the same job in 8 days.
- **A.** Q is 60% more efficient than P.

- **B.** P and Q together can do the job in  $3\frac{1}{12}$  days.
- P is  $37\frac{1}{2}$  %less efficient than Q.
  - (a) Only A is sufficient
- (b) Only B is sufficient
- (c) Either A or B is sufficient
- (d) Any of them
- (e) A and C together are sufficient
- 54. What is the non-voting population of a certain country?
- A. Only males above 21 years of age can vote.
- Males above 21 years form 30% of the total population.
- The total population of the country is 30 million.
  - (a) A only
- (b) B only
- (c) C only

- (d) A and C only
- (e) None of the above
- 55. A shopkeeper sold an article and got Rs 300 as profit. Find the profit percentage.
- A. Selling price of the article is Rs 1200.
- He gave 25% discount, which is Rs 400, on the labelled price
- Cost price of the article is Rs 900.
  - (a) Any two of them
- (b) Any of them
- (c) B and either A or C
- (d) Either A or C only
- (e) A and C together

Directions (56-60): Equation number I and II are given. You have to solve both the questions and answer.

- 56. **I.**  $x^2 = 144$
- II.  $y^2 24y + 144 = 0$

(a)  $x \leq y$ 

- (b)  $x \ge y$
- (c) Relationship between x and y cannot be determined
- (d) x < y

- (e) x > y
- 57. **I.**  $2x^2 9x + 10 = 0$
- II.  $2y^2 13y + 20 = 0$

(a)  $x \leq y$ 

- (b)  $x \ge y$
- (c) Relationship between x and y cannot be determined
- (d) x < y

- (e) x > y
- 58. **I.**  $x^2 15x + 56 = 0$
- II.  $3y^2 18y + 15 = 0$

(a) x > y

(b)  $x \ge y$ 

(c) x < y

- (d)  $x \leq y$
- (e) x = y or the relationship cannot be established
- 59. **I.**  $\sqrt{200x} + \sqrt{102} = 0$
- II.  $\sqrt{160}v + \sqrt{200} = 0$
- (a) x > y
- (b)  $x \ge y$

(c) x < y

- (d)  $x \leq y$

- (e) x = y or the relationship cannot be established 60. I.  $(13)^2 - 14 + 28 = x$
- (a) x > y

II.  $(16)^2 - 8 \times 7 = y$ (b)  $x \ge y$ 

- (c) x < y
- (d)  $x \leq y$
- (e) x = y or the relationship cannot be established
- 61. One fill pipe A takes 3 minutes more to fill the cistern than two fill pipes A and B opened together to fill it. Second fill pipe B takes  $21\frac{1}{2}$  minutes more to fill cistern than two fill pipes A and B opened together to fill it.
  - When will the cistern be full if both pipes are opened simultaneously.
  - (a) 7 minutes
- (b) 16 minutes
- (c) 8 minutes

- (d) 10 minutes
- (e) 12 minutes
- 62. In an examination P scored 25 marks less than Q. Q scored 45 more marks than R. T scored 75 marks which is 10 more than R. U's score is 80 less than maximum marks of the test. What approximate percentage of marks did U score in the

- examination if he gets 55 marks more than R?
- (a) 90
- (b) 70
- (c) 80
- (d) 60 (e) 85
- 63. The largest and the smallest angles of a triangle are in the ratio of 3:1 respectively. The second largest angle of the triangle is equal to 56°. What is the value of largest angle of the triangle?
  - (a) 49
- (b) 129
- (c) 123

- (d) 93
- (e) None of these
- 64. The difference between the sum of four consecutive odd numbers and three consecutive even numbers together is 20. Also, the largest even number is 5 more than the largest odd number. What is the sum of the smallest odd number and the smallest even number?
  - (a) 77
- (b)71
- (c) 879

- (d) 83
- (e) Cannot be determined
- 65. Anoop sells a book to Mayank at a profit of 20% and Mayank sells this book to Siddharth at a profit of 25%. Now Siddharth sells this book at a loss of 10% to Shishir. At what percentage loss should Shishir sells this book now so that his SP becomes equal to Anoop's CP?
  - (a) 36.68%
- (b) 25.92%
- (c) 48.66%

- (d) 16.46%
- (e) Cannot be determined
- 66. A shopkeeper marks up the price of his product by 40%. If he increases the discount from 5% to 10% ,the profit would decrease by Rs 14. How much profit would he earn if he gives a discount of 20% on the marked price?
  - (a) Rs. 56
- (b) Rs. 28
- (c) Rs. 32

- (d) Rs. 24
- (e) Rs. 38
- 67. Monica deposited a total of Rs. 10500 with a bank in two different deposit schemes at 10% p.a., interest being compounded annually. As per the schemes, she gets the same amount after 2 years on the first deposit as she gets after 3 years on the second deposit. How much money did she deposit for 3 years?
  - (a) Rs. 4500
- (b) Rs. 5000 (c) Rs. 6500
- (d) Rs. 7200 (e) None of these
- 68. Sapna borrowed a certain sum of money from Kavita under the following repayment scheme based on simple interest. 8% p.a. for the initial 2 years, 9.5% p.a. for the next 4 years, 11% p.a. for the next 2 years, 12% p.a. after the first 8 years. Find the amount which a sum of Rs. 9000 taken for 12 years becomes at the end of 12 years?
  - (a) Rs. 20160 (d) Rs. 24567
- (b) Rs. 22350
- (c) Rs. 23470 (e) None of these
- 69. A, B and C enter into a partnership. A invests Rs. 8000 for the whole year, B puts in Rs. 12000 at the first and increasing to Rs. 16000 at the end of 4 months, whilst C puts in at first Rs. 16000 but withdraw Rs. 4000 at the end of 9 months. Find the profit of A at the end of year, if the total profit is Rs. 22600.
  - (a) Rs. 4800
- (b) Rs. 4600
- (c) Rs. 4750

- (d) Rs. 4300
- (e) None of these
- 70. Two places P and Q are 92 km apart. A train leaves P for Q

and at the same time another train leaves Q for P. Both the trains meet 4 hrs after they start moving. If the train travelling from P to Q travels 7 km/hr faster than the other train, find the speed of the two trains.

- (a) 15 km/hr, 8 km/hr
- (b) 12 km/hr, 8 km/hr
- (c) 12 km/hr, 9 km/hr
- (d) 15 km/hr, 9 km/hr
- (e) None of these
- 71. A and B working together, can do a piece of work in  $4\frac{1}{2}$ hours. B and C working together can do it in 3 hours. C and A working together can do it in  $2\frac{1}{4}$  hours. All of them begin the work at the same time. Find how much time they will take to finish the piece of work?
  - (a) 3 hours
- (b) 2 hours (c) 2.5 hours
- (d) 1 hours
- (e) None of these
- 72. Raman took a loan of Rs. 15000 from Laxman. He was agreed that for the first three years rate of interest charged would be at 8% Simple Interest per annum and at 10% Compound Interest (compounded, annually) from the fourth year onwards. Ram did not pay anything until the end of the fifth year. How much would he repay if he clears the entire amount, only at the end of fifth year? (inRs.)
  - (a) Rs. 22506
- (b) Rs. 22105
- (c) Rs. 22900

- (d) Rs. 22500
- (e) Rs. 22450
- 73. Ram and Shyam are travelling from point A to B, which are 60 km apart. Travelling at a certain speed ram takes one hour more than Shyam to reach point B. If Ram doubles his speed he will take 30 minutes less than Shyam to reach point B. At what speed was Ram driving from point A to B? (a) 15 kmph
- (b) 35 kmph
- (c) 30 kmph

- (d) 25 kmph
- (e) 20 kmph
- 74. 6 litres are drawn from a cask full of wine and it is then filled with water, 6 litres of the mixture are drawn and the cask is

- again filled with water. The quantity of wine now left in the cask is to that of the water in it as 121: 23. How much does the cask hold?
- (a) 54 litres
- (b) 62 litres
- (c) 70 litres

- (d) 72 litres
- (e) None of these
- 75. A passenger train leaves Calcutta at 4 PM and travels at the rate of 30 kilometres an hour. The mail train leaves Calcutta at 9 PM and travels, on a parallel line of rails, at the rate of 45 km an hour, when will the second train overtake the
  - (a) 10 hrs after the first train start
  - (b) 12 hrs after the second train starts
  - (c) 10 hrs after the second train starts
  - (d) 12 hrs after the first train starts
  - (e) None of these

## ENGLISH LANGUAGE

Directions (81-88): Read the following passage carefully and certain words in the passage are printed in bold letters to help you locate them easily while answering some of these questions.

The Indian economy is currently passing through a phase of relatively slow growth. However, this should not cloud the fact that over the nine-year period beginning 2005-06, the average annual growth rate was 7.7 per cent. Against this background, the relevant question is whether India has the capability to grow at 8 to 9 per cent in a sustained way. In short, what is the potential rate of growth of India?

Normally, potential growth is measured using trends with some filters. In one sense, these are backward-looking measures, since they depend on historically observed data. In the case of measuring capacity utilisation in manufacturing, the maximum capacity is very often taken as the maximum output achieved in the recent period. Perhaps, in the case of determining the potential rate of growth of the economy also, one can take the maximum growth rate achieved in the recent past as the lowest estimate of the potential. However, this assumption will be valid

only if there is reason to believe that the maximum growth rate achieved in the recent past was not a one-off event and that the growth rate achieved was robust and replicable.

India achieved a growth rate of 9.5 per cent in 2005-06, followed by 9.6 per cent and 9.3 per cent in the subsequent two years. After declining a bit in the wake of international financial crisis, the growth rate went back to 8.9 per cent in 2010-11. In many ways the growth rate achieved in the high phase period of 2005-06 to 2007-08 was robust. The domestic savings rate during this period averaged 34.9 per cent of GDP. Similarly, the gross capital formation rate averaged 36.2 per cent. The current account deficit (CAD) remained low with an average of 1.2 per cent of GDP. Agricultural growth during this period averaged 5 per cent, and the annual manufacturing growth rate was 11 per cent. The capital flows were large but as the CAD remained low, the accretion to reserves amounted to \$144 billion. Inflation during the period averaged 5.2 per cent. The combined fiscal deficit of the Centre and States was 5.2 per cent of GDP, well below the stipulated 6 per cent. Thus on many dimensions the

growth rate was robust. Unlike in the 1980s when the pick-up in growth was accompanied by deterioration in fiscal deficit and current account, the sharp increase in growth between 2005-06 and 2007-08 happened with the stability parameters at desired levels. Also, a booming external environment provided good support.

To assess whether the high growth phase can be replicated, we need to understand the factors that led to the slowdown since 2011-12. Complicating the analysis of this period is the revision of national income numbers with a new base. The two sets of numbers present a somewhat differing picture. According to the earlier series, the growth rate of the Indian economy fell below 5 per cent in 2012-13 and 2013-14. But the new series shows a decline below 5 per cent only in 2012-13. For 2013-14, the new series records a growth rate of 6.6 per cent, as against 4.7 per cent according to the earlier estimate. For 2014-15 and 2015-16, there is only one set of numbers, that is, according to the new series. For both the years the growth rate is above 7 per cent. These are good growth rates under any circumstance, let alone the current global situation. Anyway, we have come down from the growth rate of 9-plus per cent which we had seen earlier.

Three sets of reasons are attributed for the slowdown. First, the external environment had deteriorated sharply. The recovery from the crisis of 2008 was tepid. One country after another in the developed world came under pressure. Strangely, however, international commodity prices including crude oil prices remained high until a couple of years ago. All this had an adverse impact on developing countries, including India. However, it would be wrong to attribute the slowdown in India primarily to external factors. The domestic factors are the key. Second, there were severe supply bottlenecks. Agricultural production fell sharply in 2009-10 because of a severe drought. This triggered an inflation which lasted for several years 84. thereafter. Coal output fell. Iron ore output fell, partly because of court decisions. The third set of reasons is basically noneconomic which led collectively to a weakening of investment. A multitude of issues relating to scams and perceived delays in decision-making created an element of uncertainty in the minds of investors. New investments began to fall.

The rise in investment rate must be supported by a rise in the domestic saving rate. An increase in investment rate supported by a widening current account deficit is not sustainable and is fraught with serious consequences. Only a current account deficit in the region of 1 to 1.5 per cent is sustainable. Incremental capital output ratio is a catch-all variable which is influenced by a host of factors. Obviously, it depends on technology. It also depends upon the skill of the labour force which in turn depends on the quality of the education system. Another catch-all expression "ease of doing business" is also relevant (i.e.) bureaucratic hurdles which **impede** speedy execution of projects need to be removed. Thus improving the productivity of capital needs action on several fronts.

Making a prediction about the future is always hazardous. Many things can go wrong. The Indian economy in the recent past has shown that it has the **resilience** to grow at 8 to 9 per cent. Therefore achieving the required investment rate to support such a high growth is very much in the realm of possibility. However, we need to overcome the current phase of declining investment rate. Investment sentiment is influenced by non-economic factors as well. An environment of political and social **cohesion** is imperative. Equally, we can get the incremental capital-output ratio (ICOR) to a lower level. Raising the productivity of capital will require policy reforms including administrative reforms as well as firm-level improvements. The "potential" to grow at 8 to 9 per cent at least for a decade exists. We have to make it happen.

# (The topic of the Passage asked in the exam was based on the economic changes in the last 50 years)

- 81. In context of the given passage, which of the following is/are the reason for economic slowdown of India?
  - (a) Jaunty recovery from the crisis of 2008
  - (b) Court's verdict to stop production of coal.
  - (c) domestic barriers like draught, inflation etc.
  - (d) Various barriers introduced by the government.
  - (e) All of these
- 82. According to the given passage, what does 'ease of doing business imply?
  - (a) End of bureaucracy
- (b) Eliminating nepotism
- (c) Availability of funds
- (d) Eliminating Red tapism
- (e) Not clear from the passage
- 83. On what factor(s) do(es) incremental capital output ratio NOT depend?
  - (a) Technology (b) Skilled labour
  - (c) Better education system
  - (d) Low fiscal deficit (e) It depends on all the given options
- 84. On the basis of the given passage, which of the following options cannot be inferred?
  - (a) Corruption is one of the reasons for the economic slowdown of India
  - (b) There is a dissimilitude between the calculations based on new base and the previous one.
  - (c) The Indian economy experienced a great robust throughout the previous decade.
  - (d) Fiscal deficit below six percent is proviso.
  - (e) Nature also played an important role in slowing down Indian economy.
- 85. According to the given passage, which of the following option is the best reason which supports the author's conclusion that 'high growth is very much in the realm of possibility'?
  - (a) Flourishing service, agricultural and manufacturing sectors of India.
  - (b) Policy reforms introduced by the current government.
  - (c) Increasing growth rate and investment rate
  - (d) India's potential to grow at a high rate
  - (e) None of these

- 86. On the basis of your reading, choose an appropriate title rate variation the entire burden of adjustment had to be for the passage. through employment and output changes. As one commentator
  - (a) The Indian economy: The phase of sluggish growth.
  - (b) India's potential.
  - (c) India's promising past results.
  - (d) Can India grow fast: An introspection
  - (e) Ease of doing business

**Directions (87-88):** Choose the word/group of words which is **MOST SIMILAR** in meaning to the word/group of words printed in bold as used in the passage.

#### 87. ACCRETION

(a) Adherence (b) Accumulation (c) Approval

(d)Devaluation (e)Upsurge

88. **IMPEDE** 

(a)Delay (b)Violate (c) defer

(d) taint (e) Diagnose

**Directions (89-95):** Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you to locate them while answering some of the questions.

Brexit has evoked a spate of comments. These comments fall into broadly two categories. The first set of comments focusses on the short-term and medium-term impact of Brexit on the U.K., Europe and the rest of the world including India. The second goes into the reasons behind this decision of the British. Globalisation has been interpreted in many ways. In broad terms, globalisation denotes the free movement of goods, services, capital, funds, ideas, technology and people across countries. Many people think globalisation is a recent phenomenon. This is not true. This has been going on for centuries. What has made it unique in recent times is the speed of the movement. Great Britain and many other countries in Europe have reached the present level of economic development only because of this free movement. In both demographic and geographic terms, Britain is a small country. It is not the size of the domestic market that determined its growth. London could not have emerged as the financial centre of the world but for the free flow of capital.

The gamut of financial services offered by London is geared to meet world demand and not that of Britain alone. Even after the exit from the EU, Britain cannot remain as an isolated island. It has to be part of an international trade regime which allows for free trade. What then could have motivated a little more than 50 per cent of the population to come out of the EU? It has something to do with the nature of the relationship within the EU. The EU has evolved over the last seven decades. From a loose arrangement, it has become a tight bureaucratic organisation with its jurisdiction extending to multifarious activities. When the euro was created as a common currency, Britain opted out of it. The European Central Bank sets a common monetary policy stance for all member countries. This itself has been a source of irritation to many member countries. This came out prominently at the time of the Greek crisis. With the loss of one instrument of control — namely, the exchange

through employment and output changes. As one commentator put it, the EU has moved up its aspiration from the idea of 'common' market to 'single' market. It is this transition which half of Britain has resented. The complex set of regulations emanating from Brussels has made at least a section of the British people feel that they have lost 'independence'. Some of the elite of Britain who voted to 'leave' feel this way. They think that control has moved to unelected bureaucrats in Brussels. What has induced the 'non-elite' to vote for Brexit was the EU's migration policy. The free movement of people has been the last straw that broke the camel's back. The low-paid jobs in the U.K. have been taken over by migrants predominantly from Eastern Europe. In an economy which has been growing slowly (even though the U.K. is a better performer than other European countries in recent years), this has come as a shock. The spirit of 'nationalism' still runs high. The poor in Britain feel that they have been cheated by the migrants. Absorbing migrants is not new for Britain. The Asian and African migrants constitute a significant proportion of the population. All this happened when the economy was strong and growing. But this is not the situation now, and the resentment is in one sense natural. However, looked at globally, the poor in the countries from which people migrate have benefited. The British have also gained to the extent that the free movement of people has enabled highly skilled professionals to find positions all over Europe. The 'leave' vote thus was motivated by two considerations: one, the degree of integration that the EU was trying to impose, and two, the migration policy which allowed a free movement of people across countries. Globalisation is not really the devil. If the EU arrangement had been restricted only to free movement of goods, services, capital and funds, it could not have led to any deep resentment. It is the attempt at greater economic integration that has been interpreted as a loss of sovereignty and resented. Globalisation, with its emphasis on efficiency (since goods and services will get produced at the least cost centres), can lead to greater inequality theoretically.

Within a country also, the more efficient including professionals gain disproportionately. This situation gets worse if economies are growing slowly. The U.S. has always prided itself on saying that the system they have is 'people's capitalism'. Inequalities do not matter much when economies are growing strongly and when new entrants to the labour force find employment easily. Countervailing measures are needed to take care of the adverse impact of globalisation. For this reason, we cannot throw the baby out with the bathwater. The developed countries face a serious dilemma. They have reached a stage in their development when further growth will be slow. This will have implications for absorbing the labour that gets added to the market. Complicating the situation is technological development which is increasingly labour-saving. New technologies have a twofold impact. First, they reduce the demand for labour in general. Second, in particular they make unskilled and semiskilled work redundant. They demand new skills for which retraining may be needed. Distribution of income has thus become an issue which needs to be dealt with directly. Brexit is not a blow against globalisation per se. Labour does not stand in the same category as capital, even though both are factors of production. Migration hurts when the economy is at a low ebb. Britain, along with other developed countries, faces a basic problem of coping with a growth potential which is far lower than the growth rate they had seen before 2008.

- 89. To what aspect this article is devoted by the author?
  - (a) Impact of Brexit on U.K and Europe.
  - (b) Impact of globalization.
  - (c) Motivation behind the vote against greater economic integration.
  - (d) The implications of Brexit on the migration in Britain.
  - (e) Countervailing measures that are needed to take care of the adverse impact of globalisation.
- 90. What has been the reason for the infuriation of the member countries of European Union?
  - (a) Technological development which is increasingly laboursaving.
  - (b) The increase in the EU's propensity towards single market.
  - (c) Britain's refusal to accept euro as its currency even after common monetary policy stance for all the members.
  - (d) The migration policy which allowed a free movement of people across countries.
  - (e) The increase of inequality in economically strong countries which has generated a new nationalism.
- 91. Which of the following is one of the reasons for major section of British people to vote against European Union?
  - (a) Low wages due to the abundance of labour force migrating from Asian countries to the Britain.
  - (b) Slow economic growth and incompetence of the new technologies because of which they are becoming more financially weak.
  - (c) The jurisdiction enjoyed by the unelected officials in Brussels.
  - (d) The spirit of nationalism among the some sections of British people.
  - (e) Discrimination of Britain by other member countries because of both demography and geography.
- 92. Which of the following statement is false regarding the 98. impact of globalization?
- (i) Globalization that stresses on productivity leads to inequality.
- Globalization has been attributed as the primary reason for the loss of supremacy in British people by the author.
- Globalization is a major factor which helped London in becoming a financial center of the World.
  - (a) Only (ii).
- (b) Both (ii) and (iii).
- (c) Only (iii).
- (d) Both (i) and (ii).
- (e) All of these.
- 93. What is the peril of migration?
  - (a) Complications in the technological development.

- (b) Increase in the inequality in the economies growing at a faster rate like Britain.
- (c) Redundant semi-skilled and skilled work in general.
- (d) Disbursement of salary is becoming a major issue because of increased number of labour.
- (e) None of these.

- 101. Five statements are given below, labelled a, b, c, d and e. Among these, four statements are in logical order and form a coherent paragraph. From the given options, choose the option that does not fit into the theme of the paragraph.
  - (a) This can be seen in the growing importance cities are receiving in the distinct "worlds" of government, business, think tanks, academia and civil society.
  - (b) After years of ambivalence, urbanization is increasingly being embraced, or at least acknowledged, in India.
  - (c) Each of these "worlds" is populated by experts in specific "fields" within the urban realm such as planning, environment, transport, housing, finance and health.
  - (d) sustainability is at the core of the "New Urban Agenda".
  - A substantial portion is dedicated to various "transformative commitments for sustainable urban development"
  - (e) The multiple "fields" within these parallel "worlds" typically operate as silos and do not interact with the other "fields" and "worlds".
- 102. Five statements are given below, labelled a, b, c, d and e. Among these, four statements are in logical order and form a coherent paragraph. From the given options, choose the option that does not fit into the theme of the paragraph.
  - (a) It is often said that the urgent and the immediate are not the same as important.
  - (b) Therefore, one should not be surprised that the Indian corporate sector has kept its calls for lower interest rates and a competitive exchange rate on an auto-replay mode.
  - (c) Indeed, they are in conflict with one another.
  - (d) All the urgent and the immediate commentary on the decision by the newly constituted monetary policy committee (MPC) of the Reserve Bank of India (RBI) has 105. already come out.
  - (e) RBI has released the minutes of the MPC meeting too. The bulk of it has been seen earlier in the press release that followed the meeting
- 103. Five statements are given below, labelled a, b, c, d and e. Among these, four statements are in logical order and form

- a coherent paragraph. From the given options, choose the option that does not fit into the theme of the paragraph.
- (a) Notwithstanding the good monsoon this year after back-to-back drought years, most commentators agree that the rural economy and the agricultural sector may not be out of distress.
- (b) Recent attempts by Rahul Gandhi to mobilize farmers during his Kisan Yatra might not revive the fortunes of the Congress party in Uttar Pradesh, but they did contribute to bringing the issues of farmers and agriculture to the political mainstream.
- (c) It is also worth mentioning that most of them were seen as leaders of dominant farming communities or caste groups that benefited from rising profitability and price support.
- (d) Given that almost half of the total workers in the country are still engaged in farming and the majority of households in rural areas are still dependent on agriculture, directly or indirectly, issues confronting the farming community are naturally an important electoral plank.
- (e) More so in an environment where rural areas, and the agricultural sector in particular, have been in some distress in recent years.
- 104. Five statements are given below, labelled a, b, c, d and e. Among these, four statements are in logical order and form a coherent paragraph. From the given options, choose the option that does not fit into the theme of the paragraph.
  - (a) Dyn is a part of the backbone of the Internet, since it is one of the companies that provides domain name services or DNS to Internet users, and translates simple English-based commands like "livemint.com" typed into a browser into the actual numeric addresses that the Internet's computers use to identify each website.
  - (b) Security firm Flashpoint has said that it believes that seemingly innocuous items such as video recorders, webcams, closed-circuit security cameras and the like were taken over by malware, and then, without their owners' knowledge, were used to help execute the massive cyber attack
  - (c) This outage was astonishing in its ferocity, especially since it co-opted the much vaunted Internet of Things (IoT) into the attack.
  - (d) It claims that hundreds of thousands of such devices were co-opted into the attack by being infected with malware.
  - (e) This malware, called Mirai, was released by an anonymous hacker named Anna-senpai some weeks ago.
- 05. Five statements are given below, labelled a, b, c, d and e. Among these, four statements are in logical order and form a coherent paragraph. From the given options, choose the option that does not fit into the theme of the paragraph.
  - (a) The mathematician Richard K. Guy is arguably best known for discovering a glider. Assuming that's an intriguing-enough opening, let me explain. In 1970, the

British mathematician John Conway invented a board game called, simply, "Life".

- (b) Life happens on a grid of squares that stretch in every direction (imagine an infinite chessboard). Each square, or cell, is either alive or dead (or call it black or white, filled or empty).
- (c) Now, this is not a game in the conventional sense: there's no way to "win", nor do you play against an opponent. In fact, Life doesn't even need a player as it proceeds. You just set up an initial state and then watch what happens.
- (d) To start, you choose a certain number of cells to be live—at random, or in a pattern, whatever. Each cell now evolves according to a set of rules that considers its eight neighbours (left, right, above, below, and on the four corners).
- (e) This is the endlessly fascinating question Conway's game raises, and this is why it was and remains today a much discussed favourite among mathematicians and computer scientists.

**Directions (106-109):** In each of the following sentences four options are given. You are needed to identify the best way of writing the sentence in context of the correct usage of standard written English.

- 106. The entire cast and crew of the film, enjoyed splashing in the pool, bathing in the ocean, and, particularly, to sun bathe on the shore.
  - (a) The entire cast and crew of the film, enjoyed splashing in the pool, bathing in the ocean, particularly to sun bathing on the shore.
  - (b) The entire cast and crew of the film, enjoyed splashing in the pool, to have a bath in the ocean, and, particularly, to sun bathe on the shore.
  - (c) The entire cast and crew of the film, enjoyed swimming in the pool to bathe in the ocean, and, particularly sun bathing on the shore.
  - (d) The entire cast and crew of the film, enjoyed swimming in the pool, bathing in the ocean, and, particularly, sun bathing on the shore.
  - (e) No error.
- 107. No officer had ought to be put into a situation where he was to choose between his love for his family and the responsibilities accompanying his duty.
  - (a) No officer would be put in a situation where he have to choose between his love for family and the responsibilities accompanying his duty.
  - (b) No officer had ought to be put into a situation in which he has to choose between his love for his family and the responsibilities accompanying his duty.
  - (c) No officer should be put into a situation where he has to choose between his love for his family and the responsibilities accompanying his duty.
  - (d) No officer ought to be put into a situation in which he has to choose between his love for this family and the

- responsibilities accompanying his duty.
- (e) No error.
- 108. Being a realist, the detective could not accept the statement of the accused that UFOs had caused the disturbance.
  - (a) Being a realist that he was, the detective could not accept the statement of the accused that UFOs had caused the disturbance.
  - (a) Since he was a realist, the detective could not accept the statement of the accused that UFOs had caused the disturbance.
  - (c) Being that he was a realist, the detective could not accept the statement of the accused that UFOs had caused the disturbance.
  - (d) Realist that he was, the detective could not accept the statement of the accused that UFOs had caused the disturbance.
  - (e) No error
- 109. If we cooperate together by dividing up the booty, we shall be able to work together smoothly in the future.
  - (a) If we cooperate with one other by dividing up the booty, we will be able to work smoothly together in future.
  - (b) If we cooperate by dividing up the booty, we shall be able to work together smoothly in the future.
  - (c) If we cooperate by dividing up the booty together, we shall be able to work together smoothly in the future.
  - (d) If we cooperate with each other by dividing the booty, we shall be able to work together smoothly in the future.
  - (e) No error.

**Directions (110–114):** Which of the words/phrases (a), (b), (c) and (d) given below should replace the words/phrases given in bold in the following sentences to make it meaningful and grammatically correct. If the sentence is correct as it is and 'No correction is required', mark (e) as the answer.

- 110. A very stout, ridged, hairy stem, the petioled leaves compounded of three broadly ovate, lobed and saw-edged divisions, downy on the underside, and the great umbels, which sometimes measure a foot across, all bear out the general impression of a Hercules of the fields.
  - (a)bracken, comprised, flower, bear out
  - (b)stemmed, composited, cluster, borne off
  - (c)axis, consist, species, bore
  - (d)rooted, embraced, flora, bear
  - (e)None of these
- 111. The judge **charged him** with a **penalty** rather than a prison sentence **yet** it was his first **misdemeanour**.
  - (a) indicted him, penance, as, mistake
  - (b) freed him, sanctions, because, fault
  - (c)vindicated him off, penalty, even though, wrongdoing
  - (d) let him off, fine, since, offence.
  - (e) None of these
- 112. Following the **footsteps** of many of his predecessors, he promptly **accorded** his election "capitulation" as a/ an **infraction** on the divinely **granted** prerogatives of the Holy

See.

- (a) pavement, adhered, dereliction, bequeath
- (b)ideals, abjured, preservation, conferred
- (c) example, repudiated, infringement, bestowed
- (d)specimen, forbeared, contravention, entrusted
- (e) None of these
- 113. "We **perceive** data science and data engineering **looming** as job roles this year. **In harmony with** the current trend, technical roles such as software developer and non-technical role such as digital marketing took top two spots as the most popular job **wholes**," Aspiring Minds Co-Founder and CEO Himanshu Aggarwal said.
  - (a)notice, receding, In step with, levels
  - (b)recognize, dawning, In compliance with, searches
  - (c)cloak, appearing, In accordance with, types
  - (d) see, emerging, In line with, categories
  - (e) None of these
- 114. The EU inquired to the crisis by implementing a series of financial relief mechanisms, such as the European Financial Stability Fund and the European Stability Mechanism, to furnish emergency loans to those countries most affected by advancing interest rates.
  - (a) reacted, sustain, divest, mounting
  - (b) responded, support, provide, skyrocketing
  - (c) rebutted, aid, deliver, plummeting, escalating
  - (d) excavated, support, disburse, spiraling
  - (e) None of these

**Directions(115–116)**: Sentences given in each question, when properly sequenced form a coherent paragraph. Each sentence is labeled with a letter. Choose the most logical order of sentences amongst the five choices given to construct a paragraph.

- 115. (A) The newspaper man, the flower seller, the milkman, the sweeper, they are all privy to the chatting and sharing of news that the elderly find comforting.
  - (B) When we remove them from their homes, it is not only the family that they are being removed from, but all those other people that they see every day and whose joys and woes become their own.
  - (C) In our system of living, the elderly at home have a circle of acquaintances, and friends.
  - (D) The loneliness of the discarded elderly is manifold.
  - (E) When we forcibly remove people from surroundings they have been part of for decades we put an un-mendable tear in the fabric of their lives.
  - (a) DECAB
- (b) ABDCE
- (c) ECADB

- (d) DBAEC
- (e) CBAED
- 116. (A) Some of the worst cancers aren't detected by screening.
  - (B) The only way to be sure is to look at the results of randomized trials comparing cancer deaths in screened and 120. unscreened people.
  - (C) So how can we be confident that getting a screening test regularly is a good idea?
  - (D) Even when screening "works" in such trials, the size of

- the benefit observed is surprisingly low: Generally, regular screening reduces fatalities from various cancers between 15 percent and 25 percent.
- (E) They appear suddenly, between regular screenings, and are difficult to treat because they are so aggressive.
- (a) DBAEC
- (b) AECBD
- (c) ADBEC

- (d) ACBED
- (e) ACBDE

**Directions (117–120):** Read each of the following four sentences to find out whether there is any grammatical mistake/error in it. Choose the sentence with no grammatical error as the correct answer. If all of the given sentences are grammatically incorrect, mark (e) as an answer.

- 117. (a) John Wanamaker, founder of the stores that bear his name, once confessed, I learnt 30 year ago that it is foolish to scold.
  - (b)Whether rich or poor, American or Indian, we all have the same emotions deep with us.
  - (c)This research indicate that we can no longer avoid significant warning during this century.
  - (d)Every modern society depends on the trust in the skills and ethics of a variety of institutions such as schools and colleges, hospital and markets.
  - (e) None of these
- 118. (a)Many of us have learnt not to make a public display of our emotions, particularly when they are negative.
  - (b) Though Indians have been increasingly taking up corner office in the international companies, Rahul is the first Indian to lead one of the top four accounting firms globally.
  - (c) Democracy was suspended not because it came under existential threat but because it has become an obstacle to political ambitions trotted out as the nation's solution.
  - (d) A virtual takeover of a bankrupt civil society by a coterie of individuals whom cornered tremendous power by being able to represent the state.
  - (e) None of these
- 119. (a) India has decided do away with the practice of put each imported food consignment through lab checks and switch to the international norm of random and risk based inspections.
  - (b) SP Sumit singh , along with Devesh Panday and DSP Hasan, headed separate terms that include cops from six police stations and investigators from the district police crime cell.
  - (c) Our emission standards are one-tenth that of global averages and far more stringent than even Europe.
  - (d) The university has received about 500 applicants for the course, out of them 50 will be shortlisted for the programme.
  - (e) None of these
- 120. (a) The Reserve bank of India lifted the ban upon imports of gold coins and medallions by banks and trading houses.
  - (b) President Pranab Mukherjee inaugurated Indian international trade fair 2016 in Pragati maiden in new Delhi.

- (c) Three Indian, two women and one man were among the shortlisted 100 applicants whom were chosen for one-way trip to mars under one mission.
- (d) Fasting not only deoxifies the system but also gives a person training in endurance, a spirit of acceptance and self control.
- (e) None of these

## **Solutions:**

#### Direction (1-4):

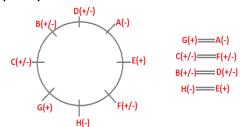

- 1. (c); None5 Mas4 Farnin7 Xa3
- 2. (c); Hoo4 Qerfec7 Blway6 Qeopl6
- 3. (e); Blway6 Ienc5 Ianc5 Xron5
- 4. (b); Garmin7

#### Direction (5-10):

Unit	Total Height	Country	Height of books + height of Boxes
5	55"ft	Sydney	28"ft +27"ft
4	37"ft	Paris	20"ft +17"ft
3	32"ft	Beijing	16"ft +16"ft
2	53"ft	London	30"ft +23"ft
1	75"ft	Zurich	35"ft +40"ft

- 5. (c)
- 6. (d)
- 7. (e)
- 8. (d)
- 9. (b)
- 10. (b)

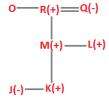

#### **Direction (11-15):**

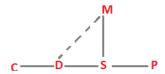

- 11. (d)
- 12. (b)
- 13. (c)
- 14. (a)
- 15. (d)

## Directions (16-19):

- 16. (b); Even after using all the statements, we can only say that the tallest will be either F or B but we cannot definitely say that who is the tallest.
- 17. (e)

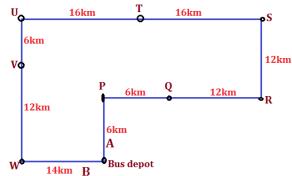

- 18. (e); V> T> U> X> W> S
- 19. (a)

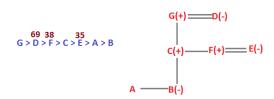

20. (c); How can the strategy to curb molestation of woman be effective if the responsibility to carry out the strategy is on the shoulders of those cops who have been accused of heinous charges against women.so option (c) is the correct option.

## Directions (21-25):

- 21. (b)
- 22. (d)
- 23. (d)
- 24. (c)
- 25. (d)
- 26. (a); The question was put to people who were coming out of the terminal about the services aboard the flight. If it was shown that a majority of people coming out of the terminal were not passengers, Then the conclusion would really be jeopardized.(a) does just that.

## **Direction (27-32):**

- 27. (c)
- 28. (d)
- 29. (b)
- 30. (e)
- 31. (c)

- 32. (e)
- 33. (e); Only I follows. What is being told is genuine .On learning this, the blood donors will get attracted by the win-win proposition, thus simultaneously meeting the blood requirement to a large extent. Statement II is not a practical course of action. Statement III is not an immediate course of action as blood banks can be created only after the sufficient blood donors are available.
- 34. (a); Because of the statement (B), government has decided to roll back the hike in the prices of cooking gas and
- 35. (b); As he found cockroaches in the crevices, he immediately drew the attention of the catering manager. So statement (B) is the effect of statement (A).

- 44. (b); Sol. Required percent =  $\frac{560-480}{480} \times 100$  $=\frac{80}{480}\times 100$  $=16\frac{2}{3}\%$
- 45. (d); Difference = (480 + 200 + 520) (160 + 280 + 380)= 1200 - 820= 380
- 46. (e); Required ratio =  $\frac{45 \times 40}{60 \times 30} \times \frac{2}{1} = \frac{2}{1}$
- 47. (a); Let the total number of population

$$x \times \frac{60}{100} \times \frac{10}{100} \times \frac{1}{2} = 300$$
$$x = 10000$$

48. (e); Number of people having Bank Account in village C = 0.6x

Number of people having Bank account in village D  $= 0.55 \times 2x = 1.1x$ 

Required percentage = 
$$\frac{1.1x - 0.6x}{1.1x} \times 100$$

$$=\frac{0.5}{1.1}\times100$$

- =45.45%
- 49. (d); Required Percentage =  $\frac{1 \times 0.45 + 2 \times 0.6 + 3 \times 0.6}{1 + 2 + 3} \times 100$  $=\frac{3.45}{6} \times 100 = 57.5\%$
- 50. (b); Required percentage =  $\frac{60-40}{40} \times 100 = 50\%$
- 51. (d); If the side of a right angle triangle is a, b and c and printer is P and area is Δ then

In-radius = 
$$\frac{1}{2}$$
(a + b - c)

$$Or = \frac{2\Delta}{P}$$

Either using sentence B or using sentences A and C

- 52. (d); A  $\rightarrow$  Amount = 9331.2, time = 2 year
  - B → difference between CI and SI = 51.2 for two years

$$C \rightarrow P \rightarrow 8000$$

From B & C

$$51.2 = \frac{8000 \times R^2}{100^2}$$

From A and C

$$\frac{9331.2 - 8000}{8000} \times 100 = 16.64\%$$

$$r = 8\%$$

53. (d); (A)

0

efficiency 1.6

time 1.6

$$1.6t = 8$$

$$t = 5 days$$

time taken by Q is 5 days

(B)

$$\frac{1}{p+q} = \frac{1}{p} + \frac{1}{q}$$

$$\frac{13}{40} = \frac{1}{8} + \frac{1}{q}$$

$$\frac{1}{q} = \frac{13-5}{40} = \frac{1}{8}$$

$$q = 8 \text{ days}$$

(C)

efficiency 
$$\frac{125}{2}$$
 100 time 8 5

Time taken by Q is 5 days

54. (e); from A, B & C

Non-voting population of a certain country

$$= \frac{70}{100} \times 30 \text{ milion}$$
$$= 21 \text{ milion}$$

$$A \rightarrow CP = 1200 - 300 = 900$$

% profit = 
$$\frac{300}{900} \times 100 = 33\frac{1}{3}$$

$$B \rightarrow 25 \rightarrow 400$$

$$100\% \rightarrow 1600$$

$$CP = 1200 - 300 = 900$$

% profit = 
$$\frac{300}{900} \times 100 = 33\frac{1}{3}$$

$$C \rightarrow \% \text{ profit} = \frac{300}{900} \times 100 = 33\frac{1}{3}$$

56. (a); 
$$x = \pm 12$$

$$y = 12$$

∴ 
$$x \le y$$

57. (a); 
$$x = 2, \frac{5}{2}$$

$$y = 4, \frac{5}{2}$$
$$\therefore x \le y$$

Sol. 
$$x = 7, 8 y = 5, 1$$

$$x > y$$
.

59. (a);

Sol. 
$$x = -\frac{\sqrt{102}}{\sqrt{200}}$$
.  $x > -1y$ 

$$y = \frac{\sqrt{200}}{\sqrt{160}}, y = -1$$

60. (c);

$$x = 183$$

$$y = 200$$

x < y.

61. (c); Let pipes A and B takes t minutes together.

A will take (t + 3) minutes to fill the tank

B will tank  $\left(t + \frac{64}{3}\right)$  minutes to fill the tank

$$\frac{1}{t+3} + \frac{3}{3t+64} = \frac{1}{t}$$

$$\frac{3}{3t+64+3t+9} - \frac{1}{2}$$

$$\frac{1}{(t+3)(3t+64)} = \frac{1}{t}$$

$$6t^2 + 73t = 3t^2 + 64t + 9t + 192$$

$$3t^2 - 192 = 0$$

$$(t^2 - 64) = 0$$

t = 8 minutes

62. (d); Marks of T = 75

Marks of R = 65

Marks of Q = 110

Marks of P = 85

Marks of U = 120

Maximum marks = 200

Required percentage =  $\frac{120}{200} \times 100 = 60\%$ 

63. (d); Let the largest and smallest angles be x and 3x. Now

$$x + 3x + 56 = 180$$

x = 31

largest angle = 93°.

64. (a); Let the odd numbers be x, x + 2, x + 4, x + 6 and the even numbers be y, y + 2, y + 4.

Now 
$$(4x + 12) - (3y + 6) = 20$$

And 
$$(y + 4) - (x + 6) = 5$$

Solving them, we get x = 35 and y = 42

Required sum = 35 + 42 = 77

65. (b); Let initial CP of book is x.

CP to Shishir=
$$\frac{120}{100} \times \frac{125}{100} \times \frac{90}{100} x = 1.35x$$

Required percentage decrease=
$$\frac{1.35x-x}{1.35x} \times 100 = 25.92\%$$

66. (d); 
$$5\%SP \rightarrow 14$$

$$SP \rightarrow 280$$

$$1.4CP = 280$$

New CP=
$$\frac{80}{100} \times 280 = 224$$

Profit=224-200=24

67. (b); 
$$P_1(1+\frac{10}{100})^2 = P_2(1+\frac{10}{100})^3$$

$$\frac{P_1}{P_2} = \frac{11}{10}$$

$$\frac{P_1}{P_2} = \frac{11}{10}$$

$$P_2 = \frac{10}{21} \times 10500 = 5000$$

68. (a); Total amount = 
$$9000 \left( \frac{8 \times 2}{100} + \frac{9.5 \times 4}{100} + \frac{11 \times 2}{100} + \frac{12 \times 4}{100} \right) + 9000 = 11160 + 9000 = 20160$$

69. (a); Ratio of investment

45

$$(8000\times12)$$
  $(12000\times4) + (16000\times8)$   $(16000\times9) + (12000\times2)$ 

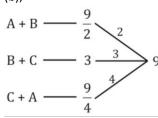

Share of A = 
$$\frac{24}{113} \times 22600 = \text{Rs.} 4800$$

70. (a); Let speed of the trains = x, y km/h

$$\frac{92}{x+y} = 4, x + y = 23, x - y = 7$$

$$x = 15 \text{ kmph}$$

$$v = 8 \text{ kmph}$$

Total efficiency =  $\frac{9}{2}$ 

72. (a)

Sol. At the three years amount will be =  $15000 + \frac{15000 \times 3 \times 8}{100}$ 

Now, after three years C.I. annually

So amount = 
$$18600 \left(1 + \frac{10}{100}\right)^2$$

= 22506 Rs.

73. (e); AB = 60 km

Ram's speed = x kmph

Syham's speed = 
$$y$$
 kmph  $\frac{60}{x} - \frac{60}{y} = 1$  .....(i)  $\frac{60}{y} - \frac{60}{2x} = \frac{1}{2}$  .....(ii) From (i) and (ii)  $x = 20$  kmph

74. (d); Let initially Cask holds V litres of wine

Amount of left of wine Initial Amount of wine 
$$\frac{121}{121+23} = \left(1 - \frac{6}{V}\right)^2$$

$$\frac{121}{144} = \left(1 - \frac{6}{V}\right)^2$$

$$\frac{11}{144} = \left(1 - \frac{6}{V}\right)^2$$

$$\frac{11}{12} = 1 - \frac{6}{V}$$

$$\frac{6}{V} = \frac{1}{12}$$

$$V = 72 \text{ litres}$$

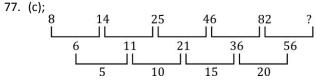

75. (c); Distance travelled by passenger train in (9-4)=5 hours

$$= 5 \times 30 = 150 \text{ km}$$

time required to cross the passenger train by mail train  $=\frac{150}{(45-30)}=10\; \text{hour}$ 

so second train will overtake the first, 10 hours after the second train starts

76. (e); 
$$\times 0.5 + 1$$
,  $\times 1 - 1$ ,  $\times 1.5 + 1$ ,  $\times 2 - 1$ ,  $\times 2.5 + 1$   
  $22 \times 2.5 + 1 = 56$ 

$$82 + 56 = 138$$

- 78. (d);  $\times 1 + 1$ ,  $\times 2 + 2$ ,  $\times 3 + 3$ ,  $\times 4 + 4$ ,  $\times 5 + 5$   $93 \times 4 + 4 = 372 + 4 = 376$
- 79. (c);  $\times 3 + 1$ ,  $\times 3 + 2$ ,  $\times 3 + 3$ ...  $\therefore 477 \times 3 + 4 = 1431 + 4 = 1435$
- 80. (d);  $\times 7 + 1$ ,  $\times 6 + 2$ ,  $\times 5 + 3$ ,  $\times 4 + 4$ ,  $\times 3 + 5$ ....  $\therefore 22 \times 6 + 2 = 134$
- 81. (c); 'The recovery from the crisis of 2008 was tepid' suggests that (a) is not the correct option. Passage is silent about any sort of verdict hence (b) is also not the correct option. No governmental barriers have been described in the passage. Hence, (d) is also not the answer.

In the fifth paragraph it is given that 'there were severe supply bottlenecks '.....Agricultural production fell sharply in 2009-10 because of a severe drought......'. Hence, (c) is the correct option.

82. (d); In the second last paragraph, it is given that '......"ease of doing business" ...... (i.e.) bureaucratic hurdles which impede speedy execution of projects need to be removed....' Hence, (d) is the correct option.

**Red tapism:** It refers to excessive regulation or rigid conformity to formal rules that is considered redundant or bureaucratic and hinders or prevents action or decision-making.

Bureaucracy: A system of government in which most of

- the important decisions are taken by state officials rather than by elected representatives.
- 83. (d); According to author, the incremental capital output ratio depends on current account deficit (and not fiscal deficit). Hence (d) is the correct option.

**NOTE:** Fiscal deficit is when a country spends more on government spending than it takes in taxes and borrowing. Definition of 'Current Account Deficit Occurs when a country's total imports of goods, services and transfers is greater than the country's total export of goods, services and transfers.

- 84. (c); It is given in the passage that 'the growth rate achieved in the high phase period of 2005-06 to 2007-08 was robust.' hence we can't infer the same about the whole decade. Besides this, the mentioning of depression of 2008 also suggests that (c) is the correct option.
- 85. (e); It is given in the last paragraph of the passage that 'The Indian economy in the recent past has shown ......high growth is very much in the realm of possibility' from which we can infer that it is the past performance of the Indian economy on the basis of which the given conclusion has been made. No option suggests this. Hence, (e) is the correct option.
- 86. (d); Clearly 'Can India grow fast: An introspection' is the apt title for the given passage.
- 87. (b); 'Accretion' means 'increase by the gradual accumulation of additional layers or matter'. Hence 'Accumulation' is the word which is most similar in meaning to it.
- 88. (a); 'Impede' means 'delay or prevent (someone or something) by obstructing them'. Hence 'Delay' is the word which is most similar in meaning to it.
- 89. (c); Throughout the passage the author has tried to explain the actual reason behind the vote against EU.
- 90. (b); Refer to the 2<sup>nd</sup> paragraph of the passage, "European Central Bank sets a common monetary policy stance for all member countries" and in the answer single market is mentioned which is the same thing and hence is the common source of irritation for member countries.
- 91. (c); Refer to the 2<sup>nd</sup> paragraph of the passage, "They think that control has moved to unelected bureaucrats in Brussels." which is why some section atleast voted against EU.
- 92. (a); Option (ii) is incorrect as author thinks it is the arrangement that is the real devil and not the globalization.
- 93. (e); None of the options mentioned above are correct.
- 94. (d); evoked means bring or recall (a feeling, memory, or image) to the conscious mind hence elicit is the word most similar in meaning.
- 95. (b); Spate means a large number of similar things coming in quick succession hence deluge is the word most similar in meaning.
- 96. (d); "Stalwart , extraordinary, opportunities" is the correct choice.

**Stalwart** means loyal, reliable, and hard-working.

97. (a); "threatened, retaliatory, weapons" is the correct choice.

"Retaliatory means the action of returning a military attack; counter-attack."

(b); Invocation means the action of invoking someone or something.

**Proletariat** means working-class people regarded collectively (often used with reference to Marxism).

- 99. (c); "responsibility, misrepresent, inhabit" fits the blanks most appropriately.
- 100. (e); **Patriarchal** means relating to or denoting a system of society or government controlled by men.

**Prohibits** means formally forbid (something) by law, rule, or other authority.

- 101. (d); Only option (d) is not a part of the coherent paragraph as other options form an opening to an article the option (d) talks about the sustainability of "New Urban Agenda" which is not yet mentioned.
- 102. (b); Only option (b) is not a part of the coherent paragraph as the reason for the call made by the Indian corporate sector for lower interest rates and a competitive exchange rate on an auto-replay mode is not given and thus is redundant in this paragraph and does not fit into the theme of the paragraph.
- 103. (c); Option (c) is the one that doesn't fit the theme of the paragraph properly as from the other options it can be concluded that paragraph is an introductory part of the article while option (c) is not the part of this paragraph, it can be indicated by 'most of them' as we don't know anything about them.
- 104. (a); Option (a) is the one which is not a part of the coherent paragraph as we can see the other options are talking about the effects and the shock that is caused by the malware option (a) is just defining a term Dyn hence is the correct choice.
- 105. (e); Option (e) is correct as it does not fit into the theme of the paragraph.
- 106. (d); Parallel structure requires the use of the verbal noun as the object of the verb enjoyed: Enjoyed what? Splashing, bathing: and sun bathing, enjoy should not be followed by an infinitive construction.
- 107. (c); This is the most correct and concise form of the sentence.
- 108. (e); There is no error in the original sentence.
- 109. (d); Both together and up are unnecessary since their meaning is included in the words cooperate and divide.
- 110. (e); There is no error in the given sentence.

Bear out - to support or confirm a story or explanation

**Petioled** - the stalk that joins a leaf to a stem.

**Compounded**- make up (a composite whole); constitute.

**Umbels**- a flower cluster in which stalks of nearly equal length spring from a common centre and form a flat or curved surface, characteristic of the parsley family.

111. (d); Option (d) is the correct choice.

**Let off** is a **phrasal verb** which means to allow (someone who has been caught doing something wrong or illegal) to go without being punished.

**Fine-** a sum of money exacted as a penalty by a court of law or other authority.

**Since -** for the reason that; because.

Offence - a breach of a law or rule; an illegal act.

112. (c); Option (c) is the correct choice.

**Bestowed** means confer or present (an honour, right, or gift).

**Repudiated** means refuse to accept; reject.

**Infringement** means the action of breaking the terms of a law, agreement, etc.; violation.

113. (d); Option (d) is correct.

**See**- experience or witness (an event or situation).

Smerging- become apparent or prominent.

In line with- in alignment or accordance with.

**Categories**- a class or division of people or things regarded as having particular shared characteristics.

114. (b); Option (b) is correct choice.

**Responded-** do something as a reaction to someone or something.

**Support-** give assistance to, especially financially.

Provide- make available for use, supply.

**Skyrocketing-** increase very steeply or rapidly.

115. (a) 116. (b) 117. (d) 118. (a) 119. (c) 120. (d)
