Linguistic diversity of India

How many languages do we have in India ? The answer depends on how one counts it. The latest information that we have is from the Census of India held in 2011. This census recorded more than 1300 distinct languages which people mentioned as their mother tongues. These languages were grouped together under some major languages. For example, languages like Bhojpuri, Magadhi, Bundelkhandi, Chhattisgarhi, Rajasthani and many others were grouped together under 'Hindi'. Even after this grouping, the Census found 121 major languages. Of these, 22 languages are now included in the Eighth Schedule of the Indian Constitution and are therefore called 'Scheduled Languages'. Others are called 'Non-Scheduled Languages'. In terms of languages, India is perhaps the most diverse country in the world.

- (34.1) How many languages were recorded as mother tongues in the 2011 Census of India ? 1
- (34.2) How were the languages grouped together in the Census report ? 1
- (34.3) How does the inclusion of languages in the Eighth Schedule of the Indian Constitution contribute to linguistic diversity ? Explain. 2

Print and Censorship

The power of the printed word is most often seen in the way governments seek to regulate and suppress print. The colonial government kept continuous track of all books and newspapers published in India and passed numerous laws to control the press.

During the First World War, under the Defense of India Rules, 22 newspapers had to furnish securities. Of these, 18 shut down rather than comply with government orders. The Sedition Committee Report under Rowlatt in 1919 further strengthened controls that led to imposition of penalties on various newspapers. At the outbreak of the Second World War, the Defense of India Act was passed, allowing censoring of reports of war-related topics. All reports about the Quit India Movement came under its purview. In August 1942, about 90 newspapers were suppressed.

- (35.1) What method did the colonial government employ to keep track of Indian newspapers ? 1
- (35.2) How did the colonial government's laws affect the press ? 1
- (35.3) Analyse the impact of 'Sedition Committee' on Newspapers. 2

Project Tiger

Tiger is one of the key wildlife species in the faunal web. In 1973, the authorities realized that the tiger population had dwindled to 1,827 from an estimated 55,000 at the turn of the 20th century. The major threats to tiger population are numerous, such as poaching for trade, shrinking habitat, depletion of prey base species, growing human population, etc. The trade of tiger skins and the use of their bones in traditional medicines, especially in the Asian countries left the tiger population on the verge of extinction. Since India and Nepal provide habitat to about two-thirds of the surviving tiger population in the world, these two nations become prime targets for poaching and illegal trading.

“Project Tiger”, one of the well publicised wildlife campaigns in the world, was launched in 1973. Tiger conservation has been viewed not only as an effort to save an endangered species but with equal importance as a means of preserving biotypes of sizeable magnitude. Corbett National Park in Uttarakhand, Sunderbans National Park in West Bengal, Bandhavgarh National Park in Madhya Pradesh, Sariska Wildlife Sanctuary in Rajasthan, Manas Tiger Reserve in Assam and Periyar Tiger Reserve in Kerala are some examples of the tiger reserves in India.

- (36.1) Why was ‘Project Tiger’ considered a significant step for Tiger Conservation ? 1
- (36.2) What role did India play in the global tiger population ? 1
- (36.3) Mention any two major threats to the wildlife species. 2
